About the iAccess Alpha Virtual Best Ideas Fall Investment Conference

iAccess Alpha hosts virtual investor conferences featuring companies recommended by investors. The two-day format includes webcast company presentations on the first day and one-on-one meetings between company management teams and pre-qualified investors on the second day.

About BluGlass

BluGlass Limited is a vertically integrated developer and manufacturer of visible gallium nitride (GaN) lasers for next-generation defense, aerospace, quantum, biotechnology, sensing and advanced computing applications. With specialized GaN laser operations in the United States and Australia, BluGlass designs, grows, fabricates, packages and tests visible laser devices and integrated photonic solutions. The Company's project-to-product strategy combines customer-funded development programs with a pathway to repeat product orders and potential long-term manufacturing supply agreements.
