Directors' Report

Year ended 30 June 2026

Your Directors present their report on the Consolidated Entity consisting of Peet Limited (the Parent Entity or the Company) and the entities it controlled at the end of, or during, the financial year ended 30 June 2026 (the Group).

1. Directors

The following persons were Directors of the Company during part or the whole of the financial year and up to the date of this report:

Greg Wall AM, MA, FAICD, FFIN
Independent Non-executive Chairman

Mr Wall was appointed to the Board of Peet Limited in August 2023, and as Chairman in October 2024, with over three decades of executive experience in retail and commercial banking and financial services. He is currently a member of Peet's Audit and Risk Management, People, Culture & Remuneration and Nomination Committees.

He was the former State Manager of Challenge Bank, CEO of StateWest, Managing Director of Home Building Society Ltd and Group CEO of Capricorn.

Mr Wall has extensive experience as a non-executive director including Automotive Holdings Group, Gold Estates (1903) Ltd and International Cooperative Alliance. He has also been Chairman of Freo Group and of Business Council of Cooperatives and Mutuals.

He also has experience as director of community and not for profits such as WA Football Commission, Fremantle Football Club, Ear Science Institute and Edith Cowan University and was Chairman of the Australian Secretariat of United Nations International Year 2012 and of the Margaret River Wine Association.

Anthony James Lennon (Anthony), BA, Grad Dip Bus Admin, MAICD
Non-executive Director

Mr Lennon joined Peet in 1991 and became a Director in 1996.

He moved to Victoria to establish Peet's operations in Australia's eastern states and oversaw significant expansion. He is a member of Peet's Nomination and Audit and Risk Management Committees.

Before joining the Company, Mr Lennon worked in the United Kingdom, working for major international construction and development company, John Laing PLC. His time with this global company saw him gain valuable experience in property planning, marketing, feasibility analysis and project management.

Mr Lennon's responsibilities during his career with Peet included project management, broadacre acquisitions, marketing and financing and a six-year term as Chairman of one of WA's largest conveyancing businesses.

Until his transition from Executive to Non-executive Director, Mr Lennon was Peet Limited's National Business Development Director.

Mr Lennon is also a director of The Duke of Edinburgh Awards (Vic).

He is former Chairman of Habitat for Humanity (Vic).

Margaret Kennedy, BComm, GAICD
Independent Non-executive Director

Ms Kennedy, appointed to the Board in August 2023, is an experienced non-executive director currently holding non-executive director roles on the boards of Hobart International Airport Limited, Challenger Retirement and Investment Services Limited and AMOG Holdings Pty Ltd.

She is currently Chairman of Peet's People, Culture & Remuneration and Audit & Risk Management Committees and is a member of its Nomination Committees.

Ms Kennedy was previously a director of Senex Energy Limited from April 2021 until its delisting in April 2022, and has over 30 years' experience holding various executive roles for Shell Australia, Viva Energy Australia and Viva Energy REIT (now Waypoint REIT) where she led the public listing and was the inaugural CEO.

She is a non-executive director of Loreto Ministries Limited, including its wholly owned subsidiary Property LM Limited. Loreto Ministries is a not-for-profit public company responsible for the governance of a number of schools in Australia.

Directors' Report

Year ended 30 June 2026

Ms Kennedy is also a non-executive director of Women's Property Initiatives, which is a Victorian based not for profit developing, owning and providing long-term stable housing to women and children in need.

Michelle Tierney, B.Arts Journalism & Communication, Post Grad Dip. Bus Admin., MBA, GAICD **Independent Non-executive Director**

Appointed to the Board in August 2023, Ms Tierney has more than 30 years' experience in the property industry as a board member and senior executive across Australian Securities Exchange and New Zealand Stock Exchange organisations.

Ms Tierney's experience within the property sector includes in disciplines such as funds management, real estate investment, property and asset management, general management, transformation, strategy development and execution and sustainability.

She is currently a member of Peet's Audit & Risk Management, People, Culture & Remuneration and Nomination Committees, and is also currently a non-executive director of Growthpoint Properties Australia and Sydney Water. She is also a former non-executive director of Stride Property Group.

Ms Tierney is a non-executive director of Cotton Research and Development Corporation (CRDC). The CRDC is focussed on enhancing the performance of the Australian cotton industry through investing in research and development, and its application.

She is a non-executive nominee director representing H.E.S.T.A. Australia Limited as trustee for HESTA on the board of Assemble HoldCo Pty Ltd, a developer and manager of social and affordable housing projects.

Ms Tierney is also a non-executive director of Uniting NSW.ACT, one of the largest not-for-profit organisations in Australia offering over 550 services across NSW and the ACT in the areas of aged care, retirement and independent living, early learning, disability, chaplaincy and community services.

Ms Tierney is a member of the Property Council of Australia's Indigenous Advisory Group, Chief Executive Women and Women on Boards.

Ms Tierney is chairman of CareerTrackers Indigenous Internship Program Limited, a national not for profit purpose driven organisation that supports pre-professional First Nations university students and links them with employers to participate in paid, multi-year internships.

Ms Tierney is on the board of Message Stick Foundation Limited, a not for profit creating purpose-built First Nations' youth hubs in urban and regional areas of Australia.

Ms Tierney's executive and senior management experience included being the Chief Operating Officer of ASX 100 company Region Property Group (formerly SCA Property Group) in Australia, General Manager of Business Development and Strategy for the National Australia Bank Global Institutional Bank, Fund Manager of the \$3.8b GPT Wholesale Shopping Centre Fund and Head of Property and Asset Management and Executive Leadership Team member for ASX50 company The GPT Group.

Trevor Allen, BComm (Hons), CA, FF, FAICD **Former Independent Non-executive Director**

Mr Allen retired from the Board on 21 August 2025. While on the Board, he chaired Peet's Audit & Risk Management Committee and was a member of its People, Culture & Remuneration and Nomination Committees.

Mr Allen joined Peet in April 2012, with almost four decades of experience in the corporate and financial sectors, primarily as a corporate and financial advisor to Australian and international public and privately-owned companies.

At the time of his retirement from the Board of Peet, Mr Allen was:

- a non-executive director of TopCo Investments Pte Ltd, a Singapore company which is the holding company of Real Pet Food Company Limited, where he co-chairs its Audit and Finance Committee and is a member of its Risk and Sustainability Committee. He has been a director of TopCo Investments Pte Ltd since August 2018; and
- on the board of Cronulla Golf Club, a Sydney not-for-profit business, as its honorary treasurer.

Mr Allen was previously a non-executive director of FleetPartners Group Limited (formerly Eclipx Group Limited) for nearly 9 years, retiring from that position in January 2024.

Prior to Mr Allen's non-executive roles, he held senior executive positions including Executive Director Corporate Finance at SBC Warburg (now part of UBS), at Baring Brothers and as a Corporate Finance Partner at KPMG. At the time of his retirement from KPMG in 2011 he was the lead partner in its National Mergers and Acquisitions group.

Directors' Report

Year ended 30 June 2026

Brendan Gore, BComm, FAICD, FCPA, FCIS, FGIA **Former Managing Director and Chief Executive Officer**

Mr Gore was Managing Director and Chief Executive Officer (**CEO**) of Peet Limited from 2007 until June 2025.

Mr Gore successfully led the Company's strategy through its land bank expansion, diversification of its product offering and developing key new partnerships with Government and major institutions. He was also a member of Peet's Nomination Committee.

Mr Gore's appointment to the position of Managing Director and CEO followed experience in two other key executive roles within the Company. He began with Peet as Chief Financial Officer and played a key role in expanding the Company's scope of activities and growing its core residential development and land syndication businesses.

Mr Gore's period in senior executive roles at Peet Limited was preceded by more than two decades' experience in a range of senior corporate, commercial, and operational positions where he gained extensive experience in large scale operations, strategy development and implementation, as well as expertise in debt and equity markets.

He developed a reputation as a strong leader, with operational responsibilities across local and State Government relations, environmental and sustainability management and occupational health and safety.

Mr Gore is a qualified accountant and a Fellow of CPA Australia. He is also a Fellow of the Australian Institute of Company Directors and a Fellow of the Governance Institute of Australia.

Mr Gore stepped down from the role of Managing Director on 1 July 2025.

2. Principal activities

The Group acquires, develops and markets residential land.

Peet was founded in Western Australia in 1895 and has expanded over the years to become Australia's largest pure-play residential developer. Peet has been listed on the ASX since 2004 and is focused on creating high-quality master-planned residential communities for homebuyers across Australia, and achieving the best possible results for its shareholders, investors and partners who include State and Federal Government agencies and major Australian institutions.

As at 30 June 2026, the Group employed 154 people in offices throughout Australia and managed and marketed a land bank of more than 26,400 lots in the growth corridors of major mainland Australian cities.

3. Review of operations and consolidated results

Operating and financial review

Key results¹

Directors' Report

Year ended 30 June 2026

Financial commentary

The Peet Group achieved operating profit⁸ and statutory profit⁹ after tax of \$103.4 million for the year ended 30 June 2026 (**FY26**), compared to \$58.5 million in the previous financial year (**FY25**), an increase of 77%.

The record FY26 result was underpinned by favourable market conditions, strong sales performance across key markets and continued operational execution during the year.

The Group derived EBITDA¹⁰ of \$162.8 million during FY26, compared to \$105.5 million in FY25 (up 54%), with an EBITDA¹⁰ margin of 36%, compared to the margin achieved in FY25 of 24% (up 50%). The increases in EBITDA¹⁰ and the EBITDA¹⁰ margin are predominantly attributable to:

- general price growth and higher sales and settlements across the WA portfolio;
- price increases on settled lots across the Qld and SA portfolios; and
- continued focus on overhead management and other operational efficiencies.

The performance has resulted in an operating and statutory earnings per share of 22.09 cents for FY26, compared to operating and statutory earnings per share of 12.48 cents in FY25 – an increase of 77%.

Peet heads into FY27 supported by more than \$850 million of contracts on hand, a strong balance sheet and a highly activated¹¹ project portfolio.

Operational commentary

During FY26, 2,996 sales¹² were achieved across the Group, compared to 2,768 sales¹² in FY25 (up 8.2%). While the number of sales across the Qld and SA portfolios were impacted by a combination of the timing of releases and projects completing, sales in WA and Vic increased during the year, compared to FY25.

The Group achieved 2,665 settlements¹² across its Development, Funds Management and Joint Venture projects in FY26, compared to 2,642 settlements¹² in FY25 (up 1%).

