ActivEX Limited shares (ASX code: AIV) are listed on the Australian Securities Exchange

COMPANY OVERVIEW

ActivEX Limited ("ActivEX" or the "Company") is an Australian Securities Exchange listed company (ASX: AIV) focusing on the acquisition, identification and delineation of quality mineral resource projects through active exploration.

ActivEX's Queensland tenement holding remains substantial and comprises a total of 8 granted EPMS and 3 applications, for a total area of 1,502 km². ActivEX currently holds a 100% interest in 11 tenements and 20.95% interest in the Gilberton Gold Pty Ltd.

These licence areas cover highly prospective terrain for copper, gold and critical mineralisation in north Queensland at the Gilberton Project (Etheridge Province), REE mineralisation at the Westgrove Project (Surat Basin) and REE and critical metal mineralisation at Aramac Project (Eromanga Basin).

ActivEX's Joint Venture partner Gilberton Gold Pty Ltd has built on the previous exploration of ActivEX to delineate a 310k oz Gold Au Mineral Resource Estimate at Mt Hogan.

Gilberton Gold Project:

Mount Hogan Gold Prospect: 8.5Mt @ 1.13g/t for 310K oz Au

The Group's exploration focus during the year was the establishment of the Gilberton JV with unlisted explorer Gilberton Gold and the delineation of the JORC compliant Maiden Gold Resource at Mt Hogan. Gilberton Gold are now the operator of the JV and further drilling is proposed for Q4 in the vicinity of the Mt Hogan Gold Mine. The Group is also planning to explore the two other historic mining centres at Josphine and Comstock.

Georgetown Gold and Critical Metals Project:

In North Queensland has shown significant potential, particularly at the Potosi Prospect, where assays returned up to 16.15 g/t gold, 1,185 g/t silver, and high-grade lead values between 32.3% and 57.1%. Additionally, manganese results were strong, with several samples exceeding 5% Mn. The project is characterised by steeply dipping mineralised structures and surface gossan outcrops, indicating possible subsurface sulphide mineralisation. Moving forward, the Group plans to conduct geochemical exploration using Niton pXRF, followed by ground IP surveys and targeted drilling campaigns to further delineate these promising resources.

Aramac Rare Earth Element REE and Critical Metals Project:

The focus is on exploring kaolinitic fine-grained sediments of the Wallumbilla Formation for REE and the underlying Ronlow Beds for base metals. Recent fieldwork has delineated a 15km strike of pale kaolinitic rock, with limited surface geochemical sampling yielding a maximum Total Rare Earth Oxide (TREO) analysis of 777ppm. Additionally, the Ronlow Beds have shown promising results for base metals, including zinc up to 706ppm, cobalt up to 1070ppm, barium up to 11.45%, and manganese up to 10%. Future exploration plans include detailed geological mapping, soil sampling, and broad-spaced aircore drilling to further assess the REE and critical metal potential of this project.

Westgrove Rare Earth Element (REE) Project:

Comprises 3 EPM applications with the Doonkuna tenement having successfully completed the Native Title consultation process and an Access Agreement having been signed. An initial review of the area has shown it has significant potential contain sediment hosted REE mineralisation.

Esk Copper and Gold/Silver Project:

The Company agreed with Star Diamond Developments Limited that all outstanding loans will be repaid in full by way of the transfer of 100% equity in East Coast Copper Gold Pty Ltd which holds the four tenements that comprise the Esk Copper and Gold/Silver Project (ASX Announcement 10 March 2026).

Pentland Gold Project

The Company finalised an agreement with Pentland Minerals Pty Ltd for the sale of its 49% interest in the Pentland Gold Project (ASX Announcement 4 September 2025).

CHAIRMAN'S LETTER

Dear Fellow Shareholders

On behalf of the Board of Directors, I am pleased to present the ActivEX Limited ("ActivEX" or the "Company") 2026 Annual Report. This past year has been one of substantial progress and strategic development across our portfolio of projects, despite the challenging market conditions faced by the broader resources sector.

Our Queensland tenement holding remains robust and comprises a total of 8 granted EPMs and 3 applications, for a total area of 1,502 km². ActivEX currently holds a 100% interest in 8 tenements and 20.95% interest in the Gilberton EPM Joint Venture (JV).

This year, our exploration efforts have been focused on critical minerals, including rare earth elements (REE), critical metals and gold. Significant progress was made at the Gilberton Gold Project, where we announced our Maiden JORC compliant gold resource of 8.5Mt @ 1.13g/t for 310K oz Au with the support of our JV Partners Gilberton Gold who are proposing further resource drilling in Q4 2026.

At the Aramac REE Project we have completed an initial pXRF soil sampling program at the base of an 8km ridge in the vicinity of the Dunns Road "Goethitic Gossan". This has resulted in encouraging REE results and as such we will be carrying out further surficial geochemical exploration along the remainder of the 55km Ridge. Meanwhile, the Esk Copper and Gold Project in Southeast Queensland which is held by 100% subsidiary East Coast Gold Copper has been sold to Star Diamond Developments Limited. We have also identified a potentially prospective sediment hosted REE project in Central Queensland and 3 tenement applications having been lodged with the Queensland Mines Department. The Doonkuna is the most advanced application with a Native Title Agreement having been fully executed and we now await the grant of the tenement by the Qld State Government.

Our exploration strategy remains clear: to focus on high-potential projects while seeking growth opportunities that could lead to near-term production. We continue to explore divestment options for non-core assets having divested both the Pentland Gold and Esk Copper Gold/Silver Projects.

As of the balance sheet date the Group's loan facility granted by Star Diamond Developments Limited has been fully repaid by way of the transfer of 100% equity of East Coast Gold and Copper Pty Ltd.

Looking ahead we look forward to the grant of our Doonkuna REE tenement (Westgrove Project) and exciting gold and critical metal targets at our Georgetown Project, our priorities include advancing our mineral projects towards resource definition, while maintaining strict financial discipline. We remain committed to generating shareholder value through strategic exploration and the judicious management of our resources.

I would like to express my gratitude to our Directors, staff, contractors, and shareholders for their unwavering support and dedication over the past year. We are optimistic about the opportunities that lie ahead and look forward to delivering continued growth and exploration success for ActivEX in the coming year.

Yours faithfully

Min Yang
Chairman

GILBERTON GOLD and CRITICAL METALS PROJECT - North Queensland

(EPMs 18615, 18623, 26232 and 26307 - ActivEX 20.95% with Gilberton Gold Pty Ltd Operators)

The Group's Maiden JORC Compliant Gold Resource was completed in collaboration with JV Partner Gilberton Gold Pty Ltd Mineral Estimate comprising 8,500,000t @ 1.13g/t Au for 310,000oz Au at a 0.3g/t cutoff. Drilling is planned to recommence in late Q3 2025 / early Q4 2025 and will focus along the southern margin of the Mt Hogan Granite to follow up drilling completed in November 2024. For details refer to the ASX announcement "Maiden Gold Mineral Resource Estimate" dated 21 July 2025.

The Gilberton Gold Project is situated in the Georgetown Province in northeast Queensland, approximately 300km west-northwest of Townsville (**Figure 1**). The Project consists of EPMs 18615, 18623, 26232 and 26307, which comprise a total of 143 sub-blocks and encompass an area of 370km². The Project is located in an area which is prospective for a number of metals and a wide range of deposit styles. The world-class Kidston breccia hosted Au-Ag deposit occurs in similar geological terrain approximately 50km to the northeast.

The Mt Hogan gold deposit is the largest historical gold producer in the Gilberton district at 74,930oz. The deposit is located 18 km northeast of Gilberton Homestead and is hosted in the Devonian age Mt Hogan Granite (**Figure 2**). The granite pluton is an irregular horseshoe shape in outcrop, 7kms in diameter and has intruded Proterozoic metasediments and mafic intrusives of the Robertson River Subgroup. The granite is composed of green grey (sericite chlorite altered) to pink (fresh), medium to coarse-grained, equigranular, sparsely porphyritic and biotite adamellite. Northern outcrops of the granite appear to comprise less fractionated (more mafic) phases within the intrusion compared to the southern margin of the intrusion. Permo-Carboniferous rhyolite and andesite dykes have been mapped immediately north of the Mt Hogan gold deposit. Drilling at Mt Hogan suggests the southern contact between granite and the surrounding metasediment is near vertical. There has been no activity in the year.

