juno minerals limited

ASX / MEDIA ANNOUNCEMENT (ASX: JNO) 28 JULY 2026

QUARTERLY ACTIVITIES REPORT
FOR THE QUARTER ENDED 30 JUNE 2026

Juno Minerals Limited (ASX: JNO) (**Juno** or '**the Company'**) is pleased to provide an update on activities for the quarter that ended on 30 June 2026.

HIGHLIGHTS

- **Reverse circulation (RC) drilling programme completed during the previous quarter comprising 40 holes for a total of 1,450m.**
- **Significant intercepts using a cut-off grade of 0.80 g/t Au are.**
    - **3 metres at 3.14 g/t Au from 30 metres**
        - **including 1 metre at 7.94 g/t Au – 26MIRC034**
    - **1 metre at 3.08 g/t Au from 7 metres – 26MIRC036**
    - **1 metre at 3.50 g/t Au from 30 metres – 26MIRC008**
    - **1 metre at 1.30 g/t Au from 35 metres – 26MIRC008**
    - **2 metres at 1.41 g/t Au from 42 metres – 26MIRC009**
    - **1 metre at 2.00 g/t Au from 30 metres – 26MIRC006**
- **The drill results and geology were reviewed for potential follow-up infill drilling between the lines in the north-east section of the QV1 structure where zones of gold mineralisation were intersected.**
- **From the review, no further work is planned on the Mount Ida Gold Project at this stage.**
- **Juno continues to explore new business development opportunities and is currently conducting due diligences on two gold projects.**

MOUNT IDA GOLD PROSPECT

The first-pass reverse circulation (RC) drilling programme comprising 40 holes for a total of 1,450 m and was completed at the Mt Ida prospect (M29/414-I) during February–March 2026. Hole depths ranged from 15 m to 72 m, with most holes successfully intersecting the target horizon.

The program was planned and supervised by BM Geological Services and was designed to test the down-dip extension of outcropping mineralised quartz lodes identified during sampling in November and December 2025, (See ASX announcement "Mount Ida Gold Anomaly Outcrop Channel Sampling, 16 January 2026"). Drilling has confirmed down-dip continuity of the target lode identified in the December 2025 channel sampling programme, with most holes intersecting the lode.

The lode exhibits significant pinching and swelling, and mineralisation is interpreted to be erratic. Drilling indicates that the quartz vein (QV) target dips moderately to the east to east-northeast (ENE).

The RC hole locations from the drill program are plotted with the higher gold intercepts being in the north-eastern part of QV1, confined to approximately 150 metres of strike (See Figure 2).

This initial first pass drill program was reviewed with consideration given to infill drilling between the lines in the north-eastern part of QV1 that had high grade gold intercepts with the down dip mineralisation confined to approximately 150 metres of strike. From the geological review conducted and with the best soil anomalies tested no further work is planned on the Mount Ida Gold Prospect at the current time.

MOUNT MASON DSO HEMATITE PROJECT

In June 2025, Juno executed the agreement (**Asset Sale Agreement** or **ASA**) for the sale of the tenements comprising the Mount Mason DSO Hematite Project (the **Project**) to Gold Valley Yilgarn Pty Ltd (**GVY**), an established producer in the region.

The **Project** was, after project reviews and optimisations, unlikely to be developed by Juno considering the capital expenditure required for what is a small standalone project. It is however a project that will add to and complement GVY's production from Wiluna into their established supply chain to the Port of Esperance.

The consideration for the sale was A$6 million cash plus the grant to Juno of a 2% FOB revenue royalty on all iron ore production from the Project tenements (**Royalty**). Pursuant to the terms of the Asset Sale Agreement, a deposit of A$3 million was paid to Juno upon signing the ASA, with the balance of cash consideration A$3 million payable upon completion of the transfer of the Project tenements, which was completed on 6 October 2025.

GVY has informed Juno that it has now delayed the start of construction of the 27km haul road (See Figure 3) and then the establishment of a DSO mining operation to early or mid-2027 due to the requirement of securing additional logistics.

The sale of the Project to an established producer with a lower cost base and a supply chain already in place, enables the Project to be developed and provide a return to Juno, albeit delayed now until 2027.

MOUNT IDA MAGNETITE PROJECT

The Mount Ida Magnetite Project (the **Mount Ida Project**) is a large and significant project with a current resource of 1.85B tonnes at 29.48% Fe on a granted mining lease and is the largest magnetite resource in the Yilgarn region and as such presents a great opportunity to become a long-life magnetite mine. Juno is running a process to attract a substantial partner to earn-in at the project level, with the capacity to complete the Feasibility Study and develop the Mount Ida Project.

