Dataworks executes planning services agreement with NSW Government

Dataworks Group Limited (ASX: **DWG**) (“Dataworks” or “the Company”) advises that it has entered into an agreement with the NSW Government to undertake a paid planning and mobilisation engagement in connection with a component of the Government's gambling harm minimisation measures.

The engagement will be delivered on a fixed price basis and is intended to support project planning, technical scoping and contract development activities.

Based on current scope, the Company expects the engagement to generate approximately A\$536k revenue across an 8 week period based on the successful delivery of three defined milestones. The engagement is expected to commence on the 2nd September, 2026.

Any future implementation or operational arrangements that may be considered in connection with this engagement remain subject to separate negotiation and agreement between the parties. There is no certainty that any further agreement will be reached, and the Company does not intend to comment further on the nature or scope of any potential future arrangement unless and until one is reached.

The Company will provide further updates in accordance with its continuous disclosure obligations as material developments occur.

About Dataworks

Dataworks Group Limited (ASX:DWG) is a leading Regulated Gaming Technology (“RegTech”) company specialising in secure, scalable and mission-critical technologies designed to combat problem gambling and support responsible wagering initiatives globally.

Dataworks delivers and operates Australia's **BetStop – National Self-Exclusion Register™** (“NSER”) and Ontario's **BetGuard** Centralised Self-Exclusion platform for iGaming Ontario in Canada, together representing the only two known large-scale, enterprise-grade, real-time centralised self-exclusion systems currently operating globally. The Company's platforms maintain real-time integrations with more than 200 of the world's largest wagering operators and are fully embedded into the betting journey, enabling instantaneous exclusion checks and enforcement at critical points of user activity. Since the launch of its first platform approximately two years ago, Dataworks' government platforms have processed more than **41 billion real-time exclusion checks** and now process **in excess of 50 million real-time exclusion checks** on a typical day, demonstrating the scale, resilience and mission-critical nature of the Company's technology.

In addition to its core technology platforms, Dataworks also provides associated managed services infrastructure, including end-to-end contact centre operations supporting large-scale regulatory program delivery.
