POWER

Monadelphous provides comprehensive services to the power industry, including construction and commissioning of oil, gas and coal-fired power stations, wind farms, biomass power plants and coal seam gas power stations.

[Zenviron \(https://www.zenviron.com/\)](https://www.zenviron.com/), our renewable energy joint venture with Zem Energy provides engineering, procurement and construction (EPC) services for wind farm and utility scale solar projects to the renewable energy market in Australia and New Zealand. Zenviron brings together the technical experience, design capabilities and long-term industry relationships of ZEM Energy and the multidisciplinary engineering and construction capabilities of Monadelphous. Zenviron has full vertical balance of plant (BOP) capability from initial consultation through to detailed design, construction, commissioning and handover of wind farms, utility scale solar, battery storage, substations, medium voltage power lines and transmission lines, wind turbine generator (WTG) cranes and logistics management and WTG erection.

Across our operations we acknowledge the Traditional Owners of lands where we work and pay our respects to Elders past, present and emerging. We acknowledge the strength of Aboriginal and Torres Strait Islander peoples in sustaining the world's oldest living culture. We recognise the relationship Aboriginal and Torres Strait Islander peoples maintain with the land, sea and sky. We value the important roles and responsibilities upheld by Aboriginal and Torres Strait Islander peoples within our business, and within our community.
