Titomic Awarded AU$550K in Oil & Gas Cold Spray Contracts

Heerenveen, The Netherlands – Titomic Limited (ASX: TTT), a global leader in industrial-scale cold spray additive manufacturing and coating solutions, has secured two contracts valued at more than A$550,000, expanding its presence in the global oil and gas sector.

The first contract, valued at €265,000 (approximately AU$427,000), was awarded by ASMA Company for Advanced Technologies Ltd. in Saudi Arabia for a TKF™ 623 medium-pressure cold spray turnkey system for use at King Fahd University of Petroleum and Minerals (KFUPM).

The system will integrate robotic automation, powder and gas management, and process monitoring to support testing and development for oil and gas applications. It builds on an existing TKF™ 523 low-pressure system in Saudi Arabia, expanding Titomic's installed technology base and supporting future equipment, training, service and application-development opportunities in the region.

The second contract, valued at €78,000 (approximately AU$126,000), was awarded by a leading Norwegian industrial services provider for a ruggedized TKF™ 523 low-pressure cold spray system. Designed for demanding field environments, the system will support repair and maintenance of onshore and offshore oil and gas infrastructure closer to the point of need.

"These awards further expand Titomic's presence in the oil and gas sector and build on our DNV-qualified cold spray capabilities," said Jim Simpson, Managing Director & CEO of Titomic Limited. "Expanding our installed base in Saudi Arabia and deploying a ruggedized TKF™ 523 in Norway demonstrates the versatility of our technology and creates opportunities for deeper customer engagement and future growth."

Delivery of the Saudi Arabia system is scheduled for Q4 2026, including onsite installation, commissioning and training. The Norway system is scheduled for delivery in October 2026, with onsite training included.

The contracts support Titomic's strategy to expand its global installed base and create recurring opportunities across equipment, services, training and application development.

This announcement has been authorized for release by Titomic's Board of Directors.

ABOUT TITOMIC LIMITED

Titomic Limited (ASX: TTT) is a leading Advanced manufacturing company with global operations specializing in large integrated solutions for industrial- scale metal additive manufacturing, coating, and repairs using its patented kinetic fusion cold spray (Titomic Kinetic Fusion™) technology. Titomic Kinetic Fusion™ cold spray solutions provide OEM production and R&D services to the global Aerospace, Defense, Shipbuilding, Oil & Gas, Mining and Automotive industries. Titomic also offers global sales and support for all its Titomic Kinetic Fusion™ cold spray AM activities from its Huntsville, Alabama Global Headquarters, as well as through local presence in the Australia and Europe. Titomic delivers competitive advantages in metal additive manufacturing at every stage in the product value chain. For more information, please visit www.titomic.com.

FORWARD LOOKING STATEMENTS

Certain statements made in this release are forward-looking statements and are based on Titomic's current expectations, estimates and projections. Words such as "anticipates", "expects," "intends," "plans," "believes," "seeks," "estimates," "guidance" and similar expressions are intended to identify forward-looking statements. Although Titomic believes the forward-looking statements are based on reasonable assumptions, they are subject to certain risks and uncertainties, some of which are beyond Titomic's control, including those risks or uncertainties inherent in the process of both developing and commercializing technology. As a result, actual results could materially differ from those expressed or forecasted in the forward-looking statements. The forward-looking statements made in this release relate only to events as of the date on which the statements are made. Titomic will not undertake any obligation to release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this release except as required by law or by any appropriate regulatory authority.
