¹ "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council's recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity's corporate governance statement. They serve different purposes and an entity must produce each of them separately.

² Tick whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where your corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

³ Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. If you select an option that includes "OR" at the end of the selection and you delete the other options, you can also, if you wish, delete the "OR" at the end of the selection.

See notes 4 and 5 below for further instructions on how to complete this form.

The Board conducts annual assessments of its performance, as well as that of its Committees and individual Directors. The most recent assessment was completed in FY26 by an independent governance adviser. The review concluded that the Board and its Committees continue to operate effectively. Any findings and recommendations arising from the review will be considered by the Board and incorporated into its governance and continuous improvement agenda, as appropriate.

In determining the Board's recommendation on whether to recommend a Director for re-election by shareholders, the Board considers a range of factors including: the Director's performance during their tenure, independence, any conflicts of interest, availability to fulfil their duties, fitness and propriety, and the skills, experience and expertise required to support the effective functioning of the Board.

Further information can be found in the Board Renewal Policy (available at www.eqt.com.au).

GROUP BOARD – NON-EXECUTIVE DIRECTOR COMPOSITION

CORE BOARD COMPOSITION MATTERS

Board renewal	The Board regularly reviews its composition, having regard to the optimal size, the mix of skills, experience and expertise required to enable it to discharge its responsibilities effectively. The EQT Group Board Renewal Policy limits the tenure of Non-Executive Directors (other than the Chair) to three terms of three years, and four terms of three years for the Chair, from the date of first election by the shareholders. The Board, on an exceptional basis, may exercise its discretion to extend the term where it considers that such an extension would benefit the Group.
Independence	- Equity Trustees recognises the importance of determining a Non-Executive Director's independence. This signifies to stakeholders that a Non-Executive Director is free from any interest, position, association or relationship that might be perceived to influence their capacity to bring independent judgement to bear. - Independence is assessed annually in accordance with the Director Independence Policy and the ASX Recommendations (available at www.eqt.com.au). - Following its most recent assessment, the Board has determined that all Non-Executive Directors are independent. The Chair is an independent Director and is not the same person as the Managing Director.
Director integrity	- All Directors are assessed prior to appointment (including background checks). - Directors are also assessed annually, in accordance with the Group's Fit and Proper Policy. - The same pre-appointment and annual review processes apply to all Responsible Persons and Responsible Managers, and the Group's Key Management Personnel.

GROUP BOARD – SKILLS MATRIX

Annual Review

The Board annually reviews the mix of skills and experience that it needs to address existing and emerging business and governance issues for the Equity Trustees Group.

The individual and combined capabilities of the Board are then assessed, and the insights are documented in a Skills Matrix that is used to:

- assist the Board in succession planning and in new Director selection; and
- consider any professional development training required for Directors.

RISK MANAGEMENT

Risk Management Framework

The Equity Trustees Group utilises a comprehensive Risk Management Framework comprising the totality of systems, processes, structures, policies and people involved in identifying, assessing, mitigating and monitoring risks. The key elements are set out below.

The Group Risk Committee reviews the Risk Management Framework at least annually to satisfy itself that it continues to be sound, and that the entity is operating with due regard to the risk appetite set by the Board. A review was undertaken during FY26.

Risk and compliance culture

Our risk culture embodies the system of values and behaviours that supports good risk and compliance management.

It determines our collective ability and commitment to identify, understand, openly discuss and act on current and emerging risks and obligations while operating consistently within our risk appetite.

The Group strives to foster a risk culture aligned to its values:

- We make risk-informed decisions in line with our risk appetite (Trusted).
- Everyone feels safe to raise issues and incidents and ask for help if they don't know (Trusted and Empowering).
- We are accountable and identify, address and learn from breaches and incidents (Accountable).
- We are pragmatic in our approach to identifying and managing risk rather than ticking a box (Accountable).

