

FOR IMMEDIATE RELEASE
ASX ANNOUNCEMENT
29 September 2026

Correction to notified Capital Structure and Lodgement of Appendix 2A and Appendix 3H

6K Additive, Inc. (ASX: 6KA) (**Company**) advises that it has today lodged:

- an Appendix 2A in respect of 530,912 shares of common stock issued following the exercise of vested options and subsequently converted into CDIs; and
- an Appendix 3H in respect of the cessation of 61,734 options that were forfeited prior to the Company's admission to ASX.

This announcement explains the circumstances giving rise to those lodgements, reconciles the Company's capital structure and outlines the measures implemented to ensure ongoing compliance with ASX Listing Rule 3.10.3.

Background

As part of a review of its capital structure, the Company identified a discrepancy relating to its records and related ASX disclosures involving one employee.

The relevant employee was granted options under the Company's historical equity incentive plan. When the employee ceased employment on 3 November 2025, 61,734 unvested options were immediately forfeited but were not reflected in the option balances disclosed in the Company's replacement prospectus dated 11 November 2025 (**Replacement Prospectus**) or pre-quotation disclosure dated 3 December 2025 (**Pre-Quotation Disclosure**).

On 29 January 2026, that former employee exercised 530,912 vested options and the Company issued the corresponding 530,912 shares of common stock, which were recorded on the Company's US share register. On 30 June 2026, those shares of common stock were converted into CDIs. .

These transactions were not notified to ASX in the required time under the ASX Listing Rules.

Capital Structure Reconciliation

The Company's capital structure is reconciled as follows:

Date	Shares of Common Stock / CDIs	Options
<i>Replacement Prospectus (11 November 2025)</i>	267,267,591	15,973,024
Correct position at Replacement Prospectus date	267,267,591	15,911,290
<i>Disclosed position at admission (4 December 2025)</i>	267,267,591	15,933,514
Correct position at admission (4 December 2025)	267,267,591	15,871,780
Current position	267,798,503	17,340,868

The increase in issued shares since admission reflects the exercise of the 530,912 options as noted above.

The movement in options from admission to the current position reflects:

- the forfeiture of 61,734 options noted above;
- the exercise of 530,912 vested options noted above; and
- the grant of 2,000,000 options under the Company's current incentive plan on 30 August 2026.

Cause of the Discrepancies

The forfeited options were not reflected in the Replacement Prospectus or Pre-Quotation Disclosure because the departure of the employee occurred contemporaneously with the IPO process and was not incorporated into the capital structure information prepared for admission.

The failure to lodge an Appendix 2A arose because capital movements recorded on the Company's US share register were not separately reconciled against the Company's ASX disclosure obligations due to a miscommunication with the Company's share registry.

Compliance Measures

Following identification of the discrepancies, the Company reviewed historical capital movements recorded on its US share register against its ASX disclosures. That review did not identify any discrepancies other than those described in this announcement.

The Company has implemented additional controls to ensure compliance with Listing Rule 3.10.3.

Those controls include:

- reconciliation of all share issuances, option exercises, forfeitures, cancellations and other capital movements against the Company's ASX disclosure obligations;
- review of all capital movements by the Company's Chief Financial Officer and Company Secretary; and
- a formal process for notification under the ASX Listing Rules of capital movements.

- Ends -

About 6K Additive

6K Additive, Inc. (ASX:6KA) is a US-based manufacturer and trusted supplier of premium metal powders for additive manufacturing and alloy additions for the aluminum melt industry, all made from sustainable sources. Headquartered in Burgettstown, PA, the Company's manufacturing process produces the highest quality metal powders that are truly spherical, void of porosity and satellites with better unit economics than competing technologies. 6K Additive utilizes proprietary UniMelt® microwave plasma system to produce the industry's most comprehensive portfolio of metal powder including a variety of Nickel, Titanium, Copper, and refractory powders that include, Tungsten, Rhenium, Niobium/C-103 and Tantalum. 6K Additive leverages feedstock such as certified turnings, millings, used additive powder, support material and failed builds that provide customers sustainable, domestically sourced metal powder. Forward Looking Statements

This announcement contains forward-looking statements. Forward-looking statements may include statements regarding 6K Additive's intentions, objectives, plans, expectations, assumptions and beliefs about future events, including 6K Additive's expectations with respect to the financial and operating position or performance of its business, its capital position and future growth. Forward-looking statements are based on assumptions and contingencies that are subject to change without notice and are not guarantees of future performance. They involve known and unknown risks, uncertainties and other important factors, many of which are beyond the control of 6K Additive, its directors and management and which may cause actual outcomes to differ materially from those expressed or implied in this announcement, including but not limited to, the factors described in the "Risk Factors" section of the Company's Replacement Prospectus dated 11 November 2025. Readers are cautioned not to place undue reliance on forward-looking statements, which are provided for illustrative purposes only and are not necessarily a guide to future performance. No representation or warranty is made by any person as to the likelihood of achievement or reasonableness of any forward-looking statements, and to the maximum extent permitted by law, responsibility for the accuracy or completeness of any forward-looking statements is disclaimed, and except as required by law or regulation (including ASX Listing Rules), 6K Additive undertakes no obligation to update any forward-looking statements. 6K Additive also notes that past performance may not be a reliable indicator of future performance.

Restriction on purchases of CDIs by US persons

6K Additive is incorporated in the US State of Delaware and its CDIs have not been registered under the US Securities Act of 1933 or the laws of any state or other jurisdiction in the United States. Trading of the CDIs on the ASX is not subject to the registration requirements of the US Securities Act in reliance on Regulation S under the US Securities Act and a related 'no action' letter issued by the US Securities and Exchange Commission to the ASX in 2000. As a result, the CDIs are "restricted securities" (as defined in Rule 144 under the US Securities Act) and may not be sold or otherwise transferred except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act. For instance, US persons may purchase CDIs if they are "qualified institutional buyers" ("QIBs", as defined in and in reliance on the exemption from registration provided by Rule 144A under the US Securities Act). To enforce the transfer restrictions, the CDIs bear a FOR Financial Product designation on the ASX. This designation restricts any CDIs from being sold on ASX to US persons excluding QIBs. In addition, hedging transactions with regard to the CDIs may only be conducted in compliance with the US Securities Act.
