¹ "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council's recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity's corporate governance statement. They serve different purposes and an entity must produce each of them separately.

² Tick whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where your corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

³ Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. Recognising that the success of our business strategy is intrinsically linked to a workforce that is capable and diverse, the People and Remuneration Committee have endorsed an Inclusion and Diversity (I&D) Roadmap outlining the Company's multi-year journey to improve gender participation and achieve an inclusive workplace. This roadmap details the Company's beliefs on I&D, aspirations for the future, and the steps we will take to achieve them.

In FY25, the Company established annual measurable objectives for improving gender participation across each division. To support improvement, gender participation targets were endorsed in FY23, and the Company continued to work towards these in FY26. Our goals include achieving 33% female representation in the global workforce by 2033, 40% female representation in senior leadership by 2033 and 40% female representation at the Board and Group Executive Committee by 2030, consistent with our commitment to the Hesta 40:40:20 vision. The Company will continue to focus on enhancing gender participation in FY27.

The ASX Principles and Recommendations provide that the measurable objective for achieving gender diversity in Board composition for entities in the S&P / ASX 300 Index (such as the Company) should be to have not less than 30% of its directors of each gender within a specified period.

In support of the specific measurable objectives for achieving gender diversity in the Board, Group Executive Committee and the global workforce, the Company will continue to adopt the approach of filling existing vacancies and new positions by applying strategies that encourage diversity, such as recruiting from a diverse pool of candidates and identifying factors in the recruitment and selection processes which encourage diversity, including offering flexible working arrangements. In parallel, the Company has adopted a planned approach to review our current internal systems over a period of three years. This will determine the health of relevant systems and processes and potential areas of improvement to achieve the gender composition targets, with the aim to further foster an organisational culture that enables a safe, respectful, diverse and inclusive workplace.

The Company is a 'relevant employer' under the *Workplace Gender Equality Act 2012* (Cth) and discloses its "Gender Equality Indicators" to the Workplace Gender Equality Agency (WGEA) annually. The Company uses internal reporting as well as the WGEA indicators to assess its progress in improving gender diversity.