Figure 2 ActivEX Limited Gilberton Gold Project.

Gold mineralisation is concentrated around the southeastern margin of the Mt Hogan Granite and consists of a set of stacked, shallow, southwest dipping (10-20°) mesothermal quartz-sulphide veins. The veins are composed of medium-grained, euhedral buck quartz crystals that have been brecciated and recrystallised by later movement of the vein structures. The cores of the veins are often filled with sulphide. The lenticular veins are enveloped by an alteration halo of sericite (proximal), chlorite and epidote (distal) and appear to have developed in tensional openings produced by north-easterly thrusting. Continued movement along structures after vein formation has deformed and folded some veins. Individual veins reach up to 60cm in thickness but are generally thinner (10 – 20cm). Face sampling within the Mt Hogan open pit returned assays to 40.5g/t Au and 138 g/t Ag.

The grade distribution is directly proportional to the sulphide (especially pyrite:5-20%) content of the vein. The presence of minor base metal sulphides is a good indicator of high-grade ore. The silver-to-gold ratio is generally 1.1:1. The depth or weathering is approximately 30m with no well-defined oxide, transition of sulphide zones.

There are four main types of gold mineralisation:

1. Massive sulphide with quartz veining (footwall lode)
2. Quartz veining with fresh to oxidized sulphides
3. Quartz veining with sulphides and jasper
4. Disseminated pyrite in granite

GEORGETOWN GOLD PROJECT – North Queensland

(EPMs 27805, 27811, 27812, 28120, 28277 & 28417 – ActivEX 100%)

The Georgetown Gold Project (**Figure 1 & 4**) is situated within the Proterozoic Etheridge Province in northeast Queensland, approximately 400km west-northwest of Townsville and 80km north of the Gilberton Gold Project. The project comprises six granted tenements for 504.29 km² with ActivEX Limited holding a 100% interest in all the tenements.

The Georgetown Project is in an area that is prospective for several metals, precious and base, in addition to critical metals (Cu, Ta, Nb, Co, Sn, W, Li and Mn) over a wide range of deposit styles. The initial evaluation of the Georgetown Project was focused on critical metals and gold potential, as evident by the numerous historical gold and silver workings. As a follow-up program to previous exploration results, geological mapping of the Potosi Prospect and rock chip has been completed and announced (*ASX announcement “2KM Gold and Critical Mineral Trend defined at Georgetown” dated 19 June 2023*).

2026/2027 Exploration Plans:

- Project wide “Prospectivity Analysis” involving all geophysical, geochemical and geological data sets
- Surficial geological and geochemical exploration of high priority targets.
- Possible surface IP survey of the Forsayth Potosi Project and ground magnetic surveys at Leichardt Creek and Bridle Creek
- Open discussion with potential JV partners

ARAMAC RARE EARTH ELEMENT PROJECT - North Queensland

(EPM 28644 and EPM 28645) - ActivEX 100%

The Group has finalised Notices of Entry (NOE's) with all landholders that will enable surface exploration to commence in late 2025. The Group was unsuccessful with the CEI grant however as and when the next CEI grant is offered an application will be made to participate.

Background Summary and Highlights

The project (EPM 28644 & EPM 28645) is located 880km northwest of Brisbane. The Group plans to explore for Rare Earth Elements ("REE") contained within the fine clay fraction of strandlines ("ionic clay style of deposit). Within the Aramac Project the Queensland Geological Survey has delineated the Cretaceous Wallumbilla Formation as containing "strandline accumulations" a subunit of the Cretaceous to Jurassic Eromanga Basin. The Aramac Project is located within the Eromanga Basin of Central Queensland (**Figure 1, 5**).

The Eromanga Basin is a large Mesozoic sedimentary basin in central and northern Australia. It covers parts of Queensland, the Northern Territory, South Australia, and New South Wales. The Eromanga Basin covers 1,000,000 km². The basin comprises sandstone, siltstone, mudstone, coal and shale (clay). Within the Aramac Project, the Wallumbilla Formation comprises marine grey mudstone (clay) and siltstone with minor interbeds of fine-grained glauconitic and calcareous sandstone, local thin limestone beds and heavy mineral strandline accumulations with the strandline accumulations.

During this financial year, the Group received a petrological report from Mintex Petrological Solutions (MPS) relating to a sample collected from the Aramac Project. The sample is of a dark brown to black metasediment which was considered to be locally gossanous and had elevated iron, manganese and base metal assays. MPS confirmed that the sample is a "goethitic gossan with gossan clasts containing relic fine-grained quartz and chlorite".

Petrology Result: MPS carried out a thin-section analysis of the submitted sample:

"This sample is a goethitic gossan with possible extensional tension veins filled with black massive "psilomelane" (manganese mineral). Earthy goethite clasts contain relict fine grains of quartz and chlorite and are rimmed and brecciated by paragenetically later hematite" Dr Rownea Duckworth MPS (Company Internal Report). A gossan is potentially the surface expression of deeper sulphide mineralisation as evidenced by elevated zinc and cobalt assays.

Project Overview: The Aramac Project has two primary targets:

- White to Light Grey Fine-grained sediments of the Wallumbilla Formation with REE Potential: Recent field work has delineated a 15km strike of light grey to white fine-grained sediments (siltstone/shale) exposed as part of a series of roughly N-S scarps up to 12m in height that form a prominent landscape feature. A total of 67 rock samples (including 3 soil samples) were scanned along the length of the scarp where access was permitted. The sediments were near flat lying with thin vertical limonite filled fractures limonite coating. A maximum TREO analysis of 2,794ppm was obtained with 14 samples being > 100ppm TREO.
- Fine-grained iron-rich sediments of the underlying Ronlow Beds with Base Metal Potential: (Figures 6 and 7). A dark grey to black foliated (vertical) metasediment situated below the scarp is enriched in several elements especially iron (limonite) and locally has a structural fabric. A total of 5 rock samples were scanned with results shown below.

Zn - 424ppm to 1,000ppm

Co - 264ppm and 1,112ppm

Ba - 177ppm to 713ppm

Fe - 39.01% to 49.57%

Mn – 676ppm to 1,624ppm

Nd – 263ppm

Exploration Plans:

- Finalisation of Notices of Entry (NOEs): Preparation and submission of NOEs to enable exploration activities to commence in 2026.
 - Phase 1 Exploration Activities: Initial exploration to include detailed geological and regolith mapping, as well as soil sampling, aimed at refining drilling targets.
 - Broad-Spaced Aircore Drilling: Planned drilling traverses across the Wallumbilla Formation/Ronlow Beds contact to test for rare earth element (REE) and base metal mineralisation.
- Results from the reconnaissance exploration programme are shown in **Figures 5 to 7**

WESTGROVE RARE EARTH ELEMENT PROJECT

(EPM Applications 29159, 29220 and 29221 ActivEX 100 %)

During the Quarter the DNRm accepted two further applications EPM 29220 Warrong and 29220 Maranoa that have been added to the Westgrove REE project bringing the total area to 820km². The project is located at the northern margin of the Cretaceous Eromanga and Surat Sedimentary Basins (**Figure 8**).

Background Summary and Highlights

Exploration Permits: In 2024, ActivEX lodged an application for an Exploration Permit for Minerals in Central Queensland. The application has since been accepted, and the tenement has been officially named Doonkuna (EPMA 29159, **Figure 8**).

Project Overview: The Doonkuna Project comprises a high-priority geological target: the Westgrove Ironstone Member. This early triassic ferruginous sedimentary rock unit exhibits substantial potential for rare earth element (REE) mineralisation. The project's strategic emphasis on this formation highlights its significance as a key exploration opportunity within the broader context of REE resource development (Figures 9 and 10).

The Westgrove Ironstone Member predominantly consists of:

- Ferruginous sandstones and siltstones with high iron content, resulting from chemical precipitation and weathering processes.
- Laminated iron-rich horizons, often interbedded with claystones or mudstones.
- Hematite, goethite, and other iron oxides commonly form the primary matrix.

