Dear Shareholders

The 2026 financial year saw a favourable return for our portfolio, returning 9.93% and outperforming small and large cap indexes, whilst we have continued to carry a significant proportion of the portfolio in cash. Our reluctance to fully invest has been in order to ensure we have adequate funding for the litigation against Benjamin Hornigold's former directors.

The cost of legal proceedings has led to a small loss over the year, but has ultimately led to settlements of \$2.6 million post year end in July 2026.

We also received a further default judgement against JB Markets in August 2026, however we do not anticipate this resulting in further funds to the Company.

Positive Contributors

- **IperionX (IPX)** – Our investment in this titanium recycling and mining operator delivered strong returns again in FY26, providing the portfolio a 72% return on its investment before finally exiting the position in October 2025. Our thesis was the favourable U.S. government policies on critical minerals and long-term contracts with the U.S. Department of Defence would create momentum for the share price. Ultimately, exiting when we felt the stock was overvalued and the trend in share price broke down.
- **Navigator Global Investments (NGI)** – We identified NGI as a deep-value opportunity and increased our position several times in prior years. The stock increased over 50% within the portfolio in FY26..
- **Kyron Capital Group** – After nearly two years in suspension, Elanor Investors Group returned from the dead, rebranding as Kyron Capital and returning to trade. A small addition to the stock on return led to a 300% gain in the weeks prior to the end of financial year.

Update on Legal Matters

The Company started legal proceedings against two of its former directors, the previous investment manager John Bridgeman Ltd and its AFSL holder JB Markets, in relation to loans made to JB Financial Group and John Bridgeman Ltd.

The Court Ordered Mediation on the 29 October 2025 did not result in a settlement. Parties were unable to come to an agreement. As a result, the final court hearing was scheduled for July 2026.

At 30 June 2026, the amounts outstanding on the loans including interest amounted to;

- \$4.9 million secured unlisted convertible loan to JBFG
- \$1.6 million unsecured loan to JBFG
- \$2.05 million unsecured loan to JBL

Court action to recover these amounts was initiated in September 2023.

Prior to this the Board had been reluctant to take action until we could see a clear path to recovery of assets, and we anticipated ASIC enforcement, and the JBFG liquidator may take action. Ultimately, we anticipated this would provide information that would aid in the recovery of our funds.

- JBFG had been put into Administration, then subsequently went into Liquidation
- We held the view that JBL was insolvent
- Henry Morgan Ltd (HML), a company associated with the JBL group of companies, was also ordered by the court to be wound up
- ASIC have charged Stuart McAuliffe and Sam Elderfield, BHD's former CEO and CFO with dishonest breach of duties and misleading the ASX. The case is yet to be heard in court

Following on from our application in September 2023 against two of the former directors, JBL, and JB Markets Pty Ltd (JBM);

Benjamin Hornigold Ltd
Directors' Letter
30 June 2026

- JB Markets Pty Ltd, the holder of the Australian Financial Services Licence under which JBL operated, had its licence revoked, and subsequently its director, Peter Aardoom, was banned from ASIC
- John Bridgeman Ltd was deregistered in November 2024
- Stuart McAuliffe was ordered to pay costs in February 2025. Subsequently this led to a bankruptcy order being issued in September 2025
- JBM had been represented by Peter Aardoom, who has since resigned. Stuart McAuliffe, the company's remaining director, ceased to be a director on becoming bankrupt, leaving JBM with no directors
- Court ordered mediation occurred on 29 October 2025 with the two former BHD directors. JBL and JBM were not parties to the mediation.

On 29 June 2026 BHD entered into a deed for \$800,000 in settlement regarding the claim against former directors. On 20 July 2026 the Company entered into a further deed for \$1,800,000 in settlement of the claims against a previous director of the Company. We do not anticipate the current court proceedings to result in further funds to the Company.

We thank you for your continued support and confidence.

Company Secretary

Michael Glennon has held the role of Company Secretary since 12 June 2019. Mr Glennon's particulars are set out in the Information on Directors above.

Meetings of Directors

The number of meetings of the Company's Board of Directors ('the Board') and of each Board committee held during the year ended 30 June 2026, and the number of meetings attended by each Director were:

	Board		Audit and Risk Committee	
	Attended	Held	Attended	Held
M Glennon	3	3	2	2
G Miller	3	3	2	2
S Ravell	3	3	2	2

Held: represents the number of meetings held during the time the Director held office or was a member of the relevant committee.

