¹ “Corporate governance statement” is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council's recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity's corporate governance statement. They serve different purposes and an entity must produce each of them separately.

² Tick whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where your corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

³ Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. If you select an option that includes “OR” at the end of the selection and you delete the other options, you can also, if you wish, delete the “OR” at the end of the selection.

Governance Framework

Introduction

MyState Limited (ASX:MYS) is the ASX listed, Non-Operating Holding Company (NOHC) of the diversified financial services group consisting of wholly owned subsidiaries MyState Bank Limited (MSB) (including Auswide and Selfco brands), and TPT Wealth Limited (TPT) a trustee and asset management company (collectively hereafter referred to as MyState or the MyState Group).

Corporate Governance

The MyState Board is committed to upholding the highest levels of corporate governance and subscribes to the Corporate Governance Principles and Recommendations published by the ASX Corporate Governance Council in order to promote investor confidence in the company and within the broader market.

In addition the Australian Prudential Regulation Authority (APRA) requires MYS, as the NOHC of a bank, to comply with the prudential obligations that apply directly to the bank including Prudential Standard CPS 510 Governance.

To this end the Board has a governance framework whereby the appropriate policies, meeting the APRA prudential requirements, apply across the MyState Group.

MyState's Corporate Governance policies are available on the Company's website <https://mystatelimited.com.au/environment-social-and-governance>. Unless otherwise stated, all additional documents and policies referred to in this Corporate Governance statement are located on the website.

This Corporate Governance Statement has been approved by the Board and is current as at 24 August 2026. MyState has complied with the principles and the underlying recommendations of ASX Corporate Governance Council for the full year to 24 August 2026.

Board of Directors

Role of the Board

The role of the Board is to:

- » Appoint and monitor the performance of the CEO
- » Provide overall leadership, setting the purpose and values
- » Set the strategic direction and risk profile of the Group
- » Oversee key policies and compliance management
- » Lead and monitor the culture and performance including customer experience and outcomes.

The Board has a governance framework which includes policies, control systems and procedures to identify, assess, monitor and manage business risks and compliance with regulatory requirements.

The Board is responsible for the appointment of the Chief Executive Officer (CEO), setting his/her remuneration and assessing his/her performance annually.

The CEO is responsible to the Board for the appointment of the Group Executive Committee (Executive) and the day-to-day operation of the Company, with all powers, discretions and delegations authorised, from time to time by the Board.

The Board also reviews recommendations from the CEO and approves the Executive structure, including appointment, succession plan considerations, remuneration and annual performance assessments.

Further details regarding the role and responsibilities of the Board and the CEO are contained in the Board Charter and the Role of the Managing Director/Chief Executive Officer documents on the website.

Formal performance evaluations have been undertaken for the CEO and Executives during the current financial year in accordance with the process detailed in the Remuneration Report published within the 2026 Annual Report located in the Reports section of the website.

Board Structure

The Board must comprise a majority of independent Directors and in addition, the Chair must also be independent and not the same person as the CEO. The Board currently comprises five, independent, non-executive Directors, including the Chair, together with the CEO.

The profile of each Director including term of office, skills, experience and expertise are set out in Board of Directors section of the website and also in the 2026 Annual Report located in the Reports section of the website.

The Company Secretary is accountable to the Board, through the Chair, on all matters to do with the proper functioning of the Board.

Director Independence

The Board has an 'Independent Director Standards' policy that complies with the ASX Corporate Governance Principles and Recommendations and is available on the website.

To qualify as being 'independent', a Director must, in the opinion of the Board, be independent of Management and free from any business or other relationship that could materially interfere with – or could reasonably be perceived to materially interfere with – the exercise of his/her unfettered and independent judgement.

The Board has reviewed the position and associations of each of the current non-executive Directors and, noting that no Director opined on their own position, has determined that all are independent.

Board Skills, Knowledge and Experience

Each year the Board, through the Group People, Remuneration and Nominations Committee (GPRNC), reviews the key competencies required for the optimal composition of the Board.

The Board has assessed its collective skills and experience as being appropriate for effective oversight and guidance of the Group.

The Board provides Directors with the opportunity for professional development to maintain and develop the skills and knowledge required to effectively perform their role.

In addition, the GPRNC oversees the Director induction process to provide new Directors with the necessary information and support upon commencement of their role.

APRA's Prudential Standard CPS 520 'Fit and Proper' also requires Directors, Senior Management and auditors of an authorised deposit-taking institution to be assessed before appointment to establish that they have the appropriate skills, experience and knowledge to perform their role.

