Significant Features of Operating Performance

During the reporting period, Acorn Capital Investment Fund Limited (the Company or ACQ) continued to invest in equity and debt securities, and also derivatives, in accordance with its governing documents.

The most appropriate measure of the Company's financial performance is profit after tax. Total comprehensive income/(loss) for the reporting period ended 30 June 2026 was \$6,252,689 (2025: \$9,671,703).

The profit/(loss) before income tax for the reporting period was \$8,752,575 (2025: \$13,480,718).

The profit/(loss) after income tax for the reporting period was \$6,252,689 (2025: \$9,671,703).

Basic earnings /(loss) per share after income tax was 6.96 cents (2025: 10.84) for the reporting period.

Significant Impacts on Future Performance

The results of the Company's operations may be affected by a number of factors, including the performance of investment markets in which the Company invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Statement of Comprehensive Income, Statement of Financial Position, Statement of Cash Flows, Statement of Changes in Equity & Notes to the Accounts

Refer to the following 2026 Annual Report.

Audit

This report has been based on accounts which have been audited by the Company's auditors.

Chairman's review

Dear Shareholder

ACORN CAPITAL INVESTMENT FUND LIMITED (the "Company")
ACORN CAPITAL LIMITED (the "Manager")

In the year to 30 June 2026, the Company has continued to invest in accordance with its objective and has a portfolio of listed and unlisted emerging or microcap, companies (being those companies smaller than the ASX-250th largest company by market capitalisation) with the aim of providing shareholders with the opportunity for long term capital appreciation. Since inception (May-2014), the Company has performed strongly generating a 10.9% pa. return, versus the benchmark of 6.9%pa.

For the year to 30 June 2026, the ACQ portfolio has returned 9.8%, where portfolio performance is calculated as the movement in Net Tangible Assets (NTA) before tax effects, which is post all management fees, performance fees and operating costs and using the closing bid price. Performance includes dividends paid and payable but has not been grossed up for franking credits received by shareholders. Over the same period, the S&P/Small Ordinaries Accumulation Index has returned 8.1% meaning ACQ outperformed during the financial year. The outperformance during the year was mainly driven by the stock selection within the Resources and Communications sectors, marginally offset by negative contributions from the Energy and Industrials – ex Capital Goods the sectors.

The pre-tax NTA of the Company as of 30 June 2026 was \$1.1117 per share, while its post-tax NTA was \$1.1171 per share (refer to Note 20). In respect of the 2026 financial year the Company declared fully franked interim and final dividends of 3.5 cents per share each. Importantly, as of 30 June 2026 the Company has \$30.8 million in reserves available for the payment of dividends in the future.

The Board believes that the ability of the Company's portfolio to outperform relative to the broader Australian listed equities market reflects the disciplined implementation of the investment strategy to achieve diversification by industry and stock number. A distinguishing feature of the Company's investment strategy continues to be its holdings in unlisted investments.

The investment strategy deployed by the Company aims to deliver investors returns through both capital growth and income through a proven approach to stock selection and portfolio construction developed and deployed by the Manager over more than 25 years. ACQ has historically demonstrated its ability to offer investors a steady and attractive fully franked stream of dividends (the cash dividend yield is 7.1% as of 30 June 2026).

On behalf of the Board, I would like to thank you for your support of the Company. Your Directors and the Manager are committed to continuing the success of the Company.

John Steven
Chairman
27 August 2026

Investment Manager's review

SUMMARY OF RESULTS

As illustrated in Table 1, the Company has returned a net portfolio return of 10.9% pa. since its inception on 1 May 2014. Over the same period the S&P/ASX Small Ordinaries Accumulation Index has returned 6.9% pa..

Table 1. Performance of ACQ and relevant Indices

At 30 June 2026, the 10 largest stock holdings account for approximately 34.9% of the Company's portfolio.

I would like to take this opportunity to thank you for your support.

Robert Routley
Chief Executive Officer
Acorn Capital Limited

Corporate governance statement

Acorn Capital Investment Fund Limited (the **Company**) is a listed investment company whose shares are traded on the Australian Securities Exchange (**ASX**). The Company has no employees and its day-to-day functions and investment activities are managed by Acorn Capital Limited (the Manager) in accordance with the Management Agreement dated 11 March 2014 as amended (**Management Agreement**).

The Board is committed to operating effectively and in the best interests of shareholders. This Corporate Governance Statement reports against the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations (4th Edition) (**ASX Recommendations**). To the extent they are relevant to the Company, the ASX Recommendations have been adopted by the Company. Where, after due consideration, the Company's corporate governance practices depart from an ASX Recommendation, this Corporate Governance Statement sets out the reasons for the departure.

The ASX Recommendations provide that a number of its recommendations may require modification or may not apply to externally managed listed entities.

The Company is externally managed by the Manager and therefore Recommendations 1.1, 1.2, 1.3, 1.4, 1.5, 1.6, 1.7, 2.1, 2.2, 2.4, 2.5, 2.6, 8.1, 8.2, 8.3, 9.1, 9.2 and 9.3 are not applicable to the Company.

This Corporate Governance Statement was approved by the Board of the Company on 27 August 2026 and the information contained in it is current as at that date, unless stated otherwise.

More information on the Company's governance practices, including Board profiles, Board and Committee charters and key governance policies, can be found in the corporate governance section of our website.

Alternative Principle 1: Lay solid foundations for management and oversight

The primary role of the Board is to act in the best interests of the Company as a whole and the Board is accountable to shareholders for the overall direction, management and corporate governance of the Company. This involves monitoring the decisions and actions of the Manager which is responsible for the day-to-day management and investment activities of the Company in accordance with the Management Agreement. The Board has also established an Audit Committee to assist the Board in carrying out its responsibilities. The Audit Committee is discussed in further detail in Principle 4 below.

The Board has formalised its roles and responsibilities and guidelines for determining Director independence in the Board Charter. A copy of the Board Charter is available on the Company's website.

The Board believes that the Company is fully compliant with the alternate requirements under Alternative Principle 1 and its recommendations.

Principle 2: Structure the Board to be effective and add value

During the relevant period, the Board comprised of four Directors, three of them are considered by the Board to be independent: John Steven (Chairman), Clark Morgan and Maureen Baker. Details of the background, experience and professional skills of each Director, as well as the period that each Director has held office, are set out in the Directors' Report. The website also sets out the skills of each individual Director. The Board regularly reviews the skills of the directors to ensure that the Company continues to maintain the skills needed to address existing and emerging business and governance issues relevant to it.

The Board believes that the Company was fully compliant with its requirements under Recommendation 2.3 and its recommendations for the reporting period.

Principle 3: Instill a culture of acting lawfully, ethically and responsibly

The Company is externally managed by the Manager and has no employees. The Company has been established to provide security holders with access to a diversified portfolio of Australian emerging companies which, over a rolling 7 – 10 year basis outperforms its benchmark, the S&P/ASX Small Ordinaries Accumulation Index.

Corporate governance statement (continued)

The Board has adopted a Code of Conduct for Directors a copy of which can be found on the website. The Company requires all of its Directors to comply with the standards of behaviour and business ethics in accordance with the law and the Code of Conduct. These include acting honestly and with integrity and fairness in all dealings with others and each other, managing conflicts of interest, complying with the laws that govern the Company's business and its operations and acting ethically in their approach to business decisions.

The Manager has also adopted a code of conduct which applies to its employees and directors.

As the Company has no employees and management of the Company has been outsourced to the Manager, the Board has adopted the Manager's whistleblower and anti-bribery policies.

The Board believes that the Company is fully compliant with its requirements under Principle 3 and its recommendations.

Principle 4: Safeguard the integrity of corporate reports

The Board has established an Audit Committee to assist the Board to implement controls designed to safeguard the Company's interests and the integrity of its reporting. During the reporting period, the Audit Committee comprised the three independent non-executive Directors, Maureen Baker (Chairperson), John Steven and Clark Morgan. The Audit Committee met twice during this period. For more information regarding the qualifications and experience of the members of the Audit Committee please refer to the Directors' Report.

For more information on the Audit Committee's meetings and attendances please refer to the Directors' Report.

The Audit Committee Charter, being the charter under which the Audit Committee operates can be found on the website.

The objectives of the Audit Committee are to:

- help the Board achieve its objective in relation to financial reporting, the application of accounting policies, legal and regulatory compliance and internal control and risk management systems;
- maintain and improve the quality, credibility and objectivity of the financial accountability process; promote a culture of compliance;
- ensure effective communications between the Board and compliance representatives of the Manager; provide a forum for communication between the Board and senior financial and compliance representatives of the Manager;
- ensure effective internal and external audit functions and communications between the Board and auditors; and
- ensure compliance strategies and compliance functions are effective.