Remuneration Committee

No Remuneration Committee meetings were held during the financial year as there were not any matters to consider that were not agreed by the Board. The Chair of the Committee is Gary Miller.

Audit and Risk Committee composition

Due to the size and nature of activities, the Committee will comprise the full Board. The Chair of the Committee is Gary Miller.

Principal activities

The Company is a Listed Investment Company (LIC) incorporated on 28 September 2016. The Company provides investors with the opportunity to gain exposure to an investment portfolio that is actively managed. The investment portfolio is invested in a small number of high conviction investments in undervalued assets, that provide growth opportunities with the aim of achieving above average returns, (whilst limiting volatility) over the medium to long term. Further details on these investments are included in the Review of Operations.

Business model and objectives

The Company has historically aimed to deliver shareholder returns by providing an actively managed portfolio with diversification across products and global markets. The Company's investment style is best described as Opportunistic with the aim of providing an absolute return.

Review of operations

The loss earned by the Company after providing for income tax amounted to \$420,931 (2025: loss \$709,247) and return on average capital employed is (2)% (2025: (11)%).

The decrease in losses of \$288,316 is primarily due to net trading gain on financial instruments increasing by \$436,273. This net trading gain has been generated from realised gain on sale of investments being \$518,092, an increase of \$659,109 and distributions and other income from investments increasing by \$206,051 from the prior year. The major changes are set out below:

	2026 \$	2025 \$	Increase/(decrease) in profits

Benjamin Hornigold Ltd
Directors Report
For the year ended 30 June 2026

Risk Management

The Board and delegated Audit and Risk Management Committee are responsible for overseeing the risk management framework. Policies and procedures are continually developed, reviewed, and enhanced as appropriate to manage the current and changing operational and corporate risks of the business.

Risk	Description	Mitigation Strategy
People	Key executives may leave. Shortage of quality, experienced personnel and loss of key staff may adversely impact on operations.	All three directors have experience in the key functions of the company, being portfolio management, administration and understanding the legal process.
Cybersecurity	Data breach or cyber-attack.	Practical protections in place to protect data and mitigate security breaches.
Market Risk	The risk that changes in market prices such as interest rates or changes in economic conditions will affect the fair value or future cash flows of the company's investments.	The nature of a listed investment company that invests in tradeable securities means that the company will always be subject to market risk. This risk is mitigated by portfolio diversification and our cash holdings.

Corporate events

There have been no security issues during the year.

Significant changes in the state of affairs

Apart from the matters discussed in this Report, there were no other significant changes in the state of affairs of the Company during the financial year.

Matters subsequent to the end of the financial year

On 29 June 2026 the Company entered into a Deed of Settlement with a claim against a former director for \$800,000. The Deed of Settlement was subject to an insurer signing off which occurred on 9 July 2026. The \$800,000 settlement funds were received in the Company's solicitors trust account 20 July 2026.

In addition, during July 2026 the Company entered into a Deed of Settlement for \$1,800,000 relating to settlement claims against a previous director of the Company. The settlement funds of \$1,800,000 were received in the Company's bank account on 4 August 2026.

On the 6 August 2026, the Company received a default judgement against JB Markets Pty Ltd in the amount of \$8,971,570. Due to JB Markets' financial circumstances the Company does not attribute any value to the default judgement.

No other matters or circumstances have arisen since 30 June 2026 that have significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

Dividends

No dividends have been paid or proposed during the year.

Likely developments and expected results of operations

The Company will continue operating as a LIC. The Company is focused on achieving the maximum return of capital from its investments.

Environmental regulation

The Company is not subject to any significant environmental regulation under Australian Commonwealth or State law.

Shares under option

There are no unissued ordinary shares of the Company under option at the date of this report.

During and since the year ended 30 June 2026, no shares were issued (2025: nil) pursuant to the exercise of options.

Indemnifying officers

The Company has an agreement to indemnify any person who is or has been an officer of the Company.

Indemnifying and insurance of auditor

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditors.

Non-audit services

Details of the amounts paid or payable to the auditors for non-audit services provided during the financial year are set out in Note 16 of this report.

The Directors are satisfied that the provision of non-audit services provided during the financial year, by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*.