The Mount Ida Project is not negatively impacted by the sale of Mount Mason, in fact construction of the haul road by GVY adds value to Mount Ida by providing improved access to the project and negates the requirement for Juno to construct in the future. The expanded Cassini Village will also add value to the Mount Ida Project which will be required for progressing the project. The Mount Ida Project is a strategic major asset with a current resource of 1.85btonnes at 29.48% Fe on a granted mining lease and is the largest magnetite resource in the Yilgarn region.

A review has been completed by Sedgeman Onyx on the past metallurgical test-work and the proposed process flowsheet. The intent was to advise on potential gaps in the test-work and whether improvements could be made in comminution with the latest technology in fine grinding. The review did identify further work that could be done, however would not lead to any significant step changes that justifies further work and expenditure at this current time.

Mount Ida neighbours Hancock Prospecting and Legacy Iron Ore's Mt Bevan Magnetite Project JV, which is currently undergoing feasibility work, is positive for the region for magnetite project development.

Magnetite concentrate's higher grade, consistent product specifications and quality produce a higher quality steel and is the preferred smelter feedstock. With the green steel thematic, Mount Ida is and continues to be a major asset for Juno, and focus will be maintained on attracting a JV partner to earn-in on the Project by completing a Feasibility Study.

BUSINESS DEVELOPMENT

Following the sale of the Mount Mason Project and the significant investment requirements to progress the Mount Ida Magnetite Project, in-conjunction with exploration of its own tenure, Juno continues to explore for new opportunities with the objective of bringing another Project into the Company.

The Company has conducted comprehensive due diligences (DD) on four gold projects, a copper project and one copper-gold project over the past 18 months however have not progressed further due to these projects not meeting the Company's investment criteria.

Juno is currently conducting DD on two gold projects.