As at 30 June 2026, the Group had \$850.7 million worth of contracts on hand, which compares to \$612.2 million as at 30 June 2025 (up 39%). These contracts on hand benefit from price growth achieved across the portfolio of projects during the year and provide the Group with an excellent visibility of earnings as it enters FY27.

Development projects

Key highlights	FY26	FY25	Var (%)
Lot sales ¹²	744	1,065	(30%)
Lot settlements ¹² :	788	843	(7%)
- Land only	727	714	2%
- Medium Density	61	129	(53%)
Revenue	\$305.5m	\$313.2m	(2%)
EBITDA ¹³	\$77.6m	\$60.8m	28%
EBITDA ¹³ margin	25%	19%	32%

The sales performance was impacted by the timing of releases (particularly in Qld) and the completion of medium density projects across the SA and Vic portfolios. The decrease in settlements was more than offset by the margin growth achieved during FY26, with EBITDA¹³ and EBITDA¹³ margin increasing 28% and 32%, respectively, compared to FY25. This performance was driven by higher prices and settlements from Qld projects and higher settlement prices across the SA portfolio.

⁸ Operating profit is a non-IFRS measure that is determined to present the ongoing activities of the Group in a way that reflects its operating performance.

⁹ Statutory profit after tax means net profit measured in accordance with Australian Accounting Standards, attributable to the owners of Peet Limited.

¹⁰ EBITDA is a non-IFRS measure that includes effects of non-cash movements in investments in associates and joint ventures.

¹¹ When a project is launched all lots in that project are considered activated.

¹² Includes equivalent lots.

¹³ EBITDA is a non-IFRS measure and is calculated before inter-segment transfers and other unallocated items.

Directors' Report

Year ended 30 June 2026

Funds Management projects

Key highlights	FY26	FY25	Var (%)
Lot sales ¹⁴	1,949	1,318	48%
Lot settlements ¹⁴	1,619	1,334	21%
Revenue	\$71.2m	\$41.3m	72%
Share of net profit of equity accounted investments	\$24.2m	\$15.1m	60%
EBITDA ¹⁵	\$79.2m	\$42.7m	85%
EBITDA ¹⁵ margin	83%	76%	9%

The performance of the Group's Funds Management projects is predominantly driven by sales from syndicates and settlements from co-investment projects. Sales and settlements across Funds Management projects were materially higher than in FY25, which together with the price growth achieved across the Funds Management portfolio, has resulted in strong growth in EBITDA¹⁵ and EBITDA¹⁵ margin.

Joint Ventures

Key highlights	FY26	FY25	Var (%)
Lot sales ¹⁴	303	385	(21%)
Lot settlements ¹⁴	258	465	(45%)
Revenue	\$22.2m	\$43.7m	(49%)
Share of net profit of equity accounted investments	\$10.4m	\$8.2m	27%
EBITDA ¹⁵	\$18.8m	\$19.2m	(2%)
EBITDA ¹⁵ margin	58%	37%	57%

The number of sales and settlements achieved in FY26 were impacted by The Village at Wellard (WA) having substantially completed in FY25. While revenue and EBITDA¹⁵ reduced, compared to FY25, price growth achieved across the JV portfolio contributed to a strong increase in EBITDA¹⁵ margin.

¹⁴ Includes equivalent lots.

¹⁵ EBITDA is a non-IFRS measure that includes effects of non-cash movements in investments in associates and joint ventures and is calculated before inter-segment transfers and other unallocated items.

Capital management

As at 30 June 2026, the Group had:

- balance sheet gearing¹⁷ of 24.8%, compared to 27.5% at 30 June 2025;
- net interest-bearing debt¹⁸ (including Peet Bonds) of \$200.6 million, compared with \$242.4 million at 30 June 2025;
- cash and available debt facility headroom of \$260.5 million;
- a weighted average debt maturity of more than two years; and
- closed its on-market share buy-back, with more than 21.8 million ordinary shares having been acquired during the term of the buy-back.

As at 30 June 2026, approximately 80% of the Group's development pipeline was activated¹⁹. The Group continues to have a strong balance sheet and sufficient financial capacity to fund the current portfolio of projects, including accelerating delivery of product, if required, to meet increases in demand.

Dividends

Subsequent to year end, the Directors declared a final dividend for FY26 of 6.50 cents per share, fully franked. This brings the total dividends for FY26 to 13.00 cents per share, fully franked. This compares to the FY25 dividends of 7.75 cents per share, fully franked. The final FY26 dividend is to be paid on Tuesday, 22 September 2026, with a record date of Wednesday, 9 September 2026.

The Directors have resolved to keep the Company's Dividend Reinvestment Plan deactivated.

Risks

The Group's operating and financial performance is influenced by a number of risks impacting the property sector. These include bank lending conditions, general economic conditions, government policy influencing a range of matters including population growth (immigration policy), household income and consumer confidence, the employment market and land development conditions and requirements, including in relation to infrastructure, environmental, cultural heritage and climate-change management.

In respect to climate change, the Group's focus continues to be on understanding and mitigating climate change risks on development approvals processes, reputational matters and reporting obligations.

Global and domestic economic factors and geo-political matters, which may influence capital markets and the movement of interest rates are also risks faced by the Group.

At an individual project level, residential property developments also face a number of risks related to the price and availability of capital, the timeliness of approvals, delays in construction, increases in the cost of labour and materials and the level of competition in the market. The Group has a long history of managing these risks at an individual project and portfolio level.

The Group's financial risk management policies are set out in note 17 to the Financial Report.

The property market is cyclical and, while the Group is impacted by fluctuations in the market, it has also proved its capacity to manage through various cycles over a very significant period of time. This continues to include managing risks associated with changing consumer preferences for products – size, location and product typology (house and land, medium density townhouses and low-rise apartments).

¹⁶ Includes equivalent lots.

¹⁷ Calculated as (Total interest-bearing liabilities (including land vendor liabilities) less cash)/(Total assets less cash, less intangible assets).

¹⁸ Including net debt of syndicates consolidated under AASB10.

¹⁹ When a project is launched all lots in that project are considered activated.

Directors' Report

Year ended 30 June 2026

Group strategy

Peet continues to progress a substantial and nationally diverse development pipeline, comprising more than 26,400 lots²⁰ with an estimated end value²¹ of \$11.5 billion. This long-term landholding has been built through disciplined acquisition and planning over more than a decade and continues to provide a significant foundation for growth.

Peet continues to concentrate on owning and/or managing large masterplanned community projects, particularly on the east coast of Australia, while continuing to pursue selective opportunities in and around Perth and Adelaide. Townhouse and low-rise apartment projects will be pursued opportunistically, based on geography, capital requirements and forecast returns.

Outlook

Market conditions remain varied across states and territories, with WA, SA and Qld continuing to demonstrate resilient demand, particularly for well-priced product, despite some moderation in market conditions. Meanwhile, Victoria and ACT/NSW present opportunities when these markets normalise and improve.

Despite ongoing cost of living pressures, market fundamentals continue to support underlying demand for housing, with the key drivers including:

- Sustained population growth;
- Constrained housing supply;
- Stable labour market;
- Favourable financial conditions on a long-term basis and government incentives supporting first home buyers and investors in the new homes sector; and
- Continued institutional and offshore investment in Australia.

Peet continues to target growth in FY27, underpinned by its established pipeline, visibility of contracts on hand of \$851 million and demand across key markets, with outcomes subject to prevailing market conditions and settlement timing. Whilst key drivers remain favourable for the sector, the Group continues to monitor the impact of interest rate rises and cost of living pressures on customers, as well as broader geopolitical and macroeconomic factors.

4. Earnings per share

	2026 Cents	2025 Cents
Basic and diluted earnings per share	22.1	12.5

Basic earnings per share is calculated after income tax expense based on the weighted average number of shares on issue for the year ended 30 June 2026. The weighted average number of shares on issue used to calculate earnings per share is discussed at note 7 to the Financial Report.

5. Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Group during the year.

6. Matters subsequent to the end of the financial year

Other than above and the final FY26 dividend (details of which are included below), no matters or circumstances have arisen since the end of the financial year, which have significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in subsequent financial years.

7. Dividends

In August 2025, the Directors declared a final dividend of 5.00 cents per share, fully franked, in respect of the year ended 30 June 2025. The dividend of \$23.4 million was paid on Friday, 19 September 2025.

In February 2026, the Directors declared an interim dividend of 6.50 cents per share, fully franked, in respect to the year then ending 30 June 2026. The dividend of \$30.4 million was paid on Thursday, 26 March 2026.

Subsequent to year end, the Directors declared a final dividend for FY26 of 6.50 cents per share, fully franked. This brings the total dividends for FY26 to 13.00 cents per share, fully franked. This compares to the FY25 dividends of 7.75 cents per share,

²⁰ Includes equivalent lots as at 30 June 2026.

²¹ Gross development value, which is the forecast future sales price of the remaining equivalent lots as at 30 June 2026, subject to market conditions.

Directors' Report

Year ended 30 June 2026

fully franked. The final FY26 dividend is to be paid on Tuesday, 22 September 2026, with a record date of Wednesday, 9 September 2026.

The Directors have resolved to keep the Company's Dividend Reinvestment Plan deactivated.

8. Environmental regulation

The Group is subject to environmental regulation by way of the *Environment Protection and Biodiversity Conservation Act 1999* in respect of its land subdivision activities nationally, as well as other environmental regulations under both Commonwealth and State legislation.

The Group is not aware of any breaches of environmental regulations in respect of its activities. However, from time to time, statutory authorities make enquiries, issue notices requiring documents and/or material to be provided, and undertake investigations or audits to confirm compliance with relevant regulations.

Greenhouse gas and energy data reporting requirements

The Group may be subject to the reporting requirements of the *National Greenhouse and Energy Reporting Act 2007*. This would require the Group to report its annual greenhouse gas (GHG) emissions and energy use if it had operational control of facilities (sites) that emit greenhouse gases, produce energy, or consume energy at or above the specified GHG emission and energy thresholds per financial year.

The Group is not required to register and report to the Clean Energy Regulator as the Group does not have operational control for each of its projects, which is the responsibility of the relevant contractor undertaking the works.

9. Information on directors and group company secretary

Please refer to the Board of Directors section of this report for information on Directors.

Group Company Secretary

Mr Scafetta is a Chartered Accountant who has worked with Peet Limited since 1998.