The auditors are of the opinion that the services, as disclosed in Note 16 to this report, do not compromise the external auditor's independence requirements under the *Corporations Act 2001* for the following reasons:

- All non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- None of the services undermine the general principles relating to auditor independence as set out in *APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as advocate for the Company or jointly sharing economic risk and rewards.

Officer of the Company

There are no officers of the Company who are former partners of the auditor.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out immediately after this Directors' Report.

Auditor

Pitcher Partners was appointed as auditor in January 2019 and continues in office in accordance with section 327 of the *Corporations Act 2001*.

Remuneration report

This Remuneration Report outlines the remuneration arrangements of the Company for the year ended 30 June 2026. The report details the remuneration arrangements for the Key Management Personnel ('KMP') within the Company. KMP are defined as those persons having authority and responsibility for planning, directing and controlling activities of the Company, including any Director. During the 2026 financial year, the KMP for the Company comprised the Directors of the Company, as set out below. The Company has no other executives.

The remuneration report details the KMP remuneration arrangements for the Company, in accordance with the requirements of the *Corporations Act 2001* and its Regulations.

Remuneration framework

The objective of the Company's remuneration framework is to align KMP objectives with shareholder and business objectives by providing fixed remuneration to Board members. The Board of the Company believes the remuneration framework to be appropriate and effective in its ability to attract and retain high-quality KMP to run and manage the Company, as well as creating an alignment of interests between Directors and shareholders.

The Board's policy for determining the nature and amount of remuneration for KMP of the Company is as follows:

- The remuneration arrangements are developed and approved by the Board.
- Non-Executive Directors do not receive performance-related remuneration and are not entitled to participate in equity-based incentive plans in the Company.
- All KMP receive a fixed Director's fee which is based on factors such as relevant industry standards.
- The Board reviews KMP remuneration arrangements periodically by reference to the Company's performance and comparable information from industry sectors.

Total remuneration available to the Directors for their services as Directors is a maximum of \$450,000. Any increase in the aggregate amount of Directors' fees over \$450,000 must be approved by a resolution of the shareholders.

The Board's policy is to remunerate non-executive Directors at market rates for time, commitment and responsibilities. Independent external advice is sought when required.

In addition, the Company's Securities Trading policy prohibits Directors and KMP from using the Company's securities as collateral in any financial transaction, including margin loan arrangements.

Performance-based remuneration

There is currently no performance-based remuneration paid directly by the Company. Measures may be specifically tailored in the future.

Relationship between remuneration policy and Company performance

The remuneration framework has been tailored to align the goals of shareholders, Directors and executives. The Company commenced operations in May 2017 and remuneration will be reviewed regularly in the context of the framework outlined above, including reference to Company performance. The Company believes this framework will be effective in increasing shareholder wealth.

Performance conditions linked to remuneration

There are currently no performance conditions linked to KMP remuneration.

Consequences of performance on shareholder wealth

In considering the Company's performance and benefits for shareholder wealth, the Board has regard to the following index in respect of the current financial period:

- The S&P/ASX 200 Accumulation Index

The portfolio underperformed the Index and the impact of the performance is shown below on the NTA.

Note 1. Reporting Entity

Benjamin Hornigold Ltd (the 'Company') is a listed public investment company domiciled in Australia. The registered office is located at Suite 20.01 Level 20, 133-145 Castlereagh Street, Sydney NSW 2000.

The investment objective of the Company is to achieve moderate to high portfolio returns over the medium to long term.

The Company was incorporated on 28 September 2016 and commenced operations on 11 May 2017.

The Company is a for-profit entity and these financial statements have been prepared using historical cost basis. The Company is an investment entity and accounts for investments at fair value through profit or loss in accordance with AASB 9 *Financial Instruments* and AASB 10 *Consolidated Financial Statements*.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within 12 months, except for investments in financial assets. Investments in financial assets are managed to meet liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at reporting date.

The financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards adopted by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. The financial report complies with the International Financial Reporting Standards (IFRS) and interpretations adopted by the International Accounting Standards Board (IASB).

The financial statements are presented in Australian dollars which is the Company's functional and presentation currency.

The amounts contained in this financial report have been rounded to the nearest whole dollar under the option available to the Group under Corporations Instrument 2026/183. The Group is an entity to which the Corporation Instrument applies.

The financial statements were authorised by the Board of Directors on 29 September 2026.

