

Commencement of Rights Trading - ASX Code: GG1R

Green Gold Minerals Limited (**GG1** or the **Company**) is pleased to advise that the rights to the Company's Renounceable Rights Issue announced on Monday, 7 September 2026 have commenced trading today under the ASX code **GG1R**.

Under the Rights Issue timetable, rights trading will end on **Wednesday, 23 September 2026**.

As the Company is undertaking a renounceable entitlement issue, shareholders who do not wish to take up some or all of their entitlements can sell them on the ASX during the rights trading period to parties who do. This structure provides flexibility, allowing shareholders to choose to take up their entitlements in full, partially participate, or sell some or all of their entitlements on market to realise value.

This announcement has been approved for release by the Board of Directors.

About the Chillagoe Gold Project:

The Chillagoe Gold Project is located 25km northwest of Chillagoe in north Queensland adjacent to the significant Red Dome and Mungana gold deposits. The project contains an inferred JORC Resource¹ of 32koz Au and 387koz Ag at 1.1g/t Au and 13 g/t Ag within granted mining leases at Wandoo.

Drilling at Mt Wandoo recently returned strong drill results and the deposit remains open along strike and at depth.

The Company has a dual focus of extending the Wandoo resource in preparation for mining studies, while exploring for new discoveries in the Mungana porphyry cluster.

About the Herberton Mineral Field Project:

Located in a prolific historic mining area 100km west of Cairns, QLD, the project lies within the Cu-Ag-Sn-In dominant zone, elements that are leveraged to future facing electrification and AI data centre metal demand. The tenements are unexplored in the modern era and have high discovery potential.

The Company plans to emulate the success of neighbouring explorers that have recently delineated large resources from the prolific mineral occurrences found across this region.