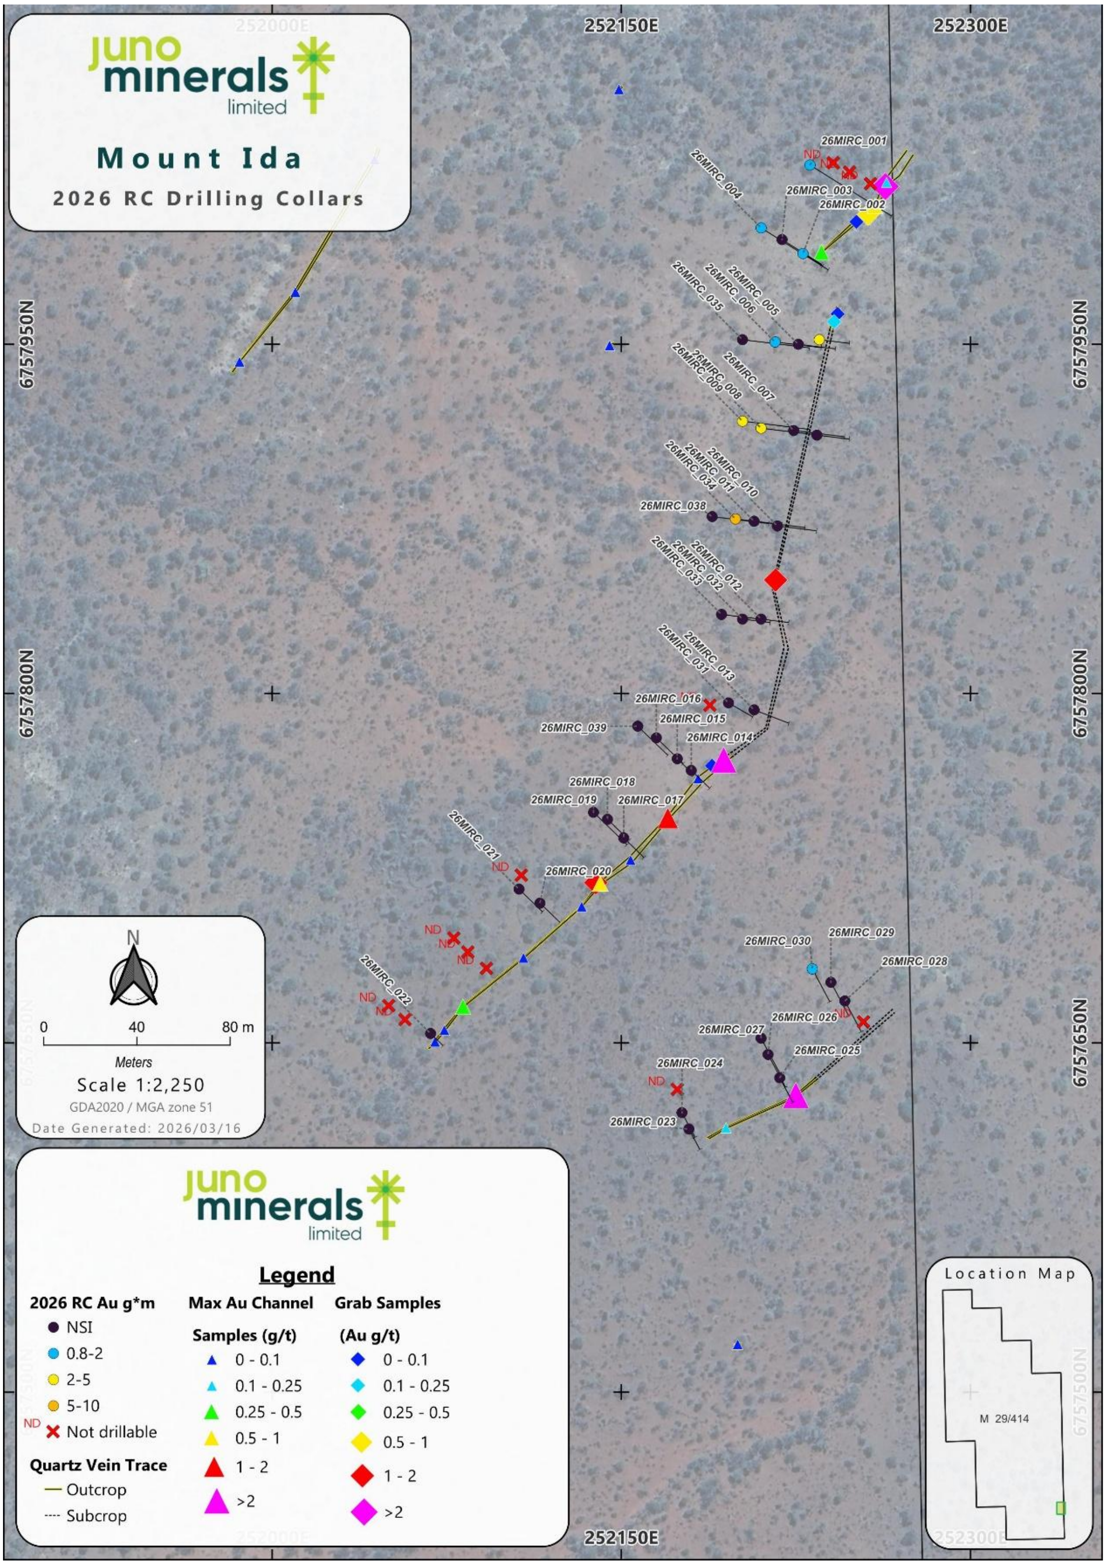

Figure2: First Pass Drill Program Collars with Au g*m.

