Lonsec "Recommended"

Performance as at 31 July 2026 (all figures unaudited)

	1 mth %	3 mth %	1 yr %	3 yrs % p.a.	5 yrs % p.a.	7 yrs % p.a.	10 yrs % p.a.	Since incept. % p.a.
ACQ ^{1,3}	-2.6	-6.0	3.0	7.0	0.5	7.1	7.6	8.1
S&P/ASX Small Ords Acc Index ²	-3.2	-3.2	1.8	7.5	2.2	4.4	5.8	6.6

¹ Calculated as the movement in NTA pre tax but post fees and operating costs. The calculation includes dividends paid and payable but has not been grossed-up for franking credits received by shareholders. All figures are unaudited, and unlisted valuations are prepared by Acorn Capital in accordance with ACQ Board approved policies. ² The stated benchmark for the strategy. Please note that there is a difference in underlying investment universe and over shorter time periods, deviations in returns (both positive and negative) are expected. Please see page 2 for further details on benchmarks and investment universe. ³ With effect from 1 July 2026, the Company adopted a revised valuation approach and now pricing the listed securities based on their last traded price (previously last bid price). The impact of this change is a one-off increase in the NTA of approximately 1.2%.

Acorn Capital - Investment Update

"In July, the portfolio declined by 2.6%, slightly outperforming the S&P/ASX Small Ordinaries Accumulation Index, which fell 3.2% with weakness spanning both small industrials and resources. The divergence by size was pronounced, with the ASX 200 gaining 2.3% over the same period. Global sentiment turned sharply, with a momentum unwind in AI and semiconductor names dragging the Nasdaq down 3.2% as investors questioned returns on AI capex, a rotation that fell heaviest on the technology names concentrated in the small cap index.

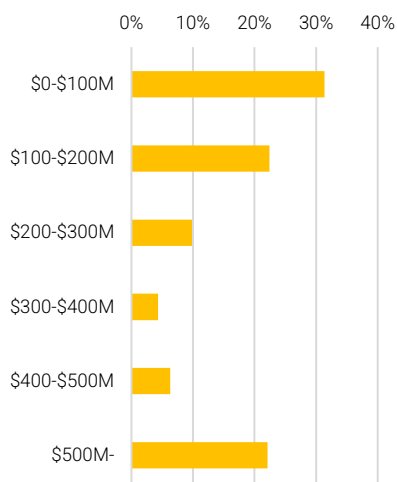

Within the portfolio, the top-performing sectors were Utilities (+12.5%), Consumer Discretionary (+4.2%), and Consumer Staples (+0.9%). Conversely, performance was dragged down by Information Technology (-12.4%), Energy (-10.8%), and Resources (-6.6%)."

² Return represents the pre fee, tax and operating cost performance of the underlying portfolio based on last prices, excluding fees and other accounting adjustments reflected in the calculation of Net Tangible Assets (NTA). This return is calculated by Acorn Capital and is unaudited ³ Source: Factset ⁴ Source Acorn Capital, unaudited.

Quarterly Indices Characteristics ⁵

	S&P/ASX Small Ordinaries Acc Index	Acorn Capital Microcap Acc. Index
Companies (by number)	198	>1443
Universe (by size)	ASX 101 – 300	ASX ex-250
Total Market Cap (\$M) ⁶	451,116	195,172
Median Market Cap (\$M) ⁶	1,854	34
Exposure to Developing Companies ⁷	16.8%	57.0%
Crossover of listed holdings in ACQ ⁸	14%	91%

⁵ As at 30 June 2026 ⁶ Calculated by Acorn Capital using full market capitalisation. S&P/ASX Small Ordinaries Index reports use float-adjusted market capitalisation, which may result in lower figures ⁷ Number of stocks, developing companies defined as those with revenues <10 of their market cap ⁸ the total portfolio weight of listed stocks (excludes unlisted investments and cash) included in the index.

ACQ Objective

The Objective is to create a diversified portfolio of listed microcap companies and then to invest opportunistically in unlisted entities that offer better relative value. The performance objective for ACQ is to outperform the S&P/ASX Small Ordinaries Accumulation Index over the medium to long term.

Dividend Intention

Acorn Capital Investment Fund Limited intends to pay annual dividends targeting at least 5% of closing post-tax NTA for each financial year, franked to the highest extent possible and without the Company incurring a liability.

Where the Company accumulates franking credits that the Board determines are in excess to its requirements it is the intent to distribute those excess credits by way of special dividends. This is subject to the Company having sufficient profit and cash flow to make such payments.

Investment Philosophy

The investment philosophy is based on a belief that there are pricing inefficiencies amongst emerging or microcap companies due to a lack of readily available external research conducted on such entities.

Acorn Capital believes that through a research driven investment process the pricing inefficiencies that exist in both listed microcaps and unlisted microcaps can be exploited to earn returns superior to those available in the broader market.

Unlisted microcap opportunities must be of better relative value on a risk-adjusted basis to displace existing listed portfolio investments in the corresponding sector.

Investment Strategy

- Research-driven stock selection
- Economic sector diversified
- Style agnostic
- Long term investor
- Create diversified portfolios to reduce volatility

Investment Manager profile

Acorn Capital was established in 1998 as a specialist investment manager in emerging Australian companies.

Acorn Capital distinguishes itself through its relatively large research and investment team with expertise across all industries as well as its provision of expansion capital to developing companies.

Through its strategies Acorn Capital can provide Investors with efficient off-index exposure to both public and private emerging companies.
