

ABOUT

Safety, Environmental and Social

We work hard to achieve the right balance between community expectations, responsibility to our shareholders and our important role in helping to deliver a smooth global energy transition.

Health, Safety & Environment

Horizon's first priority is the health and safety of our workforce and communities, and the protection of the environment in which we operate. We work closely with our operators in China, New Zealand and Australia to maintain asset integrity and have in place appropriate workplace management systems that reflect our high expectations for health, safety and environmental performance. Horizon actively oversees our operators' programs to maintain focus on safety and environmental protection.

Governance

Horizon is committed to making the right kind of impact and applying best practice consistently to what we do, whether incountry or in our overseas operations, such as China and New Zealand. We promote and are committed to a high standard of integrity, ethical and transparent behaviour in business.

Our People – Employees & Communities

Our employees will deliver Horizon's future and so we want our employees to be proud to work for Horizon. Horizon recognises that we must empower employees and promote diversity so that our people can achieve their personal best. We also acknowledge the communities that we work in, and that our social licence comes from investing in our communities.

Climate Change

Horizon recognises the responsibility and role it has to play to advance clean, affordable energy for all by 2030 and reach net zero emissions by 2050. Horizon is committed and focused on supporting our operators in emissions reduction initiatives. Horizon is using the TCFD recommendations to guide our disclosures and is monitoring the requirements to implement AASB and/or ISSB standards in the jurisdictions where we operate.