The Westgrove Ironstone Member, with its ferruginous nature, may have concentrated REEs through:

- Secondary enrichment during lateritic weathering in tropical to subtropical climates.
- Hydrothermal processes introducing REE-bearing fluids along fractures and faults.
- Potential REE-hosting minerals in the unit:
- **Monazite** (rich in light REEs such as cerium and lanthanum).
- **Xenotime** (rich in heavy REEs such as yttrium, dysprosium, and terbium).
- **Bastnäsite** or other carbonate REE minerals.

Exploration Plans when tenements are granted:

- Initial surficial geochemical and geological exploration across the Westgrove Ironstone Member -initially in the Doonkuna Tenement.
- Follow up shallow (<25m) aircore drilling of the target REE formation with every interval scanned with the companies pXRF.

CORPORATE GOVERNANCE STATEMENT

ActivEX Limited (“ActivEX” or “Company”) and its controlled entities (the “Group”) is committed to implementing the highest standards of corporate governance and to determine these standards, the Group has used the reporting recommendations set out by the Australian Securities Exchange (“ASX”) Corporate Governance Council’s 4th Edition of the Corporate Governance Principles and Recommendations as the basis for its corporate governance policies.

While seeking to implement optimal corporate governance practices, the Group does not accept that all the recommendations are applicable to the Group due to the current size and nature of its operations. Where the Group has not fully adopted the relevant recommendation, the reasons for non-adoption are set out below.

To assist the Board carry out its functions, it has developed a Corporate Governance Manual to guide the Non-Executive Directors, Executive Directors and other key senior executives in the performance of their roles.

PRINCIPLE 1 - LAY SOLID FOUNDATIONS FOR MANAGEMENT AND OVERSIGHT

Principle 1 identifies that a listed entity should clearly delineate the respective roles and responsibilities of its board and management and regularly review their performance.

Each of the recommendations of Principle 1, including the extent to which the Group has followed those recommendations, is discussed as follows.

1.1 Role of Board and Management

The Group has established the functions reserved to the Board and those delegated to senior executives. The Board of Directors’ role is to govern the Group rather than to manage it and to ensure that it represents effectively the interests of all shareholders. It is currently the role of the Executive Director to manage the Group in accordance with the direction and delegations of the Board and it is the responsibility of the Board to oversee the activities of the Executive Director in carrying out these delegated duties.

The Group has developed a statement of matters reserved for the Board which documents the role and responsibilities of the Board, a summary of which is as follows:

- providing leadership to the Group;
- overseeing the development and implementation of an appropriate strategy;
- overseeing planning activities including the development and approval of strategic plans, annual corporate budgets and long-term budgets including operating budgets, capital expenditure budgets and cash flow budgets;
- reviewing the progress and performance of the Group in meeting these plans and corporate objectives, including reporting the outcome of such reviews on at least an annual basis;
- ensuring corporate accountability to the shareholders primarily through effective shareholder communications;
- overseeing the control and accountability systems that ensure the Group is progressing towards the goals set by the Board and in line with the Group’s purpose, the agreed corporate strategy, legislative requirements and community expectations;
- ensuring that robust and effective risk management, compliance and control systems (including legal compliance) are in place and operating effectively;
- being responsible for the Group’s senior executives, management and other personnel; and
- making all decisions outside the scope of these delegated powers.

In general, the Board is responsible for, and has the authority to determine, all matters relating to the policies, practices, management and operations of the Group. It is required to do all things that may be necessary to be done in order to carry out the objectives of the Group, which includes supervising the Group’s framework of control and accountability systems to enable risk to be assessed and managed.

The Board has delegated all powers to the Executive Director necessary to effectively and efficiently carry out the business of the Group and any exceptions to this delegation requires Board approval, as set out in the Group's Corporate Governance Manual.

Details of the Group's Corporate Governance Manual are available on the Company's website (www.activex.com.au).

1.2 Background Checks

The Board is responsible for undertaking appropriate background checks before appointing a person, or putting forward a candidate for election, as a Director. In addition, the Company provides Shareholders all material information which is relevant to whether or not to elect or re-elect a Director for their consideration.

1.3 Written Contracts of Appointment

The Group provides newly appointed Directors with formal appointment letters setting out the key terms and conditions of their appointment. Similarly, senior executives (including any Executive Directors) are provided with formal appointment letters making clear the responsibilities of their role, remuneration, appointment term and entitlements on termination.

1.4 Company Secretary

The Group's Corporate Governance Manual provides that the Company Secretary is accountable directly to the Board, through the chair, on all matters to do with the proper functioning of the Board.

1.5 Diversity

The Group has implemented a Diversity Policy which is available on its website.

The Diversity Policy is a commitment by the Group to actively seek to maintain a diverse workforce to create a workplace that is fair and inclusive, applies fair and equitable employment practices and provides a working environment that will allow all employees to reach their full potential.

The Group is of the view that any measurable statistical objectives on a diverse workforce must be fit for purpose, in line with the Group strategic objectives and ensure the Group is in compliance with all relevant legislative requirements. The Group will consider implementation of measurable objectives in the future, when appropriate.

Of the five Board Members, 60% are female.

No entity within the Group is a 'relevant employer' for the purposes of the Workplace Gender Equality Act and therefore no Gender Equality Indicators to be disclosed.

1.6 Board Reviews

The Board considers the evaluation of its performance as fundamental to establishing a culture of performance and accountability. The Group's Corporate Governance Manual provides that the Chairperson is to undertake a review of the Board and individual Director's performance at least once a year at a special meeting of the Board. Board performance is to be evaluated in relation to goals that are set at the time of the Board's annual strategic planning session.

A formal review of the Board and Individual Director's was not undertaken by the Chairperson during the current year.

1.7 Management Reviews

The remuneration structure for executive officers is based on a number of factors, including length of service, particular experience of the individual concerned and the overall performance of the Group.

Senior executives' performance is reviewed against a range of quantitative and qualitative measures and considers past performance of the Group as well as the executive and also takes into account market practice with respect to comparable positions.

The Non-Executive Directors are responsible for regularly evaluating the Executive Director's performance. This evaluation is based on the Group's business performance and whether strategic objectives are being achieved. The Executive Director reviews other executives' and staff performance. The results of the Executive Director's performance reviews of senior executives and staff are reported to the Board for information.

The performance of the Executive Director and Senior executives is reviewed on a formal basis annually and this review has taken place during the year in accordance with the process detailed above.

PRINCIPLE 2 - STRUCTURE THE BOARD TO BE EFFECTIVE AND ADD VALUE

Principle 2 identifies that the board of a listed entity should be of an appropriate size and collectively have the skills, commitment and knowledge of the entity and the industry in which it operates, to enable it to discharge its duties effectively and to add value.

Each of the recommendations of Principle 2, including the extent to which the Group has followed those recommendations, is discussed as follows.

2.1 Nomination Committee

The Group does not comply with this recommendation as a nomination committee has not been established. Currently, the role of the nomination committee is undertaken by the full Board. The size and nature of the Group's activities do not justify the establishment a separate committee at this time. The Board regularly reviews the composition, skill base and effectiveness of the Directors of the Board.

The Board has a policy and procedure for nominating and appointing new Directors. Candidates for the Board are considered and selected by reference to a number of factors which include, but are not limited to, their relevant experience and achievements, independence and ability to meet the Board's expectation as set out in the Corporate Governance Manual. Directors are initially appointed by the full Board, subject to election by shareholders at the next general meeting. Directors are required to retire and be subject to re-election by shareholders at least once every three years.

2.2 Board Skills, Knowledge and Experience

The Board considers the mix of skills and the diversity of board members when assessing the composition of the Board. Directors are appointed based on the specific corporate and governance skills and experience required by the Group. The Board seeks to maintain a relevant blend of personal experience across commercial and technical disciplines relevant to the business of the Group.

The Board does not maintain a formal board skills matrix in accordance with Recommendation 2.2. However, the Board is comprised of experienced senior business personnel from a variety of professional and enterprise backgrounds. They each meet the fundamental requirements and, collectively, possess the skills, experience and diversity considered necessary to appropriately govern the Group.

The skills of each individual director which comprise the Board have been outlined in the 'Information on Directors' section of the Directors' Report.

2.3 Independence and Length of Service of Directors

The Board comprises one executive and three non-executive directors. The names of the directors of the Company in office at the date of this report, specifying who are independent together with their length of service and relevant personal particulars, are set out in the 'Information on Directors' section of the Directors' Report.