Mr Scafetta began his career with major accounting firm Coopers & Lybrand (now PwC) after completing a commerce degree in 1993. He held a senior role with the organisation in its Business Services division and advised a range of clients on accounting, taxation and general business matters.

After four years at Coopers & Lybrand, Mr Scafetta joined Peet as Company Accountant and Company Secretary, which also required him to act as Company Secretary for the Company's various syndicates and subsidiaries. Prior to Peet being listed on the Australian Securities Exchange, Mr Scafetta was appointed Chief Financial Officer and served in that role until February 2005, when he was appointed as Company Secretary of Peet Limited.

10. Directors' meetings

The number of meetings of Directors (including meetings of committees of Directors) held during the year and the number of meetings attended by each Director were as follows:

Directors' Report

Year ended 30 June 2026

11. Retirement, election and continuation in office of directors

Directors are elected at the Annual General Meeting (**AGM**) of the Company. Retirement will occur on a rotational basis so that one third of the Directors, but not less than two, shall retire at each AGM. The Directors may also appoint a Director to fill a casual vacancy on the Board or in addition to the existing Directors, who will then hold office until the next AGM. No Director who is not the Managing Director, may hold office without re-election beyond the third AGM following the meeting at which the Director was last elected or re-elected.

During the year:

- Mr Brendan Gore stepped down from the Company with effect from 1 July 2025; and
- Mr Trevor Allen retired from the Board with effect from 21 August 2025.

Mr Greg Wall and Ms Margaret Kennedy were reappointed to the Board at the 2025 Annual General Meeting (**AGM**). Mr Anthony Lennon's and Ms Michelle Tierney's current term on the Board expires at the 2026 AGM. They both intend to offer themselves for re-election at the same meeting.

12. Remuneration Report

Dear Shareholder,

Peet is pleased to present its Remuneration Report for the year ended 30 June 2026 (**FY26**). This report sets out remuneration information for Non-executive Directors (**NEDs**) and other key management personnel (**KMP**). It focuses on the remuneration decisions made by the Board and the pay outcomes that resulted.

To ensure Peet delivers on its growth strategy it must have the right people to lead the Group over the long-term. A competitive remuneration framework that encourages our Leadership Team to continue to make decisions with a view to creating long-term value for shareholders and all stakeholders is required to be balanced with feedback provided by shareholders.

Business Scale and FY26 Remuneration Outcomes

In considering remuneration outcomes, the Board's People, Culture & Remuneration Committee:

- balances Peet's financial performance with the development and implementation of strategies for the long-term benefit of the Group; and
- takes into account the underlying scale of Peet's operations, which are not fully identifiable from a pure focus on the Group's statutory accounts.

Peet achieved an operating net profit after tax and a statutory profit after tax of \$103.4 million for FY26, compared to an operating net profit after tax and a statutory profit after tax of \$58.5 million in FY25, an increase of more than 77%.

While the statutory financial statements show total revenue of \$450.3 million and earnings before interest, tax, depreciation and amortisation (**EBITDA**) of \$162.8 million for FY26, Peet management remains responsible for a greater scale of business.

In addition to its own land development projects, Peet is also responsible for the management of a significant portfolio of land development projects held within its Funds Management and Joint Arrangements businesses.

Item	FY26	FY25
Revenue generated by Funds Management & Joint Arrangement businesses	\$612.6 million	\$543 million
EBITDA generated by Funds Management & Joint Arrangement businesses	\$197.6 million	\$141.5 million
Number of Funds Management & Joint Arrangement projects	20	20

These Funds Management and Joint Arrangement businesses generated total revenues of \$612.6million and EBITDA of \$197.6million in FY26. The management and performance fees generated by Peet from its Funds Management and Joint Arrangements businesses contribute significantly towards offsetting the corporate overheads of the entire Peet Consolidated Group:

Directors' Report

Year ended 30 June 2026

Consolidated Group	FY26	FY25
Number of Funds Management projects	18	17
Number of Joint Arrangement projects	2	3
Number of Development Projects	17	23
	37	43

Accordingly, the scale of business from which Peet derives its revenues and earnings, which drive its capacity to pay dividends to shareholders, is extensive.

In the context of FY26 Company performance, key remuneration outcomes during FY26 included:

- As previously disclosed²², the base pay of Mr Fullarton increased during FY26 following his appointment as the Chief Executive Officer.
- The base pay of Mark Winkworth increased during the year following his appointment to the role of Chief Financial Officer. He was considered a KMP from 1 July 2025.
- The other executive KMP's base pay for FY26 was the same as for FY25.
- STI will be paid to KMP in respect of FY26, following a positive assessment of the individual KMP's performance against a balanced scorecard, which includes consideration of Group financial and strategic targets. Refer to section G of the Remuneration Report for details.
- During the year, long-term incentive (LTI) performance conditions were tested as at 30 June 2025 in respect to the performance over the three years ended on that date, and resulted in the full vesting of performance rights.
- Non-executive Directors' fees for FY26 were the same as for FY25.

We encourage our shareholders to use the cash value of remuneration realised table on page 20 to assess the remuneration outcomes for KMP in FY26 and the alignment of these outcomes with the Group's performance.

The key difference between the cash value of remuneration realised and the statutory remuneration is the value included in the statutory remuneration table for potential future outcomes under the long-term incentive program. A value is required to be included in the statutory remuneration table to account for LTI that may or may not vest in the future, while the value for LTI included in the cash value of remuneration realised table represents the value of shares actually received by KMP following the vesting and exercise of performance rights.

The Board is satisfied that these remuneration outcomes for FY26 are appropriately performance-based, while at the same time recognising the strategic needs of the Group, and the disclosures in the FY26 Remuneration Report are in line with those in the FY25 Remuneration Report, which received more than 99% support at the 2025 AGM.

We look forward to answering any questions you may have at our 2026 AGM.

Margaret Kennedy
Chairman, People, Culture & Remuneration Committee

(%)	99.80%	0.20%		

C. PRINCIPLES USED TO DETERMINE THE NATURE AND AMOUNT OF REMUNERATION

The objective of the Company's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with achievement of strategic objectives for the long-term benefit of the Company and shareholders. The Board seeks to ensure that Executives' remuneration satisfies the following key criteria for good reward governance practices:

- competitiveness and reasonableness;
- acceptability to shareholders;
- alignment to performance; and
- capital management.

In consultation with external remuneration consultants, the Company has structured, and continues to evolve, an executive remuneration framework that is market competitive and complementary to our reward strategy through the following features.

Alignment to shareholders' interests

- has a heavy weighting to financial performance as a core component of plan design;
- aligns with, and rewards implementation of, strategy;
- focuses the Executive on other key financial and non-financial drivers of long-term value; and
- attracts and retains high-calibre executives.

For the purpose of assessing Executives' eligibility to short-term incentives (**STI**), the People, Culture & Remuneration Committee (**PCRC**) and Board have traditionally agreed to the use of a balanced scorecard. This methodology has continued to be used in FY26, and comprised a combination of financial and non-financial KPIs. Refer to Sections F and G of this Remuneration Report for further details.

Since the financial year ended 30 June 2018, the PCRC and the Board have traditionally agreed to assess Executives' eligibility to long-term incentives (**LTI**) against earnings per share (**EPS**) growth and funds under management (**FUM**) growth. These key performance indicators (**KPIs**) align with, and focus Executives' attention on the implementation of, the Board approved strategy. These two measures have continued to be used for FY26. Refer to Sections F and G of this Remuneration Report for further details.

The PCRC and the Board will continue to assess the applicability of all STI and LTI KPIs as they are applied in assessing performance for remuneration purposes.

Alignment to program participants' interests

- rewards capability and experience;
- provides a clear structure for earning rewards; and
- provides recognition for contribution.

The framework provides a mix of fixed and variable pay, and a blend of STI and LTI. As employees are promoted to executive and senior management roles within the Company, the balance of this mix shifts to a higher proportion of 'at risk' rewards.

D. REMUNERATION GOVERNANCE

The following sets out the Company's governance framework for remuneration setting and decision making, and responsibilities of various parties.

The Board of Directors (Board)	The Board takes an active role in the governance and oversight of the Company's KMP remuneration strategies and has overall responsibility for ensuring the effectiveness of remuneration arrangements. This is in consideration of remuneration outcomes that align with the Company's strategic objectives and risk management framework, and shareholder value over the long-term.
People, Culture & Remuneration Committee (PCRC)	The PCRC's responsibility is to formulate the Group's remuneration policy, reviewing NEDs' and the CEO's remuneration, as well as reviewing the CEO's remuneration recommendations (where applicable) for Executives, including in respect to: - remuneration levels and other terms of employment having regard to relevant market conditions, qualifications and experience of the Executives, and performance against targets set for each year where applicable; and - advising the Board on the appropriateness of remuneration structures of NEDs and Executives, with the overall objective of targeting maximum stakeholder benefit from the retention of a high calibre Board and Executive Team. Recommendations of the PCRC are put to the Board for approval.
External Remuneration Consultants	To assist the PCRC when considering remuneration-related matters, it may seek external, independent remuneration advice. In FY26, the PCRC engaged and received reports from The Reward Practice Pty Ltd (TRP) in respect to: - Board and executive remuneration benchmarking; and - Executive incentive design. In relation to FY26 remuneration, no remuneration recommendations, as defined by the Corporations Act, were provided by TRP.
Clawback provision	Refer to Section F of this Remuneration Report (as applicable).

E. NEDS' FEES

Fees and payments to NEDs reflect the demands which are made on, and the responsibilities of, the NEDs. NEDs' fees and payments are reviewed periodically by the PCRC and the Board. The PCRC considers, as appropriate, the advice of independent remuneration consultants to ensure NEDs' fees and payments are appropriate and in line with the market. NEDs do not receive share options or performance rights.

The NEDs' remuneration is inclusive of committee fees and fees for their membership on any subsidiary Boards. The fees payable to NEDs were last amended with effect from 1 July 2022 (after previously being amended with effect from 1 July 2018). The fees payable to the Chairman of the PCRC and the Chairman of the Audit and Risk Management Committee were last amended with effect from 1 July 2018 (after previously being amended with effect from 1 July 2014). NEDs may also be entitled to fees where they represent Peet on the Board of Syndicates.

NEDs' fees are determined within an aggregate fee pool limit, which is periodically recommended for approval by shareholders. The current fee pool of \$1,100,000 was last approved by shareholders at the 2023 AGM. There has been no change in the NEDs' fee pool since this last approval.

The NEDs do not receive any form of retirement allowance.

