1.5	A listed entity should: (a) have and disclose a diversity policy; (b) through its board or a committee of the board set out measurable objectives for achieving gender diversity in the composition of its board, senior executives and workforce generally; and (c) disclose in relation to each reporting period: (1) the measurable objectives set for that period to achieve gender diversity; (2) the entity’s progress towards achieving those objectives; and (3) either: (A) the respective proportions of men and women on the board, in senior executive positions and across the whole workforce (including how the entity has defined ‘senior executive’ for these purposes); or (B) if the entity is a ‘relevant employer’ under the Workplace Gender Equality Act, the entity’s most recent “Gender Equality Indicators”, as defined in and published under that Act.		The Company’s Corporate Governance Plan includes a Diversity Policy, which provides a framework for maintaining and improving workplace diversity with a particular focus on achieving gender diversity. The Corporate Governance Plan, which includes the Diversity Policy, is available on the Corporate Governance page of the Company’s website. The Board continues to monitor diversity and is satisfied with the current level of gender diversity within the Company. The proportion of women in the whole organisation, women in senior executive positions and women on the Board are set out below: <table><tr><td></td><td>Actual</td><td>Objective</td></tr><tr><td>Organisation as a whole</td><td>44%</td><td>40%</td></tr><tr><td>Executive Management Team</td><td>67%</td><td>40%</td></tr><tr><td>Board</td><td>40%</td><td>40%</td></tr></table> For this purpose, “Senior Executive” is defined as a member of Key Management Personnel as outlined in the Remuneration Report in the Company’s Annual Report.		Actual	Objective	Organisation as a whole	44%	40%	Executive Management Team	67%	40%	Board	40%	40%
	Actual	Objective

As the Company has no Nomination Committee, this function was performed by the Board as a whole. Performance evaluations were undertaken in August 2026. The Board reviews the performance of the Board as a whole on a regular basis.												

STAVELY MINERALS LIMITED - Corporate Governance Statement – 2026

PRINCIPLES AND RECOMMENDATIONS	COMPLY	DISCLOSURE
1.7 A listed entity should: (a) have and disclose a process for periodically evaluating the performance of its senior executives at least once every reporting period; and (b) disclose for each reporting period whether a performance evaluation has been undertaken in accordance with that process during or in respect of that period.	✓	All senior executives are subject to annual performance evaluations. There are no senior executive positions outside of the Board.
Principle 2: Structure the board to be effective and add value <i>The board of a listed entity should be of an appropriate size and collectively have the skills, commitment and knowledge of the entity and the industry to enable it to discharge its duties effectively and to add value.</i>		
2.1 The board of a listed entity should: (a) have a nomination committee which: (1) has at least three members, a majority of whom are independent directors; and (2) is chaired by an independent director; and disclose: (3) the charter of the committee. (4) the members of the committee; and (5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or (b) if it does not have a nomination committee, disclose that fact and the processes it employs to address board succession issues and to ensure that the board has the appropriate balance of skills, knowledge, experience, independence and diversity to enable it to discharge its duties and responsibilities effectively.	✓	The Company's Corporate Governance Plan includes a Nomination Committee Charter. The Corporate Governance Plan is available on the Corporate Governance page of the Company's website. The primary purpose of the Nomination and Remuneration Committee is to support and advise the Board in maintaining a Board with an appropriate mix of skills and experience and ensuring the Board is comprised of Directors who contribute to the successful management of the Company and discharge their duties having regard to the law and the highest standards of corporate governance. The role and functions of a Nomination Committee are undertaken by the full Board. Given the current size and composition of the Board, the Board believes that there would be no efficiencies gained by establishing a separate Nomination Committee. The Board has taken a view that the full Board will hold special meetings or sessions as required. The Board is confident that this process for selection and review is stringent. Full details of all Directors are provided to shareholders in the annual report, through ASX disclosure upon appointment and on the Company's website. The composition of the Board is reviewed on an annual basis to ensure the Board has the appropriate mix of technical skills, financial skills, expertise and experience. This includes an assessment of whether the Board has the skills, knowledge and experience as a group to deal with new and emerging business and governance issues. Where a vacancy exists, through whatever cause, or where it is considered that the Board would benefit from the services of a new Director with particular skills, the Board determines the selection criteria for the position based on the skills deemed necessary for the Board to best carry out its responsibilities and then appoints the most suitable candidate who must stand for election at the next general meeting of shareholders.

