Energy storage

[Contact us](#)

The crucial role of energy **storage**

We design energy storage solutions across the entire supply chain, including at the advisory phase.

We help our customers balance energy demand and provide decarbonization pathways on the road to net zero. Our solutions include pumped hydropower storage, liquid air energy, season thermal storage and biofuels and gas and battery energy storage systems.

50

years of cross-sector experience

1000 KW

total energy provided to a BESS project in Oregon