F. EXECUTIVE REMUNERATION STRUCTURE

The Company's pay and reward framework for Executives has the following components:

- base pay and benefits;
- performance-based STI; and
- performance-based LTI.

The combination of these comprises the total remuneration for the Executives concerned.

F.1 - Base pay and benefits

The base pay for Executives is structured as a total employment cost package, which may be delivered as a mix of cash and prescribed non-financial benefits and includes superannuation.

Item	Detail
Delivery	• Cash. • Superannuation. • Other non-cash benefits (mobile phone, car parking, other).
Quantum	• Reviewed annually. • As and when considered appropriate, external remuneration consultants provide analysis and advice to ensure base pay is set to reflect the market for a comparable role.
Prescribed event, including change of control	• Nil.

Refer to the tables on pages 20 and 21 for details of KMPs' base pay for FY26 and FY25.

F.2 - Short-term Incentives (STI)

Executives have a target STI opportunity depending on the accountabilities of their specific role and impact on the Group's performance. The key features of the current STI plan are set out below:

Item	Detail
Delivery	• Cash.
Quantum	• CEO – maximum of up to 100% of base pay. • Other Executives – maximum of between 28.57% and 60% of base pay.
Structure	• Balanced Scorecard. • PCRC and the Board set the Balanced Scorecard of the CEO based on various performance categories. • The CEO sets the Balanced Scorecards of the other Executives based on his Balanced Scorecard.
Financial target	• Heavily weighted to the achievement of a financial target. • Financial KPI is generally operating NPAT. • Financial targets are set based on that year's budget and also consider any market and/or analysts' expectations.
Assessment	• The CEO's performance against his Balanced Scorecard is assessed by the PCRC, which then makes a recommendation to the Board. • The other Executives' performance against their respective Balanced Scorecards are assessed by the CEO, who then makes a recommendation to the PCRC and/or the Board.
Prescribed event, including change of control	• Executives' entitlements are subject to the Board's discretion.
Cessation of employment	• Entitlement to STI on cessation of employment is generally subject to the Board's discretion.

Directors' Report

Year ended 30 June 2026

The FY26 Balanced Scorecard of the CEO was as follows:

Category	KPI	Weighting
Financial ¹	Operating NPAT target.	73.0%
Strategic	Complete Strategic Review.	18.0%
Customer	Annual Average Overall Customer Experience score of >85%.	3.0%
Health, Safety & Environment	All scheduled project site inspections to be undertaken during FY26.	3.0%
	Achieve an annual average score of at least 90% across the inspections conducted during FY26.	3.0%
		100.0%
Note 1	Overachievement of the Financial category KPI can be used to compensate for under achievement in non-financial categories up to a total of 100% of the FY26 STI. Refer to Section G.2 for further detail.	
Note 2	During FY26, the Directors removed a People & Culture-related KPI (Employee Engagement Survey) due to the scope of the Strategic Review. The weightings across the other Categories were amended on a pro-rata basis.	

The Balanced Scorecard for other Executive are derived from the CEO's Balanced Scorecard.

F.3 - Long-term incentives (LTI)

Traditionally, the Company has provided its Executives with LTI through participation in the Peet Limited Employee Share Option Plan (**PESOP**) and/or the Peet Limited Performance Rights Plan (**PPRP**). Since 2018, the LTI has been provided via the PPRP.

The LTI is designed to encourage employees to deliver long-term shareholder returns by focussing Executives' attention on the implementation of the Board approved strategy. Under the plans, participants are granted options and/or PRs, which only vest when set performance hurdles have been met, subject to the Board's discretion.

The key features of the LTI are set out below:

Item	Detail relating to FY26
Delivery	- Performance rights (PRs). - The PRs granted are convertible to ordinary shares on a 1:1 basis. - The PPRP was approved by shareholders at the 2008 AGM. - Changes have been made since to allow for changes in taxation of PRs.
Eligibility	Employees of any Group Company are eligible to participate in the PPRP at the discretion of the Board.
Quantum	- CEO – maximum of up to one third of base pay. - Other Executive KMP – maximum of between 24.09% and 60% of base pay. - Non-KMP who are eligible to participate in the PPRP – up to 30% of base pay.
Number of securities	- Determined by dividing the dollar value of LTI by the value of a Peet PR on a particular date. - Value of a Peet PR is independently determined, based on a Black-Scholes option pricing model.
Consideration payable	Nil.
Performance conditions	- The PRs are generally subject to performance conditions. - In recent years, including FY26, those performance conditions have been EPS growth (75% of PRs) and FUM growth (25% of PRs).
- EPS growth	- EPS growth is measured as the average growth in operating EPS over a three-year performance period. - The earnings component of EPS is calculated as net profit measured in accordance with Australian Accounting Standards, excluding write-downs of inventories and development costs and increases in the carrying value of inventories during the relevant financial year, and is subject to other adjustments at the Board's discretion. - EPS growth is then compared to the Board's internal target EPS growth for the relevant performance period.
- FUM growth	- FUM growth is measured as the total of the following during the relevant performance period: - the purchase price (ex GST) of land acquired by a Peet syndicate or Joint Venture; or - the market value (ex GST) of land for which Peet has been appointed development manager at the time of its appointment; or - the selling price (ex GST) of land sold by Peet, a Syndicate, a Joint Venture or Peet-managed project to a third party and Peet is appointed the development manager (and where applicable, to manage the leasing) of a commercial, industrial, retail or residential built-form project on that property; or

Directors' Report

Year ended 30 June 2026

	○ in all other property funds management-related transactions, as determined by the Board of Directors. • The aggregate of the FUM growth during the relevant performance period is reduced by the equity interest retained by the Group and is then compared to the rolling three-year FUM growth target set by the Board for the relevant performance period.
Target setting	• Targets for a three-year performance period are based on a Board approved three-year business plan. • The three-year business plan takes account of economic and market conditions prevalent at the time of setting the business plan and Management's and the Board's best forecast of the same for the performance period.
Assessment	• The assessment against KPIs is undertaken by the PCRC, which then makes a recommendation to the Board. • The Board has an appropriate level of discretion to consider, among other matters, market and analysts' expectations.
Prescribed event, including change of control	• CEO is entitled to 100% of all previous grants under the LTI plan that remain unvested • Other Executives' entitlements are subject to the Board's discretion. If the Board does not exercise discretion, 100% of unvested PRs will vest in full.
Cessation of employment	• In general, unvested PRs lapse on cessation of employment. • If cessation of employment arises due to death, disability, redundancy or any other reason (as determined by the Board), a pro-rata number of unvested PRs remain on foot. • In general, vested PRs remain on foot on cessation of employment. • Notwithstanding the above, the Board retains absolute discretion to determine the treatment of vested or unvested PRs on a cessation of employment.
Clawback	• Where in the opinion of the Board a participant in the PPRP acts fraudulently or dishonestly or is in breach of his or her obligations to Peet, the Board may (in respect to that participant): ○ deem unvested PRs to have lapsed; ○ deem vested but unexercised PRs to be forfeited; and/or ○ where shares received following the exercise of vested PRs have been sold, require full or partial payment of the net proceeds to Peet.

The performance conditions applying to the FY26 PRs (with a performance period ending 30 June 2028) are shown below.

Of the FY26 PRs subject to EPS growth, the proportion to vest is as follows:

Performance level	Proportion of PRs that may be eligible to vest
Less than 80% of the EPS growth target	0%
80% of the EPS growth target	50%
80% to 100% of the EPS growth target	Pro-rata between 50% and 70%
100% to 120% of the EPS growth target	Pro-rata between 70% and 100%
120% to 130% of the EPS growth target	Pro-rata between 100% and 133.33%

Out performance against the EPS growth condition (>120% of the EPS growth target) can be applied to any shortfall in the FUM growth target, up to a maximum of 100% of the FY26 PRs granted.

Vesting of the EPS growth-related FY26 PRs requires average EPS growth of between 4% and 6.5% per annum.

Of the FY26 PRs subject to FUM growth, the proportion to vest is as follows:

Performance level	FUM growth target during performance period	Proportion of PRs that may be eligible to vest
Less than 100% of target	Less than \$30 million	0%
100% of target	\$30 million	50%
100%-167% of target	\$30 million to \$50 million	Pro-rata between 50% and 70%
167%-200% of target	\$50 million to \$60 million	Pro-rata between 70% and 100%
Greater than 200% of target	Greater than \$60 million	100%

FY26 PRs remained unvested as at 30 June 2026.

F.4 - Remuneration Mix

The chart below summarises the Executives' remuneration mix for FY26 based on the maximum opportunity for Base pay (base salary and superannuation), STI and LTI .

G. PERFORMANCE AND EXECUTIVE INCENTIVE REMUNERATION OUTCOMES

G.1 - Performance of Peet Limited

The overall level of Executive compensation considers the performance of the Group. STI is based on an assessment of performance over a 12-month period, while LTI is assessed over a three-year period. The high-level performance of the Group over the last four years is compared below:

		2023	2024	2025	2026
Net profit after tax (NPAT)	\$'000	70,143	36,550	58,467	103,395

G.2 - STI Outcomes for FY26

For FY26, the CEO was assessed to be entitled to 100% of his STI as detailed below:

Category	KPI and outcome	Weighting	FY26 Result
Financial	Operating NPAT target.	73.0%	87.6%
Strategic	Complete Strategic Review.	18.0%	18.0%
Customer	Annual Average Overall Customer Experience score of >85%.	3.0%	3.0%

Operating NPAT performance matrix for FY26

Target result	Result (% of target)	% of Finance KPI
\$65.0m	105%	120%
\$64.0m	103%	110%
\$62.0m	100%	100%
\$60.0m	97%	80%
\$58.6m	95%	70%

Notes:

1. Over achievement can only be used to compensate for under achievement on non-financial categories up to a total of 100%.
2. Pro-rata between thresholds.
3. Committee and Board have discretion in applying threshold limits.

For FY26, the Operating NPAT target was \$62.0 million, which was set following consideration of the business plan for the three years' ending 30 June 2028. Operating NPAT achieved for FY26 was \$103.4 million, which equates to more than 160% of the target, resulting in up to 120% of the CEO's Finance KPI being awarded.

For FY26, the KPIs for other Executives were determined by the CEO, based on the CEO's Balanced Scorecard. The other Executives were assessed to have been eligible for 100% of their maximum STI entitlement.

Refer to the tables on pages 20 and 21 for details of KMPs' STI outcomes for FY26 and FY25.