The responsibilities of the Audit Committee include:

- external financial reporting;
- risk management and internal compliance and control systems;
- assessing and monitoring key financial risk;
- assessing and monitoring legal and regulatory risk;
- disclosure and reporting;
- overseeing the internal audit function and the engagement of the external auditor.

Corporate governance statement (continued)

The Board receives a written declaration from the relevant executives of the Manager who perform the function of Chief Executive Officer and Chief Financial Officer respectively that, in their opinion, the financial records of the Company have been properly maintained, that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the Company and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

The Company's independent external auditor is Ernst & Young. The external auditor attends the Company's Annual General Meeting and is available to answer questions from shareholders in relation to the conduct of the audit, the auditors' report and the preparation of the financial statements. The external auditor also attends other meetings where relevant items are on the Committee's agenda.

The Company has adopted a Continuous Disclosure Policy (as discussed below). As part of the continuous disclosure process a verification process is undertaken in relation to all material released to ASX including non-audited periodic reports.

The Board believes that the Company is fully compliant with its requirements under Principle 4 and its recommendations.

Principle 5: Make timely and balanced disclosure

The Company is committed to complying with its continuous disclosure obligations under the *Corporations Act 2001* and the ASX Listing Rules.

The Board has adopted a Continuous Disclosure Policy, the objectives of which are to:

- ensure the Company discloses all price-sensitive information to ASX in accordance with the ASX Listing Rules and the Corporations Act promptly and without delay;
- ensure the Company's officers are aware of the Company's continuous disclosure obligations; and
- establish procedures for the collection and assessment of potentially price-sensitive information and (if necessary) release information determined to be price-sensitive to ASX, as well as responding to any queries from ASX.

Under the Management Agreement the Manager has also agreed to assist the Company to comply with its continuous disclosure obligations by providing information and drafting ASX announcements for approval by the Board or its delegate. The Company has established a Disclosure Committee comprising members of the Board and representatives of the Manager.

The Company's Continuous Disclosure Policy, which can be found on the Company's website, also sets out the procedures which must be followed in relation to releasing announcements to the market and discussions with analysts, the media or shareholders.

Copies of material market announcements are promptly provided to directors following their release. All presentations that are made to security holders or advisory groups are made only to wholesale investors and are first released to ASX.

The Board believes that the Company is fully compliant with its requirements under Principle 5 and its recommendations.

Principle 6: Respect the rights of security holders

The Board seeks to promote effective communication with shareholders and encourage effective participations at general meetings of the Company.

Corporate governance statement (continued)

The Company's primary communication portals for shareholders are the website, Annual Report, Annual General Meeting, Half-Yearly Report, Monthly Net Tangible Asset reports and other periodic correspondence regarding matters impacting shareholders. In conjunction with these, the Company has regular investor relations meetings, which are all included in the Investor Relations Program.

The Company Secretary oversees and coordinates the distribution of all information by the Company to shareholders and regulators under the direction of the Board.

All shareholders have the opportunity to attend the Annual General Meeting and ask questions of the Board.

All resolutions proposed at virtual or hybrid meetings of shareholders of the Company and all resolutions which the Company considers to be substantive are conducted by poll.

During the Company's engagements with shareholders, such shareholders are provided the opportunity to meet with representatives of the Board or management, to learn more about the Company's activities and provide an opportunity to ask questions regarding the Company's activities. Such processes are intended to continue in the context of virtual rather than just physical meetings.

Shareholders are entitled to make and receive communications to and from the Company electronically.

The Board believes that the Company is fully compliant with its requirements under Principle 6 and its recommendations.

Principle 7: Recognise and manage risk

The Audit Committee oversees the risk management framework for the Company. For details regarding the Audit Committee please refer above to the coverage under Principle 4.

The Board, through the Audit Committee, is responsible for ensuring:

- the oversight and management of material business risks to the Company;
- that there are effective systems in place to identify, assess, monitor and manage the risks of the Company and to identify material changes to the Company's risk profile; and
- there are arrangements in place to adequately monitor compliance with laws and regulations applicable to the Company.

The Manager has implemented the risk management framework for the Company. This risk management framework identifies the key risks confronted by the Manager and the Company and the procedures required to offset them. Key risks identified include:

- operational and investment risk; and
- liquidity risk

The risk management framework is subject to annual review by the Audit Committee to ensure that the risks identified and the controls implemented remain appropriate and that the Company's risk management framework continues to be sound. A review of the Company's risk management framework was conducted during the reporting period and no material update was required.

The Company internal audit function is being undertaken by an external provider. The Audit Committee is responsible for overseeing the scope of the internal audit, monitoring the progress of the internal audit work programme and considering the implications of and responsiveness to the internal audit findings for the control environment and reviewing the internal audit team's reports.

Poor market conditions (and more specifically the potential for underperformance by the Company) have been identified as an economic sustainability risk that has the potential to materially impact the Company's ability to create or preserve value for security holders over the short, medium or long term. This risk is addressed and managed within the Company's investment strategy and through the Company's ability to diversify across sectors and in both listed and unlisted securities.

Corporate governance statement (continued)

The Company does not consider that it has material exposure to environmental or social risks.

The Board believes that the Company is fully compliant with its requirements under Principle 7 and its recommendations.

Alternative Principle 8: Remunerate fairly and responsibly

The Company has no employees. The management of the Company is performed by the Manager who is entitled under the Management Agreement to be paid management and performance fees. The Company pays the Manager a management fee of 0.95% p.a. (plus GST) of the net asset value of the investment portfolio. The management fee is calculated and accrued each month and paid semi-annually in arrears.

In addition, the Manager will be entitled to receive a performance fee from the Company equal to 20% (plus GST) of the investment portfolio's outperformance of the S&P/ASX Small Ordinaries Accumulation Index, which is calculated and accrued monthly on a pre-tax basis and, where tests are satisfied, any positive performance fee amounts that are in excess of the minimum performance fee account balance (as defined in the Management Agreement) are paid annually.

Further details of the fees paid to the Manager for the reporting period are set out in the Financial Statements of the Company in Note 12.

The Board believes that the Company is fully compliant with the alternate requirements under Principle 8 and its recommendations.

Recommendations 8.1 – 8.3 are not applicable to the Company.

Principle 9: Additional recommendations

Recommendations 9.1 – 9.3 are not applicable to the Company.

Directors' report

The Directors of Acorn Capital Investment Fund Limited (ACQ or the Company), present their report together with the annual general purpose financial report of the Company for the year ended 30 June 2026.

The Company is a public company limited by shares, is incorporated and domiciled in Australia and listed on the Australian Securities Exchange.

Directors

The following persons held office as Directors of the Company during the year and up to the date of this report, unless otherwise stated:

John Steven	Chairman and Non-Executive Director
Robert Brown	Director
Clark Morgan	Non-Executive Director
Maureen Baker	Non-Executive Director

Principal activities and significant changes in the state of affairs

The Investment Manager of the Company is Acorn Capital Limited (the 'Investment Manager' or 'Manager'). The principal activity of the Company during the year was to invest in accordance with the provisions of the Company's governing documents. The investment strategy of the Company is:

Company name	Investment strategy
Acorn Capital Investment Fund Limited	The Company invests in a portfolio of listed and unlisted microcap companies.

Effective 1 April 2026, the Company's custodian services transferred from State Street Global Advisors to The Bank of New York Mellon Corporation. Additionally, administration services transferred from Artega Investment Administration Pty Limited to SS&C Technologies Australia Pty Limited.

There were no other significant changes in the nature of the Company's activities or to the state of affairs of the Company during the year.

Operating and financial review

The results of the Company were as follows:

Basic earnings/(loss) per share after income tax were 6.37 cents for the reporting period (2025: 10.84 cents).

For the year ended 30 June	2026 \$'000	2025 \$'000
Profit/(loss) after the income tax for the reporting year attributable to the owners of the Company	6,253	9,672
Interim dividend for the financial year	3,145	2,456
Dividends proposed and will be approved	3,155	2,464

Business strategies, prospects and likely developments

The Chairman's Review and Investment Manager's Review set out information on the Company's operations, financial position and business strategies. The results of the Company's operations and prospects for financial years may be affected by a number of factors, including the performance of investment markets is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Directors' report (continued)

Business strategies, prospects and likely developments (continued)

Information in the Chairman's Review and Investment Manager's Review and the Directors' Report is provided to enable shareholders to make an informed assessment for future financial years of the Company. Information that could give rise to likely material detriment to the Company, for example, information that is commercially sensitive or could provide the Company with a commercial advantage has not been included. Other than the information set out in the Chairman's and Investment Manager's Review and the Directors' Report, information that pertains to likely developments in the Company's operations and the expected results of these operations in future financial years has not been included.

