June 2026 Quarterly Activities and Cashflow Report

HIGHLIGHTS

- **Helix acquired a 50% interest in the Weerianna Gold–Lithium Project (Mining Lease M47/223) in the West Pilbara**
- **Gold Basin Inferred Mineral Resource of 15.37 Mt at 0.57 g/t Au for 280 koz (0.2 g/t Au cut off), comprising Cyclopic: 12.23 Mt at 0.50 g/t Au for 195 koz and Stealth: 3.14 Mt at 0.84 g/t Au for 85 koz.**
- **Placement of 534,629,052 new fully paid ordinary shares at $0.00125 per share, raising $668,286**
- **Consolidation of capital on a 35-for-1 basis completed**

1. EXPLORATION

AUSTRALIA – WESTERN AUSTRALIA - GOLD AND LITHIUM
Weeriana Project

Helix acquired a 50% interest in the Weerianna Gold–Lithium Project (Mining Lease M47/223) in the West Pilbara from Western Metals Pty Ltd, with a retained right to acquire the remaining 50% at fair market value.[1]

- Total consideration of $1,327,915, comprising $1,002,429 in Helix shares (801,943,579 shares at $0.00125, 25% premium to market) and $325,486 in cash.
- Project located ~25 km east of Karratha and ~5 km west of Roebourne, adjacent to the North West Coastal Highway and ~35 km from the Radio Hill processing plant, offering strong infrastructure and potential processing options.
- Situated ~4 km from the Andover Lithium Project within an emerging lithium district; multiple mapped pegmatites and historical rock chip results up to ~1.49% Li_2O indicate lithium exploration potential.
- A historical gold estimate (Artemis Resources, 2018)[2] of 975,700 t at 2.0 g/t Au for 62,739 oz above 1.0 g/t Au, hosted in near-surface shear-controlled quartz-vein lodes with strike and depth extensions remaining open.

---

[1] Refer to ASX announcement dated 22 May 2026
[2] Refer ASX:ARV news release dated 19 December 2018 "Weerianna Gold Project Resource Update" https://www.asx.com.au/asx/v2/statistics/displayAnnouncement.do?display=pdf&idsId=02061351

- Helix is not treating this as a current Mineral Resource or Ore Reserve. A Competent Person has not completed sufficient work on behalf of Helix to classify the estimate in accordance with JORC (2012), and it is uncertain whether further work will allow it to be reported as a Mineral Resource or Ore Reserve. The estimate is being used only as a historical reference to guide exploration at Weerianna. Helix plans verification and follow-up work, including confirmatory drilling, sampling, QA/QC, updated estimation and modifying factor assessment, to test the potential for a JORC-compliant resource.

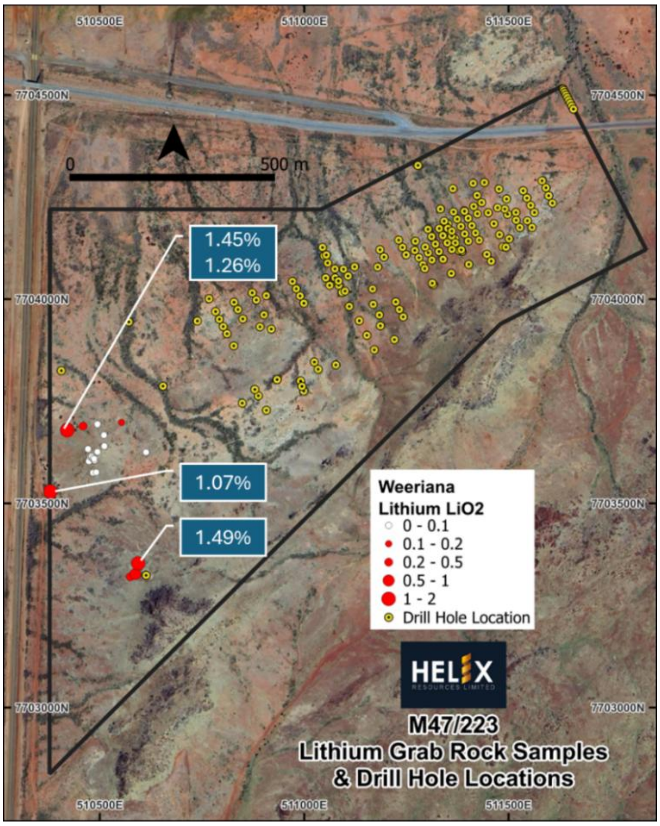

Figure 2: Weerianna Lithium rock grab samples and historical drill collars.