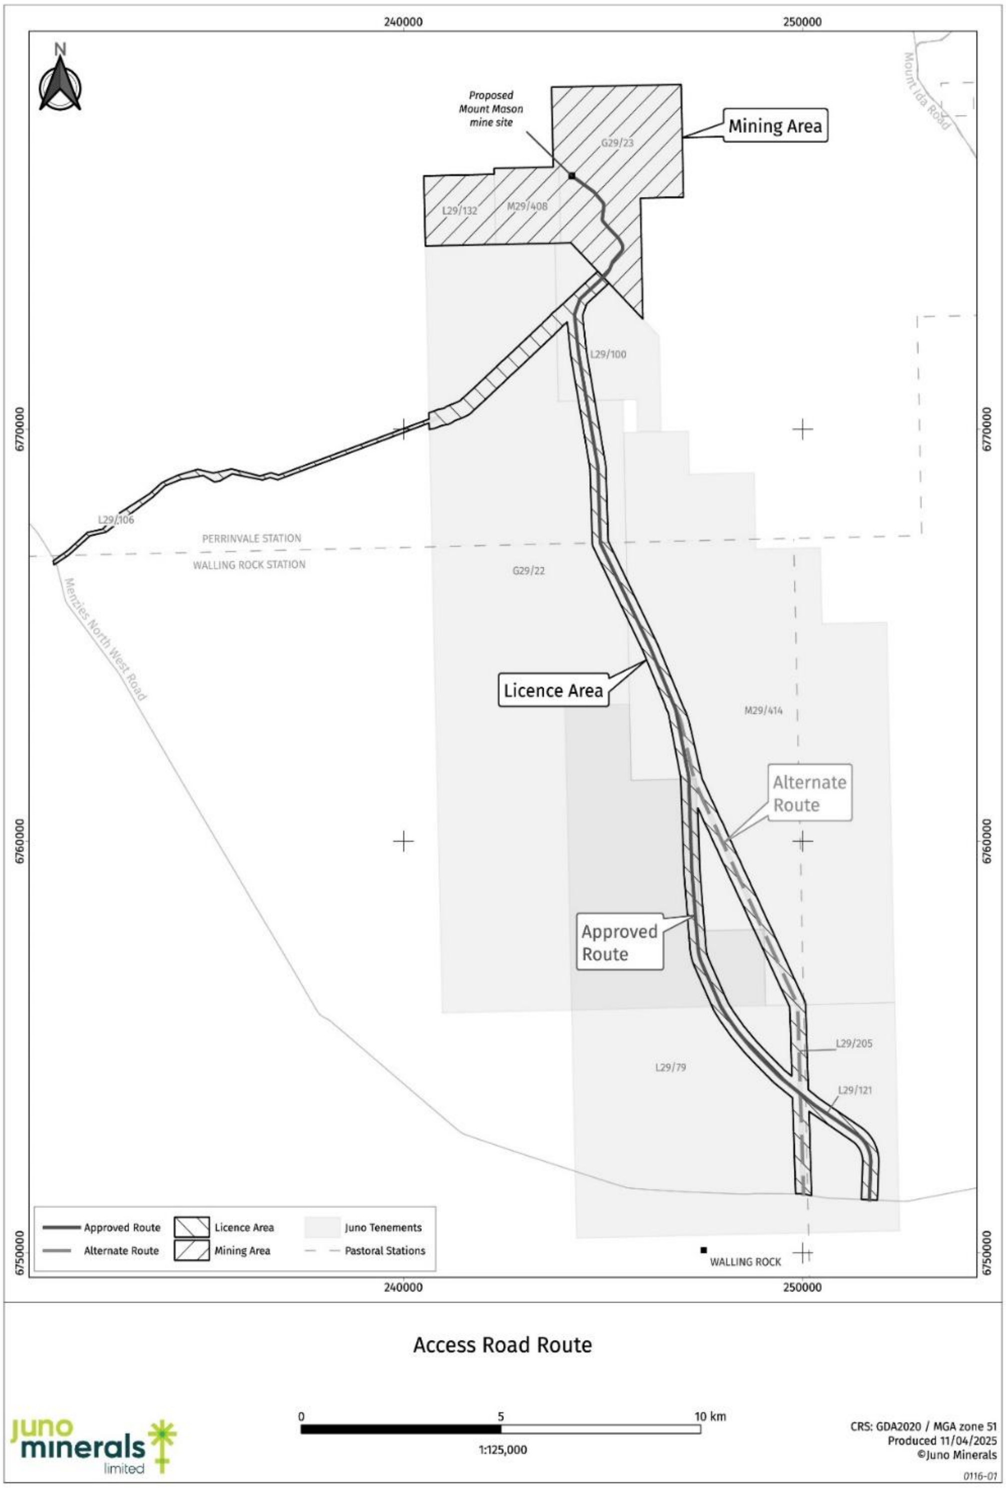

Figure 3: Haul Road Route for Mount Mason DSO

MOUNT IDA PROJECT AREA – LITHIUM PROSPECT

In summary the Mount Ida Lithium Prospect has been evaluated through soil sampling and drilling of the identified Northern and Southern soil anomalies, albeit to shallow depths. The anomalies were confirmed to be an LCT pegmatite system, however no significant intersections of lithium were encountered.

No further work is planned to be undertaken on this Project this year.

CORPORATE

Cash Position

Juno ended the June 2026 quarter with $3,809k in cash and deposits.

Payments to Related Parties and their Associates

In accordance with ASX Listing Rule 5.3.5, $107k of payments were made to related parties or their associates during the quarter, comprising Executive Director salary, Non-executive Director fees and superannuation.

Expenditure on Mining Exploration and Mine Development Activities

In accordance with ASX Listing Rule 5.3.1 and 5.3.2, Juno advises its exploration and evaluation expenditure and expenditure on mine development activities during the quarter totalled $130k (included at item 2.1(d) of the Appendix 5B).

This announcement has been approved for release by the Board.