Note 2. Material accounting policy information

The material accounting policy information adopted in the preparation of the financial statements are set out either in the respective notes or below. These policies have been consistently applied to all the years presented, unless otherwise stated.

The financial report has been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business. The directors have determined that there was no intention to wind up operations at balance date, nor is there a material uncertainty that casts significant doubt over the Company's ability to continue as a going concern.

New Accounting Standards and Interpretations not yet mandatory or early adopted

The Company has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The Company did not have to change its accounting policies or make retrospective adjustments as a result of adopting these amendments.

New Accounting Standards and Interpretations adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Company for the annual reporting period ended 30 June 2026.

AASB 18 replaced AASB101 Presentation of Financial Statements and is effective for annual reporting periods beginning on or after 1 January 2027, with earlier application permitted. The Company has not early adopted AASB 18 in these financial statements. The Company is currently assessing the impact of the new Standard on its financial statements, including the presentation and disclosure requirements. The Company does not expect the adoption of AASB 7 to result in a material change to the measurement or recognition of amounts reported in the financial statements; however, the presentation and disclosure of certain items will change.

Basis of preparation

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 3.

Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. They are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on the purpose of the acquisition and subsequent reclassification to other categories is restricted.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

Investments at fair value through profit or loss

Investments at fair value through profit or loss are either:

- (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit; or
- (ii) designated as such upon initial recognition, where they are managed on a fair value basis or to eliminate or significantly reduce an accounting mismatch.

Fair value movements are recognised in profit or loss.

Loans

Loans are financial assets initially recognised at fair value plus directly attributable transaction costs and fees. Loans are subsequently measured at amortised cost using the effective interest rate method where there have been contractual cashflows which represent solely payment of principal and interest ('SPPI') on the principal balance outstanding and they are held within a business model whose objective is achieved through holding loans to collect these cashflows.

Impairment of financial assets

At the end of each reporting period, an assessment is made as to the extent of any expected credit losses ('ECLs') impacting on the estimated future cash flows of the financial asset. Expected credit losses may arise where there are indications that the counterparty is experiencing significant financial difficulty or might enter insolvency proceedings or other financial reorganisation, where there has been a default or delinquency in

interest or principal payments, or where changes in economic conditions have occurred impacting on the likelihood of defaults.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Other income

Interest income on financial assets at amortised cost calculated using the effective interest method is recognised in profit or loss as part of other income.

Profit reserve

A profit reserve has been created representing an amount allocated from current period earnings that is preserved for future dividend payments.

Note 3. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, which management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and within the next financial year are discussed below.

Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. The expected credit loss is determined by evaluating a range of possible outcomes, taking into account the time value of money, past events, current conditions and forecast economic conditions. The allowance for expected credit losses, as disclosed in Note 10, is calculated based on the information available at the time of preparation. The actual credit losses in future years may be higher or lower.

Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and tax losses only if the Company considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Refer to Note 7 for information on deferred tax assets.

Estimated fair values of level 3 investments

The Company carries its convertible loan at fair value with changes in the fair values recognised in Statement of profit or loss and other comprehensive income. At the end of each reporting period, the Directors update their assessment of the fair value of convertible loan which are categorised under level 3 in the fair value hierarchy. Refer to Note 6 and Note 9 for information on level 3 securities.

Note 4. Operating segments

Benjamin Hornigold Ltd
Notes to the financial statements
30 June 2026

Operating segments are identified based on the financial information periodically reviewed by the Board (representing the Chief Operating Decision Maker) in assessing the performance and determining the allocation of resources. As the Company operates in only one segment, all results presented in this financial report relate to the financial services segment.

The Company operates materially in only one geographical segment being Australia.

Total	<u>534,741</u>	<u>98,468</u>

(a) Refer to Notes 9 and 10 for further detail.

Accounting policy for revenue recognition

Revenue is recognised at the transaction price specified in the contract and excludes any taxes collected on behalf of third parties.

Net gains / (losses) on investment activities

Gains and losses arising from changes in fair value of investments held are recognised in the statement of profit or loss in the period in which they arise.

Dividends

Dividends are brought into account on the dates that the securities trade ex-dividends.

Distributions and other income from investments

Distributions are brought into account on the dates that the securities trade ex-distributions. Demerger dividends / distributions arising from company de-consolidations are treated as a return of capital.

Note 6. Fair value measurement

Fair value hierarchy

The following tables detail the Company's assets and liabilities, measured or disclosed at fair value, using a three-level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

There were no transfers between levels during the financial year.