USA – ARIZONA - PORPHYRY COPPER-GOLD
White Hills Copper-Gold Project

Exploration programs to test copper and gold anomalies in potential intrusive bodies and large-scale structures were undertaken in December 2025 and January 2026.[3]

Although past drilling was only analysed for gold (Figure 4), White Hills has a large copper-gold soil anomaly and high-grade rock chip samples (Figure 3)[4]

- 23 grams per tonne gold with 0.8 percent copper.
- 6 grams per tonne gold with 5.7 percent copper.

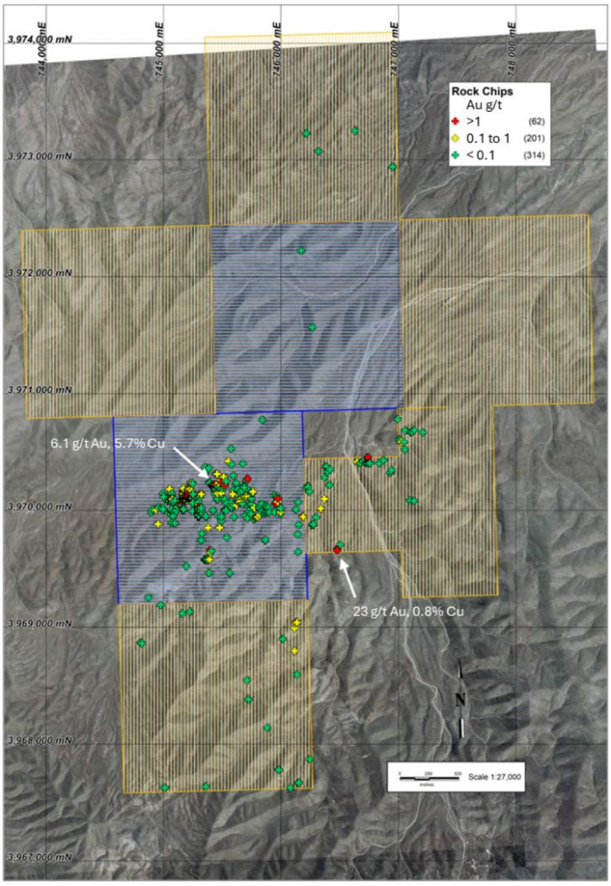

Figure 3: Location of rock samples in the White Hills project5

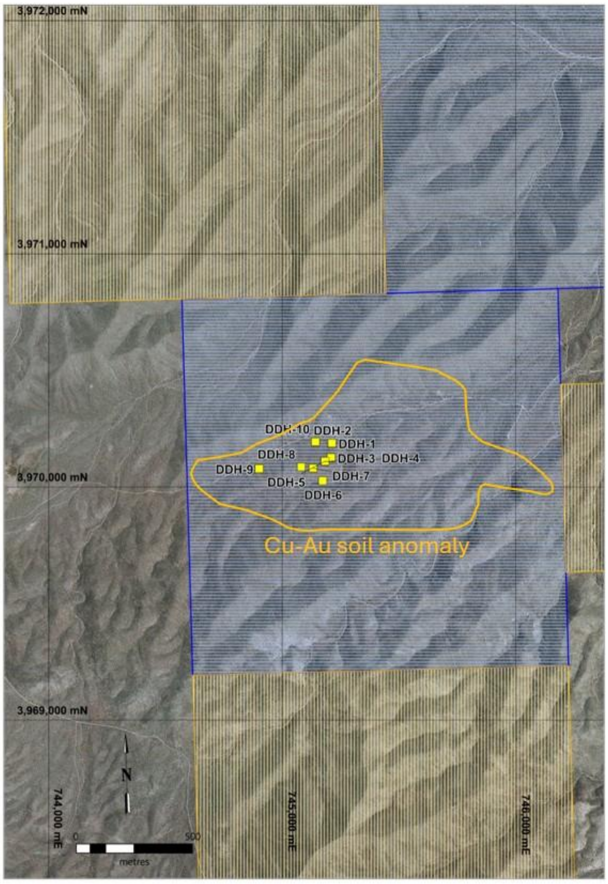

Figure 4: Location of historical drillholes (only analysed for gold) 6 and copper-gold soil anomaly in the White Hills project7.