The Board approved Fit and Proper policy is located on the website and all 'Responsible Persons', including all Directors, have been assessed as meeting the 'fit and proper' criteria.

Purpose Culture and Values

Our purpose defines why we exist, our target culture describes how we need to work together to deliver our strategy, and our values guide the behaviours that bring that culture to life every day

Our purpose statement:

We have big ambitions.

We make managing your money easy and earn your trust by helping you achieve what matters most.

We invest in our people and communities, so together we can thrive.

Our purpose is lived through our rally cry – *Together for the better.*

Our target culture is values led while driving business outcomes. Combining urgency, accountability, challenge and action with the focus to serve our customers brilliantly.

Our cultural values, described as the "3 'C's" to make it happen" are:

Create customer 'wow'
Chase the better
Collaborate to win

Our values are integrated into our business policies and procedures, including the Code of Conduct and the bi-annual performance assessment process. A positive assessment against living our values is a prerequisite to incentive rewards.

We monitor our organisational culture through a culture survey. Our risk culture is monitored annually, and we provide a confidential feedback mechanism for our people via the Voice of the Employee staff survey each year.

Conduct and Ethics

The Board expects that Directors will at all times conduct themselves in a manner appropriate to their roles as Directors and maintain the highest of ethical standards. The same requirement is expected of management and staff, as is respect for the privacy of customers and observance of the law.

MyState has a suite of Board approved policy documents which all operate in concert as part of the broader risk management framework to set behavioural expectations.

The MyState Code of Conduct clarifies the standard of behaviour that is expected of anyone who is employed by or works within the Group, including Directors and employees (both permanent and temporary), contractors, consultants and suppliers. The Code of Conduct is available on the website.

Diversity

MyState considers Workplace Diversity a valuable asset in creating a workplace culture for innovation and quality customer experiences.

An inclusive workplace culture, where our people feel safe to share their ideas, skills and experiences helps us attract, retain and engage the best people, reflecting the diversity of our customers and the community. When our people feel included, have a sense of belonging and can bring their best self to work every day, this enables us to fulfil our Purpose and uphold our Values.

MyState recognises that workplace diversity is achieved through systemic change.

Accordingly, MyState's people and culture practices and initiatives are designed to promote an inclusive culture. In addition to appropriately aligned recruitment and selection processes this also includes data collection and reporting, opportunities for networking, mentorship and advocacy, acknowledgment and celebration of the diversity within our workplaces and access to development opportunities.

MyState's Diversity Policy was reviewed in June 2026 and is available on the website.

The MyState Board also approved the diversity plan, providing the framework for our diversity and inclusion initiatives over the next three years. To enable us to make a genuine difference this plan focuses on:

- » Cultural diversity
- » Aboriginal and Torres Strait Islander peoples
- » Disability Inclusion and Accessibility
- » Gender Equality

The activities that bring our diversity plan to life will create a more inclusive and diverse workforce for everyone. Other diversity indicators such as LGBTQI+, religion, age, socio-economic status, care-giving responsibilities and geographic location are also very important to the Group. This work will benefit us all, our customers and our community.

Our diversity plan is complemented by our workplace health and safety program, inclusive of psychosocial safety, our focus on evolving our risk and organisational culture and the investment in developing capability (including leadership). Our diversity plan is available on the website.

The Remuneration Policy outlines the methodology for rewarding staff with a particular focus on Executives. It balances the interests of stakeholders (including customers, shareholders and staff) and the sustained performance and security of the Group as a listed entity and prudentially regulated business.

The GPRNC considers a range of relevant matters, including financial and non-financial risks when considering the performance and remuneration of Executives. A performance review of Executives has been undertaken this year in accordance with the Remuneration Policy.

risk management and internal compliance and control which implements the policies adopted by the Board and that the risk management and internal compliance and control system is operating efficiently and effectively in all material respects.

From time to time MyState may issue a report to the market that is not subject to audit review. In such instances a rigorous review and sign off process is completed, which may also include independent external review, for assurance that the report is materially accurate and provides stakeholders with appropriate information.

Risk Management

The Board is responsible for overseeing the Group's Risk Management Framework and for promoting a culture that supports informed risk-taking, prudent decision-making, and sustainable value creation.