The carrying amounts of trade and other receivables and trade and other payables are assumed to approximate their fair values due to their short-term nature.

(i) Refer to Note 9 for further information on the convertible loan.

Accounting policy for fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The listed investment are valued at the closing listed share price and listed managed funds are valued at what the closing quoted price at year end.

Note 7. Income tax

Income tax expense

Income tax expense is the tax payable on the Company's taxable income for the financial year based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities.

Deferred tax assets and liabilities

Deferred tax assets and liabilities are recognised for temporary differences at the applicable tax rates that will apply when the assets are expected to be recovered or liabilities are expected to be settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that future taxable profit will be available against which the deductible temporary differences and unused tax losses can be utilised.

Interest due under the agreement in the current year is \$452,360 (2025: \$410,905) which is not recognised as the directors have determined the fair value of the loan to be \$nil at balance date.

(1) On the 11 September 2017, the Company entered into a convertible loan agreement with JB Financial Group Limited (JBFG) for \$2,200,000. No interest has been paid on this loan and as a result the loan is in default at 30 June 2025 and 30 June 2024. The Company has commenced proceedings to recover the gross funds. Refer Note 18 for further details.

Total other receivables	18,791	1,950

(a) In the prior years, a performance fee of \$4,553,773 was paid in advance to John Bridgeman Ltd (JBL) in respect of a JB Trading House transaction. In August 2018, \$4,500,000 of the prepaid fees were repaid by the establishment of a \$4,500,000 loan agreement with JBL. The loan had been repaid in full in prior years, in accordance with Takeover Panel Refer Orders 02 (TP19/08). Refer to 10(b) Loans and advances below, for further information.

At 30 June 2026 \$53,773 (2025: \$53,773) was receivable of which \$53,773 (2025: \$53,773) was impaired.

(b) Loans and advances are measured at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

(i) JBL Loan

On 2 August 2018 the Company made a loan of \$1,134,154 to JBL for an initial term of one year at 11.5% per annum interest. On 16 October 2018 the term of the loan was extended to 8 February 2020. On 12 February 2020 \$149,548 of the JBL loan was repaid by JBL complying with orders made in the Supreme Court of Queensland on 4 February 2020.

The loan was initially credit-impaired at 30 June 2019 to \$nil and as such, no interest income has been recognised. At this time the loan had a carrying amount of \$1,061,911. Contractually, the Company is entitled to \$996,784 (2025: \$774,145) of cumulative accrued interest under the agreement and therefore the total loan repayable is \$2,058,695 at reporting date (2025: \$1,836,057). No interest repayments have been received since December 2018 and as a result, the loan is in default.

The Company has commenced proceedings to recover these funds. Refer to Note 18 for further details.

(ii)JBFG Loan

In July 2018, the Company entered into a short-term loan agreement with Genesis for \$800,000 at 9% per annum repayable in October 2018. On 24 December 2018, the Company extended the loan agreement with Genesis to a maturity date of 31 October 2019. On 7 May 2019, the loan plus interest totalling \$857,995 was assigned from Genesis to JBFG.

The loan was initially credit-impaired at 30 June 2019 to \$nil and as such, no interest income has been recognised. At this time the loan had a carrying amount of \$870,027. Contractually, the Company is entitled to \$760,505 (2025: \$620,668) of cumulative accrued interest under the agreement and therefore the total loan repayable \$1,630,532 at reporting date (2025: \$1,490,695). As repayment was not made on 31 October 2019, the loan is in default.

The Company has commenced proceedings to recover these funds. Refer to Note 18 for further details.

Accounting policy for other receivables

Other receivables are initially recognised at fair value and subsequently measured at amortised cost using the expected credit loss (ECL) method. The Company calculated the provisions for ECL based on a three-stage approach. ECL are a probability-weighted estimate of the cash shortfalls expected to result from defaults over the relevant timeframe under AASB 9 *Financial Instruments*. They are determined by evaluating a range of possible outcomes, taking into account the time value of money, past events, current conditions and forecast economic conditions. The model uses three main components to determine the ECL including:

- Probability of default (PD) the probability that the counterparty will default,
- Loss given default (LGD) the loss that is expected from the default event,
- Exposure to default (EAD) the estimated outstanding amount of credit exposure at the time of default.