Planned Work Programs

- Analysis of rock samples collected during field mapping program.
- Permitting of drill program designed to test geochemical and geophysical targets.
- Leapfrog 4D model consolidation - Integration with regional architecture and adjacent Gold Basin

project (Helix 40% earn in).

- Expanded soil program to test newly defined structural zones

White Hills Acquisition Status

- Helix holds an option to acquire two Centric companies (Centric Minerals Management (USA) Inc and White Hills Exploration LLC) that hold the consolidated White Hills project (Figure 5).[8]
- Under the terms of an agreement with Newmont, Centric Minerals Management (USA) Inc was required to complete a US$500,000 farm-in expenditure requirement on the White Hills mining sublease claims by 5 January 2026.
- Helix confirms that Centric has reported the expenditure commitment and provided the Annual Technical report to Newmont in early 2026.
- Helix is awaiting confirmation by Newmont Corporation to Centric that Centric has completed the requirements.

[8] Refer to ASX announcement dated 28 March 2025

USA – ARIZONA – GOLD
Gold Basin JV Project

An Updated Inferred Mineral Resource Estimate was completed for the Gold Basin oxide-gold project in Mohave County, Arizona, by Mining Associates in accordance with JORC (2012).[9]

- Total Inferred Mineral Resource of 15.37 Mt at 0.57 g/t Au for 280 koz (0.2 g/t Au cut-off), comprising Cyclopic: 12.23 Mt at 0.50 g/t Au for 195 koz and Stealth: 3.14 Mt at 0.84 g/t Au for 85 koz.
- Mineralisation is oxidised, occurs from surface in broad zones to ~150 m depth and is considered amenable to open pit mining and heap-leach processing, consistent with prior metallurgical testwork indicating strong recoveries (~72–86% extraction), low preg-robbing and low reagent consumption.
- Updated estimate incorporated 239 new drill holes since the previous MRE, for a total drilling database of 644 holes and 49,058 m, with improved geological and mineralisation domains and consistent QA/QC improving confidence within the Inferred category.
- Resource covers Cyclopic and Stealth only; Red Cloud and Gap are excluded following the lapse of Gold Basin's option over those claims.
- Helix is earning up to a 40% JV interest in Gold Basin via a staged A$3 million exploration-funded farm-in (initial A$1 million for 20%, each further A$1 million for an additional 10%), with Helix acting as manager of the JV.
- The MRE provides a foundation for further resource growth drilling and scoping-level mining and processing studies; all material is classified as Inferred and does not yet represent Ore Reserves or demonstrate economic viability.