Support and monitoring of the risk culture

The Group assesses and seeks to improve its risk culture through:

- Regular reporting to Management and Boards on key risk culture metrics and risk management maturity.
- Execution of a Risk Culture Survey. This survey is conducted annually with results and associated action plans reported to the EQTHL Board Risk Committee, and the RSEL's Risk Committee.
- Recognising and rewarding risk management behaviours that align with the EQT Group Remuneration Policy and its consequence management framework.
- Conducting annual FAR attestations by the Accountable Persons, with oversight by the Enterprise Risk team and review of the Fit and Proper Assessments in line with the Financial Accountability Regime (FAR) Reasonable Steps and Review process.
- The application, and ongoing development, of a range of Group wide governance, risk and compliance frameworks, policies and procedures that define risk and compliance responsibilities and expectations.
- The operation of relevant Boards and Management Committees, across all entities, to oversee risk and compliance matters and practices.

Three Lines of Defence Model

Equity Trustees operates the 'three lines of defence' model to ensure clear accountability and responsibility for governance, risk management and compliance. The model ensures appropriate structures are in place for:

- Taking and managing risk.
- Meeting compliance obligations.
- Providing advice accompanied by challenge and oversight in the risk management process.
- Assurance in control design and operating effectiveness.

The three lines of defence model also have independent reporting lines running through executive management directly to the various Group Boards and Committees, with unfettered access to Directors to ensure appropriate checks and balances are built into our operating model.

ASSURANCE, REPORTING INTEGRITY AND CONTROLS

Internal Audit

The Group maintains an internal audit function, which forms its third line of defence.

Internal audit services are provided by a top-tier audit firm, which has a direct reporting line to the Group Audit Committee and the licensed subsidiary Audit Committees.

The annual Internal Audit Program is set and approved by both the Group Board Audit Committee and the Superannuation Boards Audit Committees, with input from other Boards and Committees as required. It includes evaluation of the adequacy and effectiveness of the financial and risk management frameworks as they relate to the Group's regulated activities.

The agreement governing the outsourced internal audit services complies with applicable APRA prudential requirements. The Internal Auditor has unfettered access to the RSE Licensee's business units and support functions.

External Audit

In addition to the three lines of defence, the Group, and its subsidiaries – as well as the many schemes, funds and trusts for which a member of the Equity Trustees Group acts as Responsible Entity, RSE Licensee, or other form of Trustee – are subject to annual and half-yearly external audit reviews. This provides further rigorous review of our systems and processes relating to financial and risk management, so that the auditors can report their findings to stakeholders and regulators.

The Group's external auditors are provided with the opportunity to meet regularly with the Group Board Audit Committee without Management present.

Auditor Independence Policy

The Group's Auditor Independence Policy applies to both external and internal audit functions to ensure both independence of mind and independence of appearance.

Robust controls are in place to mitigate threats to auditor independence.

External auditor or audit partner rotation occurs in accordance with the requirements of the *Corporations Act 2001*.

Verifying Corporate Reporting

Any periodic corporate reports that are not audited, such as the Directors' Report and this Corporate Governance Statement, are subject to extensive review prior to release to market.

This includes review, fact-checking and interrogation by the Group Leadership Team, as well as review by the Group Board (assisted by its relevant Committees).

Before the Group Board approves the half- and full-year financials, it receives a declaration from the Managing Director and Chief Financial Officer that, in their opinion:

- The Group financial records have been properly maintained.
- The financial statements comply with the appropriate accounting standards and give a true and fair view of the Group's financial position and performance.
- This opinion has been formed on the basis of a sound system of risk management and internal control, which is operating effectively.

DIVERSITY, EQUITY AND INCLUSION

Our approach

At Equity Trustees, we recognise there are numerous benefits to diversity and inclusion in the workplace, including a wider talent pool, new perspectives and greater innovation. We are committed to cultivating a work environment where our people feel valued, can work fairly and are encouraged to be themselves. Workplace gender equality is achieved when people can access and enjoy the same rewards, resources and opportunities, regardless of gender.