2.4 Assessment of Independence

While determining the independent status of Directors, the Board has considered whether the Director:

- a) holds less than five percent of the voting shares of the Company (in conjunction with their associates); or is an officer of the Group, or otherwise associated directly with a shareholder of more than five percent of the voting shares of the Company;
- b) has within the last three years, been employed in an executive capacity by the Company or another group member;

- c) has within the last three years been a principal of a material professional adviser or a material consultant to the Company or another group member, or an employee materially associated with the service provided. In this context, the relationship with the professional adviser or consultant shall be deemed to be material if payments from the Group exceed 10% of the Group's annual expenditure to all professionals and consultants or exceed 10% of the recipient's annual revenue for advisory or consultancy services;
- d) is a material supplier or customer of the Company or another group member, or an officer of or otherwise associated directly or indirectly with a material supplier or customer. In this context, the relationship with the supplier or customer shall be deemed to be material if annual payments to or from that supplier or customer exceed 10% of the annual consolidated gross revenue of either the Group or that supplier or customer; and
- e) has a material contractual relationship with the Company or another group member other than as a Director of the Company.

Due to the size and scale of the Group's current activities, majority of the Board members are not considered independent. However, although the Board does not follow Recommendation 2.4, to facilitate independent decision-making, the Board has agreed procedures for directors to have access in appropriate circumstances to independent professional advice.

Directors are entitled to request and receive such additional information as they consider necessary to support informed decision-making.

2.5 Chairperson and Chief Executive Officer

The Chairperson is responsible for leadership of the Board and for the efficient organisation and conduct of the Board's functioning. The Executive Director is responsible and accountable to the Board for the Group's management.

The office of Chairperson is held by Ms Min Yang, who is not considered independent in accordance with the Corporate Governance Council's recommendations. However, the board considers that the office of Chairperson is best served by Ms Yang due to her extensive relevant experience.

In accordance with the Corporate Governance Council's recommendations the role of Chief Executive Officer and Chairman are not exercised by the same person.

2.6 Induction and Professional Development

New Directors undergo an induction process in which they are given a full briefing on the Group. Where possible, this includes meetings with key executives, tours of the premises, an induction package and presentations.

In order to achieve continuing improvement in Board performance, all Directors are encouraged to undergo continual professional development.

PRINCIPLE 3 - INSTIL A CULTURE OF ACTING LAWFULLY, ETHICALLY AND RESPONSIBLY

Principle 3 identifies that a listed entity should instil and continually reinforce a culture across the organisation of acting lawfully, ethically and responsibly.

Each of the recommendations of Principle 3, including the extent to which the Group has followed those recommendations, is discussed as follows.

3.1 Values

The Group's values include the requirement that the business be conducted ethically, with integrity and professionalism to achieve the highest standards of behaviour.

The Group recognises the need for directors and employees to observe the highest standards of behaviour and business ethics. All directors and employees are required to act in accordance with the law and with the highest standard of propriety.

3.2 Code of Conduct

The Group acknowledges that the community expects businesses to be aware of their wider social obligations and to promote practices to maintain confidence in the Group's integrity. The Board requires high standards of conduct and responsibility from Directors, senior executives and employees at all times. As part of its commitment to recognising the expectations of their stakeholders, the Group has established a Code of Conduct for Directors within its Corporate Governance Manual to guide compliance with legal and other obligations to stakeholders, which include employees, clients, customers, government authorities, creditors and the community. Directors are required to adhere to industry standards in conduct and dealings and promote a culture of honesty, fairness and ethical behaviour into its internal compliance policy and procedures as well as dealing with stakeholders.

The Board also requires the Group's employees and consultants to have similar high standards and are required to adhere to industry standards in their conduct and dealings, including trading in securities. The Board has built the promotion of a culture of honesty, fairness and ethical behaviour into its internal compliance policy and procedures.

A copy of the Code of Conduct for Directors is contained within its Corporate Governance Manual. The Group does not have a formal Code of Conduct for employees and contractors.

Any breach of applicable laws, accepted ethical commercial practices or other aspects will result in disciplinary action. Depending on the severity of the breach, such disciplinary action may include reprimand, formal warning, demotion or termination of employment/engagement (as the case may be). Similar disciplinary action may be taken against any manager who directly approves of such action or has knowledge of the action and does not take appropriate remedial action.

Breach of applicable laws or regulations may also result in prosecution by the appropriate authorities.

Personnel are expected to report any instances of suspected non-compliance and investigating reports of unethical practices. These instances will be investigated fairly. Individuals who report suspected non-compliance in good faith will be appropriately protected.

The Code of Conduct for Directors, that forms part of the Corporate Governance Manual, is available on the Company's website.

3.3 Whistleblower Policy

The Company has adopted a Whistleblower Policy which is available on the Company's website.

Any material incidents reported under the policy is to be reported to the Board via the Company Secretary and the Chairman.

3.4 Anti-bribery and Corruption Policy

The Group does not have an anti-bribery and corruption policy. However, relevant policies relating to conflict of interest and avoidance of gifts are contained within its Corporate Governance Manual.

Any material breach of the policy is to be reported to the Board via the Company Secretary and the Chairman.

PRINCIPLE 4 - SAFEGUARD THE INTEGRITY OF CORPORATE REPORTS

Principle 4 identifies that a company should have appropriate processes to verify the integrity of its corporate reports.

Each of the recommendations of Principle 4, including the extent to which the Group has followed those recommendations, is discussed as follows.

4.1 Audit Committee

Given the current size of the Board, organisational complexity and scope of operations, the same efficiencies of an audit committee would not be derived from a formal committee structure. The Board has therefore not established an audit committee.

Responsibility for establishing and maintaining a framework of internal control and setting appropriate standards for the management of the Group rests with the Board in accordance with the Corporate

Governance Manual. The Board is also responsible for the integrity of financial information in the financial statements; audit, accounting and financial reporting obligations; safeguarding the independence of the external auditor; and financial risk management.

4.2 CEO and CFO Declaration

In accordance with Recommendation 4.2, the Board received declaration from the Managing Director and Company Secretary, in their capacity as Chief Executive Officer and the Chief Financial Officer respectively, that, in their opinion, the financial records have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the Group and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

4.3 Corporate Report

Any periodic corporate reports, whether or not they are audited or reviewed by an external auditor, are to be reviewed by the relevant senior management and authorised by the Board before releasing to the market.

PRINCIPLE 5 - MAKE TIMELY AND BALANCED DISCLOSURE

Principle 5 identifies that a listed entity should make timely and balanced disclosure of all matters concerning it that a reasonable person would expect to have a material effect on the price or value of its securities.

Each of the recommendations of Principle 5, including the extent to which the Group has followed those recommendations, is discussed as follows.

5.1 Continuous Disclosure Policy

The Group is committed to promoting investor confidence and ensuring that shareholders and the market are provided with timely and balanced disclosure of all material matters concerning the Group, as well as ensuring that all shareholders have equal and timely access to externally available information issued by the Group, and takes its continuous disclosure obligations seriously. The Board has designated the Company Secretary as the person responsible for overseeing and co-ordinating disclosure of information to the ASX as well as communicating with the ASX.

In accordance with the ASX Listing Rules, the Company immediately notifies the ASX of information:

1. Concerning the Group that a reasonable person would expect to have a material effect on the price or value of the Company's shares; and
2. That would or would be likely to influence persons who commonly invest in securities in deciding whether to acquire or dispose the Company's shares.

Such matters are advised to the ASX immediately they are identified as being material. Upon confirmation of receipt from the ASX, the Company posts all information disclosed in accordance with this policy on its website in an area accessible to the public.

Given the size of the Group, a formal continuous disclosure policy has not been adopted and Recommendation 5.1 has not been followed.

5.2 Market Announcements

Copies of all material market announcements are circulated to the Board after they have been released to the market.

5.3 Presentation Materials

If applicable, copy of any Chairman's Address at the General Meetings and investor or analyst presentations will be submitted to the ASX Market Announcements Platform prior to the time they are made.

PRINCIPLE 6 - RESPECT THE RIGHTS OF SECURITY HOLDERS

Principle 6 identifies that a listed entity should provide its security holders with appropriate information and facilities to allow them to exercise their rights as security holders effectively.