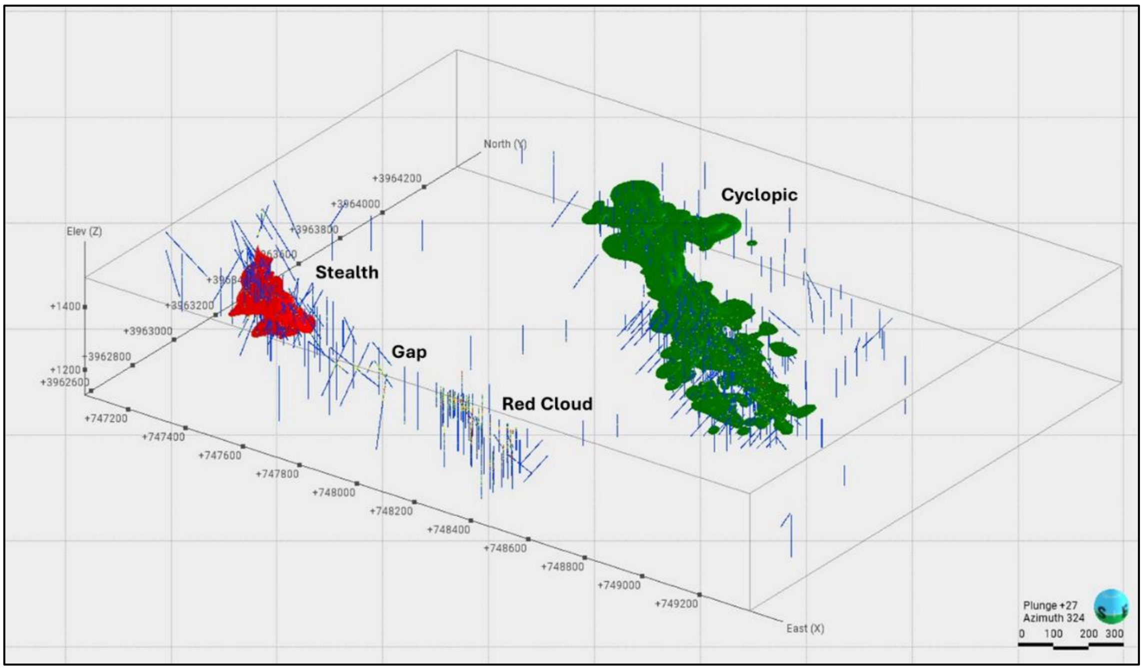

Figure 6. Gold Basin Project Oblique View Looking NW Showing Interpreted Estimation Domains at Cyclopic and Stealth and Other Prospects (Gap and Red Cloud).

[9] Refer to ASX announcement dated 4 June 2026

Table 1: Gold Basin Inferred Mineral Resources Summary for Cyclopic and Stealth (0.2 g/t Au cut-off).[9]

Deposit	MTonnes	Au g/t	Au koz
Cyclopic	12.23	0.50	195
Stealth	3.14	0.84	85
Total (Inferred)	**15.37**	**0.57**	**280**

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of exploration and resource results, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement. Competent Persons: The Mineral Resource Estimate for the Gold Basin Deposit was completed by Mr Ian Taylor who is an employee of Mining Associates and is independent of Helix Resources. Mr Taylor is a Fellow of the Australasian Institute of Mining and Metallurgy and chartered professional. Mr Taylor has sufficient experience that is relevant to the styles of mineralisation and types of deposits under consideration and to the activities being undertaken to each qualify as Competent Person(s) as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves".

Gold Basin JV Status

Helix provided an update on 6 May 2026[10]: Helix maintains that:

- It has entered into valid and binding agreements with Gold Basin;
- The Joint Venture has been properly established in accordance with those agreements, and
- Is in compliance with ASX Chapter 10, (Transactions with persons in a position of influence).
- Helix will continue to defend its position and will update the market as required.

NEW SOUTH WALES – COPPER, GOLD, NICKEL

Helix completed a field mapping and auger sampling program at its Muriel Tank project in the Quarter (Figure 7). Results will be reported when they are available.

The NSW portfolio covers approximately 2,131 km^2, with all tenements in good standing, including:

1. **The Western Tenement Group**: hosts ~30km of prospective strike and a pipeline of wholly owned copper opportunities, including the Canbelego Copper Deposit.
2. **Muriel Tank Tenement:** a 5 km by 1.5 km historical gold field.
3. **Eastern Tenement Group:** covering more than 100km of prospective strike, recent work has defined an extensive zone of new anomalies considered prospective for Tritton-style copper-gold deposits.

Proposed work programs

- Infill Auger programs on the Eastern Tenement.
- Re-evaluation of Restdown gold project and its surrounds on the Western Tenement.
- Follow up at Muriel Tank contingent on results.

