

1 October 2026

QUIXXI SECURES 4-YEAR A\$635K BINDING EUROPEAN CONTRACT AHEAD OF WHITEHAWK ACQUISITION VOTE

Contract Win Validates Quixxi's Clarity AI platform solution for AI risk control and compliance to meet market demand

Highlights

- Quixxi's Clarity AI platform has been **selected for a four-year binding contract** with a major Italian industrial group
- The **contract is worth A\$635,237.96 to Quixxi** and starts on 1 November 2026.
- The win shows that Clarity AI **can scale globally** and can be sold through partners across Europe
- WhiteHawk will complete **its proposed acquisition of Quixxi on 8 October 2026, subject to EGM** where, Quixxi's contracts and revenue share will become part of the WhiteHawk group from completion

Sydney, NSW and Virginia, USA - WhiteHawk Limited (ASX: WHK) ("WhiteHawk" or "the Company") is pleased to announce that Quixxi's Clarity AI platform has secured a four-year European contract through a joint offering with DoxAI.

The contract

A major Italian industrial engineering and technology group will use Clarity AI to oversee the use of AI across its business and provide clear compliance reporting to management and the board. DoxAI led the customer engagement and will provide its automation solutions. Quixxi will provide Clarity AI. The four-year contract starts on 1 November 2026 and has a total value of A\$635,237.96 to Quixxi, which is expected to be received in full prior to the commencement date. The contract includes termination rights on customary terms for an agreement of this nature.

About Quixxi Clarity AI

Clarity AI helps organisations identify, control and report on the AI systems they use. It gives boards and executives a clear view of AI risks, approvals, controls and compliance.

- shows what AI systems are being used;
- assesses risk and compliance;
- sets approval and control processes; and
- provides ongoing reports for executives, boards and regulators.

The platform is designed for regulated sectors, including government, financial services, telecommunications and critical infrastructure. It helps customers use AI with greater control and supports compliance with frameworks such as the EU AI Act. Clarity AI is built on SOC 2 Type II foundations. Further information: quixxi.com/clarity-ai.

Relationship between the parties

DoxAI, Quixxi and WhiteHawk are separate companies. WhiteHawk has partnered with DoxAI since September 2025. WhiteHawk is not a party to this contract and will not receive revenue from it unless the Quixxi acquisition completes. The contract therefore has no impact on WhiteHawk's current financial position. [Read the WhiteHawk and DoxAI partnership announcement](#)

Relevance to the proposed Quixxi acquisition

WhiteHawk agreed to acquire Quixxi on 13 April 2026. The proposed acquisition would add Clarity AI to WhiteHawk's cyber risk and compliance offering and expand WhiteHawk into the growing AI governance market. [Read the acquisition announcement](#)

Why this matters to WhiteHawk shareholders

This contract is evidence that Clarity AI is winning real enterprise customers, generating revenue and working successfully with channel partners. If the acquisition completes, Quixxi's contracts, including its revenue share under this contract, will form part of the WhiteHawk group from completion. The contract supports the strategic case for combining WhiteHawk's cyber capabilities with Quixxi's AI governance platform, but it does not change the acquisition terms.

The acquisition remains subject to shareholder approval and the other conditions in the share sale agreement. The virtual Extraordinary General Meeting will be held at 11:00am (AEDT) on Thursday, 8 October 2026. All three interconditional resolutions must pass. Proxy forms must be received by 11:00am (AEDT) on Tuesday, 6 October 2026. Shareholders should read the Notice of Meeting and Independent Expert's Report in full before voting. The Independent Expert concluded that the transaction is not fair but reasonable to non-associated shareholders.

Group CEO Comment

Adrian Vallino, Group CEO, said:

"This contract is an important proof point for Quixxi and its Clarity AI product. A major European customer has selected the platform for a four-year engagement, showing clear demand for practical AI governance.

For WhiteHawk shareholders, the win shows why the proposed acquisition matters. Quixxi would add a proven AI governance product, new revenue opportunities and a strong fit with WhiteHawk's cyber risk and compliance business.

If shareholders approve the acquisition and it completes, WhiteHawk will be able to offer customers both cyber resilience and AI governance through one group. This contract is a clear example of the opportunity we are seeking to bring into WhiteHawk."

Forward-Looking Statements

This announcement contains forward-looking statements, including in relation to the Company's funding position, the Quixxi acquisition and its pathway to self-sustainability. These statements reflect the Company's current expectations and are based on assumptions that are subject to risks and uncertainties, many of which are outside the Company's control. Actual results may differ materially. The Company does not undertake to update any forward-looking statement except as required by law or the ASX Listing Rules.

This announcement has been authorised for release by the Board of Directors.