Each of the recommendations of Principle 6, including the extent to which the Group has followed those recommendations, is discussed as follows.

6.1 Company Website

In accordance with Recommendation 6.1, the Group maintains a corporate governance section on its website where all relevant corporate governance information can be accessed.

6.2 Communication Policy

The Board respects the rights of its shareholders and to facilitate the effective exercise of those rights, it has adopted an informal policy on communication with shareholders and implemented a set of processes to ensure timely and effective communication with shareholders and the wider investment community. The Group is committed to:

- communicating effectively with shareholders through releases to the market via the ASX, the Company's website, information mailed to shareholders and the general meetings of the Company;
- giving shareholders ready access to balanced and understandable information about the Group and corporate proposals;
- making it easy for shareholders to participate in general meetings of the Company and ask questions regarding the conduct of audit and the functioning of the Group generally; and
- making it possible for shareholders to receive communication by electronic means.

The Company also makes available a telephone number and email address for shareholders to make enquiries of the Group.

A formal Shareholder Communications Policy has not been adopted given the Group's size and nature of operations, and therefore Recommendation 6.2 has not been followed.

6.3 Meetings of Security Holders

The Board encourages full participation of shareholders at the Annual General Meeting in accordance with Recommendation 6.3, to ensure a high level of accountability and identification with the Group's strategy and goals. Shareholders are requested to vote on the election and aggregate remuneration of directors, the granting of options and shares to directors, the remuneration report and other important considerations relevant to the Group at that time.

6.4 Voting by Poll

The Company has put all resolutions to vote by shareholders by a poll at annual general meeting.

6.5 Electronic Communication

The Company encourages shareholders to receive communications electronically in accordance with Recommendation 6.5. Information on lodging e-mail addresses with the Company is available on the Company's website and via the Company's share registry, Boardroom Pty Limited at www.boardroomlimited.com.au.

PRINCIPLE 7 - RECOGNISE AND MANAGE RISK

Principle 7 identifies that a listed entity should establish a sound risk management framework and periodically review the effectiveness of that framework.

Each of the recommendations of Principle 7, including the extent to which the Group has followed those recommendations, is discussed as follows.

7.1 Risk Committee

The Board is responsible for the identification, monitoring and management of significant business risks and the implementation of appropriate levels of internal control, recognising however, that no cost effective internal control system will preclude all errors and irregularities. The Board regularly reviews and monitors areas of significant business risk.

Due to the size of the Group, the number of officers and employees and the nature of the business, a formal risk management policy and internal compliance and control system have not been implemented.

The risk management functions and oversight of material business risks are performed by the Board.

7.2 Annual Risk Review

Given the nature and size of the Group, the Board did not complete a formal review of the Group's risk management framework in the past financial year as provided by Recommendation 7.2.

7.3 Internal Audit

The Group did not have an internal audit function as provided by Recommendation 7.3. The internal audit function is carried out by the Board, which continually considers the entity's risk management effectiveness and associated internal control procedures. The Group does not have an internal audit department nor does it have an internal auditor. The size of the Group does not warrant the need or the cost of appointing an internal auditor.

7.4 Sustainability Risks

In accordance with Recommendation 7.4, the Group does not have any material exposure to environmental and social risks other than as disclosed in accordance with its continuous disclosure obligations in its Annual Report and ASX announcements.

PRINCIPLE 8 - REMUNERATE FAIRLY AND RESPONSIBLY

Principle 8 identifies that a listed entity should pay director remuneration sufficient to attract and retain high quality directors and design its executive remuneration to attract, retain and motivate high quality senior executives and to align their interests with the creation of value for security holders and with the entity's values and risk appetite.

Each of the recommendations of Principle 8, including the extent to which the Group has followed those recommendations, is discussed as follows.

8.1 Remuneration Committee

Given the current size of the Board, organisational complexity and scope of operations, the same efficiencies of a remuneration committee would not be derived from a formal committee structure. The Board has not established a remuneration committee and the responsibility for the Group's remuneration policy rests with the Board.

8.2 Remuneration Policy

The Board is responsible for reviewing and recommending remuneration packages and policies applicable to non-executive directors, executive directors and senior executives of the Group. It is also responsible for reviewing and recommending appropriate grant of any equity securities.

The remuneration objective is to adopt policies, processes and practices to:

- attract and retain appropriately qualified and experienced directors and executives who will add value; and
- adopt reward programmes which are fair and responsible and in accordance with principles of good corporate governance, which dictates a need to align director and executive entitlements with shareholder objectives.

The Board conducts reviews based on individual performance, trends in comparative companies and the need for a balance between fixed remuneration and non-cash incentive remuneration.

Remuneration packages for executive directors and senior executives comprise fixed remuneration and may include bonuses or equity based remuneration as per individual contractual agreements or at the discretion of the Board where no contractual agreement exists.

Non-Executive director remuneration is a fixed annual amount of director fees, the total of which is within the aggregate amount fixed by shareholders at general meeting. Any amendments to the maximum sum must be approved by the Company's shareholders at a general meeting.

The Group has entered into employment agreements with executives, on those terms noted in the Remuneration Report.

8.3 Equity-based Remuneration Scheme

The Company has adopted a Securities Trading Policy pursuant to ASX Listing Rule 12.9. A copy of the policy is available on the Company's website.

That policy prohibits Directors and employees from engaging in hedging arrangements over unvested securities issued pursuant to any equity-based remuneration schemes of the Company.

² Ms Xinwei Chen was appointed as director on 13 May 2026. The shares are subject to voluntary escrow restriction for a period of 12 months from 24 March 2026.

4. Company Secretary

William Kuan

Mr William Kuan was appointed Company Secretary of the Company on 4 May 2020.

Mr Kuan holds a Master Degree in International Accounting. He is a Fellow of CPA Australia and an Associate of The Chartered Governance Institute UK & Ireland (formerly ICSA) and The Hong Kong Chartered Governance Institute (formerly HKICS). Mr Kuan has extensive experience in accounting, corporate finance and company secretarial areas. He is currently a Director and Company Secretary of ASF Group Limited, a substantial shareholder of the Company. Prior to joining ASF, he was Company Secretary for a number of diverse Hong Kong listed companies.

5. Principal Activities

The principal activity of the Group during the course of the year was minerals exploration. The Group holds mineral exploration tenements in Queensland. The Group's focus is on exploration for gold, lithium, rare earths and copper deposits across its Queensland tenements. There was no other significant change in the principal activity during the year.

The Group's business model is to focus on exploration with the objective to be a sustainable minerals exploration company.

6. Review of Operations & Operating Results

For the year ended 30 June 2026, operating loss of the Group before income tax was \$2,149,004, an increase of approximately 107% compared with the loss for the last year of \$1,037,065. Capitalised exploration expenditure for the year was \$81,878 compared with \$191,152 in prior year. In order to meet investor interest and market demands the Group is adjusting its exploration focus from coal and gold to include lithium, rare earth and other critical minerals.

Included in the loss incurred for the current year were the following expenses:

- Impairment losses on exploration and evaluation assets of \$2,615,754; and

ACTIVEX LIMITED
ABN 11 113 452 896
DIRECTORS' REPORT

- Interest expense of 194,730

Commentary on exploration operational activities in the year is set out on pages 5 - 14 ("Operations Report").

Occupational Health and Safety

The Group suffered no lost time injuries during the year.

Diversity

The Group has a policy of diversity in employment. As at the date of this Annual Report, 60% of Board Members are female.

Financial Position

The financial statements have been prepared on a going concern basis which contemplates that the Group will continue to meet its commitments and can therefore continue normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

At 30 June 2026, current assets total \$691,065 (including cash \$668,951) and current liabilities total \$76,968. As set out in Note 12, the Group's loan facility granted by Star Diamond Developments Limited has been fully repaid by way of the transfer of 100% equity of East Coast Gold and Copper Pty Ltd.

If the Group decides to undertake any additional exploration activities in the next twelve months, it will need to raise additional funds which may include the issue of shares, borrowings, a farm-out in one or more exploration tenements, or the sale of exploration assets. During the year, the Group successfully raised \$1.7 million (before costs) by way of placement of a total of 97,012,884 shares of the Company.

