Differences in performance between the Munro Global Growth Fund and MAET (ASX quoted fund) relate to their respective inception dates, the buy/sell spread of the iNAV for MAET.ASX, the timing difference between the issuing of units during the day on the ASX for MAET and the purchase of units in the Munro Global Growth Fund at the end of the day. This may result in reporting small differences in performance.

MONTHLY SUMMARY

- The Munro Global Growth Fund returned -2.4% net for August. Long equities, hedging and currency detracted from performance.
- August saw equity markets hold steady in spite of the recent AI sector sell-off and some late-month volatility, driven by ongoing geopolitical conflict and the Fed declining to rule out a September rate hike. Despite a difficult short-term backdrop driven by political sentiment, Munro remains confident in AI being a structural driver over the medium term, reinforced by Nvidia's earnings where demand continues to be very strong.
- Key contributors to performance for the month were Nvidia (High Performance Computing), Lumentum Holdings (Connectivity) and Targa Resources (Infrastructure).
- Key detractors from performance for the month were Howmet Aerospace (Travel), Alphabet (Internet Disruption) and GE Vernova (Power Generation).