The research is clear and compelling – organisations with better gender diversity make better decisions, which leads to increased performance and outcomes for clients and shareholders.

Our Diversity and Inclusion Policy (available at www.eqt.com.au) defines our organisational commitment and approach to implementing processes and behaviour that help to build an inclusive workplace. It also highlights our commitment to preventing workplace bullying, discrimination, harassment and victimisation as far as reasonably practical.

Equity Trustees is committed to increasing the percentage of Aboriginal and Torres Strait Islander employment across the Group, as outlined in our *Innovate Reconciliation Action Plan* (available at <http://www.eqt.com.au/rap>).

Equity Trustees has a Diversity and Inclusion Committee, with employee representation designed to foster an inclusive culture that champions equity in the workplace and diversity and inclusion initiatives.

Flexibility

Equity Trustees recognises that flexible work arrangements contribute to attracting and retaining talent, enhanced productivity and contribute to employee engagement and wellbeing.

To support its employees, we have implemented flexible and hybrid working arrangements that accommodate individual needs while enabling employees to remain connected and effective in their roles.

Employees have access to a range of flexible work options, including hybrid working, part-time employment, job sharing, working from home arrangements, and flexible start and finish times, in accordance with the Workplace Flexibility Policy.

These arrangements support a diverse and inclusive workplace and help employees balance their professional and personal commitments.

Gender Equality Indicators

As a relevant employer under the *Workplace Gender Equality Act 2012*, we report to the Workplace Gender Equality Agency on how we are promoting and progressing gender equality across our businesses. We conduct an annual analysis of gender pay to assess pay equity for like roles and performance. This analysis is presented at both Executive and Board levels. In line with best practice, we have set a gender diversity target of 40:40:20 at all levels within the organisation. We are working towards reaching our target at the Executive and senior leadership levels before 2030, and reducing our pay gap by at least 5% or lower than the Australian average gender pay gap before 2030.

Gender diversity at the EQTHL Board (Non-Executive Directors) is currently 67% women and 33% men, which exceeds our stated target. At the senior leadership level (direct reports to the Managing Director) representation of women sits at 57%. Pleasingly, this means we have met our diversity targets at both the Board and Executive levels.

At the extended leadership level (Managing Director-2), gender diversity has increased to 51% with a number of senior female promotions and appointments in the financial year. We continue to implement three leadership development programs across the organisation with diverse representation in each cohort:

- Accelerate (emerging talent)
- Advance (people leaders)
- Amplify (coaching program for people leaders).

LEVEL	2026 FEMALE PERCENTAGE	2026 FEMALE TARGET
Board (excluding Managing Director)	67%	40–60%
Board (including Managing Director)	57%	40–60%
Leadership Team (MD-1)* (including Managing Director)	50%	40–60%
Leadership Team (MD-1) (excluding Managing Director)*	56%	40–60%
Senior Management (MD-2)	51%	40–60%
Whole organisation	54%	40–60%

* The Leadership Team (or Senior Executives for the purposes of the ASX Corporate Governance Principles and Recommendations) measures both now meet the gender diversity targets. The Leadership Team is a larger group than the Key Management Personnel and includes all the Executive direct reports of the Managing Director.

COMMUNITY AND ENVIRONMENT

Our approach

Supported by strong governance practices and a core business focus on supporting community wellbeing, Equity Trustees aims to adopt business strategies and activities that appropriately consider sustainable environmental and social factors. We seek to create positive social impact through community partnerships, targeted initiatives and meaningful support for First Nations peoples and other vulnerable groups. We also aim to minimise the environmental impact of our operations and apply responsible investment principles within our asset management processes.

Considering the nature of Equity Trustees' fiduciary and trustee services, asset management activities, and its primary operations within Australia, the Group has not identified any material exposure to environmental or social risks.