Net Tangible Asset (NTA) per share is disclosed in Note 20 to the financial statements. The NTA per ordinary share for monthly reporting, as required by ASX Listing Rule 4.12, is calculated in accordance with the definition of "net tangible asset backing" contained in Chapter 19 of the ASX Listing Rules.

As at 30 June 2026	For monthly NTA Reporting \$/share	For Financial Reporting \$/share
NTA per share before income tax (\$/share)	1.1103	1.1117
NTA after income tax excluding tax on unrealised gains (\$/share)	1.0917	1.0932
NTA per share after income tax (\$/share)	1.1157	1.1171

As at 30 June 2025	For monthly NTA Reporting \$/share	For Financial Reporting \$/share
NTA per share before income tax (\$/share)	1.1139	1.1152
NTA after income tax excluding tax on unrealised gains (\$/share)	1.1229	1.1243
NTA per share after income tax (\$/share)	1.1100	1.1113

Significant events after the balance date

At the date of this financial report, no matter or circumstance has arisen that has affected, or may significantly affect the Company's operations, the results of those operations or the Company's state of affairs in future financial years, which has not already been reflected in this report.

Likely developments and expected results

At the time the Directors approved this report, they were not aware of any developments likely to have a significant effect upon the operations or the result of the Company in subsequent financial years, which have not been adequately dealt with in this report or in the financial report.

Further information on likely developments in the operations of the Company and the expected results of those operations have not been included in this report because the Directors believe it would be likely to result in unreasonable prejudice to the Company.

Environmental regulation and performance

The operations of the Company are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

Directors' report (continued)

Information on Directors

The following persons were Directors of the Company during the financial year and up to the date of this report:

Meetings of Directors

The number of meetings of the Company's Board of Directors held during the reporting year ended 30 June 2026, and the number of meetings attended by each Director were:

	Board Meetings Attended	Board Meetings Held
John Steven	7	7
Clark Morgan	7	7
Maureen Baker	7	7
Robert Brown	7	7

	Audit Committee Meetings Attended	Audit Committee Meetings Held
John Steven	2	2
Clark Morgan	2	2
Maureen Baker	2	2

Indemnification and insurance of directors, officers and auditors

In accordance with the Company's Constitution, the Company indemnifies every person who is or has been an officer of the Company against any liability (other than for legal costs) incurred by that person as an officer of the Company (including liabilities incurred by the officer as a Director or secretary of a subsidiary of the Company where the Company requested the officer to accept that appointment), to the extent permitted by law and subject to the restrictions in section 199A of the *Corporations Act 2001* and any other applicable law.

The Company has also entered into deeds of indemnity, insurance and access with each Director. During the reporting period, the Company paid insurance premiums for liability incurred by a person as a Director while acting in that capacity, except where the liability arises out of conduct involving lack of good faith. Due to confidentiality obligations and undertakings of the insurance policy, no further details in respect of the premium or the policy can be disclosed.

To the extent permitted by law, the Company has agreed to indemnify its auditors, Ernst & Young Australia, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Ernst & Young Australia during or since the financial year.

Non-audit services

The Company may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company are important. The Directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The nature and scope of each type of non-audit service provided means that auditor independence was not compromised.

Ernst & Young Australia did not perform any non-audit services for the Company during the year ended 30 June 2026 (30 June 2025: Nil). Accordingly, no fees were paid or payable in respect of non-audit services.

Directors' report (continued)

Fees paid to and interests held in the Company by the Manager or its associates

Fees paid to the Manager out of Company property during the reporting period are disclosed in Note 12 of the financial statements.

No fees were paid out of Company property to the Directors of the Investment Manager during the reporting year.

The number of interests in the Company held by the Manager or its associates as at the end of the reporting period are disclosed in Note 12 of the financial statements.

Rounding of amounts to the nearest thousand dollars

Unless otherwise stated, monetary amounts contained in this report and the financial report have been rounded to the nearest \$1,000 under the option available to the Company under *Australian Securities and Investments Commission (ASIC) Corporations Instrument 2026/183*.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 22.

Directors' report (continued)

Remuneration report (Audited)

This report details the remuneration policy and outcomes for key management personnel ("KMP") of the Company (as defined in AASB 124 *Related Party Disclosures*) for the year ended 30 June 2026. This remuneration report forms part of the Directors' Report and has been audited in accordance with the *Corporations Act 2001*.

There is no remuneration paid to executives by the Company as their services are provided pursuant to an agreement with the Manager as disclosed below. The Company has no employees (only Directors) and therefore does not have a remuneration policy for employees. Accordingly, the Directors of the Company are the only members of KMP and this remuneration report outlines the remuneration policy and arrangements that are in place for Directors only.

The Investment Manager has been compensated with \$1,079,296 (2025: \$899,861) for management fees and \$Nil (2025: \$Nil) for performance fees.

Remuneration policy

The Board of Directors' policy is to remunerate Directors at market rates for time, commitment and responsibilities. The Board determines payments to the Directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required, subject to the Board's approval. No remuneration consultants were engaged during the reporting period and no remuneration recommendation was made.

Relationship between remuneration policy and the Company performance

Remuneration of the Directors is not linked to the performance of the Company. The Directors are remunerated with set fixed fees and do not receive any performance based pay. This enables the Directors to maintain their independence and impartiality when making decisions affecting the future direction of the Company.

Remuneration arrangements

The Directors received the following annual Director fees (inclusive of superannuation):

Director Fees	\$
John Steven	60,000
Robert Brown*	—
Clark Morgan	50,000
Maureen Baker	50,000

*Robert Brown does not receive remuneration for his services to Acorn Capital Investment Fund Limited.

Remuneration details for the reporting year ended 30 June 2026

The Directors do not receive any benefits or remuneration other than Directors' fees and statutory superannuation.

Directors' report (continued)

Details of the remuneration of the Directors, the KMP of the Company are set out in the following tables:

Name	Year	Short-term benefits	Post-employment benefits	Total
		Cash salary and fees	Superannuation	
		\$	\$	\$
John Steven	2026	53,571	6,429	60,000
Robert Brown*	2026	—	—	—
Clark Morgan	2026	44,643	5,357	50,000
Maureen Baker	2026	44,643	5,357	50,000

Name	Year	Short-term benefits	Post-employment benefits	Total
		Cash salary and fees	Superannuation	
		\$	\$	\$
John Steven	2025	53,812	6,188	60,000
Robert Brown*	2025	—	—	—
Clark Morgan	2025	45,833	5,271	51,104
Maureen Baker	2025	45,833	5,271	51,104

*Robert Brown does not receive remuneration for his services to Acorn Capital Investment Fund Limited.

Director equity interests

The following table summarises the movements in the shareholdings of Directors (including their related parties) during the reporting period.

Name	Ordinary Shares held at start of the reporting year	Other net change	Ordinary Shares held at end of the reporting year
John Steven	117,188	—	117,188
Robert Brown	98,815	1,983	100,798
Clark Morgan	50,000	—	50,000
Maureen Baker	61,000	—	61,000

Other transactions with key management personnel or entities related to them

No Director or their related parties have entered into a material contract with the Company since the last reporting date.

Loans transactions and balances

The Company has not made, guaranteed or secured, directly or indirectly any loans to the Directors or their related parties during the reporting period.

Directors' report (continued)

Authorisation

The Directors' Report, incorporating the remuneration report, is signed in accordance with a resolution of the Board of Directors.

Auditor's independence declaration to the directors of Acorn Capital Investment Fund Limited

As lead auditor for the audit of the financial report of Acorn Capital Investment Fund Limited for the financial year ended 30 June 2026, I declare to the best of my knowledge and belief, there have been:

- a. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit;
- b. No contraventions of any applicable code of professional conduct in relation to the audit; and
- c. No non-audit services provided that contravene any applicable code of professional conduct in relation to the audit.

Notes to the financial statements

1. Basis of preparation and overarching material accounting policies

These financial statements cover Acorn Capital Investment Fund Limited (the Company) as an individual entity.

The principal activity of the Company during the year was to invest in accordance with the provisions of the Company's governing documents. The investment strategy of the Company is to invest in a portfolio of listed and unlisted microcap companies.

The financial report of the Company for the year ended 30 June 2026 was authorised for issue in accordance with a resolution of the Directors on 27 August 2026. The Directors of the Company have the power to amend and reissue the financial statements. The Company is incorporated and domiciled in Australia.

Basis of preparation

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board (AASB).

Furthermore, the financial statements have been prepared on a going concern basis as the Company is expected to generate sufficient funds to enable it to pay its debts as and when they fall due.

The Company is a for-profit entity for the purposes of preparing financial statements.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for financial assets and liabilities at fair value through profit or loss. The amounts expected to be recovered or settled beyond twelve months after the end of each reporting period cannot be reliably determined.