Competent Person

The information in this report that relates to mineral resource estimates is based on information compiled by Dr Michael Cunningham and Mr Rodney Brown, who are each Members of the Australasian Institute of Mining and Metallurgy and the Australian Institute of Geoscientists. Dr Cunningham and Mr Brown are employed by SRK Consulting. They have sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which being undertaking to qualify as a “Competent Person” as defined in the JORC Code. Dr Cunningham and Mr Brown consent to the inclusion in this report of the statements based on their information as provided in the Independent Geologists Report dated January 2021, in the form and context in which they appear.

Reporting of mineral resources

This announcement includes mineral resource information prepared by “competent persons” in accordance with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (**JORC Code**). Where used in this announcement, the terms “resource”, “inferred resources”, “indicated resources” and “measured resources” have the meanings given to them in the JORC Code. The information in this announcement relating to mineral resource estimates for the Mount Mason Project is extracted from the Company’s prospectus dated 25 March 2021 released to ASX on 12 May 2021, which is available on the Company's website www.junominerals.com.au. The Company confirms that it is not aware of any new information or data that materially affects the information included in the prospectus, and that all material assumptions and technical parameters underpinning the estimates in the prospectus continue to apply and have not materially changed. The Company confirms that the form and context in which the competent person's findings are presented have not been materially modified from the prospectus.

Forward-looking statements

This announcement contains forward-looking statements concerning the Company’s business, operations, and project as well as the plans, objectives and expectations for those business, operation and plans. Any statements contained in this announcement that are not of historical facts may be considered to be forward-looking statements. You can identify these statements by words such as “aim”, “anticipate”, “assume”, “believe”, “could”, “due”, “estimate”, “expect”, “goal”, “intend”, “may”, “objective”, “plan”, “predict”, “potential”, “positioned”, “should”, “target”, “will”, “would” and other similar expressions that are predictions of or indicate future events and future trends. These forward-looking statements are based on current expectations, estimates, forecasts and projections about the Company’s business and projects and the industry in which the Company operates and management’s beliefs and assumptions. These forward-looking statements are not guarantees of future performance or development and involve known and unknown risks, uncertainties and other factors, many of which are beyond the Company’s control. As a result, any or all of the forward-looking statements in this announcement may turn out to be inaccurate. Readers of this announcement are cautioned not to place undue reliance on such forward-looking statements. Unless required by law, the

Company does not intend to publicly update or revise any forward-looking statements to reflect new information or future events or otherwise.

4.	**Net increase / (decrease) in cash and cash equivalents for the period**		
4.1	Cash and cash equivalents at beginning of period	4,370	4,309
4.2	Net cash from / (used in) operating activities (item 1.9 above)	(431)	(1,931)
4.3	Net cash from / (used in) investing activities (item 2.6 above)	(130)	1,431
4.4	Net cash from / (used in) financing activities (item 3.10 above)	-	-

Consolidated statement of cash flows		**Current quarter $A'000**	**Year to date (12 months) $A'000**
4.5	Effect of movement in exchange rates on cash held	-	-
4.6	**Cash and cash equivalents at end of period**	**3,809**	**3,809**

^Sale of Mount Mason Project: As previously reported, A$3m of the sale consideration was received on 12 June 2025, with balance of A$3m received upon completion of sale which occurred 6 October 2025.

5.	**Reconciliation of cash and cash equivalents** at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	**Current quarter $A'000**	**Previous quarter $A'000**
5.1	Bank balances	21	30
5.2	Call deposits	3,788	4,340
5.3	Bank overdrafts	-	-
5.4	Other (provide details)	-	-
5.5	**Cash and cash equivalents at end of quarter (should equal item 4.6 above)**	**3,809**	**4,370**

6.	**Payments to related parties of the entity and their associates**	**Current quarter $A'000**
6.1	Aggregate amount of payments to related parties and their associates included in item 1	85
6.2	Aggregate amount of payments to related parties and their associates included in item 2	22

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

7.	**Financing facilities** *Note: the term "facility' includes all forms of financing arrangements available to the entity.* *Add notes as necessary for an understanding of the sources of finance available to the entity.*	**Total facility amount at quarter end $A'000**	**Amount drawn at quarter end $A'000**
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	**Total financing facilities**	-	-
7.5	**Unused financing facilities available at quarter end**		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8.	**Estimated cash available for future operating activities**	**$A'000**
8.1	Net cash from / (used in) operating activities (item 1.9)	(431)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(130)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(561)
8.4	Cash and cash equivalents at quarter end (item 4.6)	3,809
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	3,809
8.7	**Estimated quarters of funding available (item 8.6 divided by item 8.3)**	6.8

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: N/A

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: N/A

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.

2 This statement gives a true and fair view of the matters disclosed.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