The Group recognises the importance of proactively identifying and managing environmental and social risks that may adversely impact its business performance, sustainability, viability and stakeholders. These risk factors are monitored as part of material operational risk within the EQT Group Risk Management Framework, enabling a structured approach to their identification, assessment and management across the Group, Business Units, and relevant Fund and Scheme activities.

Environmental and social risk considerations include compliance with applicable regulatory requirements, together with ongoing monitoring of emerging risks, including climate-related risks, and evolving stakeholder expectations.

The Board maintains oversight of the social and environmental impacts of the Group's activities, sets standards, and monitors compliance with the Group's sustainability policies and practices.

Equity Trustees is progressing towards compliance with the forthcoming Australian Sustainability Reporting Standards for mandatory climate-related financial disclosures. This includes assessment of the Group's exposure to physical and transition climate risks. Further information on the Group's progress is provided in the Annual Report.

Employee Succession Development

Managing key talent and succession development at Equity Trustees is critical to ensuring we have the right people, with the right skills, in the right roles - now and into the future. Our succession strategy is built around three key objectives:

- **Strategic alignment and stability** - ensuring we are future-ready with a strong internal pipeline.
- **Preserving organisational knowledge** - vital in our highly specialised trustee and regulatory environment.
- **Developing and retaining our people** - by investing in their growth and career pathways.

We work with each business unit to identify business critical roles, discuss development opportunities for their people; future capability requirements and how leaders can support development and career aspirations.

Environmental Initiatives

- On behalf of its philanthropic clients, Equity Trustees has continued to support initiatives and projects making approximately \$6 million in grants from trusts across a range of environmental causes. These include efforts to address climate change, increase investment in long-term stewardship of the natural environment, and to enable and empower environmental leaders now and in the future.
- Other initiatives relating to our environmental footprint include:
 - Recycling and general waste reduction initiatives, including using less paper across the organisation.
 - LED motion sensors in offices to conserve energy.
 - Sourcing promotional items and printing options that are environmentally friendly, sustainable or recycled.

Investment Approach

- As Trustee, our primary focus is putting our clients' best interests first.
- As Trustee, where the investment philosophies of relevant funds, schemes or trusts allow, investment managers consider a wide range of factors to generate return and mitigate risk, which may include Environmental, Social and Governance (ESG) attributes. We act as Responsible Entity for several specialised ESG funds.
- A number of the Funds managed in-house by our Asset Management Team incorporate ESG factors as a core investment philosophy attribute. In our experience, organisations that successfully manage ESG issues tend to outperform. These principles are further reflected in our status as a signatory to the United Nations-supported Principles of Responsible Investing.

Community Initiatives

- **Disaster Response**
 - Following the devastating 2019–2020 Black Summer bushfires, Equity Trustees established two perpetual Trusts (pro bono), designed to deliver sustained relief to affected families and communities.
 - Together, the Community Rebuilding Trust and Australian Volunteer Support Trust have attracted more than \$14 million in funding and continue to deliver support to families and communities.
 - As natural disasters continue to impact Australian communities, Equity Trustees remains committed to stewarding these Trusts to ensure they remain well placed to respond effectively to future disasters.
- **Social Impact Initiatives**
 - Established the Future Generation Women Fund in partnership with Wilson Asset Management. The pro bono fund launched with \$100m in funds and makes investments into advancing economic equality for women and their children in Australia. As at 30 June 2026, total FUM was \$124.8 million. More information available at www.futuregeninvest.com.au/trusts/future-generation-women/
- **Reconciliation Action Plan**
 - Equity Trustees is in the process of drafting its fourth Reconciliation Action Plan (RAP) in consultation with Reconciliation Australia. While developing our latest new sustainable and meaningful RAP, we have continued implementing our RAP commitments, reporting requirements and close engagement with Reconciliation Australia. Our previous Innovate RAP is available at www.eqt.com.au/rap.
 - In 2026 a new Chair was appointed from the RAP Working Group and is taking the organisation forward with its next RAP. A focus is on connecting with like-organisations to explore best practice, progressing our ongoing RAP commitments and re-energising internal connection with the purpose of our RAP.
 - One of our strongest initiatives since the launch of our first RAP is the development of our Aboriginal Art Program, which has the purpose of commissioning new works of art for our offices, corporate publications, promotional items and banners, and digital channels. This Program has commissioned original work from ten artists from all states in which our offices are located, and we have purchased 19 pieces to date. We have also purchased the rights to reproduce and display one artwork in our Melbourne office.
 - In addition, in the FY26 year we participated in the national Walk for Truth as part of National Reconciliation Week 2026. The 509km walk started in Melbourne and concluded in Canberra, involving many employees participating as volunteers. The initiative was part of a calling for truth-telling with First Nations people, promoting healing, awareness and reconciliation and also received funding from Equity Trustees' managed trusts.

