

Fund objectives and investment policy

The Schroder Global Core Fund is an actively managed strategy designed to target outperformance of MSCI World ex Australia ex Tobacco with limited risk relative to the index. The team analyses a global universe of over 10,000 companies to identify attractive opportunities, applying index relative constraints at the stock, sector and regional level in order to ensure effective diversification, manage risk and avoid any extreme outcomes. This strategy provides the benefits of index-based investing from a risk and cost perspective with the advantage of relative performance upside potential.