G.3 - LTI Outcomes for FY26

FY23 PRs vested in FY26

Following the assessment of relevant KPIs for the FY23 PRs (performance period ended 30 June 2025) during FY26, the PCRC and Board approved a total of 100% vesting for Executive KMP in accordance with the PPRP. The following outlines the assessment outcomes for the FY23 PRs.

Of the FY23 PRs subject to EPS growth, the proportion that could have vested during FY26 is as follows:

Performance level	Proportion of PRs that may be eligible to vest
Less than 67% of the EPS growth target	0%
67% of the EPS growth target	50%
67% to 100% of the EPS growth target	Pro-rata between 50% and 80%
100% to 133% of the EPS growth target	Pro-rata between 80% and 100%
133% to 158% of the EPS growth target	Pro-rata between 100% and 133%

EPS growth of more than 133% of the EPS growth target is available to apply to any shortfall in the FUM growth targets, up to a maximum of 100% of the FY23 PRs granted.

Of the FY23 PRs subject to FUM growth, the proportion that could have vested during FY26 is as follows:

Performance level	FUM growth target during performance period	Proportion of PRs that may be eligible to vest
Less than 100% target	Less than \$30 million	0%
100% of target	\$30 million	50%
100%-167% of target	\$30 million to \$50 million	Pro-rata between 50% and 70%
167%-200% of target	\$50 million to \$60 million	Pro-rata between 70% and 100%

H. TOTAL REMUNERATION OUTCOMES

Details of the statutory and cash value of remuneration of each member of the KMP of the Group are set out in the tables following. The statutory disclosures required by the Corporations Act 2001 (Cth), as amended and its regulations are set out in the table on page 21. The Company believes that the additional information provided in the table below is useful to investors. The table below sets out the total cash value of remuneration realised for the KMP and provides shareholders with details of the "take-home" pay received/ receivable during the year. These earnings include cash salary and fees, bonus, superannuation, non-cash benefits received/ receivable during the year and the value of shares issued to, or acquired on behalf of, KMP following the exercise of vested PRs during the financial year. The table does not include the accounting value of share-based payments consisting of PRs granted in the current and prior years required for statutory purposes. This is because those share-based payments are dependent on the achievement of performance hurdles and so may or may not be realised.

A K Gallagher ³	84%	46%	0%	23%	16%	31%
B D Gore ⁴	-	35%	-	23%	-	42%

1. Since LTI are provided exclusively by way of options and/or PRs, the percentages disclosed also reflect the value of remuneration consisting of options and/or PRs based on the value of options and/or PRs expensed during the year.
2. Became a KMP from 1 July 2025.
3. Ceased employment on 31 October 2025.
4. Ceased employment on 1 July 2025.

I. ADDITIONAL REMUNERATION DISCLOSURE

I.1 - Option and performance rights holdings

The number of options and PRs over unissued ordinary shares in the Company held during FY26 by the Executives of the Group, including their personally-related entities, is set out below. When exercisable, each option and PR is convertible into one ordinary share of Peet Limited. No Non-executive Director holds options or PRs.

	Balance at the start of the year	Granted during the year	Exercised during the year	Lapsed/ forfeited during the year	Net change other ¹	Balance at end of the year	Vested and exercisable at the end of the year

1. Net change other reflects amount at date of ceasing employment
2. Became a KMP from 1 July 2025. The balance at the start of the year is PRs held before Mr Winkworth became a KMP.
3. Ceased employment on 31 October 2025
4. Ceased employment on 1 July 2025

In respect to the above Executives, during FY26, 2,803,064 PRs vested and 2,613,532 PRs were exercised.

Refer to note 25 of the financial report for the total options and PRs outstanding.

Directors' Report

Year ended 30 June 2026

Note 1

Of the FY24 PRs (performance period ended 30 June 2026) subject to EPS growth, the vesting conditions are as follows:

Performance level	Proportion of PRs that may be eligible to vest
Less than 80% of the EPS growth target	0%
80% of the EPS growth target	75%
80% to 100% of the EPS growth target	Pro-rata between 75% and 100%
100% to 120% of the EPS growth target	Pro-rata between 100% and 133%

Vesting of the EPS growth-related FY24 PRs requires an average EPS growth of between 4% and 6% per annum, with EPS growth of between 5% and 6% available to apply to any shortfall in the FY24 PRs' FUM growth targets, up to a maximum of 100% of the FY24 PRs.

Note 2

Of the FY25 PRs (performance period ending 30 June 2027) subject to EPS growth, the vesting conditions are as follows:

Performance level	Proportion of PRs that may be eligible to vest
Less than 80% of the EPS growth target	0%
80% of the EPS growth target	75%
80% to 100% of the EPS growth target	Pro-rata between 75% and 100%
100% to 120% of the EPS growth target	Pro-rata between 100% and 133%

Vesting of the EPS growth-related FY25 PRs requires average EPS growth of between 8% and 11% per annum, with EPS growth of between 10% and 11% available to apply to any shortfall in the FY25 PRs' FUM growth targets, up to a maximum of 100% of the FY25 PRs.

Note 3

Of the FY24 and FY25 PRs subject to FUM growth, the vesting conditions are as follows:

Performance level	FUM growth target during performance period	Proportion of PRs that may be eligible to vest
Less than 100% of target	Less than \$30 million	0%
100% of target	\$30 million	50%
100%-167% of target	\$30 million to \$50 million	Pro-rata between 50% and 70%
167%-200% of target	\$50 million to \$60 million	Pro-rata between 70% and 100%
Greater than 200% of target	Greater than \$60 million	100%

Note 4

Refer to Section F.3 for the vesting conditions applying to FY26 PRs (performance period ending 30 June 2028).

Note 5

Net change other reflects amount at date of ceasing employment.

1.2 - Details of remuneration: cash bonuses, options and PRs

For each cash bonus, grant of options and/or PRs included in the tables within the remuneration report, the percentage of the available bonus or grant that was paid, or that vested and the percentage that was forfeited because the person did not meet the service and performance criteria, is set out below. Generally, no part of the bonuses forfeited is payable in future years. Subject to the rules of the PESOP and PPRP no options or PRs will vest if the conditions are not satisfied, subject to the discretion of the Board (and ASX Listing Rules, as applicable) hence the minimum value of the option and PRs yet to vest is nil. The maximum value of the options and PRs yet to vest has been determined as the amount of the grant date fair value of the options and PRs that is yet to be expensed.

The table below excludes NEDs as their remuneration does not comprise STI or LTI.

End of Remuneration report (audited)

14. Indemnity of officers and auditors

During the financial year, the Company paid a premium in respect of a Directors' and Officers' insurance policy that insures Directors and Officers of the Company. The liabilities insured are costs and expenses that may be incurred in defending civil or criminal proceedings that may be brought against the Directors and Officers in their capacity as such. The Directors have not included more specific details of the nature of the liabilities covered or the amount of the premium paid in respect of Directors' and Officers' liability, as such disclosure is prohibited under the terms of the contract.

To the extent permitted by law, the Company has agreed to indemnify its auditors, Ernst & Young Australia, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit (for an unspecified amount). The indemnity does not apply to any loss in respect of any matters which are finally determined to have resulted from the auditors' negligent, wrongful or willful acts or omissions. No payment has been made to indemnify the auditors during or since the financial year.

15. Non-audit services

The Company may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company and/or the Group are considered important.

The Board of Directors has considered the position and, in accordance with the advice received from the Audit and Risk Management Committee, is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The Directors are satisfied that the provision of non-audit services by the auditor did not compromise the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed by the Audit and Risk Management Committee to ensure they do not impact the impartiality and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants.

The fees that were paid or payable for services provided by the auditors of the Group, its related practices and non-related audit firms is set out in note 22 of the Financial Report.

16. Auditor's independence declaration

A copy of the auditor's independence declaration, as required under section 307C of the Corporation Act 2001, is set out on page 28.

17. Rounding of amounts

The Company is of a kind referred to in ASIC Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the Director's Report. Amounts in the Director's Report have been rounded off in accordance with that legislative instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

Signed for and on behalf of the Board in accordance with a resolution of the Board of Directors.

Basis of reporting

This section of the financial report sets out the basis of preparation of the consolidated financial statements. Where an accounting policy is specific to one note, the policy is described in the note to which it relates.

1. Reporting entity

This financial report covers the consolidated financial statements for the Consolidated Entity consisting of Peet Limited and its subsidiaries (Group). The Financial Report is presented in the Australian currency. Peet Limited is a company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is; Level 7, 200 St Georges Terrace, Perth WA 6000. The nature of the operations and principal activities of the Group are described in the Directors' Report. Peet Limited is a for-profit entity.

2. Basis of preparation

The Financial Report is a general purpose financial report which:

- has been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*;
- complies with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB);
- has been prepared under the historical cost convention, except for some financial assets and liabilities which have been measured at fair value;
- provides comparative information for the previous period, where appropriate, with prior year amounts reclassified for consistency with the current year's presentation; and
- is rounded off to the nearest thousand dollars or in certain cases to the nearest dollar in accordance with ASIC Corporations Instrument 2016/191.

a. Principles of consolidation

The consolidated financial statements comprise the financial statements of the Group and the entities it controlled at the end of, or during the year ended 30 June 2026. The Group controls an investee if and only if the Group has:

- power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses

control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

b. Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. In the case of syndicates, significant influence can exist with a lower shareholding by virtue of the Group's position as project manager. Investments in associates are accounted for using the equity method of accounting.

The Group's share of its associates' post-acquisition profits or losses are recognised in the consolidated statement of profit or loss, and its share of post-acquisition other comprehensive income is recognised in other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividends received from associates are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

c. Investments in joint arrangements

Joint arrangements are arrangements of which two or more parties have joint control. Joint control is the contractual agreed sharing of control which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. Joint arrangements are classified as either a *joint operation* or *joint venture*, based on the rights and obligations arising from the contractual obligations between the parties to the arrangement.

To the extent the joint arrangement provides the Group with rights to the individual assets and obligations arising from the joint arrangement, the arrangement is classified as a joint operation and as such, the Group recognises its:

- assets, including its share of any assets held jointly;
- liabilities, including its share of any liabilities incurred jointly;

Notes to the Consolidated Financial Statements

Year ended 30 June 2026

- share of revenue from the sale of the output by the joint operation; and

expenses, including its share of any expenses incurred jointly.