Because of the nature of its operations the Directors recognise that there is a need on an ongoing basis for the Group to regularly raise additional cash to fund future exploration activity and meet other necessary corporate expenditure. Accordingly, when necessary, the Group investigates various options for raising additional funds which may include but is not limited to an issue of shares, borrowings, a farm-out of an interest in one of more exploration tenements or the sale of exploration assets where increased value has been created through previous exploration activity.

The Directors have concluded that despite the current circumstances there still exists a significant uncertainty that may cast doubt over the Group's ability to continue as a going concern. Nevertheless, after taking into account the current joint venture arrangements, the loan facility arrangement and various other funding options available, including the Group's past experience in raising funds, the Directors have a reasonable expectation that the Group will have adequate resources to fund its future operational requirements and for these reasons they continue to adopt the going concern basis in preparing the financial report.

The financial report does not include any adjustments relating to the recoverability or classification of recorded asset amounts or to the amounts or classification of liabilities that might be necessary should the Group not be able to continue as a going concern.

Dividends

No dividend has been proposed or paid since the start of the year.

7. Significant Changes in the State of Affairs

Other than the matters mentioned in item 6 above, there were no other significant changes in the state of affairs of the Group during the year.

8. Events Subsequent to Balance Date

No other matters or circumstances have arisen since the end of the reporting period, which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

ACTIVEX LIMITED
ABN 11 113 452 896
DIRECTORS' REPORT

9. Likely Developments

The Group will continue to pursue its objective of exploration and evaluation for minerals with the objective of eventually developing a commercially viable mining operation. The Group will also continue to investigate other projects and opportunities involving those activities. Divestment of non-core assets will also be investigated.

Further information about likely developments in the operations of the Group have not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Group and given the nature of exploration and evaluation it does not have sufficient certainty.

Risks associated with the Group pursuing these activities relate to the general risks involved in exploration activities, and availability of funding.

10. Remuneration Report – Audited

This report details the nature and amount of remuneration for each Director and other key management personnel.

Remuneration Policy

The Group's remuneration policy seeks to align Director and executive objectives with those of shareholders and business, while at the same time, recognising the early development stage of the Group and the criticality of funds being utilised to achieve development objectives. The Board believes that the current policy has been appropriate and effective in achieving a balance of objectives.

The Group's policy for determining the nature and amount of remuneration of board members and key management of the Group is set out below.

The remuneration structure for executives is based on a number of factors, including length of service, particular experience of the individual concerned, market factors and overall performance of the Group.

Board policy is to remunerate non-executive Directors at market rates for comparable companies for time, commitment and responsibilities. The maximum aggregate annual amount of fees that can be paid to non-executive Directors is subject to approval by shareholders at the Annual General Meeting and is not linked to the performance of the Group. Non-executive Directors may also be awarded equity based performance remuneration. The maximum aggregate annual amount of fees that can be paid to non-executive Directors approved by shareholders is currently \$150,000.

The Group's remuneration policy provides for long-term incentives through participation in the Group's Employee and Officers Share Option Plan. Group policy prohibits holders of such options from entering hedge arrangements on any unvested options. Further details on options issued under the Plan are set out in Note 18 in the financial statements. The Group currently does not have any other performance-based incentive component built into Director and executive remuneration. Nor does the Group remunerate any management personnel with securities that are not performance based.

KMP or closely related parties of KMP are prohibited from entering into hedge arrangements that would have the effect of limiting the risk exposure relating to the remuneration.

The Group does not engage remuneration consultants. The Board of Directors is responsible for determining and reviewing the Group's remuneration policy, remuneration levels and performance of both executive and non-executive Directors. Independent external advice will be sought when required.

11. Indemnifying Officers and Auditor

During the year, the Group paid insurance premiums to insure each of the Directors and Officers of the Group against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Director and Officer of the Group, other than conduct involving a wilful breach of duty in relation to the Group. The contracts include a prohibition on disclosure of the premium paid and nature of the liabilities covered under the policy.

The Group has not given an indemnity or entered into an agreement to indemnify, or paid or agreed to pay insurance premiums in respect of any person who is or has been an auditor of the Company or a related body corporate during the year and up to the date of this report.

12. Corporate Governance

In recognising the need for the highest standards of corporate behaviour and accountability, the Directors of ActivEX Limited support and where practicable or appropriate have adhered to the ASX Principles of Corporate Governance. The Group's corporate governance statement is contained within its annual report.

13. Options

No share options have been issued during the year ended 30 June 2026 and up to the date of this report.

No shares issued on exercise of options have been issued during the year ended 30 June 2026 and up to the date of this report.

14. Environmental Issues

The Group's operations are subject to environmental regulation under the law of the Commonwealth and the State of Queensland.

The Directors monitor the Group's compliance with environmental regulation under law, in relation to its exploration activities. Other than as noted, the Directors are not aware of any compliance breach arising during the year and up to the date of this report.

Notes to the Consolidated Financial Statements For the year ended 30 June 2026

NOTE 1: BASIS OF PREPARATION

These consolidated financial statements and notes are for the consolidated entity consisting of ActivEX Limited ("Company" or "parent entity") and its subsidiaries (the "Group").

The financial report is a general purpose financial report that has been prepared in accordance with the Corporations Act 2001, Australian Accounting Standards, and Interpretations of the Australian Accounting Standards Board, and International Financial Reporting Standards as issued by the International Accounting Standards Board. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

ActivEX Limited is a listed public company, incorporated and domiciled in Australia. Except for the cash flow information, the financial report has been prepared on an accruals basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities. The financial statements were authorised for issue by the directors as at the date of the directors' declaration. The separate financial statements of the Company are presented in Note 27.

The financial statements have been prepared on a going concern basis which contemplates that the Group will continue to meet its commitments and can therefore continue normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

Continued Operations and Future Funding

At 30 June 2026, current assets total \$691,065 (including cash \$668,951) and current liabilities total \$76,968. As set out in Note 12, the Group's loan facility granted by Star Diamond Developments Limited has been fully repaid by way of the transfer of 100% equity of East Coast Gold and Copper Pty Ltd.

If the Group decides to undertake any additional exploration activities in the next twelve months, it will need to raise additional funds which may include the issue of shares, borrowings, a farm-out in one or more exploration tenements, or the sale of exploration assets. During the year, the Group successfully raised \$1.7 million (before costs) by way of placement of a total of 97,012,884 shares of the Company.

Because of the nature of its operations the Directors recognise that there is a need on an ongoing basis for the Group to regularly raise additional cash to fund future exploration activity and meet other necessary corporate expenditure. Accordingly, when necessary, the Group investigates various options for raising additional funds which may include but is not limited to an issue of shares, borrowings, a farm-out of an interest in one of more exploration tenements or the sale of exploration assets where increased value has been created through previous exploration activity.

The Directors have concluded that despite the current circumstances there still exists a material uncertainty that may cast significant doubt over the Group's ability to continue as a going concern. Nevertheless, after taking into account the current joint venture arrangements and various other funding options available, including the Group's past experience in raising funds, the Directors have a reasonable expectation that the Group will have adequate resources to fund its future operational requirements and for these reasons they continue to adopt the going concern basis in preparing the financial report.

Notes to the Consolidated Financial Statements For the year ended 30 June 2026

NOTE 2: SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION

The financial report does not include any adjustments relating to the recoverability or classification of recorded asset amounts or to the amounts or classification of liabilities that might be necessary should the Group not be able to continue as a going concern.

Principles of consolidation

The consolidated financial statements incorporate the assets, liabilities and results of the Company and all subsidiaries as at 30 June 2026.

Subsidiaries are all those entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases. The acquisition of subsidiaries is accounted for using the acquisition method of accounting.

Intercompany transactions, balances and unrealised gains on transactions between entities in the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred.

Income Tax

The income tax expense (income) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority, using tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised. The availability and benefit of unused tax losses is also dependent on the Group deriving future assessable income of a nature and amount sufficient to enable the losses to be realised, and on the Group's compliance with the conditions of deductibility imposed by the relevant legislation.

