

ASX RELEASE

Dotz Nano Limited (ASX: DTZ | US OTC: DTZZF / DTZNY | Frankfurt: 57N0)

DOTZ NANO SECURES A\$960,000 (EUR 600,000) CARBON-CAPTURE SORBENT SUPPLY AGREEMENT WITH SOLETAIR POWER

Two-year agreement for Dotz carbon-capture product to support Nordic carbon removal solutions

Melbourne, Australia – 14 September 2026

Dotz Nano Limited (ASX: DTZ) is pleased to announce it has entered into a Purchase Order and Ongoing Supply Agreement with Soletair Power Oy (Finland), a leading carbon removal technology company, for the supply of Dotz carbon-capture sorbent over a two-year term, with a contract value of EUR 600,000 (approximately AUD \$960,000).

KEY COMMERCIAL TERMS

- Customer: Soletair Power Oy (Business ID 2753123-1), Lappeenranta, Finland
- Product: Dotz carbon-capture sorbent
- Total Contract Value: EUR 600,000 (approximately AUD \$960,000 based on current exchange rates)
- Supply Term: 24 months commencing 14 September 2026

STRATEGIC IMPORTANCE

This supply agreement represents significant commercial validation of Dotz's carbon-capture sorbent technology within the Nordic carbon removal market. Soletair Power is a recognised leader in direct air capture (DAC) solutions, and this agreement demonstrates the suitability and scalability of Dotz's materials for commercial carbon removal applications.

The agreement supports Dotz Nano's strategic direction to commercialise and scale its advanced carbon capture sorbent.

"This partnership with Dotz validates our technology pathway and secures the sorbent supply essential for scaling our direct air capture operations. We're pleased to work with an Australian innovator bringing world-class materials to Nordic carbon removal."

— Petri Laakso, CEO, Soletair Power Oy

"Moving Dotz from the laboratory to commercial customer engagement is a critical inflection point for our technology roadmap. Soletair Power's validation of our carbon-capture sorbent demonstrates the real-world performance required for market adoption in direct air capture applications. This agreement marks the beginning of a significant commercialisation pathway for Dotz's advanced materials in the climate solutions sector, and we anticipate further customer partnerships and scaling opportunities as demand for carbon removal solutions accelerates globally."

— Nati Harpaz, CEO, Dotz Nano Limited

ABOUT SOLETAIR POWER

Soletair Power Oy is a Finnish carbon removal technology company specialising in direct air capture. The company develops and commercialises DAC systems designed for retrofitting onto existing HVAC infrastructure and industrial thermal systems in Nordic facilities, particularly targeting thermally intensive buildings such as hotels and industrial sites.

ABOUT DOTZ NANO LIMITED

Dotz Nano Limited (ASX: DTZ) is an Australian advanced materials company with two principal business lines:

- Dotz Tech: Development and licensing of carbon nanomaterials, including product authentication and anti-counterfeiting solutions, and carbon-capture sorbents for environmental applications.
- Dotz Energy: Shared-savings energy efficiency solutions for thermally intensive buildings, partnering with hotel operators, commercial buildings and industrial facilities on ESCO (Energy Service Company) models.