The Risk Management Framework is designed to identify, assess, manage, monitor and report material risks arising from the Group's activities and strategic objectives. It aligns risk management activities to the achievement of strategic and business objectives and is supported by Board-approved policies, standards and governance processes. The framework incorporates clearly defined accountabilities, risk appetite settings, reporting and escalation requirements, and assurance activities across the Group

The Board, through the Group Risk Committee (GRC), reviews the effectiveness of the Risk Management Framework at least annually. The annual review considers the effectiveness of risk management practices, risk governance arrangements, risk culture outcomes, emerging risks and compliance with regulatory obligations.

The Board approves the Group's Risk Appetite Statement (RAS) annually and receives regular reporting on performance against approved risk appetite settings. The RAS defines the nature and extent of risk the Group is willing to accept in pursuing its strategic objectives and provides a foundation for decision-making across the organisation. Reporting to the Board and the GRC includes updates on key risk indicators, emerging risks, material incidents, control effectiveness assessments and performance against approved risk appetite settings.

The Group adopts a Three Lines Model to support effective risk management. Business and operational management teams are responsible for identifying and managing risks within their areas of responsibility. An independent risk function provides oversight, challenge and advice on risk management practices and compliance obligations. Independent assurance is received through the Internal Audit function, which is externally delivered by Deloitte Touche Tohmatsu (Deloitte) to Group Audit Committee (GAC). The GAC reviews the effectiveness, independence and resourcing of the Internal Audit function on an ongoing basis.

The Board recognises that effective management of both financial and non-financial risks is essential to the long-term success of the Group. The Board monitors material risk categories which include environmental, social and governance (ESG) risk, credit risk, liquidity and funding risk, market and treasury risk, operational risk, regulatory and compliance risk, conduct risk, strategic risk, reputation risk, technology and cyber security risk, data and information management risk, third-party and outsourcing risk, and financial crime risk.

An overview of MyState's approach to ESG and associated material risks is provided in the 2026 Annual Report which includes mandatory climate related financial information required under the Corporations Act 2001 and accounting standard AASB S2. Additionally, MyState's Modern Slavery Statement and Human Rights Statement are published on the website and explain how we assess and address these risks in our business operations and supply chains.

As a financial services industry business, the Board maintains particularly vigilant oversight of cyber and information security risks and monitors the effectiveness of arrangements designed to protect customer information, critical systems and business operations. This includes oversight of the evolving threat environment, key control improvements, cyber resilience capabilities, material incidents and remediation activities.

The Board considers that a strong risk culture is fundamental to maintaining sound governance, effective risk management and ethical business practices. The Board receives periodic reporting on culture indicators, employee feedback, risk events, conduct outcomes, whistleblower matters and other measures that provide insight into the Group's risk culture.

The Group maintains processes to identify and assess emerging risks that may affect the achievement of its strategic objectives. The Board receives regular updates on developments in the external environment, including regulatory change, economic conditions, technology disruption, cyber threats, climate-related developments and other emerging risks relevant to the Group's operations.

The Board has reviewed the Group's Risk Management Framework during this reporting period and is satisfied that the Group has in place appropriate policies, governance arrangements, systems and controls that are appropriate for the size, complexity and nature of the Group's operations and that continue to operate effectively in managing the Group's material business risks. The Board continues to monitor and strengthen these arrangements in accordance with changes in the operating environment, stakeholder expectations and regulatory requirements.

External Audit Governance and Independence

As part of MyState's commitment to safeguarding integrity in financial reporting, it has policies and procedures to annually monitor the independence, effectiveness and performance of the Company's external auditor through the GAC.

Appointment of Auditors

MyState's external auditor for the FY26 financial year was Ernst and Young (EY). EY was appointed by shareholders at the 2025 Annual General Meeting.

In the normal course of business, should it become necessary to replace the external auditor due to performance or independence concerns, the GAC will initiate a formal process to appoint a new external auditor.

Independence Declaration

The Corporations Act requires the external auditor to make an annual independence declaration, addressed to the Board of Directors, confirming that the auditor has

maintained their independence in accordance with the Corporations Act 2001 and professional auditing standards.

In accordance with the Corporations Act, prior approval of the GAC is required for the provision of any non-audit services by the external auditor. The GAC has also adopted guidelines to assist in identifying the types of services that may compromise the independence of the external auditor and regular reviews occur of the independence safeguards put in place by the external auditor.

Examples of services that could potentially compromise independence include valuation services and internal audit services.

The GAC has assessed the other services provided by EY in the financial year and has concluded that the auditor's independence has not been compromised.

Remuneration of External Auditor

Information about the total remuneration of the external auditor, including details of remuneration for any non-audit services, is set out in the financial statements within the 2026 Annual Report located on the website.
