COBRE INCLUDED IN THE GLOBAL MSCI MICRO CAP INDEX

Cobre Limited (ASX: **CBE**, **CBEO**, **Cobre** or **Company**) is pleased to announce the Company's inclusion into the MSCI Micro Cap Index ("**MSCI Index**" or "**Index**").

Cobre's addition to the Index is part of the Index's rebalancing and will take effect from 1 September 2026. The MSCI Index currently has just over 450 Australian companies and represents approximately 1% of Australia's free-float-adjusted market capitalisation.

Commenting on the Company's inclusion to the MSCI Index, Cobre's Executive Chairman, Martin Holland, said:

"As the Cobre executive and management team continue to execute strongly against the Company's operational and strategic plan, the increase in the Company's market capitalisation continues to grow and it is pleasing to start seeing the results of these efforts with milestones such as the inclusion into indices. The inclusion into the MSCI Global Micro Cap Index will bring greater investor awareness of Cobre and our business."

This ASX release was authorised on behalf of the Cobre Board by: Martin Holland, Executive Chairman.