Unless stated otherwise, the financial report is presented in Australian dollars and has been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

Statement of compliance

The financial report complies with Australian Accounting Standards as issued by the Australian Accounting Standards Board and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

Foreign currency

Both the presentation currency and the functional currency of the Company are Australian dollars.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss in the Statement of Comprehensive Income.

1. Basis of preparation and overarching material accounting policy information (continued)

Rounding of amounts

Unless otherwise stated, monetary amounts contained in this report and the Directors' report have been rounded to the nearest \$1,000 under the option available to the Company under *Australian Securities and Investments Commission (ASIC) Corporations Instrument 2026/183*.

Investment income

Investment income may include net gains or losses from financial instruments. Where applicable, these net gains include all realised and unrealised fair value changes. Any foreign exchange differences, interest, dividends and distributions are recorded as separate line items in the statement of comprehensive income.

The Company has not applied hedge accounting.

Interest revenue and interest expense

Interest revenue and interest expense is recognized in the statement of comprehensive income for all interest-bearing financial instruments on an accruals basis using effective interest rate (EIR) method when the amount can be reliably measured and receipt is probable.

Dividend and Distribution revenue

Dividend revenue is recognised on the date when the Company's right to receive the payment is established. Dividend revenue is presented gross of any non-recoverable withholding taxes, which are disclosed separately in the statement of comprehensive income.

Net gain or loss on financial assets and liabilities at fair value through profit or loss

Net gains or losses on financial assets and liabilities at fair value through profit or loss are changes in the fair value of financial assets and liabilities held for trading or designated upon initial recognition as at fair value through profit or loss and exclude interest and dividend income and expenses.

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of the prior period's unrealised gains and losses for financial instruments which were realised in the reporting period. Realised gains and losses on disposals of financial instruments classified as at fair value through profit or loss are calculated using the first in, first out (FIFO) method. They represent the difference between an instrument's carrying amount and disposal amount.

Expenses

Expenses are recognised on an accrual basis at the fair value of the consideration paid or payable for services rendered.

Expenses may include management fees, operation costs and transaction costs. Expenses may also include performance fees if permitted by the Company's governing documents. Expenses are recognised in the statement of comprehensive income.

Income tax

Income tax expense or benefit for the period is the tax payable on the current period's taxable income based on the Australian corporate income tax rate adjusted for changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses. The Company reviews its turnover and income types annually for the purposes of assessing the base rate entity requirements for taxation purposes. As the Company does not meet the base rate entity requirements, taxes are provided for at the full company tax rate of 30%.

1. Basis of preparation and overarching material accounting policy information (continued)

Income tax (continued)

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates applicable to the Company. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction that at the time of the transaction did not affect either accounting or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The Company may incur withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the statement of comprehensive income.

Income tax expense or benefit is recognised in the statement of comprehensive income.

Current and deferred tax balances are recognised in the statement of financial position.

Goods and services (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except when the GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the taxation authority, in which case the GST is recognised as part of the revenue or the expense item or as part of the cost of acquisition of the asset, as applicable.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

Cash flow transactions are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as part of operating cash flows.

Operating Segment Information

The Company operates in Australia only and the principal activity is investment.

1. Basis of preparation and overarching material accounting policy information (continued)

Basis of consolidation

The Company meets the definition of an Investment Entity under AASB 10 *Consolidated Financial Statements*, as it meets the following criteria:

- the Company obtains funds from shareholders for the purpose of providing them with investment management services;
- the Company's business purpose, which it communicated directly to shareholders, is investing solely for returns from capital appreciation and investment income; and
- the performance of investments made by the Company are measured and evaluated on a fair value basis.

The Company meets all the typical requirements of an investment entity.

The Company has concluded that consolidated financial statements are not required for entities it controls or over which it has significant influence that do not provide investment-related services to the Company.

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the reporting period.

Diluted earnings per share

Diluted earnings per share adjusts the basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

Cash and cash equivalents

Cash and cash equivalents are financial assets with fixed or determinable payments and comprise of cash at bank, cash held with custodian and short-term deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. Cash and cash equivalents are recognised at amortised cost. For the purposes of the statement of cash flows, cash and cash equivalents are stated net of any outstanding bank overdrafts.

Payments and receipts relating to the purchase and sale of investment securities at fair value are classified as cash flows from operating activities, as movements in the fair value of these securities form a part of the Company's income generating activity.

Receivables

Receivables may include such items as Reduced Input Tax Credits (RITC), amounts for dividends, interest and securities sold where settlement has not yet occurred. Dividends are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment.

Payables

Payables include liabilities and accrued expenses owing by the Company which are unpaid as the end of the period. Trades are recorded on trade date and normally settled within two business days. Purchases of financial instruments that are unsettled at the end of each year are included in payables.

1. Basis of preparation and overarching material accounting policy information (continued)

Amounts due to and from brokers

Amounts due to brokers are payables for securities purchased (in a regular way transaction) that have been contracted for, but not yet delivered, on the reporting date. Refer to the accounting policy for financial liabilities, other than those classified as at fair value through profit or loss, for recognition and measurement.

Amounts due from brokers are receivable for securities sold (in a regular way transaction) that have been contracted for, but not yet delivered, on the reporting date.

Financial instruments

Classification

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. In accordance with AASB 9 *Financial Instruments*, the Company categorises its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities below:

- It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term; or
- On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit taking; or
- It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Recognition/derecognition

The Company recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of the financial assets or financial liabilities from this date.

A financial asset (or, where applicable, a part of a financial asset or a part of a group of similar financial assets) is derecognised where the rights to receive cash flows from the asset have expired, or the Company has transferred their rights to receive cash flows from the asset, or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement and the Company has:

- Transferred substantially all of the risks and rewards of the asset; or
- Neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of comprehensive income.

Measurement

At initial recognition, the Company measures financial assets and financial liabilities at fair value through profit or loss. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value are presented in the statement of comprehensive income. Interest and dividends earned or paid on those instruments are recorded separately in interest revenue and dividend/distribution revenue in the statement of comprehensive income.

Financial assets, other than those classified as at fair value through profit or loss, are measured at amortised cost using the effective interest method less any allowance for impairment. Gains and losses are recognised in the profit or loss when the financial assets are derecognised or impaired through the amortisation process. For further details on how the values of financial instruments are determined, please refer to Note 11.

1. Basis of preparation and overarching material accounting policy information (continued)

Financial assets at fair value through profit or loss

Financial assets are categorised as financial assets measured at fair value through profit or loss (FVTPL) and or amortised cost. The classification depends on the definition and the purpose for which the investments were acquired. The classification of investments is determined at initial recognition and evaluated at each reporting date.

A financial asset is classified at fair value through profit or loss if:

- Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount; or
- It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; or
- At initial recognition, it is irrevocably designated at fair value through profit or loss, when doing so, eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

The Company includes in this category:

- Financial assets managed on a fair value basis: These include investments that are held under a business model to manage them on a fair value basis for investment income and fair value gains.
- Instruments held for trading: This category includes financial assets which are acquired principally for the purpose of generating a profit from short term fluctuations in price.

Purchases and sales of financial assets are recognised on the date on which the Company becomes party to the contractual agreement (trade date) to purchase or sell the asset.

Financial assets measured at amortised cost

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company includes in this category short-term non-financing receivables, accrued income and other receivables.

Financial liabilities at amortised cost

Financial liabilities are measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, as well as through the amortisation process. The Company includes measured at amortised cost short-term payables, such as accrued operating expenses and unsettled trades.

Impairment of financial assets

For financial assets measured at amortised cost, the Company applies a simplified approach to calculating expected credit losses (ECL). Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECL at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward looking factors specific to the debtors and the economic environment.

Share Capital

Ordinary shares are classified as equity. Issued and paid up equity is recognised at the fair value of the consideration received by the Company. Incremental costs directly attributable to the issue of new shares or options (that vest immediately) are shown in equity as a deduction from the proceeds.

If the entity reacquires its own equity instruments, for example as the result of a share buy back, those instruments are deducted from equity and the associated shares are cancelled. No gain or loss is recognised in the profit or loss and the consideration paid including any directly attributable incremental costs is recognised directly in equity. The authorised share capital of the Company is fully paid and listed on the Australian Securities Exchange. The Company's capital is represented by these shares.

1. Basis of preparation and overarching material accounting policy information (continued)

Dividends to Shareholders

Dividends are at the discretion of the Company. A dividend to the Company's shareholders is accounted for as a deduction from the dividend reserve. Dividends are recognised as a liability in the period in which it is irrevocably declared by the Board of Directors.

