

Investor Webinar Thursday 20 August 2026

Company to Brief Investors on Latest High Grade Silver Results and Forward Exploration Program

Advance Metals Limited (ASX:AVM) (“Advance” or “the Company”) advises that the Company will host an investor webinar on Thursday 20 August 2026, where Managing Director and CEO Dr Adam McKinnon will discuss the Company’s latest high grade silver drilling results from the Gavilanes Silver Project in Mexico and provide an update on the next phase of its exploration program.

The webinar follows the Company’s latest drilling update from Gavilanes, where all four advance drill holes assayed to date have intersected broad zones of high grade silver mineralisation¹.

DATE & TIME: Thursday 20th 11:30am AEST / 9:30am WST

REGISTRATION LINK: https://janemorganmanagement-au.zoom.us/webinar/register/WN_uwRsyqC5RM24A6Yyu5emDA

A recording will be made available to investors following the session.

The webinar will cover a series of material updates discussed in the Company’s latest exploration update from Gavilanes¹, including:

- The significance of latest high grade silver results from GV-26-004 and the continued extension of the Gavilanes mineralised system
- The results from Advance’s first four drill holes at Gavilanes, all of which have intersected high grade silver mineralisation
- The potential scale of the broader Gavilanes system, which remains open up dip, down dip and along strike
- The emerging copper, gold and silver mineralisation identified beneath the near surface silver system and its implications from the broader exploration opportunity
- Pending assay results from GV-26-005 and GV-26-006, representing Advance’s largest southern step outs drilled to date
- Planned systematic testing of the Descubridora structure and additional priority targets across the broader Gavilanes Project
- The pathway towards a maiden JORC Mineral Resource for Gavilanes, targeted for Q4 CY2026
- The broader growth strategy for Advance’s Mexican portfolio

Investors and shareholders are encouraged to register for the webinar and submit questions for Dr McKinnon to address during the session via the emails below.