- More information about our corporate commitment to support Indigenous communities to achieve social and economic parity can be found in our 2025 edition of *Snapshot* (available at www.eqt.com.au/snapshot).

Governance Framework

APRA Prudential Standard SPS 510 Governance sets out specific governance requirements for RSE Licensees under the *Superannuation Industry (Supervision) Act 1993*.

RSE Governance Framework

This Group Corporate Governance Framework incorporates the RSE Governance Framework and includes the systems, structures, policies, processes and people within the RSE Licensees' business operations.

Each RSE Licensee is responsible for the establishment, implementation and oversight of this Governance Framework.

Roles and Responsibilities

The Boards of ETSL and HTFS are each an RSE Licensee and are ultimately responsible for the sound and prudent management of their respective business operations.

Certain matters are delegated by the RSE Licensee Boards to Management in accordance with the Group's Delegations of Authority and other specific authorities delegated by each RSE Licensee Board.

Superannuation Board Committees

The Committees of each of the RSE Licensee Boards are set out on page 29.

Board Performance and Composition

The Chair of each RSE Licensee is a Director of the RSEL.

The performance of each RSE Licensee Board, Board Committee and individual Director is reviewed at least annually against their performance objectives. The last independent performance evaluation was completed in FY24.

The Group Board Renewal Policy sets out the requirements for appointing and removing Directors, including their terms and maximum tenure periods. This is to ensure that the RSE Licensee Boards remain open to new ideas and independent thinking, while retaining adequate expertise.

The Group Board Renewal Policy also covers the nomination, appointment and removal requirements of Prudential Standard SPS 510.

The respective ETSL or HTFS Remuneration and Nomination Committee is responsible for recommending to its RSE Licensee Board the process by which a Director will be appointed.

Skills and Experience

The relevant qualifications and experience for each of the RSE Licensee Directors is disclosed at www.eqt.com.au/superannuation/board-and-governance.

Additionally, each RSE Licensee Board annually reviews its collective skills and experience using a Board Skills Matrix to ensure that:

- It has the full range of knowledge, skills and experience needed for the effective and prudent operation of the RSE Licensees' business operations, including the understanding of its risks and legal and prudential obligations, and the capability to oversee the management of those risks and the delivery of member outcomes.
- Each RSE Licensee Director has the skills that allow them to make an effective contribution to Board deliberations and processes.

This does not preclude the RSE Licensee Boards from supplementing their skills and knowledge by engaging external consultants and experts.

All RSE Licensee Directors and senior management of each RSE Licensee are ordinarily resident in Australia and are available to meet with APRA on request.

Auditors and actuaries are provided with the opportunity to raise matters directly with the RSE Licensee Boards.

Group Policies and Functions

Each of the RSE Licensee Boards approves the use of certain Group policies and functions to ensure that these policies and functions give appropriate regard to the RSE Licensees' business operations and specific requirements.

Charter and Policies

Each RSE Licensee Board has a formal Charter setting out the roles, responsibilities and objectives of the Board.