To the extent the joint arrangement provides the Group with rights to the net assets of the arrangement, the investment is classified as a joint venture and accounted for using the equity method. Under the equity method, the cost of the investment is adjusted by the post-acquisition changes in the Group's share of the net assets of the venture.

d. Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a gain or loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of Peet Limited.

e. Changes in accounting policies

The accounting policies adopted in the preparation of the financial report are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 30 June 2025, except for changes arising from the adoption of new and amended accounting standards and interpretations effective as at 1 July 2025.

Several other amendments and interpretations apply for the first time on 1 July 2025, but do not have a material impact on the Group. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

3. How to read the financial report

The notes to the financial statements are set out in four specific sections:

- Performance for the year
- Operating assets and liabilities
- Capital management
- Other notes

Where an accounting policy is specific to one note, the policy is described in the note to which it relates.

Key estimates are described in the following notes:

- Note 5 - constraints on project management & selling fees and estimates on percentage completion
- Note 9 - net realisable value
- Note 11 - ECL allowance
- Note 15 – provision for development costs to complete
- Note 21 - fair value estimation

Financial risks and its management are detailed in the respective notes it pertains to. The Group's activities expose it to financial risks including (note 17):

- liquidity risk
- credit risk; and
- interest rate risk.

Related party transactions are disclosed within the notes they relate to. Transactions which occur between the Group and significant controlled entities are classified as related party transactions. Significant controlled entities are interests held in associates and joint ventures, which are set out in note 10. Details relating to the key management personnel, including remuneration paid, are set out in note 6.

Performance for the year

This section focuses on the results and performance of the Group.

4. Segment information

Operating segments are reported in a manner that is consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive management group.

The executive management group assesses the performance of the operating segments based on multiple measures including earnings before interest (including interest and finance charges amortised through cost of sales), tax, depreciation and amortisation (EBITDA), earnings before interest (including interest and finance charges amortised through cost of sales) and tax (EBIT) and profit after tax.

The share of profits from associates and joint ventures is included as segment revenue as it is treated as revenue for internal reporting purposes.

The Group operates only in Australia.

The executive management group considers the business to have the following reportable business segments:

Funds management

Peet enters into asset and funds management agreements with external capital providers. Peet and/or the external capital provider commit equity funds towards the acquisition of land and this is generally supplemented with debt funds either at the time of acquisition or during the development phase of a project.

The Group derives fees from underwriting, capital raising and asset identification services. Ongoing project related fees (mainly project management and selling fees as well as performance fees) are then derived by the Group for the duration of a particular project.

Company-owned projects

The Group acquires parcels of land in Australia, primarily for residential development purposes. Certain land holdings will also produce non-residential blocks of land.

Joint arrangements

Joint arrangements are entered into with government, statutory authorities and private landowners. The form of these arrangements can vary from project to project but generally involves Peet undertaking the development of land on behalf of the landowner or in conjunction with the co-owner. The Group is typically entitled to ongoing fees for management of the development project and also a share of the profits.

Inter-segment transfers and other unallocated

Segment revenue, expenses and results include transfers between segments. Such transfers are based on an arm's length basis and are eliminated on consolidation.

Certain property syndicates are consolidated where the Group is considered to have control. These entities however, continue to be managed and reported to the executive management group as part of the funds management business segment. Adjustments are included in "Inter - segment transfers and other unallocated" to reconcile reportable business segment information to the Group's consolidated statement of profit or loss.

Recognition and measurement

The main streams of revenue recognised by the Group relate to the sale of land and built form, and the provision of management and selling services. Revenue from contracts with customers is recognised when or as the Group transfers control of the goods and services to a customer at an amount that reflects the consideration to which the Group is expected to be entitled in exchange for those goods and services. Revenue is recognised when or as each performance obligation is satisfied at the amount of the transaction price allocated to that performance obligation. If the consideration in the contract includes a variable amount, the Group estimates the amount of the consideration to which it is entitled in exchange for transferring the goods and services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal of the amount of the cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. When a performance obligation is satisfied by transferring a promised good or service to the customer before the customer pays consideration or before payment is due, the Group presents the revenue as a contract asset, unless the Group's rights to the amount of consideration are unconditional, in which case the Group recognises a receivable.

The Group recognises contract fulfilment costs as an asset only if the costs relate directly to a contract, the costs generate or enhance resources of the Group that will be used to satisfy future performance obligations and the costs are expected to be recovered. If not capitalised, contract fulfilment costs are expensed as incurred.

Sale of land and built form

Revenue from the sale of land and built form is recognised on settlement of the sale. This represents the point when control (title) has passed to the customer.

Project management

Project management represents a single performance obligation that is satisfied over time for the oversight and management of the development. The consideration receivable under the contract allocated to project management is variable and is measured using an expected value approach subject to a constraint. The transaction price is based on the relative standalone selling price. Revenue is recognised using an output method based on development milestones reached. Payment is received on settlement.

Selling services

This service represents a performance obligation to facilitate the sale of an individual lot which is satisfied over the short period of time relating to the procedural steps of finalising the sale of the property to a purchaser. The consideration receivable under the contract allocated to selling services is considered to be variable consideration and is measured on a portfolio basis using an expected value approach subject to a constraint. The transaction price is based on the relative standalone selling price of the service. Payment is received on settlement.

KEY ESTIMATES

Constraints on project management & selling fees

An analysis of sales fall over rates and minimum selling prices is performed for all business segments by location. This analysis, on a portfolio basis, is used to determine an appropriate constraint for revenue recognised against project management and selling fees.

Percentage completion

An analysis of development milestones is performed to determine an appropriate percentage of completion for completed lots.

Land and development costs

Land and development costs represent the portion of the land and development costs associated with the lots sold during the year (cost of sales).

Borrowing costs

Borrowing costs incurred for the construction of any qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period they are incurred. The capitalisation rate used to determine the amount of finance costs to be capitalised is the weighted average interest rate applicable to the Group's outstanding borrowings during the year (refer note 17).

There are 1,200,000 options excluded from the calculation of diluted earnings per share as they are anti-dilutive. They could potentially dilute basic earnings per share in the future.

Refer to note 25 for the number of Performance Rights (PRs) outstanding at 30 June 2026. These PRs are contingently issuable shares and accordingly not included in diluted earnings per share.

Recognition and measurement

Current taxes

The income tax expense for the period is the tax payable on the current period's taxable income based on the applicable income tax rate, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred taxes

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply, when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction by the end of the reporting period. The relevant tax rates are applied to the amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arise in a transaction other than a business combination that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

1. The write-downs are from several non-core projects that are to be divested. The estimated net realisable values used to calculate the write-down provisions are based on the latest valuations and management's assessment of the market for each project.

Recognition and measurement

Land held for development and resale is stated at the lower of cost and net realisable value. Cost includes the cost of acquisition, development and borrowing costs during development. When development is completed, borrowing costs and other holding charges are expensed as incurred.

Land is initially classified as non-current. It is subsequently reclassified to current if the development/subdivided lots are expected to be sold within the next 12 months.

KEY ESTIMATES

Net realisable value

The Group is required to carry inventory at lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. Estimates of net realisable value are based on the most reliable evidence available at the time the estimates are made, of the amount the inventories are expected to realise and the estimate of costs to complete. The key assumptions require the use of management judgement and are reviewed annually.

2. The Group has entered into financing arrangements (including loans and equity contributions in cash) with certain associates and JVs of the Group on commercial terms. The loans provided to associates and JVs are unsecured and are either interest free or have interest rates based on Bank Bill Swap Bid Rate (BBSY) plus a margin up to 5%.

Refer to note 27(a) for accounting policy on financial assets and note 21 for fair value disclosures.

KEY ESTIMATES

ECL allowance

For loans to associates and joint ventures, ECL allowance is determined on a probability of default on a loan by loan basis.

For trade receivables, the group recognises loss allowances based on lifetime ECL at each reporting date.

Recognition and measurement

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. These amounts are unsecured and usually paid within 30 days of recognition.

Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the reporting date. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Refer note 21 for fair value disclosures.

Total land vendor liabilities	58,990	42,095

Recognition and measurement

Where the Group enters into unconditional contracts with land vendors to purchase properties for future development that contain deferred payment terms, these borrowings are initially measured at fair value and subsequently carried at amortised cost. The unwinding of the discount applied to the acquisition price is included in finance costs. Generally, the land vendor holds the title over the property until settlement has occurred.

Refer note 21 for fair value disclosures.

The below table analyses the maturity of the Group's land vendor liability obligation:

KEY ESTIMATES

Provision for development costs to complete

Costs not yet incurred for lots settled are taken into account in the cost of sales for these lots. The portion of cost of sales relating to these future costs are recognised as a provision in the Statement of Financial Position. The actual costs may vary from the estimated future costs due to variations in estimates.

15. Provisions (continued)

Recognition and measurement

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the balance date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Rebates

The Group may be required under the terms of certain sale contracts to provide rebates for expenditures undertaken by land holders in respect of developments. These expenditures relate to landscaping and fencing and are generally payable where the land purchaser completes the construction of their dwelling within a specified period of time. This period is generally 12 to 18 months from the date of settlement. A liability is recorded for rebates at settlement and is measured at the amount of consideration receivable under the sales contract for which the Group does not expect to be entitled. The provision is updated at the end of each reporting period for changes in circumstances.

Employee entitlements

The liability for long service leave and annual leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the balance date. Consideration is given to expected future wage and salary levels, experience of the employee, departures and periods of service. Expected future payments are discounted using market yields at the reporting date on high quality corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Liabilities for wages and salaries, including non-monetary benefits and accumulating sick leave expected to be settled within 12 months of the balance date are measured at the amounts expected to be paid when the liabilities are settled.

Development costs to complete

Provisions for development costs not yet incurred for lots settled are recognised at each reporting date based on the estimated costs to complete. Development costs expensed during the year includes an allocation of estimates of future infrastructure costs which are incurred over the life of the development.

Capital management

This section outlines how the Group manages its capital and related financing costs.

For the purpose of the Group's capital management, capital includes:

- issued capital;
- debt facilities; and
- other equity reserves attributable to the equity holders of the parent.

The Group's objectives when managing capital are to:

- safeguard its ability to continue as a going concern;
- continue to provide returns to shareholders and benefits for other stakeholders;
- maintain an efficient capital structure to reduce the cost of capital; and
- ensure all covenants are complied with.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as total interest-bearing liabilities (including deferred payment obligations) less cash, divided by total assets adjusted for market value, net of cash and cash equivalents less intangible assets. The market value is based on the latest independent mortgage valuations, adjusted for settlements, development costs and titled stock between the date of valuation and 30 June 2026. At 30 June 2026, the bank covenant gearing ratio was 19.8% (2025: 23.6%).