The three ECL stages are:

1. 12 months ECL performing

For financial assets where there has been no significant increase in credit risk since origination, a provision for 12 months ECL is recognised.

2. Lifetime ECL performing

For financial assets where there is a significant increase in credit risk since origination but the assets are still performing, a provision for lifetime ECL is recognised.

3. Lifetime ECL non-performing

For financial assets where there is a significant increase in credit risk since origination but the assets are not performing due to default, a provision for lifetime ECL is recognised.

At 30 June 2026, nil (2025: nil) options are on issue. During the year nil (2025: nil) options have been exercised.

Capital risk management

The Company's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Company would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current Company's share price at the time of the investment.

The capital risk management policy remains unchanged from the prior Annual Report.

Note 14. Financial instruments

Financial risk management objectives

This note presents information about the Company's objectives, policies and processes for measuring and managing risk.

The Company's operational investing activities are exposed to a variety of financial risks. These risks include market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk.

The oversight and management of the Company's risk management program has been conferred upon the Board of Directors. The Board is responsible for reviewing that the Company maintains effective risk management and internal control systems and processes.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices such as interest rates, equity prices and credit spreads.

Price risk

Market prices fluctuate due to a range of factors specific to the individual investments or factors affecting the market in general.

The Investment Manager's investment decision process is fundamental to the management of price risk. The Investment Manager undertakes extensive assessment of market dynamics, considers the impact of key events, changes in leading indicators as well as market extremes before investing, investing further capital or exiting investments.

Price risk sensitivity analysis

As at 30 June 2026 an increase of 5% (2025: 5%) in market prices applicable at the reporting date would have increased the Company's profit and net assets by \$147,871 (2025: \$168,528). A decrease of 5% in market prices would have an equal and opposite effect. This analysis assumes that all other variables remain constant.

Interest rate risk

The Company is not exposed to any significant interest rate risk in respect of financial assets and liabilities.

Sensitivity Analysis

The following table illustrates sensitivities to the Group's exposures to changes in interest rates. The table indicates the impact on reported profit/loss and net equity values for changes in rates that management considers to be reasonably possible. This analysis assumes that the movement in each variable is independent of movement in the other variable and is prepared on the same basis as the prior year.

	Profit/Loss \$	Equity \$
Year ended 30 June 2026		
+/- 1.0% in interest rates on interest bearing cash assets	37,782	37,782
Year ended 30 June 2025		
+/- 1.0% in interest rates on interest bearing cash assets	31,530	31,530

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The Company does not hold any collateral.

Cash and balances held with brokers are held with highly rated Australian retail banks and trading activities are conducted through stockbrokers. Cash holdings are categorised as follows:

Risk Rating	2026 \$	2025 \$
A+	3,778,178	3,153,034
Unrated	10	10
	3,778,188	3,153,044

The credit risk exposure for cash and deposit holdings is the carrying amount at the reporting date.

At 30 June 2026 and 30 June 2025, receivables were neither past due nor impaired, unless stated so in this report.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations as they fall due.

Note 18. Contingent assets and liabilities

Contingent assets

The Company has a contingent asset in respect of ongoing litigation.

At 30 June 2026 the following amounts are contractually receivable from former related parties, and the Company has commenced proceedings to recover the loans below*:

- * JBFG Convertible Loan and interest (Note 9) \$4,936,311 (30 June 2025: \$4,483,950)
- * JBL loan and interest (Note 10) \$2,058,695 (30 June 2025: \$1,836,057)
- * JBFG loan and interest (Note 10) \$1,630,532 (30 June 2025: \$1,490,695)
- Overpaid performance fee (Note 10) \$53,773 (30 June 2025: \$53,773)

JBL was deregistered on 24 November 2024 and JBFG is currently in External Administration.

The recovery of these amounts are currently uncertain due to the counterparties' ability to pay, and ongoing disputes between the entities, and therefore all assets have been impaired at 30 June 2026 and 30 June 2025. A recovery for the Company would provide a significant uplift to shareholders. As a result, we have continued to pursue the outstanding debts.