ACTIVEX LIMITED

ABN 11 113 452 896

Notes to the Consolidated Financial Statements For the year ended 30 June 2026

NOTE 2: SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Income Tax (continued)

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

The Company and its wholly-owned Australian resident entities are part of a tax-consolidated group. As a consequence, all members of the tax-consolidated group are taxed as a single entity. The head entity within the tax-consolidated group is ActivEX Limited. Current income tax expense/benefit, deferred tax liabilities and deferred tax assets arising from temporary differences of the members of the tax-consolidated group are recognised in the separate financial statements of the members of the tax-consolidated group using the 'separate taxpayer within the group' approach by reference to the carrying amounts of assets and liabilities in the separate financial statements of each entity and the tax values applying under tax consolidation.

Exploration and Evaluation Assets

Exploration, evaluation and development expenditures incurred are capitalised in respect of each identifiable area of interest. These costs are only capitalised where the Group has right of tenure, to the extent that they are expected to be recovered through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an area which is abandoned or sold are written off in full against profit or loss in the year in which the decision to abandon or sell the area is made.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest. Recoverability of the carrying amount of the exploration and evaluation assets is dependent on the successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

Costs of site restoration are provided for where the Group has a legal or constructive obligation.

Financial Instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions to the instrument. For financial assets, this is the date that the Group commits itself to either the purchase or sale of the asset (ie trade date accounting is adopted).

Financial instruments (except for trade receivables) are initially measured at fair value plus transaction costs, except where the instrument is classified "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

ACTIVEX LIMITED

ABN 11 113 452 896

Notes to the Consolidated Financial Statements For the year ended 30 June 2026

NOTE 2: SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Financial Instruments (continued)

Trade receivables are initially measured at the transaction price if the trade receivables do not contain a significant financing component or if the practical expedient was applied as specified in AASB 15.63.

Classification and subsequent measurement

Financial liabilities

Financial instruments are subsequently measured at

- amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest expense in profit or loss over the relevant period. The effective interest rate is the internal rate of return of the financial asset or liability. That is, it is the rate that exactly discounts the estimated future cash flows through the expected life of the instrument to the net carrying amount at initial recognition.

Financial assets

Financial assets are subsequently measured at

- amortised cost.

Measurement is on the basis of two primary criteria:

- the contractual cash flow characteristics of the financial asset; and
- the business model for managing the financial assets.

Derecognition

Derecognition refers to the removal of a previously recognised financial asset or financial liability from the statement of financial position.

Derecognition of financial liabilities

A liability is derecognised when it is extinguished (ie when the obligation in the contract is discharged, cancelled or expires). An exchange of an existing financial liability for a new one with substantially modified terms, or a substantial modification to the terms of a financial liability is treated as an extinguishment of the existing liability and recognition of a new financial liability.

The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Derecognition of financial assets

A financial asset is derecognised when the holder's contractual rights to its cash flows expires, or the asset is transferred in such a way that all the risks and rewards of ownership are substantially transferred.

ACTIVEX LIMITED

ABN 11 113 452 896

Notes to the Consolidated Financial Statements For the year ended 30 June 2026

NOTE 2: SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Financial Instruments (continued)

All of the following criteria need to be satisfied for derecognition of financial asset:

- the right to receive cash flows from the asset has expired or been transferred;
- all risk and rewards of ownership of the asset have been substantially transferred; and
- the Group no longer controls the asset (ie the Group has no practical ability to make a unilateral decision to sell the asset to a third party).

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Impairment

The Group recognises a loss allowance for expected credit losses, using the simplified approach under AASB 9, which requires the recognition of lifetime expected credit loss at all times.

At each reporting date, the Group recognises the movement in the loss allowance as an impairment gain or loss in the statement of profit or loss and other comprehensive income.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and deposits available on demand with banks.

Impairment of Assets

At the end of each reporting period, the Group assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Equity Settled Compensation

The Group operates an employee share and option plan. Share-based payments to employees are measured at the fair value of the instruments issued and amortised over the vesting periods. Share-based payments to non-employees are measured at the fair value of goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the goods or services cannot be reliably measured, and are recorded at the date the goods or services are received. The corresponding amount is recorded to the option reserve and statement of profit and loss respectively. The fair value of options is determined using a binomial pricing model. The number of shares and options expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognised for services received as consideration for the equity instruments granted is based on the number of equity instruments that eventually vest.

ACTIVEX LIMITED

ABN 11 113 452 896

Notes to the Consolidated Financial Statements For the year ended 30 June 2026

NOTE 2: SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Employee Benefits

Short-term employee benefits

Provision is made for the Group's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Group's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Group's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Other long-term employee benefits

Provision is made for employees' long service leave not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on high quality corporate bonds that have maturity dates that approximate the terms of the obligations.

Any re-measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Group's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Group does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Issued Capital

Ordinary shares are classified as equity. The amount paid for buy-back of shares is applied against issued capital.

Revenue and Other Income

Interest revenue is recognised using the effective interest method.

Other income is recognised when the Group obtains control over the funds, which is at the time of receipt.

All revenue is stated net of the amount of GST.

ACTIVEX LIMITED

ABN 11 113 452 896

Notes to the Consolidated Financial Statements For the year ended 30 June 2026

NOTE 2: SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Non-current assets held for sale

Non-current assets are classified as held for sale when their carrying amount is expected to be recovered principally through a sale transaction rather than through continuing use, and the sale is considered highly probable within twelve months. Such assets are presented separately in the statement of financial position and are measured at the lower of their carrying amount and fair value less costs to sell.

Investments in Associates

Investments in Associates are accounted for using the equity method, whereby the investment is initially recognized at cost and adjusted thereafter for the Group's share of the associate's profit or loss and other comprehensive income, less any impairment losses.

Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Critical Accounting Estimates and Judgements

The Directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Key estimates/judgments used in the financial statements are:

- Continued operations and future funding – as set out above the financial statements have been prepared on a going concern basis.
- Exploration and evaluation asset - exploration and evaluation expenditure is capitalised in certain circumstances. Recoverability of the carrying amount of exploration and evaluation assets is dependent on the successful development and commercial exploitation, or sale, of the respective areas of interest. The Group assesses impairment at the end of each reporting period by evaluating conditions and events specific to the Group that may be indicative of impairment triggers.
- Investment in Associates and Joint Ventures – the Group holds an investment in associate governed by a joint venture agreement. Significant judgment was required in determining appropriate accounting treatment under AASB128: Investments in Associates and Joint Ventures at initial recognition and when further funding is received under the agreement.

New accounting standards adopted

(a) New and Amended Accounting Standards that are effective for the current year

The Group has adopted all new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to their operations and effective for the current year.

The Directors of the Company do not anticipate that the amendments will have a material impact on the Group.

ACTIVEX LIMITED

**Notes to the Consolidated Financial Statements
For the year ended 30 June 2026****NOTE 2: SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION (Continued)****New accounting standards adopted (continued)****(b) New and Amended Accounting Standards and Interpretations on issue that are not yet effective**

At the date of authorization of the consolidated financial statements, the Group has not applied the following new and revised Australian Accounting Standards, Interpretations and amendments that have been issued but are not yet effective:

Standard/amendment	Effective for annual reporting periods beginning on or after	Nature of the change and expected impact
AASB 2014-10 Amendments to Australian Accounting Standards - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	1 January 2028	Limits the recognition of gain or loss arising from the loss of control of a subsidiary that does not contain a business in a transaction with an associate or joint venture to the extent of the unrelated investors' interest in that associate or joint venture. Similar limitations apply to remeasurements of retained interest in former subsidiaries. These amendments may impact the Group's consolidated financial statements in future period should such transactions arise.
IFRS 18 Presentation and Disclosure in Financial Statements	1 January 2027	This Standard will not change the recognition and measurement of items in the financial statements, but will affect presentation and disclosure in the financial statements, including introducing new categories and subtotals in the statement of profit or loss, requiring the disclosure of management – defined performance measures, and changing the grouping of information in the financial statements.

The Directors of the Company do not anticipate that the amendments will have a material impact on the Group but may change the disclosure of accounting policies included in the financial statements.

	\$	\$
Non-current assets held for sale:		
Exploration & evaluation assets (a)	-	455,698
Total	-	455,698

(a) Pentland Project (\$49,000) which was disposed in September 2025.