Voting rights and procedures are set out in the respective Constitutions of ETSL and HTFS. Fitness and propriety of RSE Licensee Directors is governed in accordance with the Group's Fit and Proper Policy as described on page 11. Each RSE Licensee is governed by the Conflicts Management Framework described on page 10. This Governance Framework, including the RSE components, is reviewed annually by each RSE Licensee Board.

Remuneration Policy

The RSE Licensees do not have their own employees and the employees within Superannuation Trustee Services are provided by EQT Services Pty Limited. The Group's Remuneration Policy covers all employees within the Group. It includes remuneration objectives and the structure of remuneration arrangements, including performance-based remuneration components.

The Remuneration Policy covers all employees of the Group, including each Responsible Person (excluding auditors and actuaries). This includes all persons responsible for risk management, compliance, internal audit and financial control, and all other persons whose activities may individually or collectively affect the interests of beneficiaries, the financial position of the RSE Licensee or any other relevant prudential matter.

The Remuneration Policy is designed to encourage behaviour that supports:

- Protecting the interests of members and delivering member outcomes
- The long-term financial soundness of the RSE Licensee, any of its RSEs or connected entities
- The risk management framework of each RSE Licensee.

Performance-based components of remuneration are designed to drive accountability and encourage outcomes in the interests of beneficiaries and the RSE Licensees and appropriately manage the risks of the RSE Licensees.

The EQTHL Board is responsible for overseeing the overarching remuneration frameworks, policies and associated reporting obligations across the EQT Group. The RSE Boards are responsible for approving the remuneration framework and the design and outcomes of total variable remuneration of Specified Roles under APRA Prudential Standard CPS 511. This includes the Financial Accountability Regime Policy and its connection to remuneration.

Both the EQTHL Board and/or the RSE boards have the discretion to adjust performance-based remuneration downwards, including to ensure compliance with Prudential Standard CPS 511, where necessary to protect the interests of beneficiaries, RSE Licensees and the broader EQT Group. The Remuneration Policy outlines this.

This authority also extends to addressing any material, unforeseen or unintended consequences not anticipated by the Remuneration and Nominations Committees, ensuring continued alignment with legal and prudential standards, including Prudential Standard CPS 511 and the Financial Accountability Regime.

In accordance with Prudential Standard CPS 511, the Remuneration Policy provides for the downward adjustment of variable remuneration components, including to zero where appropriate.

Remuneration and Nomination Committees

Our Governance Framework sets out the endorsed governance structure in accordance with Prudential Standard CPS 511 and the Financial Accountability Regime. The EQTHL Board maintains the ownership of the overarching remuneration framework and policy. The RSE Licensee Boards will approve the total variable design and outcomes apportioned to the RSE Licensee for Specified Roles and be responsible for the reporting of remuneration under Prudential Standard CPS 511.

As noted on page 29, the Remuneration and Nominations Committees comprise majority independent, solely non-Executive directors. The Remuneration and Nominations Committees have a written Charter that outlines their roles, responsibilities and terms of operation.

The Remuneration and Nominations Committees have the powers necessary to enable them to perform their function, including regular reviews and recommendations to the RSE Licensee and EQTHL Boards regarding the Remuneration Policy, and recommendations regarding the remuneration of:

- Specified Roles
- Other persons whose activities may affect the financial soundness of an RSE Licensee's business operations
- Other categories of persons covered by the Remuneration Policy.

As enshrined in their Charter, the Remuneration and Nominations Committees have free and unfettered access to risk and financial control personnel and other parties (internal and external) in carrying out their duties. The Chair of the Remuneration and Nominations Committees attends the EQT Holdings Limited Board's Remuneration, Human Resources and Nominations Committee meeting at least annually. Members of the Remuneration and Nominations Committees are available to meet with APRA on request.

In addition, the Remuneration and Nominations Committees review and approve the variable remuneration performance measures and outcomes for Specified Roles (as defined in Prudential Standard CPS 511) including the Executive General Manager Corporate and Superannuation Trustee Services and the General Manager, Superannuation Services.