17. Financial liabilities

Net debt

	2026	2025
	\$'000	\$'000
Borrowings – Current	7,445	-
Borrowings – Non-current	207,703	289,743

Cash and cash equivalents	(14,536)	(47,310)
Net debt	200,612	242,433

* Excludes vendor financing. Refer note 14 for vendor financing on deferred payment terms.

Recognition and measurement

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the statement of profit or loss over the period of the borrowings using the effective interest method.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

Refer note 21 for fair value disclosures.

a. Bank loans

The Group's main bank facility comprises of three tranches of \$175 million, \$100 million and \$100 million with expiry dates of 1 October 2027, 1 October 2028 and 1 October 2029 respectively. The facility is secured by a first registered fixed and floating charge over the assets and undertakings of the Group with a carrying amount of \$858 million (2025: \$884 million). Under the main facility, the Group is required to meet certain financial covenants including interest cover, gearing ratio, real property ratio and minimum shareholders' equity. All bank covenants have been met during the reporting period and as at 30 June 2026.

The Group also has bank facilities associated with Peet Yanchep Land Syndicate (\$26 million, stepping down to \$20 million from 31 October 2027 and expires on 30 September 2028) and Peet R B Plains Pty Ltd (\$5 million, stepping down to \$4 million from 1 July 2026 and expires on 30 June 2027).

The table below analyses the maturity of the Group's bank loans based on the remaining period at reporting date to the contractual maturity date:

Liquidity risk

Liquidity risk includes the risk that the Group, as a result of their operations:

- will not have sufficient funds to settle a transaction on its due date;
- will be forced to sell financial assets at a value which is less than what they are worth; or
- may be unable to settle or recover a financial asset at all.

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities to meet obligations when

Notes to the Consolidated Financial Statements

Year ended 30 June 2026

due, and the ability to close-out market positions. Due to the dynamic nature of the underlying business, the Group aims at maintaining flexibility in funding by keeping committed credit lines available, and regularly updating and reviewing its cash flow forecasts to assist in managing its liquidity.

The Group has unused borrowing facilities which can further reduce liquidity risk (refer to note 17 for analysis of maturities on borrowing facilities).

Credit risk

The cash component of financial assets is considered to have low credit risk as the counterparties are banks with high credit ratings assigned by international credit-rating agencies. The Group recognised an expected credit loss of \$0.3 million (2025: \$2.4 million) for impaired trade receivables and an expected credit loss provision of \$1.3 million (2025: \$2.7 million) for loans measured at amortised cost of \$49.2 million (2025: \$34.8 million) (refer to note 11 and 27).

Interest rate risk

The Group's main interest rate risk arises from cash, loans to associates and joint ventures measured at fair value and long-term borrowings.

Borrowings issued at variable rates expose the Group to cash flow interest rate risk.

The Group manages its interest rate risk by both variable and fixed rate debt instruments.

The Group's fixed rate borrowings and certain loans to associates and joint ventures at fixed rate are not subject to interest rate risk.

Interest rate sensitivity

The sensitivity analysis below has been determined based on the exposure to interest rates in existence at balance date, and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period. A 50 basis point increase and 50 basis point decrease used in the interest rate sensitivity analysis were determined based on the level of debt that was renewed and forecasters' economic expectations and represents management's assessment of the possible change in interest rates.

At 30 June 2026, the Group had the following mix of financial assets and liabilities exposed to variable interest rates:

	2026 \$'000	2025 \$'000
Financial assets		
Cash and cash equivalents (floating)	14,536	47,310
Loans to associates and joint ventures measured at fair value	7,933	16,211
Financial liabilities		
Borrowings (floating, unhedged)	(133,378)	(208,488)

The potential impact of a change in interest rates by +50/-50 basis points on profit and equity has been tabulated below:

	Post-tax profits		Equity	
	Increase/(decrease)		Increase/(decrease)	
	2026 \$'000	2025 \$'000	2026 \$'000	2025 \$'000

	Share buyback	-	-
30 June 2026	Closing balance	468,158,956	362,577

The nature of the Group's contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares of options and/or performance rights are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares, options and/or performance rights for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration. Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the parent entity in proportion to the number of and amounts paid on the shares held. On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share held is entitled to one vote.

b. Reserves

At 30 June 2026	10,679	(16,102)	(5,423)

1. The share-based payments reserve is used to recognise the fair value of options and performance rights granted.

2. The non-controlling interest reserve is used to record the differences described in note 2(d) which may arise as a result of transactions with non-controlling interests that do not result in a loss of control.

3. In FY25, the Company purchased 6,689,655 shares to settle the vested performance rights.

4. During the year, the Company purchased 110,000 shares to settle the vested performance rights.

21. Fair value measurement

Valuation of financial instruments

For financial assets and liabilities, the Group uses the following fair value measurement hierarchy:

- Level 2: the fair value is determined using inputs other than quoted market prices that are observable for the asset or liability either directly (as prices) or indirectly (derived from prices).
- Level 3: the fair value is based on inputs for the asset or liability that are not based on observable market data.

There have been no transfers between levels during the period.

Financial assets

Certain loans to associates and joint ventures are carried at fair value through profit or loss. The fair values of these financial assets have been estimated using discounted cashflows with significant unobservable inputs at each reporting date (level 3 of the fair value hierarchy).

At 30 June 2026, the fair value of these loans to associates and joint ventures is \$7.9 million (30 June 2025: \$16.2 million).

Land vendor liabilities

The Group measures its land vendor liabilities at fair value at inception and then at amortised cost at each reporting date. The land vendor liability resulting from project acquisitions is measured as the net present value of remaining contracted instalments with significant unobservable inputs (level 3 of the fair value hierarchy). The carrying value of the land vendor liability at 30 June 2026 is related to the acquisition of land from the University of Canberra in November 2023.

Peet notes

The fair value of Peet notes as at 30 June 2026 is detailed below.

	2026 \$'000	2025 \$'000
Peet Notes 2021	-	74,193
Peet Notes 2024	72,010	77,375
Total fair value	72,010	151,568
Total carrying value	74,325	148,845

For the above table, the fair value of Peet notes is measured using significant observable inputs (level 2).

Other financial liabilities

The financial liabilities are measured at fair value through profit or loss using discounted cashflows with significant unobservable inputs at each reporting date (level 3).

KEY ESTIMATES

Fair value estimation

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date.

Receivables/borrowings are evaluated by the Group based on parameters such as interest rates and individual creditworthiness of the counter party. Based on this evaluation, allowances are taken into account for the expected losses of these receivables.

The carrying amount of trade receivables and payables less impairment provision of trade receivables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

23. Contingencies and commitments

Contingencies

Details of the estimated maximum amounts of contingent liabilities (for which no amounts are recognised in the financial statements) are as follows:

	2026	2025
	\$'000	\$'000
Bank guarantees outstanding	26,685	32,406
Insurance bonds outstanding	23,041	25,091
	49,726	57,497

The majority of the above contingent liabilities are expected to mature within one year.

As set out in Peet Limited's announcement to the ASX on 18 July 2024, Peet Development Management Pty Limited (PDM), a wholly owned subsidiary of Peet Limited, is a party to proceedings in the Supreme Court of New South Wales by way of cross-claim brought by DTM Investments (ACT) Pty Ltd (DTM). The cross-claim relates to PDM's former role as development manager of the Atria development in the ACT. PDM strenuously denies the claims brought against it and is continuing to defend them. The parties continue to progress the procedural aspects of the proceedings, however, DTM has not yet provided particulars of its alleged loss and damage. It remains not practicable to reliably estimate the financial effect of the claims at this time.

The Directors are not aware of any circumstances or information, which would lead them to believe that these contingent liabilities will eventuate and consequently no provisions are included in the accounts in respect of these matters.

Commitments

As of 30 June 2026, the Group had a commitment of \$13.95 million for the acquisition of approximately 2 hectares of land in Keysborough, VIC. Settlement is expected to occur in first half of FY27.

The payment is subject to settlement which remains conditional at the balance date. Therefore, no liabilities have been recognised as at 30 June 2026.

Deed of cross guarantee

Peet Limited and certain wholly-owned subsidiaries are parties to a deed of cross guarantee under which each company guarantees the debts of the other. By entering into the deed, the wholly-owned entities have been relieved from the requirements to prepare a financial report and directors' report under ASIC Corporations (Wholly-owned Companies) Instrument 2016/785 issued by the Australian Securities and Investments Commission.

The companies represent a 'closed group' for the purposes of the Class Order.

Peet Employee Share Option Plan (PESOP) and Peet Performance Rights Plan (PPRP)

The establishment of the PESOP was approved by the Board and shareholders during the 2004 financial year and the Peet Limited PPRP was approved by shareholders at the 2008 AGM. Employees of any Group Company (including Executive Directors) will be eligible to participate in the PESOP and/or PPRP at the discretion of the Board.

Invitations to apply for options and/or performance rights

Eligible employees, at the discretion of the Board, may be invited to apply for options and/or performance rights on terms and conditions to be determined by the Board.

Eligible employees may apply for part of the options and/or performance rights offered to them, but only in specified multiples.

Consideration

Unless the Board determines otherwise, no payment will be required for a grant of performance rights under PPRP.

Vesting and exercise conditions

Under the plans, options and/or PRs only vest if the employees are still employed by the Group at the end of the vesting period, subject to the Board's discretion, and any set performance hurdles have been met.

Generally, as a pre-condition to exercise, any exercise conditions in respect of an option and/or performance right must be satisfied. However, the Board has the discretion to enable an option and/or performance right holder to exercise options and/or performance rights where the exercise conditions have not been met, including, for example, where a court orders a meeting to be held in relation to a proposed compromise or arrangement in respect of the Company, or a resolution is passed or an order is made for winding up the Company. This discretion is always subject to the requirements of the *Corporations Act 2001* and/or ASX Listing Rules. Options granted under the PESOP and performance rights under the PPRP carry no dividend or voting rights.

25. Share-based payments (continued)

Lapse of options and performance rights

Unexercised options and/or performance rights will lapse upon the earlier to occur of a variety of events specified in the rules of the PESOP and PPRP including, on the date or in circumstances specified by the Board in the invitation, failure to meet the options' or performance rights' exercise conditions in the prescribed period or on the expiry date of options and/ or performance rights, as determined by the Board.

