REDCASTLE RESOURCES LTD

ASX Announcement

12 August 2026

Native Title Agreement Signed Advancing Queen Alexandra

Highlights:

- **Redcastle has executed a Native Title and Mining Agreement with the Wangkatja Tjungula Aboriginal Corporation RNTBC, acting on behalf of the Nyalpa Pirniku Native Title Holders**
- **The Agreement covers Redcastle's relevant granted and pending tenements, including the strategically important Mining Lease Application M39/1171**
- **M39/1171 adjoins the existing Queen Alexandra mining area and is an important part of the Company's planned broader QA mining footprint. Formal grant remains subject to completion of the applicable Western Australian Government processes.**

Redcastle Resources Limited (ASX: **RC1**) (**Redcastle** or the **Company**) is pleased to announce that it has executed a Native Title and Mining Agreement (Agreement) with the Wangkatja Tjungula Aboriginal Corporation RNTBC (WTAC), acting on behalf of the Nyalpa Pirniku Native Title Holders.

WTAC is the Registered Native Title Body Corporate for the Nyalpa Pirniku Native Title Holders, whose determined native title area includes the land on which the Redcastle Gold Project is located.

The Agreement marks the culmination of an extended period of constructive engagement between Redcastle and WTAC.

Advancing the Queen Alexandra mining area

Mining operations are currently underway within granted Mining Lease M39/318, which hosts the existing Queen Alexandra and Redcastle Reef deposits.

Mining Lease Application M39/1171 lies immediately adjacent to the existing Queen Alexandra mining area and forms an important part of the broader planned QA mining footprint.

Execution of the Agreement represents a key native title milestone in progressing M39/1171 and supports the Company's continued advancement of the application through the remaining State processes.

Formal grant remains subject to completion of the applicable Western Australian Government procedures and approvals.

Chairman's comments

Redcastle Non-Executive Chairman, Dr Ray Shaw, commented:

"Execution of this Agreement is a major milestone for Redcastle and represents the culmination of sustained engagement with WTAC and the Nyalpa Pirniku Native Title Holders.

M39/1171 is strategically important because it immediately adjoins the existing Queen Alexandra mining area and forms part of the broader planned QA mining footprint. With the Agreement now executed, our focus turns to progressing the remaining State processes.

We thank WTAC and the Nyalpa Pirniku Native Title Holders for their constructive engagement throughout this process and look forward to continuing to work together.

Next steps

Redcastle will now continue working with WTAC and the relevant Western Australian Government authorities to progress the remaining tenure processes for M39/1171 as well as conducting relevant surveys associated with exploration drilling planned for later this year.

This announcement has been authorised for release by the Board of Redcastle Resources Limited.