During the financial year, the Group determined that the previously proposed disposal of Georgetown Project (\$406,698) would not proceed within the expected timeframe. As a result, the assets were reclassified to the non-current asset categories (Refer note 10).

During the period, the Group reviewed the carrying value of its ESK Project based on recent indicative acquisition proposals received. Based on the assessment, management determined that the recoverable amount of the asset was best represented by the most recent indicative offer for full interest in the tenement. Accordingly, after recognizing an impairment loss of \$2,569,405, the carrying value was written down to \$1.05M, representing the estimated fair value less costs to sell (Refer note 10). On 10 March 2026, the Company executed a Debt-to-Equity Conversion Deed with Star Diamond Developments Ltd pursuant to which Star Diamond agreed to convert all outstanding loans including accrued interests due by the Company under a \$5 million unsecured loan facility into 100% equity of the Company's wholly owned subsidiary, East Coast Gold and Copper Pty Ltd (Refer note 12).

As on 30 June 2026, the Group did not have any non-current assets held for sale (2025: \$455,698).

NOTE 18: SHARE BASED PAYMENTS

There were no share-based payment arrangements in existence during the 2026 year, nor the 2025 year.

The Company established the ActivEX Limited Employees and Officers Share Option Plan on 11 April 2005. All directors, officers, employees and senior consultants (whether full or part-time) will be eligible to participate in the Plan after a qualifying period of 12 months employment by the Company or its subsidiaries.

The allocation of options under the Plan is at the discretion of the Board. The exercise price of options will be determined by the Board and will be equal to, or higher than the market value of the Company's shares at the time the Board resolves to issue the options. The total number of shares the subject of options issued under the Plan, when aggregated with other options issued under the Plan during the previous five years must not exceed five per cent of the Company's issued share capital at the time.

Options are forfeited one month after the holder ceases to be employed by the Group.

All Company options granted are over ordinary shares in ActivEX Limited, which confer a right of one ordinary share per option. The options hold no voting or dividend rights.

NOTE 19: EVENTS AFTER BALANCE SHEET DATE

- (i) Cash and cash equivalents, trade and other receivables, and trade and other payable are short term instruments in nature whose carrying amounts are equal to their fair values.

(a) Financial Risk Management Policies

The Group's financial instruments mainly comprise cash balances, receivables, investments, payables and borrowings. The main purpose of these financial instruments is to provide finance for Group operations.

Risk Management

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. Management is responsible for developing and monitoring the risk management policies and reports to the Board.

Specific Financial Risk Exposures and Management

The main risks the Group is exposed to through its financial instruments are interest rate risk, credit risk and liquidity risk. These risks are managed through monitoring of forecast cashflows, interest rates, economic conditions and ensuring adequate funds are available.

**Notes to the Consolidated Financial Statements
For the year ended 30 June 2026**

NOTE 24: FINANCIAL RISK MANAGEMENT POLICIES (continued)**Interest Rate Risk**

The Group's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates, arises in relation to the Group's bank balances and borrowings.

This risk is managed through the use of variable and fixed rates.

Credit Risk

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements.

Credit risk arises from exposures to deposits with financial institutions and sundry receivables.

Credit risk is managed and reviewed regularly by management who monitor credit risk by actively assessing the rating quality and liquidity of counter parties, including:

- only banks and financial institutions with an 'A' rating are utilised.

The carrying amount of financial assets recorded in the financial statements represents the Company's maximum exposure to credit risk

Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. This risk is managed by ensuring, to the extent possible, that there is sufficient liquidity to meet liabilities when due, without incurring unacceptable losses or risking damage to the Group's reputation.

The directors manage liquidity risk by sourcing long-term funding primarily from equity sources. In the current year the Group has also used debt. As set out in Note 1, the Group will need to manage its ongoing liquidity to meet planned exploration and corporate requirements.

Other Price Risk

Other price risk relates to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices due to demand and supply factors. The Group is exposed to securities price risk on investments held for trading over medium and longer terms. The Group held investments in the mining sector at the end of the reporting period.

As announced by the Company on 10 March 2026, Star Diamond Developments Limited ("Star Diamond") agreed that all outstanding loans including accrued interests due by the Company to be repaid in full by way of the transfer of 100% equity of East Coast Gold and Copper Pty Ltd.

NOTE 26: INVESTMENT ACCOUNTED FOR USING THE EQUITY METHOD

As announced to the ASX on the 4 September 2024, the Group entered into a joint venture agreement with HK Create Capital Investment Group (HKCCIG) for the establishment of a Joint Venture company (Gilberton Gold Pty Ltd) for its Gilberton Gold Project. Completion of Stage 1 of the agreement with HKCCIG took place in February 2025. When all tenements owned by ActivEx Limited were transferred to Gilberton Gold Pty Ltd at a carry value of \$1,324,503, HKCCIG had a 75.5% interest in Gilberton Gold Pty Ltd which is the holder of the Gilberton Gold Project, with the remaining 24.5% interest held by the Company.

Stage 2 of the agreement was completed by 25 September 2025 on receipt of a further \$1M in funding from HKCCIG to be used to conduct further exploration of the tenements, compile a JORC compliant report, and complete the relevant mining license application and procedures.

During the period, Gilberton Gold successfully raised \$1.3M by issuing an additional 17% of its shares. Consequently, the Company's shareholding decreased by 3.55% and is now 20.95%.

Gilberton Gold is currently working on an upgrade to the JORC Inferred Mineral Estimate (ASX Announcement 24th November 2025) and when available it will be released to the market once available. We have been caught before re possible GG outcomes maybe wait until we know they are going to drill as at this stage that are not able to do very much drilling until they raise more funds.

Independent Audit Report

To the members of ActivEx Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of ActivEx Limited (the 'Company') and its subsidiaries (the 'Group'), which comprises the consolidated statement of financial position as at 30 June 2026, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of material accounting policies, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- i. giving a true and fair view of the Group's financial position as at 30 June 2026 and of its financial performance for the year then ended; and
- ii. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the "Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 "Continued operations and future funding" in the financial report, which indicates that there is a need on an ongoing basis for the Group to regularly raise additional cash to fund future exploration activity and meet other necessary corporate expenditure. As disclosed in Note 1, the Group may seek additional funding through sources that include the issue of shares, borrowings, a farm-out of an interest in one or more exploration tenements, or the sale of exploration assets.

These events and conditions, together with other matters disclosed in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How the matter was addressed in our audit
Carrying value of Capitalised Exploration & Evaluation Assets	
Refer to Note 11 Exploration & Evaluation Assets	
The carrying value of the Group's exploration and evaluation asset is impacted by the Group's ability, and intention, to continue to explore this asset. The results of exploration work also determine to what extent the mineral reserves and resources may or may not be commercially viable for extraction. This impacts the ability of the Group to recover the carrying value of the exploration and evaluation assets either through the successful development or sale. Due to the quantum of this asset and the subjectivity involved in determining whether it's carrying value will be recovered through successful development or sale, we have determined this as a key audit matter.	We have critically evaluated management's assessment of each impairment trigger per AASB 6 <i>Exploration for and Evaluation of Mineral Resources</i>, including but not limited to: • Reviewing the directors' assessment of the carrying value of the exploration and evaluation costs, ensuring that management have considered the effect of potential impairment indicators, commodity prices and the stage of the Group's projects against the standard of AASB 6. • Obtaining from management a schedule of areas of interest held by the Group and assessed as to whether the Group had rights of tenure over the relevant exploration areas by obtaining external confirmation from the relevant government agency and also considered whether the Group maintains tenements in good standing. • Making enquiries of management with respect to the status of ongoing exploration programs in the respective areas of interest and assessing the Group's cashflow budget for the level of budgeted spend on exploration projects. • Considering whether any other information exists which indicates that the carrying amount of the exploration and evaluation asset that is unlikely to be recovered in full from successful development or by sale. • Assessed the appropriateness of the disclosures included in Note 11 to the financial report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2026 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and will request that it is corrected. If it is not corrected, we will seek to have the matter appropriately brought to the attention of users for whom our report is prepared.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- ii) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error;
- iii) and the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located on the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf. This description forms part of our auditor's report.

Report on The Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report as included in pages 29 to 32 of the directors' report for the year ended 30 June 2026.

In our opinion, the Remuneration Report of ActivEx Limited, for the year ended 30 June 2026 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