2.2 A listed entity should have and disclose a board skills matrix setting out the mix of skills and diversity that the board is currently has or is looking to achieve in its membership.	✓	The Board Charter provides that the Board will regularly review the appropriate mix of skills and expertise to facilitate successful strategic direction. In appointing new members to the Board, consideration is given to the ability of the appointee to contribute to the ongoing effectiveness of the Board, to exercise sound business judgment, to commit the necessary time to fulfill the requirements of the role effectively and to contribute to the development of the strategic direction of the Company. This includes an assessment of whether the Board has the skills, knowledge and experience as a group to deal with new and emerging business and governance issues. The Company provides details of each Director, such as their skills, experience and expertise relevant to their position in the Directors' Report in the Annual Report and also provides these details on its website. The graph below shows the areas of competence and skills of the Board of Directors. The current collective experience, skills and attributes of the Board will be reviewed in conjunction with material changes to the Company's operating requirements and strategy. The Board is of the view that the proposed Board possesses an appropriate mix of skills, experience and knowledge to enable the Board to discharge its responsibilities and deliver on corporate objectives and governance.

2.3 A listed entity should disclose: (a) the names of the directors considered by the board to be independent directors; (b) if a director has an interest, position, association or relationship that might cause doubt about the independence as a director but the board is of the opinion that it does not compromise the independence of the director, the nature of the interest, position, association or relationship in question and an explanation of why the board is of that opinion; and (c) the length of service of each director.		Directors are considered independent non-executive directors if they are not a member of management and are free of any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the independent exercise of their judgment. Director Robert Dennis is considered independent. The remainder of the Board, whilst not considered independent due to either holding an executive role with Stavelly or having a substantial shareholding, all have extensive experience and a proven track record of success. The date of appointment for each director is contained in the Directors' Report in the Annual Report.
2.4 A majority of the board of a listed entity should be independent directors.		Currently the Board has five Directors, with one being an independent Director. The number of Directors is maintained at a level which will enable effective spreading of workload and efficient decision making. The remainder of the Board, whilst not considered independent due to either holding an executive role with Stavelly or having a substantial shareholding, all have extensive experience and a proven track record of success. The Stavelly Board believes that Board independence is more appropriate to larger corporates as opposed to earlier-stage companies and that inherently the boards of early-stage companies typically are populated by founders and major stakeholders. The Stavelly Board recognises that as the Company matures and evolves from exploration through development and production that the Board will need to evolve to include skill sets relevant to the Company's evolution. This was demonstrated by the evolution of the former Integra Mining Limited Board of Directors which evolved from a three-person Board in its early stages of exploration through to a Board of seven members with a majority independent by the time the Company successfully transitioned to production. The Stavelly Board do not agree that a blanket corporate governance recommendation for a majority independent board of directors is appropriate for an early-stage company. INDEPENDENCE OF OUR BOARD: As a Board, we believe that the composition of Stavelly's Board provides a depth of experience that exceeds many of our peers. In particular: Our Directors all have an excellent track record of success as evidenced by: ✓ Four of our Directors were previously with Integra Mining Limited which discovered three gold deposits, arranged funding and construction of a new processing facility transforming that company from explorer to gold producer. Integra was awarded the Australian Explorer of the Year in 2008 by Resources Stocks Magazine and in 2011 was awarded Gold Miner of the Year by Paydirt Magazine and the Gold Mining Journal. In January 2013, Integra was taken over by Silver Lake Resources Limited for \$426 million (at time of bid) at which time the Managing Director Chris Cairns agreed to resign, along with the whole Integra Board, after having successfully recommended shareholders accept the Silver Lake offer.

2.4 A majority of the board of a listed entity should be independent directors - continued		INDEPENDENCE OF OUR BOARD - continued: ✓ Other companies that Directors have been associated with include Extract Resources, Sino Gold, Independence Group and LionOre – all of which were successful explorers / developers. With the exception of Independence Group, now an \$11 billion company, these former companies have provided substantial shareholder returns in premium takeovers each worth in-excess of \$1 billion. ✓ In September 2019, Stavelly made a discovery of the shallow Cayley Lode. In February 2020, Stavelly was awarded the Craig Oliver Award at the RIU Explorers conference, which is awarded to a small to mid-cap Australian resources company that has excelled in areas including exploration, mining, corporate, market results, environmental and community. ✓ There is strong diversity on the Board (40% women). ✓ The reputation of our Board with our auditors, lawyers and regulators is highly regarded. ✓ The Board have deployed strong Corporate Governance and Risk Management policies and protocols. In addition, the Board is focussing on ESG matters and to date, feedback from the State Government and local communities where we operate has been very complementary. ✓ The skills set of Stavelly's Board is well aligned with Stavelly Minerals' corporate requirements. This includes strong skills in exploration, development, corporate transactions, finance and governance. ✓ Prior to Stavelly's Cayley Lode discovery, the Board/Management elected to have either significantly reduced remuneration or agreed to take no remuneration at all. For several years, both Peter Ironside and Amanda Sparks as Non-Executive Directors and Company Secretary, agreed to take no remuneration, and instead allow maximum available funds to be spent 'in the ground' for the benefit of all Shareholders. We believe this commitment by our Directors clearly indicates that the Board has, in the most emphatic financial manner, demonstrated it is well-aligned with Shareholders' interests. There is a lack of solid evidence that an increase in independent directors will result in an increase in company performance. Non-executive directors who satisfy all the independence criteria may nonetheless be relatively ineffective in monitoring executive management, eg due to a lack of knowledge of the company's early-stage business compared to the executive directors. Quite to the contrary, there is a body of evidence indicating that companies with Directors that have 'skin in the game' perform better than their peers with a high proportion of independent Directors – especially in the early-stages of company evolution, for example technology start-ups and mineral exploration companies. "The most involved, diligent, value-adding boards may or may not follow every recommendation in the good-governance

