

# LYSAGHT®

## About LYSAGHT®

We offer an extensive range of building solutions for roofing and walling, structural decking and steel framing systems under our LYSAGHT® brands. The LYSAGHT® brand is synonymous with producing high quality steel components that are part of our community and the built environment. The portfolio of projects that LYSAGHT® has supported across our global footprint is testament to its enduring reputation as a leader in providing steel building solutions. The portfolio ranges from cutting-edge architectural landmark projects, utility buildings for industrial customers, as well as commercial, residential and home improvement projects.