[10] Refer to ASX announcement dated 6 May 2026

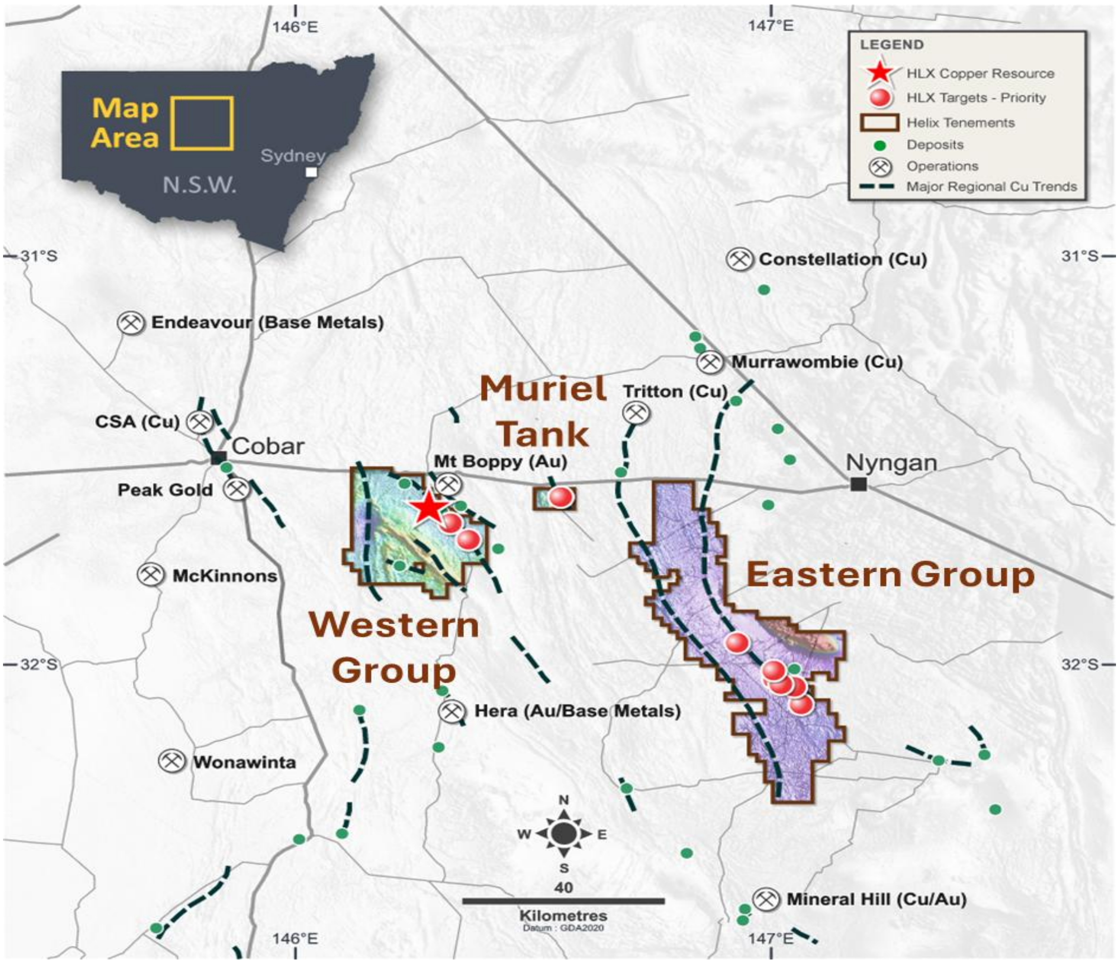

Figure 7: Helix Resources Tenement Groups and priority projects.

COMPETENT PERSON STATEMENTS

COMPETENT PERSON STATEMENT – EXPLORATION

The information in this report that relates to exploration results and geological data is based on and fairly represents information and supporting documentation prepared by Dr Kylie Prendergast who is an employee and shareholder of the Company. Dr Prendergast is a Member of the Australian Institute of Geoscientists. Dr Prendergast has sufficient experience that is relevant to the styles of mineralisation and types of deposits under consideration and to the activities being undertaken to each qualify as Competent Person(s) as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Dr Prendergast has consented to the inclusion of this information in the form and context in which it appears in this report. The Company confirms that it is not aware of any new information or data that materially affects the information included in this release and that all material assumptions and technical parameters in the announcement continue to apply and have not materially changed.

COMPETENT PERSON STATEMENT – WEERIANA GOLD PROJECT HISTORICAL ESTIMATE

The information in this announcement that relates to the Historical Estimate is based on, and fairly represents, information compiled by Edward Mead, who is a Competent Person as defined in the JORC Code (2012 Edition). Ed Mead is a Fellow of the Australasian Institute of Mining and Metallurgy and a consultant to the Company through Doraleda Pty Ltd. Mr. Edward Mead has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the JORC Code. Mr Edward Mead has reviewed the information described in this announcement in relation to the Historical Estimate, including Artemis Resources Limited's ASX announcement titled Weerianna Gold Project Resource Update dated 19 December 2018, and consents to the inclusion in this announcement of the information in the form and context in which it appears.

2. CORPORATE

FINANCIAL POSITION

Cash Position as at 30 June 2026

- The closing cash position of the Company as at 30 June 2026 was $0.084 million. The Cashflow Statement is attached.
- For the purpose of Section 6 of Appendix 5B, all payments made to related parties have been paid in relation to Director fees.

TUNKILLA GOLD ROYALTY

- Helix continues to pursue recognition and enforcement of its royalty rights over the Tunkillia Gold Project, originally granted under agreements entered into prior to the insolvency of former owner WPG Resources Limited. Following the acquisition of the Tunkillia project by Barton Gold Holdings Limited through its subsidiary Tunkillia 2 Pty Ltd in late 2019, Helix has asserted that the royalty survives the transfer and remains binding on the project. Barton, through its legal advisers, disputes this position and has stated it was unaware of any enforceable royalty obligation at the time of acquisition. Helix considers that position difficult to reconcile with standard acquisition due diligence processes and prior correspondence to insolvency controllers notifying them of the royalty interest. The matter remains unresolved, with Helix currently assessing further legal and commercial options to protect and monetise what it considers to be a valuable project-linked asset.
- A potential further avenue under review is whether warranties, disclosure obligations or default provisions in the original sale process documentation (including any “Cause 7” or loss-of-control related provisions in the relevant Sale and Purchase Agreement) may have been engaged if the royalty was known, disclosed, or ought reasonably to have been identified during the receivership sale process. Helix is obtaining legal advice.