Subsequent to year-end the Company received:

- Settlements of \$800,000 and \$1,800,000 as a result of claims against 2 former directors (Refer to Note 20). The settlements received subsequent to balance date relate to agreements reached with former directors and are independent of the loan amounts outstanding (listed above); and
- A default judgement against JB Markets Pty Ltd in the amount of \$8,971,570. JB Markets Pty Ltd was the holder of the Australian Financial Services Licence (AFSL) under which financial services were provided by JBL as a Corporate Authorised Representative. Due to JB Markets' financial circumstances the Company does not attribute any value to the default judgement. The Company is assessing what this judgement means for the continued pursuit of the contractual loan amounts outstanding (listed above).

Contingent liabilities

The Company has no contingent liabilities at 30 June 2026 or 30 June 2025.

Note 19. Related party transactions

Transactions with related parties include:

- A. The compensation arrangements with the Directors.
Key management personnel
Disclosures relating to key management personnel are set out in Note 15 and the remuneration report included in the Directors' report.
- B. The interest in the Company held directly and indirectly by the Directors.
Disclosures relating to key management personnel interest in shares and options are set out below.

The number of ordinary shares of the Company held by each KMP of the Company, directly or indirectly or by their personally related parties during the financial period is as follows:

Note 20. Events after the reporting period

On 29 June 2026 the Company entered into a Deed of Settlement with a claim against a former director for \$800,000. The Deed of Settlement was subject to an insurer signing off which occurred on 9 July 2026. The \$800,000 settlement funds were received in the Company's solicitors trust account on 20 July 2026.

In addition, during July 2026 the Company entered into a Deed of Settlement for \$1,800,000 relating to settlement claims against a previous director of the Company. The settlement funds of \$1,800,000 were received in the Company's bank account on 4 August 2026.

On the 6 August 2026, the Company received a default judgement against JB Markets Pty Ltd in the amount of \$8,971,570. JB Markets Pty Ltd was the holder of the Australian Financial Services Licence (AFSL) under which financial services were provided by JBL as a Corporate Authorised Representative. Due to JB Markets' financial circumstances the Company does not attribute any value to the default judgement.

No other matters or circumstances have arisen since 30 June 2026 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

Independent Auditor's Report to the Members of Benjamin Hornigold Ltd**Report on the Audit of the Financial Report***Opinion*

We have audited the financial report of Benjamin Hornigold Ltd ("the Company"), which comprises the statement of financial position as at 30 June 2026, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of Benjamin Hornigold Ltd, is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Company's financial position as at 30 June 2026 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional and Ethical Standards Board ("the Code") that are relevant to audits of the financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed the key audit matter
<i>Valuation of financial assets</i> Refer to note 9 The Company invests in various financial instruments exposing it to a number of financial risks, including market risk, credit risk and liquidity risk. As at 30 June 2026, financial assets totalled \$2,940,298 (2025: \$3,370,554). Financial assets at fair value through profit or loss are classified according to the fair value hierarchy within AASB 13 <i>Fair Value Measurement</i> as follows: • Level 1 (i.e. inputs are quoted prices in active markets for identical assets); • Level 2 (i.e. inputs other than quoted prices included within level 1 that are observable, either directly or indirectly); or • Level 3 (i.e. inputs are unobservable) represented by convertible loan note which has been fully impaired as at balance date. Level 1 financial assets total \$2,940,298 (2025: \$3,370,554) comprising listed and unlisted securities at fair value through profit or loss, and Level 3 financial assets total \$nil (2025: \$nil) comprising convertible loans at fair value through profit or loss. There are no financial assets classified as level 2. This is assessed as a key audit matter due to the significance of the balance, representing 43% of total assets and the most significant driver of the Company's Net Tangible Assets and Profits.	Our procedures included, amongst others: • Obtaining an understanding of the design and implementation of the relevant controls associated with the acquisition and valuation of financial assets. • Obtaining supporting documentation to confirm the quantity of shares held at the reporting date. • Agreeing the valuation of listed securities, on a sample basis, to their quoted market value at the reporting date. • Recalculating the fair value gain or loss recognised in the profit or loss arising from the mark to market adjustments at the reporting date. • Assessing the disclosure of the quantitative and qualitative considerations when determining the fair value hierarchy in the financial report of the Company in accordance with Australian Accounting Standards.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Company's directors report for the year ended 30 June 2026, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- (a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- (b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*; and
- (c) for such internal control as the directors determine is necessary to enable the preparation of:
 - (i) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
 - (ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 8 to 12 of the directors' report for the year ended 30 June 2026. In our opinion, the Remuneration Report of Benjamin Hornigold Ltd, for the year ended 30 June 2026, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