The Company has a dividend reserve for the purpose of reserving profits to allow the Company to declare dividends. Profit for the six-month period is added to the Dividend Reserve at 31 December and 30 June each year and dividends paid are deducted from the reserve on the payment date. Losses recorded for the six-month period at 31 December and 30 June each year are transferred to the Accumulated Losses.

Dividends are declared by the Board of Directors in accordance with the *Corporations Act 2001* section 254T. The Company has a Dividend Reinvestment Program (DRP) which applies to dividends, details of which are on the company website.

Use of judgements & estimates

The preparation of the Company's financial statements requires it to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future. However, estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Company may hold financial instruments for which quoted market prices are readily available. These may include Company's listed financial instruments which are valued primarily based on the prices provided by independent pricing services.

Additionally, the Company may also hold certain financial instruments whose fair value cannot be derived from active markets, such financial instruments (convertible notes or unquoted securities) are fair valued using valuation techniques. The inputs to these valuation techniques (if applicable) are taken from observable markets to the extent practicable, are validated, and periodically reviewed by experienced personnel, independent of the area that created them. The Investment Manager employs a variety of valuation techniques to assess the fair value of unlisted investments. Please refer to Note 11 for further details.

Where observable inputs are not available, the inputs may be estimated based on a degree of judgements and assumptions in establishing fair values. The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

In addition, areas such as credit risk (both own counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments. For certain other financial instruments, including amounts due from/to brokers, accounts payable and accounts receivable, the carrying amounts approximate fair value due to the immediate or short-term nature of these financial instruments.

The Company based its assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

As at 30 June 2026 and 30 June 2025, the Company has measured financial instruments such as derivatives, equity securities and debt securities at their fair value through profit or loss.

1. Basis of preparation and overarching material accounting policy information (continued)

Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations and changes in tax laws on foreign withholding tax. Differences arising between the actual investment income and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax expense already recorded. As the Company assesses the probability for litigation and subsequent cash outflow with respect to taxes as remote, no contingent liability has been recognised.

New and amended standards and interpretations

There are no standards interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2025 that have a material impact on the amounts recognised in prior periods or will affect the current or future periods.

Standards issued but not yet effective

AASB 18 *Presentation and Disclosure in Financial Statements*

AASB 18 was issued in June 2024 and replaces AASB 101 *Presentation of Financial Statements*. The new standard introduces new requirements for the statement of comprehensive income, including:

- new categories for the classification of income and expenses into operating, investing and financing categories, and
- presentation of subtotals for “operating profit and “profit before financing and income taxes”.

Additional disclosure requirements are introduced for management-defined performance measures and new principles for aggregation and disaggregation of information in the notes and the primary financial statements and the presentation of interest and dividends in the statement of cash flows. The new standard is effective for annual years beginning on or after 1 January 2027 and will be applied to the Company for the financial year ending 30 June 2028.

This new standard is not expected to have an impact on the recognition and measurement of assets, liabilities, income and expenses, however there will likely be changes in how the statement of comprehensive income and statement of financial position line items are presented as well as some additional disclosures in the notes to the financial statements. Management is in the process of assessing the impact of the new standard.

Certain amendments to accounting standards have been published that are not mandatory for the 30 June 2026 reporting year and have not been early adopted by the Company. These amendments are not expected to have a material impact on the Company in the current or future reporting years and on foreseeable future transactions.

2. Dividend and Distribution income

For the year ended 30 June	2026 \$'000	2025 \$'000
Dividends	649	498
Trust Distributions	244	291
Total Dividend/Distribution income	893	789

3. Net gains/(losses) on financial instruments held at fair value through profit or loss

For the year ended 30 June	2026 \$'000	2025 \$'000
Net unrealised (loss)/gain on financial assets at fair value through profit or loss	(11,051)	7,317
Net realised gain/(loss) on financial assets held at fair value through profit or loss	20,572	7,231
Total net gains on financial instruments held at fair value through profit or loss	9,521	14,548

4. Income tax expense

For the year ended 30 June	2026 \$'000	2025 \$'000
Income tax expense recognised in profit or loss		
Current income tax (benefit)/expense	5,032	—
Deferred tax (benefit)/expense	(2,531)	3,809
	2,501	3,809
Deferred income tax expense included in tax expense comprises:		
Decrease in deferred tax assets due to changes in net unrealised gains/(losses) on financial assets	(3,325)	2,144
Decrease in deferred tax assets due to utilisation of prior year losses	781	1,648
Decrease in deferred tax assets due to provisions and accruals	(1)	(7)
Decrease in deferred tax assets due to unclaimed incorporation expenses carried forward	14	24
	(2,531)	3,809
Numerical reconciliation of tax expense to prima facie tax payable		
Profit/(loss) before income tax (benefit)/expense	8,753	13,481
Tax at the Australian tax rate of 30% (2025: 30%)	2,626	4,043
Tax effect of amounts which are assessable (not deductible) in calculating taxable income	(105)	(124)
Other adjustments	(20)	(110)
Income tax expense/(benefit) at the effective income tax rate of 28.56% (2025: 28.25%)	2,501	3,809

5. Deferred tax assets/(liabilities)

As at 30 June	2026 \$'000	2025 \$'000
The balance comprises temporary differences attributable to:		
Amount recognised in profit or loss		
Changes in unrealised portfolio losses	3,325	(2,144)
Utilisation of prior year tax losses	(781)	(1,648)
Provisions and accruals	1	7
Unclaimed incorporation expenses carried forward	(14)	(24)
Total deferred tax expense/(benefit)	2,531	(3,809)
Net deferred tax expense/(benefit)	2,531	(3,809)
Movements		
Opening balance	(348)	3,461
Credited/(charged) to profit or loss	2,531	(3,809)
Closing balance at 30 June	2,183	(348)
Gross up for deferred tax liabilities netted off	—	—
Gross deferred tax assets/(liabilities)	2,183	(348)
Deferred tax assets/(liabilities) to be settled after more than 12 months	2,163	(381)
Deferred tax assets/(liabilities) to be settled within 12 months	20	33
Total deferred tax assets/(liabilities)	2,183	(348)
Deferred tax assets/(liabilities) on unrealised portfolio gains/losses	2,163	(1,162)
Deferred tax assets on tax losses carried forward	—	781
Deferred tax assets due to provisions and accruals	—	19
Deferred tax assets/(liabilities) due to unclaimed incorporation expenses carried	20	14
Total deferred tax assets/(liabilities)	2,183	(348)

6. Receivables

Receivables may include GST RITC, interest, dividends, trust distributions and other income accrued and unsettled trade purchases. They are recognised when the right to receive payment is established and are generally recovered within 30 days. The Company measures expected credit losses on a 12-month basis.

Given the nature of the Company's receivables and the limited exposure of the Company to credit risk, no material expected credit losses have been recognised.

All receivables are considered current, and not impaired.

As at 30 June	2026 \$'000	2025 \$'000
Dividend and distributions receivable	101	106
GST claimable	23	18
Interest receivable	—	18
Outstanding trade settlements	285	23
Prepaid expenses	—	69
Total receivables	409	234

7. Financial assets at fair value through profit or loss

As at 30 June	2026 \$'000	2025 \$'000
Derivatives		
Warrants	203	105
Total derivatives	203	105
Equity securities		
Listed equities	71,687	71,096
Unlisted equities*	26,265	22,843
Total equity securities	97,952	93,939
Debt securities		
Convertible notes	964	716
Total debt securities	964	716
Total financial assets at fair value through profit or loss	99,119	94,760

An overview of the risk exposures and fair value measurements relating to financial assets at fair value through profit or loss is included in Notes 10 and 11 respectively.

*One of the investments was acquired by a strategic investor in April 2025. The Company holds priority rights to participate in a potential earn-out, currently estimated at \$0.948 million (2025: \$2.131 million) as at 30 June 2026. The final amount will depend on the asset's performance up to March 2027. Although the sale has been agreed upon, the investment held by the Company has not yet been derecognised as it still has exposure to risks and rewards.

8. Payables

Payables represent unsecured non-derivative, non-interest-bearing financial liabilities in respect of goods and services provided to the Company prior to the end of the financial year. Payables may include redemptions payable, accrued expenses and unsettled purchases of financial instruments which are unpaid by the Company at the reporting date. Amounts are generally paid within 30 days.

Amounts payable to related entities have no fixed repayment term and are non-interest-bearing.

All payables are considered current.