ASX ADDITIONAL INFORMATION

1. ASX Listing Rule 5.3.1: Full details of exploration activity during the quarter are set out in this report.
2. ASX Listing Rule 5.3.2: There was no substantive mining production and development activities during the quarter.
3. ASX Listing Rule 5.3.5: all payments made to related parties have been paid in relation to director fees.

SHAREHOLDER UPDATE

Capital Structure

The Company's capital structure is summarised in Table below.

Table: Helix Capital Structure

Helix Securities	Shares
Fully paid ordinary shares (30 June 2026) – post consolidation	192,444,755
Options and Rights (unlisted & variable strikes/expiries)	65,502,196

Results of General Meeting - 25 May 2026[11]

- All resolutions were passed.
- The consolidation of capital on a 35-for-1 basis was completed. It is intended to reduce opportunistic trading in sub-cent price movements, align the share price with the company's underlying fundamentals, and provide a more orderly and stable market for the company's securities.

Placement and Issue of Shares:[12]

- Helix Resources Ltd (ASX: HLX) (Helix or the Company) announced that it completed a Placement of 534,629,052 new fully paid ordinary shares at $0.00125 per share, raising $668,286 through CPS Capital Group Pty Ltd.

Litigation & dispute register

- Helix confirms as of the date of this report it has no disputes or litigation recorded against it. We note however that Helix has received another petition application disputing Helix's Joint Venture position in Gold Basin, which the Company believes has no merit as outlined in the March 2026 Quarterly Report.

This ASX release was authorised by the Board of Directors of Helix Resources Ltd.

About Helix Resources

Helix Resources is an ASX-listed resources company which is exploring for copper and gold in two proven jurisdictions. Arizona in North America and in the prolific copper producing region of Cobar, NSW. The strategy is to generate new copper and gold targets and test them through drilling to make new discoveries and expand Copper and Gold Mineral Resources.

Appendix 1 Tenement List as at 30 June 2026

New South Wales, Australia

Tenement	Name	Mineral	Ownership

4.6	**Cash and cash equivalents at end of period**	**84**	**84**

5.	**Reconciliation of cash and cash equivalents** at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	**Current quarter $A'000**	**Previous quarter $A'000**
5.1	Bank balances	84	50
5.2	Call deposits	-	-
5.3	Bank overdrafts	-	-
5.4	Other (term deposits)	-	-
5.5	**Cash and cash equivalents at end of quarter (should equal item 4.6 above)**	**84**	**50**

6.	**Payments to related parties of the entity and their associates**	**Current quarter $A'000**
6.1	Aggregate amount of payments to related parties and their associates included in item 1	-
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

Payments relate to Director's fees and their associates

7.	**Financing facilities** *Note: the term "facility' includes all forms of financing arrangements available to the entity.* *Add notes as necessary for an understanding of the sources of finance available to the entity.*	**Total facility amount at quarter end $A'000**	**Amount drawn at quarter end $A'000**
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	**Total financing facilities**	**-**	**-**
7.5	**Unused financing facilities available at quarter end**		**-**
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
	Answer: N/A		

8.	**Estimated cash available for future operating activities**	**$A'000**
8.1	Net cash from / (used in) operating activities (item 1.9)	(74)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(629)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(703)
8.4	Cash and cash equivalents at quarter end (item 4.6)	50
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	50
8.7	**Estimated quarters of funding available (item 8.6 divided by item 8.3)**	0.1

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

No, programme at White Hills Project in Arizona USA complete. Next quarter activities will involve desk top interpretation which will reduce expenditure in upcoming quarter.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

The Company is reviewing capital raising opportunities and will undertake a capital raising in the coming quarter of a sufficient size to meet ongoing exploration and working capital requirements.

8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?
	Answer: Yes, see 8.8.2 above.
	Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.

2 This statement gives a true and fair view of the matters disclosed.

Date: 31 July 2026..

Authorised by: ....By the Board ....
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