Fair value of options and performance rights granted

The fair value of an option and PRs at grant date is determined using a Black-Scholes option pricing model and the value of a performance right at grant date is determined using a Binomial pricing model. The models take into account the exercise price, the term of the option and/or performance right, the vesting and performance criteria, the impact of dilution, the non-tradeable nature of the option or performance right, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option and/or performance right.

The inputs for assessing the fair value of the performance rights issued during the year under the PPRP were:

Grant Date	Exercise Price	Expiry date	Share price at grant date	Risk free interest rate	Assessed fair value
6 Oct 25	\$0.00	6 Oct 40	\$1.92	3.23%	\$1.659

The expected price volatility is based on the historic volatility (based on the remaining life of the options and/or performance rights), adjusted for any expected changes to future volatility due to publicly available information.

Total expenses arising from share-based payment transactions recognised during the year as part of employee benefits expense is \$1.8 million (2025: \$3.5 million).

27. Other material accounting policies

a. Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under AASB 15.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortised cost (debt instruments)

This category is the most relevant to the Group. The Group measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are

subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's financial assets at amortised cost includes trade receivables, and loans to associates and JVs included under Receivables.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes loans to associates and joint ventures.

Impairment

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Notes to the Consolidated Financial Statements

Year ended 30 June 2026

The Group considers a financial asset in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

b. Leases

For leases with a lease term greater than 12 months that are not considered low value leases (see below), right-of-use assets and associated lease liabilities are recognised at the commencement of the lease.

Right-of-use assets are measured at cost initially and then depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are subject to impairment.

The lease liability is initially measured at net present value of future lease payments using the Group's incremental borrowing rate. The lease payments include fixed payments less any lease incentives receivable and variable lease payments that depend on an index or a rate. The lease payments are allocated between repayment of lease liability and interest expense (charged to profit or loss over the lease period). In addition, the carrying amount of lease liabilities is remeasured if there is a modification or a change in the lease term.

For short-term leases and leases of low-value assets, lease payments are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 month or less. Low-value assets are generally small items of office equipment.

c. Property, plant and equipment

Property, plant and equipment are shown at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives, as follows:

- Fixtures and fittings – 3 to 10 years
- Leasehold improvements – 10 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the statement of profit or loss.

d. Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the balance sheet.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

e. Parent entity financial information

Tax consolidation legislation

Peet Limited and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation as of 1 July 2003. Peet Limited is the head entity of the tax consolidated group. Members of the group are taxed as a single entity and the deferred tax assets and liabilities of the entities are set-off in the consolidated financial statements.

The entities in the tax consolidated group entered into a tax sharing agreement which limits the joint and several liability of the wholly-owned entities in the case of a default by the head entity, Peet Limited. At the balance sheet date the possibilities of default were remote.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the Group.

Any difference between the amount assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) the wholly-owned entity.

Investments in subsidiaries

Investments in subsidiaries are accounted for at cost in the separate financial statements of Peet Limited. Such investments include both investments in shares issued by the subsidiary and other parent entity interests that in substance form part of the parent entity's investment in the subsidiary. These include investments in the form of interest-free loans which have no fixed repayment terms and which have been provided to subsidiaries as an additional source of long-term capital.

f. New accounting standards and interpretations issued but not yet effective

Other than below amendments, there are no new and amended accounting standards that are not yet effective and are expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

AASB 18 Presentation and Disclosure in Financial Statements (“AASB 18”)

In June 2024, the Australian Accounting Standards Board issued AASB 18 to improve how entities communicate in their financial statements, with a particular focus on information about financial performance in the statement of profit or loss. The key presentation and disclosure requirements established by AASB 18 are:

- The presentation of newly defined subtotals in the statement of profit or loss
- The disclosure of management-defined performance measures
- Enhanced requirements for grouping information (i.e. aggregation and disaggregation)

The new standard is effective for annual reporting periods beginning on or after 1 January 2027. The Group is currently assessing the impact of the new standard however expects there to be significant impact to the disclosure of the consolidated statement of profit of loss and other comprehensive income.

Independent auditor's report to the members of Peet Limited

Report on the audit of the financial report

Opinion

We have audited the financial report of Peet Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated balance sheet as at 30 June 2026, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at 30 June 2026 and of its consolidated financial performance for the year ended on that date; and
- b. Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to audits of the financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the financial report* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

1. Recoverability of inventories

Why significant	How our audit addressed the key audit matter
Land held for development and resale is treated by the Group as inventories and is valued at the lower of cost and net realisable value. As at 30 June 2026, total inventories amounted to \$747,204,000 as disclosed in Note 9 of the financial report. The recoverability of inventory is considered a key audit matter as it represents approximately 70% of the Group's total assets and the determination of net realisable value is affected by judgments and estimates within the development models over the expected life of each development, including the remaining costs to develop and sell the land and the estimated sales value. These values are sensitive to changes in the underlying economic environment and market forces.	Our audit procedures included the following: ▪ We assessed the effectiveness of controls over the Group's review process related to project monitoring, including the preparation and review of feasibility reports, independent property valuations and updates at the related executive and board level, including their assessment of recoverability. We also assessed controls over the process for the approval to commence or amend significant projects ▪ We inquired of the Group's current intention and strategy in relation to long term strategic assets ▪ We assessed the experience and industry expertise of management's internal experts in relation to the assumptions used in the development models ▪ We evaluated the competence, capability and objectivity of the Group's independent valuation experts ▪ We evaluated the Group's significant projects to understand project costs to date and estimated costs to complete, the progress of the development including overall margins achieved on lots sold to date and expected sale prices for remaining lots ▪ We assessed the assumptions and resultant valuations within a sample of independent property valuations and compared these to the assumptions used within management's development models ▪ In conjunction with our real estate valuation specialists, we assessed the development models prepared by the Group for a sample of long term projects. This included

	evaluating the assumptions used in the development models by: - Comparing project costs and sales values to the most recent historical or comparable sales transactions; - Assessing the valuation methodology used was complete, adequate and consistent with the Group's standard valuation methodology given the circumstances of the project. - We tested the mathematical accuracy of the development models - We assessed the adequacy and appropriateness of the disclosures included in the Notes to the financial statements.

2. Land and development costs expensed during the year

Why significant	How our audit addressed the key audit matter
The Group has expensed as cost of sales, land and development costs of \$234,592,000 related to sold properties as disclosed in Note 6 of the financial report. As disclosed in Note 15 of the financial report development costs expensed during the year includes an allocation of estimates of future infrastructure costs which are incurred over the life of the development. The allocation and measurement of land and development costs applicable to lots sold was considered a key audit matter as it involves judgment and is affected by forecast development timing and estimates of future infrastructure costs relating to the specific development.	Our audit procedures included the following: - We evaluated the basis of estimation and allocation of total development costs and the allocation of costs to complete to properties sold in accordance with the requirements of Australian Accounting Standards - We assessed the effectiveness of controls over the review and approval of cost calculations, including management's process around forecasting development costs - We selected a sample of cost calculations to assess whether they were mathematically accurate and appropriately allocated to specific property lots - We assessed the costs allocated to each property and the gross margin on the sales transactions. This included projections over the life of the project to identify and substantiate significant variations - We assessed the adequacy and appropriateness of the disclosures included in the Notes to the financial statements.

3. Investments in and loans to associates and joint ventures

Why significant	How our audit addressed the key audit matter
As at 30 June 2026, the Group has interests in associates and joint ventures, involved in property development, which are accounted for using the equity method, amounting to \$202,512,000 and loans to associates and joint ventures of \$55,871,000 as disclosed in Notes 2, 10 and 11 of the financial report. Interests in associates and joint ventures comprise: - The Group's equity-accounted investment in a number of associates and joint venture arrangements; and - Loan facilities provided by the Group to certain associates and joint ventures. These unsecured loans are either recognised at amortised cost using the effective interest rate method, less an allowance for expected credit loss or, where appropriate, at fair value through the profit or loss. This was considered a key audit matter due to the following: - The assessment of the recoverability of the carrying value of investments is subject to significant judgment as to the performance of the underlying developments. Significant changes in assumptions impacting project cash flows may give rise to impairment - The measurement of expected credit loss associated with the loans at amortised cost is subject to judgment with respect to the probability of default and credit rating applicable to each loan - The measurement of loans at fair value through the profit or loss is subject to judgment with respect to the appropriate interest rate applicable to each loan.	Our audit procedures included the following: - For new investments entered into during the year, we assessed the arrangements to understand the ownership interest and rights of each party. This included assessing the Group's assessment of whether an entity is jointly controlled and whether its application of the equity method of accounting to the investment is appropriate - For existing joint ventures and associates, we assessed whether there had been any changes to the arrangements with respect to decision making power and exposure to variable returns - We assessed the financial performance and financial position of the associates and joint ventures, and the Group's going concern assessment of the relevant entities as one of the indicators of potential impairment - We evaluated the recoverability of interests in associates and joint ventures by assessing the feasibilities of the underlying development assets at the associate and joint venture level. We obtained an understanding of the status of the underlying developments, assessed the historical performance of the underlying developments, where applicable and the reasonableness of forecast development outcomes for the remainder of the project including the assumptions adopted in light of current market evidence. We also evaluated a sample of independent property valuations - We evaluated the Group's assessment of the recoverability of the loans to associates and joint ventures, carried at amortised cost, including the inputs used in the expected credit loss calculation - We assessed the interest rates used to value loans to associates and joint ventures measured at fair value through the profit or loss against prevailing market rates and assessed the expected timing of loan repayments

	▪ We assessed the adequacy and appropriateness of the disclosures included in the Notes to the financial statements.

Information other than the financial report and auditor's report thereon

The directors are responsible for the other information. The other information comprises the information included in the Company's 2026 Annual Report other than the financial report and our auditor's report thereon. We obtained the Directors' Report and the Corporate Governance Statement that is to be included in the Annual Report, prior to the date of this auditor's report, and we expect to obtain the remaining sections of the Annual Report after the date of this auditor's report.

Our opinion on the financial report does not cover the other information and we do not and will not express any form of assurance conclusion thereon in this auditor's report, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of:

- The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- The consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*; and

for such internal control as the directors determine is necessary to enable the preparation of:

- The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and

with confidence**

- The consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern

**Shape the future

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation
- Plan and perform the Group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial report. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the audit of the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2026.

In our opinion, the Remuneration Report of Peet Limited for the year ended 30 June 2026, complies with section 300A of the *Corporations Act 2001*.
