

ASX RELEASE

1 October 2026

NSW Mobile Speed Camera Contract Extension

Highlights

- Transport for New South Wales (**TfNSW**) has exercised the second option to extend its Mobile Speed Camera Services Agreement with Acusensus for an additional six-month period.
- This second option to extend is on the same terms and conditions as the first, and as such the value associated with the additional six-month period is estimated at approximately \$16 million (excluding GST).

Acusensus Limited (ASX:ACE) (**Acusensus** or the **Company**), a technology company designing and developing artificial intelligence enabled road safety solutions, is pleased to announce an additional extension of its Mobile Speed Camera Services Agreement with Transport for New South Wales (**MSC Services Agreement**).

The original MSC Services Agreement was due to expire on 30 June 2026 and was extended for an additional six months to 31 December 2026 as detailed in the Company's ASX release dated 22 June 2026. This additional variation provides for a further six-month extension of the contract term, commencing 1 January 2027 and expiring 30 June 2027.

The contract value associated with the additional extension period of six months is estimated to be approximately \$16 million (excluding GST).

The tender process for a new long-term mobile speed camera services contract with TfNSW remains ongoing.

About Acusensus

Acusensus is a technology company that was founded in 2018 with a mission to design and develop artificial intelligence enabled road safety solutions. Collaborating with governments and commercial stakeholders to tackle distracted driving globally is Acusensus' first priority. Acusensus has pioneered intelligent solutions that provide anywhere, anytime digital evidence that can be used in conjunction with law enforcement to drive behavioural change and improve road safety. Acusensus technology is used to detect and provide prosecutable evidence of distracted driving (mobile phone use), seatbelt compliance, speeding, railway crossing compliance and the monitoring of vehicles of interest.

Leveraging AI and sensing expertise, Acusensus also provides technology that protects workers in live traffic environments. The Forsite by Acusensus road worker safety system integrates roadside sensors, connected wearables and real time analytics to give crews early warning of approaching vehicle risks, delivering the vital seconds needed to avoid harm while generating data that helps make worksites safer over time.

Acusensus listed on the Australian Securities Exchange in January 2023. Acusensus is headquartered in Melbourne, Australia, with offices in Sydney, Brisbane, Perth, Auckland (New Zealand), Christchurch (New Zealand), London (United Kingdom), Las Vegas Nevada (United States) and Hartford Connecticut (United States).