			handbook. What distinguishes exemplary boards is that they are robust, effective social systems.” ¹
2.5	The chair of the board of a listed entity should be an independent director and, in particular, should not be the same person as the CEO of the entity.		The Company does not have an independent Chair. Chris Cairns is Executive Chair. The Board believes that Mr Cairns is the most appropriate person for the position of Chair because of his industry experience and knowledge. The Board believes that Mr Cairns makes decisions that are in the best interests of the Company and has a track record of exploration and project development success.
2.6	A listed entity should have a program for inducting new directors and periodically reviewing whether there is a need for existing directors to undertake professional development to maintain the skills and knowledge needed to perform their role as directors effectively.		An informal induction is provided to all new directors, which includes meeting with technical and financial personnel to understand Stavely’s business, including strategies, risks, Company policies and health and safety. All directors are required to maintain professional development necessary to maintain their skills and knowledge needed to perform their duties. In addition to training provided by relevant professional affiliations of the directors, additional development is provided through attendance at seminars and provision of technical papers on industry related matters and developments offered by various professional organisations, such as accounting firms and legal advisors. As part of the annual performance reviews of the Board and individual directors, an assessment is made for any professional development requirements for Directors where gaps are identified.

7.4	A listed entity should disclose whether it has any material exposure to environmental or social risks and, if it does, how it manages or intends to manage those risks.	☒	The Company's Risk Register identifies the material risks for the Company. These risks include loss of a significant tenement, inability to access land, failure to raise future capital, insufficient new reserves converted from resources, the occurrence of a fatality or permanent disabling injury to persons to whom the Company has a duty of care, health pandemic, performance failure of a newly acquired project, adverse changes to government policies or legislation, commodity price decreases, inaccurate financial reporting, non-compliance with rules and laws, and loss of technical data. The Risk Register records all current controls in place to minimise the risks and identifies the overall control effectiveness. Material Business Risks are disclosed in the Directors' Report in the Annual Report.
Principle 8: Remunerate fairly and responsibly <i>A listed entity should pay director remuneration sufficient to attract and retain high quality directors and design its executive remuneration to attract, retain and motivate high quality senior executives and to align their interests with the creation of value for security holders and with the entity's values and risk appetite.</i>

The Corporate Governance Manual is available on the Corporate Governance page of the Company's website. The key responsibilities for the Committee are to support and advise the Board in fulfilling its responsibility to security holders by: (a) reviewing and approving the executive remuneration policy to enable the Company to attract and retain executives and Directors who will create value for shareholders; (b) ensuring that the executive remuneration policy demonstrates a clear relationship between key executive performance and remuneration; (c) recommending to the Board the remuneration of executive Directors; (d) fairly and responsibly rewarding executives having regard to the performance of the Company, the performance of the executive and the prevailing remuneration expectations in the market; (e) reviewing the Company's recruitment, retention and termination policies and procedures for senior management; (f) reviewing and approving the remuneration of Director reports to the Managing Director, and as appropriate other senior executives; and (g) reviewing and approving any equity based plans and other incentive schemes. Due to the size of the Company and of its operations and financial affairs, the use of a separate remuneration committee is not considered efficient or appropriate for Stavelly. The Board has taken a view that the full Board will hold special meetings or sessions as required. The Board is confident that this process for determining remuneration is stringent and full details of remuneration policies and payments are provided to shareholders in the remuneration report in the Directors' Report and on the Company's website.

STAVELY MINERALS LIMITED - Corporate Governance Statement – 2026

8.2	A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.	☒	Remuneration policies for the Company's Directors and senior executives are set out in the Company's Remuneration Report (which forms part of the Directors' Report) in the Company's Annual Report.
8.3	A listed entity which has an equity-based remuneration scheme should: (a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and (b) disclose that policy or a summary of it.	☒	The Company has an Employee Incentive Plan. The Company does not permit personnel to hedge or enter into other arrangements that would have the effect of limiting their exposure to risk prior to the vesting of those securities or while those securities are subject to a holding lock.