As at 30 June	2026 \$'000	2025 \$'000
Management Fees Payable	573	493
Outstanding trade settlements	196	63
Earn Out payable*	—	63
Accrued expenses payable	245	91
Total payables	1,014	710

*On 14 December 2017, the Company purchased a portfolio of securities (refer to ASX announcement on 14 December 2017 for full details). Upon the liquidation of the portfolio for cash, and subject to Acorn Capital Investment Fund Limited generating a return above a pre-agreed threshold, 30% of cash receipts from such sale of the portfolio are payable. This amount will be paid at the election of the Company, in either cash or Company shares, at the same post tax NTA as the shares comprising the initial consideration payment were issued. As of 30 June 2026, the liability related to the earn-out has been finalised (2025: \$62,812).

9. Contributed equity and movements in total equity

As at 30 June	2026 No. '000	2025 No. '000
Share capital		
Fully paid ordinary shares	90,149	89,599
Movements in shares on issue:		
Opening balance	89,599	89,034
Dividends reinvested	550	565
Closing balance	90,149	89,599

Terms and conditions of contributed equity

Ordinary shares have the right to receive dividends as declared and, in the event of winding up the Company, to participate in the proceeds from the sale of all surplus assets in proportion to the number of and amounts paid up on the shares held. Ordinary shares entitle their holder to one vote, either in person or by proxy, at a meeting of the Company. Ordinary shares in the Company do not have a par value attached to them.

Capital risk management

The Company's policy is to maintain an appropriate level of liquidity in the Company's shares.

To achieve this, the Board of Directors monitor monthly net tangible asset (NTA) results, investment performance, the Company's management expenses and share price movements.

No changes were made in the objectives, policies or processes for managing capital during the years ended 30 June 2026 and 30 June 2025.

10. Financial risk management

Overview

The Company's activities can expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk, counterparty risk and liquidity risk.

The Company's overall risk management program focuses on ensuring compliance with the Company's governing documents and seeks to maximise the returns derived for the level of risk to which the Company is exposed. The Manager is responsible for identifying the financial risks that arise from these financial instruments and for ensuring there are mechanisms in place to manage these risks.

The allocation of assets between the various types of financial instruments is determined by the Company's Investment Manager who manages the Company's assets to achieve the Company's investment objectives.

Divergence from target allocations and the composition of the assets is monitored on a regular basis.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market factors. Market risk includes (amongst others) three types of risk: interest rate risk (due to fluctuations in interest rates), currency risk (due to fluctuations in foreign exchange rates), and equity price risk (due to fluctuations in market prices).

The market risk disclosures are prepared on the basis of the Company's direct investments and not on a look-through basis.

The Company is exposed to market risks influencing investment valuations. The Company may utilise derivatives to manage this risk.

Price risk

Price risk is the risk that the value of an instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

The summarised sensitivity analysis section below sets out how this component of price risk is managed and measured. Investments are classified in the statement of financial position at fair value through profit or loss. All securities investments present a risk of loss of capital. Except for equities sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from equities sold short can be unlimited.

As the Company's investments are carried at fair value with fair value changes through profit or loss, changes in market conditions will directly affect net investment income.

The Investment Manager mitigates this price risk through diversification and a rigorous selection of securities and other financial instruments within specified limits as disclosed in the Company's governing documents. Price risk mainly arises from the possible change in the fair value of the Company's equity holdings. Price risk sensitivity on the Company's equity holdings is disclosed in the summarised sensitivity analysis section of this note. The analysis assumes the price of these investments increased/decreased by 10% (2025: 10%).

Daily monitoring of trade restrictions and exposure against limits is undertaken with any breach of these limit restrictions reported in accordance with the Risk Management Framework.

10. Financial risk management (continued)

Foreign exchange risk

Companies that invest in international assets are exposed to foreign exchange risk. Foreign exchange risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Company holds assets denominated in currencies other than the Australian dollar. The foreign exchange risk relating to non monetary assets and liabilities is a component of price risk. Foreign exchange risk arises as the value of monetary securities denominated in other currencies will fluctuate due to changes in exchange rates.

In accordance with the Company's policy, the Investment Manager monitors the Company's currency position on a regular basis. This information and the compliance with the Company's policy are reported to the relevant parties on a regular basis as deemed appropriate and ultimately to the Board.

The foreign exchange risk disclosures have been prepared on the basis of the Company's direct investments and not on a look through basis for investments held indirectly through unit trusts.

When the Investment Manager formulates a view on the future direction of foreign exchange rates and the potential impact on the Company, the Investment Manager factors that into its portfolio allocation decisions. While the Company has direct exposure to foreign exchange rate changes on the price of non-Australian dollar denominated securities, it may also be indirectly affected for example, by the impact of foreign exchange rate changes on the earnings of certain entities in which the Company invests, even if those entities' securities are denominated in Australian dollars. For that reason, the sensitivity analysis may not necessarily indicate the total effect on total equity and profit/(loss) of future movements in foreign exchange rates.

Foreign exchange risk sensitivity on the Company's total equity and profit/(loss) is disclosed in the summarised sensitivity analysis section of this note. The analysis assumes the Australian dollar weakened/strengthened by 10% (2025: 10%) against the various currencies to which the Company is exposed, with all other variables held constant. The Company did not have any material exposure to foreign exchange risk as at 30 June 2026.

Cash flow and fair value interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest rate risk is not considered to be a significant risk to the Company as the majority of the Company's financial instruments are non-interest bearing with only cash and cash equivalents being directly subject to interest rate risk. The impact of interest rate risk on the profit and net assets of the Company is considered to be immaterial.

Summarised sensitivity analysis

The following table summarises the sensitivity of the Company's net profit and net assets to applicable market risks. The possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in interest rates, foreign exchange rates and market prices. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Company invests. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables. The risk arises from financial assets held outside Australia and/or denominated in foreign currencies.

10. Financial risk management (continued)

Summarised sensitivity analysis (continued)

	Impact on net profit/Net assets							
	Price risk		Foreign exchange risk					
	-10%	+10%	-10%	+10%	-10%	+10%	-10%	+10%
			USD	USD	CAD	CAD	NZD	NZD
	A\$'000	A\$'000	A\$'000	A\$'000	A\$'000	A\$'000	A\$'000	A\$'000
30 June 2026	(9,912)	9,912	(296)	296	(75)	92	(86)	105
30 June 2025	(9,476)	9,476	(150)	183	—	—	(194)	237

Credit risk

Credit risk is the risk that one party to a financial instrument will cause financial loss to the other party by failing to discharge an obligation. The Company aims to ensure that at all times it has appropriate credit risk management policies and practices in place and that the Board and senior management are appropriately informed of the Company's credit risks.

Credit risk is considered to be a significant risk as the Company holds direct investments in debt securities, receivables and cash and cash equivalents.

Concentrations of risk

Concentrations of risk arise when a number of financial instruments are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic conditions. These similarities would cause the counterparties' liabilities to meet the contractual obligations to be similarly affected by certain changes in the risk variables.

The concentrations of risk are monitored by the Investment Manager to ensure they are within acceptable limits by reducing the exposures or by other means as deemed appropriate.

Concentrations of risk are managed based on industry sector.

Based on the concentrations of risk that are managed based on industry sector, the following investments can be analysed by the industry sector as at 30 June 2026.

As at 30 June	2026	2026	2025	2025
	\$'000	%	\$'000	%
Materials	23,042	23.47	21,714	22.91
Financials	13,813	14.07	21,128	22.30
Consumer Discretionary	11,025	11.23	4,120	4.35
Consumer Services	2,480	2.53	1,009	1.06
Information Technology	12,005	11.26	9,909	10.46
Industrials	23,212	23.64	12,726	13.43
Health Care	883	0.90	10,441	11.02
Energy	5,359	5.46	7,355	7.76
Consumer Staples	627	0.64	560	0.59
Communication Services	6,673	6.80	5,798	6.12
Total	99,119	100.00	94,760	100.00

10. Financial risk management (continued)

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. This risk is managed through ongoing monitoring of the size of the Company's investment portfolio, the majority of which comprises liquid assets that, under normal market conditions, can be readily converted to cash. In addition, the Company maintains sufficient cash and cash equivalents to meet normal operating requirements.

The Company's investments include listed securities that are considered readily available, as they are listed on recognised stock exchanges.

The Company may invest in unlisted equities that expose the Company to the risk that the Company may not be able to liquidate quickly its investments in these instruments at an amount close to their fair value to meet its liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer.

In accordance with the Company's policy, the Manager monitors the Company's liquidity position on a regular basis. This information and the compliance with the Company's policy are reported to the relevant parties on a regular basis as deemed appropriate and ultimately to the Board.

