

ASX Announcement:

5G Networks establishes a
\$1 million unsecured loan facility
to support AUCyber

17 September 2026

5G Networks Limited (ASX: 5GN) advises that it has entered into a formal Loan Facility Deed dated 17 September 2026 with AUCyber Limited (AUCyber), under which 5GN will make available to AUCyber an unsecured revolving loan facility of up to \$1,000,000 (Facility).

5GN holds approximately 90% of the issued shares in AUCyber. The Facility is intended to support AUCyber's working capital requirements and to formalise the existing intercompany funding position between 5GN and AUCyber.

Key terms of the Facility:

Facility limit	\$1,000,000, unsecured and revolving.
Purpose	To discharge the existing intercompany balance owing by AUCyber to 5GN, being approximately \$1,000,000 as at 24 August 2026.
Interest rate	5% per annum benchmarked to the Bank Bill Swap Rate ("BBSW") for 6 month term at 15th September 2026.
Repayment	Repayable on 90 days' written notice from 5GN, with amounts able to be drawn, repaid and redrawn during the availability period.
Security	None. The Facility is unsecured.

The 5GN Board has approved the Facility having regard to the commercial rationale for supporting AUCyber's working capital requirements, the terms of the Facility, 5GN's existing exposure to AUCyber and the interests of 5GN shareholders.

ASX Listing Rule 10.1 is not applicable to the Facility as drafted, as the Facility is unsecured and does not involve the acquisition or disposal of a substantial asset by either party. While no such amendments are planned, this position will be reassessed if any security interest, guarantee, asset transfer or other collateral arrangement is introduced.

This announcement has been approved for release by the Board of 5G Networks Limited.
