### About Peako Limited

Peako Limited (ASX: PKO) is an ASX-listed mineral exploration company focused on the discovery and development of high-quality gold assets. The Company is advancing an 862km² portfolio of gold exploration projects in the Central Arabian Gold Region of Saudi Arabia — a geological province of comparable endowment to Western Australia and West Africa, only recently opened to international explorers and entering what the Company believes will be a significant new phase of discovery.

The Saudi Arabian portfolio comprises six projects located within 65km of operating gold mines.

In addition to its Saudi Arabian gold portfolio, Peako holds a 500km² tenement package in the East Kimberley Province of Western Australia — an endowed, under-explored multi-commodity region within the Halls Creek Orogen. The Kimberley projects host multiple mineralisation styles, including structural and shear-hosted gold, intrusion-related gold and base metals, and ultramafic-hosted nickel-PGE.