The table below analyses the Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the end of the reporting period to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

As at 30 June 2026

	Less than 1 month \$'000	1-3 months \$'000	3-12 months \$'000	Beyond 12 months \$'000	Total \$'000

Outstanding settlements payable	63	—	—	—	63
Total payables	63	91	493	63	710

11. Fair value measurement

In accordance with AASB 13 *Fair Value Measurement* the Company is required to disclose fair value measurements by level using the fair value hierarchy. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2); and
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

Quoted prices in active markets (level 1)

The pricing for the majority of the Company's investments is generally sourced from independent pricing sources or reliable brokers' quotes. Investments whose values are based on quoted market prices (bid, ask or last price) in active markets, e.g. recognised stock exchanges and therefore classified within level 1, include active listed equities.

Significant unobservable inputs (level 3)

Investments classified within level 3 have significant unobservable inputs, as they are infrequently traded. Level 3 instruments could include convertible notes, warrants and certain private equity type investments of which valuations are not based on market inputs or securities valued using models and internal data. Level 3 investments may be adjusted to reflect illiquidity. Level 3 instruments also include those that have a stale price, that is, where the pricing for a particular security has remained static for an extended period of time. Level 3 investments are valued by the Investment Manager using a variety of valuation techniques, taking into consideration recent market transactions. These valuations are reassessed on a monthly basis by the Investment Manager, and approved by the Investment Valuation Committee, chaired by an ACQ Director.

Valuation Techniques employed by the Investment Manager in assessing the fair value of unlisted investments are:

- **Third Party Transactions** : The recent third party transaction price methodology refers to the price at which a significant transaction, that is considered to represent fair value, has occurred into a company. In assessing whether the recent transaction price remains indicative of fair value the manager will assess the size of the transaction, the parties involved, the time since the transaction has occurred, along with other known information, such as if there have been other changes or events which have occurred since the transaction date.
- **Relative Valuation Techniques using Multiples/Industry Benchmarks**: This technique assesses the investment company's value based on how similar companies or assets are valued, often by utilising ratios like the price-to-earnings (P/E) ratio, enterprise value-to-EBITDA (EV/EBITDA), or price-to-book (P/B) ratios. It assumes that similar assets or businesses should trade at similar prices, using financial ratios as a benchmark. The determination of relevant peer multiples requires significant judgement and is re-assessed semi-annually at each valuation date.
- **Relative Valuation & Option Pricing Model (OPM)**: This technique is used when the instruments are held as part of a complex capital structure with different sets of preferences and privileges. In this case, a relative valuation technique is first used to determine an overall equity value, then the OPM treats each different class of security as a call option on the total equity value of the company and uses the Black-Scholes model to value the option.

11. Fair value measurement (continued)

- **Income Approach:** Future amounts are converted into a current (discounted) amount. The present value of the cashflows generated by the investment is derived using reasonable assumptions and estimations of the amount and timing of expected future cashflows (including the terminal value or maturity amount) and the appropriate risk-adjusted discount rate that captures the risk inherent in the investment.
- **Convertible notes** are held as debt securities and measured at fair value through profit or loss. As the notes carry a right to convert into the equity of the issuer, their contractual cash flows are not solely payments of principal and interest; consistent with AASB 9 the embedded conversion feature is not separated, and each note is measured at fair value as a single instrument. Fair value is determined using a convertible-note pricing model that reflects both the debt characteristics of the note and the value of the embedded conversion option, comprising:
 - a debt (income-approach) component — the present value of the contractual principal and interest (including any capitalised or PIK interest), discounted at a market yield that reflects the credit risk of the issuer and the ranking and security of the note.
 - a conversion-option component — the value of the right to convert into the issuer's equity, determined using an option pricing model or, where conversion is contingent on a future event (for example a qualifying financing, maturity or liquidity event), a probability-weighted scenario or binomial lattice model, measured by reference to the fair value per security derived from the fully diluted, as-converted capitalisation table of the issuer.
 - as a cross-check, the fair value so determined is assessed against, and will not be less than, the higher of the note's value as a debt instrument (its debt "floor") and its value on an as-converted basis.
 - the significant unobservable inputs used in valuing convertible notes include the market yield (credit spread) applied to the contractual cash flows, the assessed equity value of the issuer and the resulting fair value per security, expected volatility, the expected time to a conversion or liquidity event and, where applicable, a discount for lack of marketability. Valuations are calibrated to the transaction price on initial recognition, reassessed monthly by the Investment Manager and approved by the Investment Valuation Committee. Convertible notes are classified within level 3 of the fair value hierarchy.
- **Warrants and options:** Warrants and similar equity options over the securities of investee companies are valued using an option pricing model (typically the Black-Scholes model), reflecting the fair value of the right to acquire the underlying security at a fixed exercise price. Key inputs include the fair value of the underlying security — derived from the as-converted capitalisation table and the techniques described above — the exercise price, the time to expiry, expected volatility, the risk-free rate and, where relevant, a discount for lack of marketability. Where exercise is uncertain or the instrument is materially in- or out-of-the-money, the intrinsic and time-value components are assessed accordingly.
- **Cost as an approximation of fair value and subsequent remeasurement:** Where an investment has recently been acquired, transaction cost is generally considered to represent the best estimate of fair value at initial recognition and the technique is calibrated to that price. An investment continues to be carried at cost only for so long as cost remains an appropriate estimate of fair value. At each valuation date the Investment Manager reassesses this position: where new information becomes available — such as a subsequent financing round, the emergence of observable market inputs, a change in the investee's financial performance or prospects, or other indicators of a change in value — the investment is remeasured to fair value using the most appropriate of the techniques described above. Where that assessment indicates a decline in value (for example a down-round financing, sustained underperformance, or going-concern uncertainty affecting the investee), the carrying amount is written down to reflect the reduced fair value. As the Company's investments are measured at fair value through profit or loss, all such changes in value are recognised through remeasurement in the statement of profit or loss rather than by way of a separate impairment charge.

11. Fair value measurement (continued)

All fair value measurements disclosed are recurring fair value measurements. All other assets and liabilities are carried at a reasonable approximation of fair value.

Transfers between levels of fair value hierarchy are deemed to have occurred at the reporting date. Transfers out of level 3 generally occur when an unlisted equity investment lists on a recognised stock exchange. There have been no transfers in or out of level 3 investments during the year.

The following table presents fair value measurements for financial assets held at FVTPL by level using the fair value hierarchy.

As at 30 June 2026	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets held at fair value through profit or loss				
Listed equities	71,687	—	—	71,687
Unlisted equities	—	—	26,265	26,265
Convertible notes	—	—	964	964
Warrants	38	—	165	203
Total	71,725	—	27,394	99,119

As at 30 June 2025	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets held at fair value through profit or loss				
Listed equities	71,096	—	—	71,096
Unlisted equities	—	—	22,843	22,843
Convertible notes	—	—	716	716
Warrants	70	—	35	105
Total	71,166	—	23,594	94,760

11. Fair value measurement (continued)

The following table presents the movement in level 3 instruments as at the reporting date by class of financial instrument.

As at 30 June 2026	Opening Balance	Purchases	Sales	Transfers into level 3	Transfers out of level 3	Gains/ (losses) recognised in profit or loss	Closing balance
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Unlisted equities	22,843	1,050	(1,178)	—	—	3,550	26,265
Convertible notes	716	483	—	—	—	(235)	964
Warrants	35	—	—	—	—	130	165
Total	23,594	1,533	(1,178)	—	—	3,445	27,394

As at 30 June 2025	Opening Balance	Purchases	Sales	Transfers into level 3	Transfers out of level 3	Gains/ (losses) recognised in profit or loss	Closing balance
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000

*Robert Brown does not receive remuneration for his services to Acorn Capital Investment Fund Limited.

Investment Manager's fees and other transactions

From time to time Directors of the Company, or their related entities, may purchase or sell the Company's securities through the Australian Securities Exchange in accordance with the Company's security trading policy.

No Director has entered into a material contract with the Company since the last reporting date and there were no material contracts involving Directors' interests subsisting at the reporting date.

Loans transactions and balances

The Company has not made, guaranteed or secured, directly or indirectly any loans to key management personnel or their related entities during the reporting period.

12. Related party transactions (continued)

Acorn Capital Limited

Management Agreement

The Company and the Manager have entered into the Management Agreement whereby, subject to the provisions set out below, the Company has exclusively appointed the Manager to invest and manage all the assets of the Company (including any controlled entity of the Company) from time to time, for and on behalf of the Company. An initial term of 5 years was entered into on 5 May 2014, which has been extended for an additional 7 years commencing 16 November 2018.

Management fees

The management of the Company is performed by the Manager who is entitled to be paid management and performance fees. The Company pays the Manager a management fee of 0.95% p.a (plus GST) of the net asset value of the investment portfolio. The management fee is calculated and accrued each month and paid semi-annually in arrears. Management fees paid and payable for the year ended 30 June 2026 are disclosed below.

