

OD6 LAUNCHES NEW WEBSITE AND INTERACTIVE INVESTOR HUB

New digital platform provides shareholders and investors with improved access to Company information and direct engagement with OD6

Highlights

- **New OD6 corporate website launched**, providing a refreshed and more accessible overview of the Company, its critical minerals portfolio and strategy
- **Interactive Investor Hub now live**, bringing OD6 announcements, presentations, videos and investor communications together in one place
- **Direct engagement with management**, allowing shareholders and prospective investors to ask questions and receive responses from the OD6 team
- **Enhanced investor communications**, including video updates and management commentary accompanying selected Company news
- Investors **can register to receive OD6 announcements and updates directly** and be notified of important Company and shareholder events
- Shareholders and investors are encouraged to **join the OD6 Investor Hub at www.od6metals.com.au**

Brett Hazelden, Managing Director of OD6 Metals comments

"OD6 has changed considerably over the past year and we wanted our website and investor communications platform to better reflect the Company we are today and where we are heading.

The Quinn Fluorspar Project in Nevada is being rapidly advanced alongside our Splinter Rock Rare Earths Project in Western Australia and Gulf Creek Copper Project in New South Wales, and we expect a significant level of activity across the portfolio.

Our new website gives investors a clearer view of our projects and strategy, while the Investor Hub provides a simple way for shareholders and prospective investors to stay informed and engage directly with us.

We have always placed considerable importance on communicating openly with our shareholders. The Investor Hub gives investors the opportunity not only to receive our updates, but also to ask questions and hear directly from the OD6 team as we continue to advance the Company.

I encourage existing shareholders and anyone interested in following the OD6 story to join the Investor Hub and stay connected with us."

OD6 Metals Limited (ASX: OD6) ("**OD6**" or the "**Company**") is pleased to announce the launch of its **new corporate website and interactive Investor Hub**, providing shareholders and prospective investors with a central platform to access Company information and engage directly with OD6.

The new website has been designed to provide a clearer and more accessible overview of the Company, its projects and strategy, while the integrated Investor Hub brings OD6's announcements, presentations, reports, videos and other investor communications together in one place.

Importantly, the Investor Hub also provides shareholders and prospective investors with a direct channel to ask questions of the Company and engage with the OD6 team regarding Company announcements and updates.

The launch represents a further step in OD6's commitment to maintaining open, transparent and accessible communication with shareholders as the Company continues to advance its portfolio of critical minerals projects in Australia and the United States.

A New Way to Stay Connected with OD6

Through the Investor Hub, shareholders and investors will be able to:

- access OD6 ASX announcements and Company updates in one place
- watch video updates and management commentary on selected Company news
- access investor presentations, reports and other Company material
- ask questions and engage directly with the OD6 team
- receive notifications regarding Company updates, shareholder votes and other important dates

Join The OD6 Investor Hub

Forward Looking Statements

Certain information in this document refers to the intentions of OD6 Metals, however these are not intended to be forecasts, forward looking statements, or statements about the future matters for the purposes of the Corporations Act or any other applicable law. Statements regarding plans with respect to OD6 Metals projects are forward looking statements and can generally be identified by the use of words such as 'project', 'foresee', 'plan', 'expect', 'aim', 'intend', 'anticipate', 'believe', 'estimate', 'may', 'should', 'will' or similar expressions. There can be no assurance that the OD6 Metals plans for its projects will proceed as expected and there can be no assurance of future events which are subject to risk, uncertainties and other actions that may cause OD6 Metals actual results, performance, or achievements to differ from those referred to in this document. While the information contained in this document has been prepared in good faith, there can be given no assurance or guarantee that the occurrence of these events referred to in the document will occur as contemplated. Accordingly, to the maximum extent permitted by law, OD6 Metals and any of its affiliates and their directors, officers, employees, agents and advisors disclaim any liability whether direct or indirect, express or limited, contractual, tortious, statutory or otherwise, in respect of, the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).

No new information

Except where explicitly stated, this announcement contains references to prior exploration results, all of which have been cross-referenced to previous market announcements made by the Company. The Company confirms that it is not aware of any new information or data that materially affects the information included in the relevant market announcements.

The information in this report relating to the Mineral Resource estimate for the Splinter Rock Project is extracted from the Company's ASX announcements dated 18 July 2024. OD6 confirms that it is not aware of any new information or data that materially affects the information included in the original announcement and that all material assumptions and technical parameters underpinning the Mineral Resource estimate continue to apply.

This announcement has been authorised for release by the Board of OD6 Metals Limited.

About OD6 Metals

OD6 Metals Ltd is an Australian critical minerals exploration and development company with projects spanning fluorspar, rare earth elements and copper across the United States and Australia.

OD6 aims to position itself as an emerging supplier of strategically important critical minerals required for next-generation industrial, defence and energy technologies.

Quinn Fluorspar Project – Nevada, USA

OD6 is advancing the Quinn Fluorspar Project located in Nevada, USA, one of the world's premier mining jurisdictions and currently ranked second globally in the Fraser Institute 2025 Mining Attractiveness Index.

Quinn hosts multiple high-grade fluorspar deposits including Horseshoe, Mammoth and Big Jim, with historical drilling, channel sampling and testwork confirming significant high-grade mineralisation and potential for both Metspar and premium Acidspar products.

Fluorspar is classified as a critical mineral in the United States, which currently imports 100% of all Fluorspar consumed domestically with >60% of all global supply sourced from China. It is essential in hydrofluoric acid production, AI semiconductor manufacturing, advanced battery technologies, uranium enrichment, defence systems and refrigerants.

Splinter Rock Rare Earth Project – Western Australia

OD6's 100% owned Splinter Rock Rare Earth Project in Western Australia hosts one of Australia's largest and highest-grade clay-hosted rare earth deposits, with a Mineral Resource Estimate of:

- Indicated: 119Mt @ 1,632ppm TREO
- Inferred: 563Mt @ 1,275ppm TREO

OD6 is advancing an innovative processing flowsheet utilising heap leaching, nanofiltration and ion exchange technologies designed to achieved ~75% Nd & Pr overall recovery plus produce a high-quality Mixed Rare Earth Carbonate/Hydroxide product of ~56-59% TREO with low impurity levels

Gulf Creek Copper Project – New South Wales

OD6 is also advancing the Gulf Creek Copper-Zinc VMS Project in New South Wales, a historically high-grade copper mining district with significant exploration upside.

Recent drilling and geophysical programs have confirmed high-grade copper mineralisation and identified multiple large-scale exploration targets along more than 10km of prospective strike