In addition, the Manager will be entitled to receive a performance fee from the Company equal to 20% (plus GST) of the investment portfolio's outperformance of the S&P/ASX Small Ordinaries Accumulation Index, which is calculated and accrued monthly on a pretax basis and, where tests are satisfied, any positive performance fee amounts that are in excess of the minimum performance fee account balance (as defined in the Management Agreement) are paid annually. There is no performance fee recognised for the year ended 30 June 2026 and 30 June 2025.

All related party transactions are conducted on normal commercial terms and conditions. The transactions during the year and amounts payable at year end between the Company and the Investment Manager were as follows:

	2026	2025
	\$	\$
Management fees expense for the year	1,079,296	899,861
Management fees payable	573,351	492,726

Related party shareholdings

The Australian Unity Group ceased to be joint venture partner of the Investment Manager, Acorn Capital Limited with effect from 26 January 2026. Accordingly, all previous holdings in the Company were also divested on that date.

Parties related to the Company (including the Investment Manager and its related parties), held shares in the Company as follows.

For the year ended 30 June	2026 \$'000	2025 \$'000
Reinvestment of shareholder dividends	490	435

14. Segment information

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources, is the Company's Board. The Company has outsourced the investment management of the portfolio to Acorn Capital Limited the Investment Manager of the Company. The Company operates in the investment industry in Australia and other countries and has no separate reportable business or geographic segments.

The Company is managed as a whole and is considered to have a single operating segment. There is no further division of the Company or internal segment reporting used by the chief operating decision-maker and the Directors when making strategic, investment or resource allocation decisions. The Company's exposure to foreign jurisdictions is limited and arises primarily through investment holdings and associated foreign currency risk.

The internal reporting provided to management is prepared on a consistent basis with the measurement and recognition principles of Australian Accounting Standards. There were no changes in the reportable segments during the reporting period.

15. Earnings per share

For the year ended 30 June	2026	2025
Earnings/(loss)		
Profit/(loss) after income tax attributable to the owners of the Company (\$'000)	6,253	9,672
Earnings/(loss) used in calculating basic and diluted earnings per share (\$'000)	6,253	9,672
Earnings/(loss) per share		
Basic earnings/(loss) per share (cents)	6.96	10.84
Diluted earnings/(loss) per share (cents)	6.96	10.84
Number of shares		
Weighted average number of shares used in the calculation of basic earnings per share	89,790,434	89,220,975
Weighted average number of shares used in the calculation of diluted earnings per share	89,790,434	89,220,975

16. Dividends declared

For the year ended 30 June	2026	2025
Dividends declared in respect of the financial year ended	\$'000	\$'000
Interim dividend for the financial year	3,145	2,456
Final dividend payable for the financial year	3,155	2,464
Total dividend declared for the financial year	6,300	4,920

Dividends declared

For the year ended 30 June 2026, a final dividend of 3.50c per share was proposed and approved on the date of this financial report. Based on the number of issued shares as at 31 July 2026 (90,149,139 shares), this represents a total dividend of \$3,155,220. The final value of the dividend will be based on the issued shares as at 16 October 2026, being the record date. The Dividend Reinvestment Plan (DRP) was active and available to the shareholders, a total of \$225,383 was reinvested from the interim dividend.

Franking credit balance

The amount of franking credits available as at 30 June 2026 was \$1,704,116 (2025: \$88,837).

17. Remuneration of auditor

For the year ended 30 June	2026	2025
Amounts received or due and receivable by the auditor for:	\$	\$
Audit and review of the financial report of the Company	127,358	120,239
Total remuneration of auditor	127,358	120,239

18. Events occurring after the reporting period

No significant events have occurred since the reporting date which would impact on the financial position of the Company as at 30 June 2026 or on the results and cash flows of the Company for the year ended on that date.

19. Contingent assets and liabilities and commitments

At balance date the Company has no contingent assets, liabilities or commitments (30 June 2025: Nil).

20. Reconciliation of net tangible assets used in calculation of net tangible assets per ordinary share for ASX reporting (non-IFRS)

For the year ended 30 June	2026 \$'000	2025 \$'000
Net assets per financial statements	100,710	99,576
Provision for expected costs to be incurred in realising proceeds of assets disposals (non-IFRS)	(99)	(95)
Tax adjustment on expected costs to be incurred in realising proceeds of asset disposals (non-IFRS)	(30)	29
Net tangible assets for ASX reporting	100,581	99,510
Number of ordinary shares on issue at reporting date	90,149,139	89,599,002

Net Tangible Asset Backing (NTA) per share

As at 30 June 2026	For monthly NTA Reporting \$/share	For Financial Reporting \$/share
NTA per share before income tax (\$/share)	1.1103	1.1117
NTA after income tax excluding tax on unrealised gains (\$/share)	1.0917	1.0932
NTA per share after income tax (\$/share)	1.1157	1.1171

As at 30 June 2025	For monthly NTA Reporting \$/share	For Financial Reporting \$/share
NTA per share before income tax (\$/share)	1.1139	1.1152
NTA after income tax excluding tax on unrealised gains (\$/share)	1.1229	1.1243
NTA per share after income tax (\$/share)	1.1100	1.1113

Consolidated Entity Disclosure Statement

Acorn Capital Investment Fund Limited does not have any controlled entities and is not required by the Accounting Standards to prepare consolidated financial statements. Therefore, section 295A(3A)(a) of the *Corporations Act 2001* does not apply to the Company.

Directors' declaration

In the opinion of the Directors:

- a. the financial statements and notes set out on pages 23 to 56 are in accordance with the *Corporations Act 2001*, including:
 - i. complying with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - ii. giving a true and fair view of the Company's financial position as at 30 June 2026 and of its performance for the financial year ended on that date;
- b. there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
- c. Note 1 confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.
- d. The Directors have been given by the Chief Executive Officer and Chief Financial Officer of the Investment Manager the declarations for year ended 30 June 2026 required by Section 295A of the *Corporations Act 2001*.
- e. The information disclosed in the attached consolidated entity disclosure statement is true and correct.

This declaration is made in accordance with a resolution of Directors.

On behalf of the Board of Acorn Capital Investment Fund Limited.

John Steven

Chairman and Non-Executive Director

Independent auditor's report to the members of Acorn Capital Investment Fund Limited

Report on the audit of the financial report

Opinion

We have audited the financial report of Acorn Capital Investment Fund Limited (the Company), which comprises the statement of financial position as at 30 June 2026, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the Company's financial position as at 30 June 2026 and of its financial performance for the year ended on that date; and
- b. Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to audits of the financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the financial report* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

**Shape the future
with confidence**

Investments at fair value through profit or loss

Why significant	How our audit addressed the key audit matter
The Company has an investment portfolio consisting primarily of equity securities, convertible notes and derivatives. As at 30 June 2026, the listed investments are valued at \$71,725,000 and unlisted investments at \$27,394,000, which together represent 96% of total assets. As disclosed in the Company's accounting policy Note 1 of the financial report, the investments are measured at fair value through profit or loss in accordance with the requirements of Australian Accounting Standards. The valuation of unlisted investments, which are classified as 'Level 3' investments in accordance with AASB 13 <i>Fair Value Measurement</i> involves significant judgement because the valuations use significant unobservable inputs. The valuation of unlisted investments is determined by the investment manager and approved by the Valuation Committee. Pricing, exchange rates and other market drivers can have a significant impact on the value of these investments. Accordingly, the investments at fair value through profit or loss were considered a key audit matter due to the size and the significant judgement involved in valuing unlisted investments.	Our audit procedures included the following: ▪ Obtained and reviewed the assurance report of the relevant controls of the Company's administrators and custodians for the period 1 July 2025 to 30 June 2026, and assessed the external auditor's competence, objectivity, and findings. ▪ Agreed all investment holdings, including cash accounts, to the third-party confirmation at 30 June 2026. ▪ For listed investments, we assessed the fair value of all investments in the portfolio held at 30 June 2026 to independently sourced market prices. ▪ For directly held unlisted investments, we sampled a number of investments and involved our valuation specialists in assessing the reasonableness of the valuation methodology and key assumptions applied in the valuation of the underlying investments, including discount rates, forecast cash flows, multiples and, where applicable, evidence of recent transactions. We assessed the adequacy and appropriateness of the disclosures included in Notes 7 and 11 of the financial report.

Information other than the financial report and auditor's report thereon

The directors are responsible for the other information. The other information comprises the information included in the Company's 2026 Annual Report other than the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of:

- The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- The consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*; and

for such internal control as the directors determine is necessary to enable the preparation of:

- The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- The consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the

**Shape the future
with confidence**

audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the audit of the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 19 to 20 of the directors' report for the year ended 30 June 2026.

In our opinion, the Remuneration Report of Acorn Capital Investment Fund Limited for the year ended 30 June 2026, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
