

Invitation to Nova's Investor Update Webinar

Nova Minerals Corp ("Nova Minerals" or the "Company") (NYSE American: NVA | ASX: NVA) is pleased to invite shareholders, investors, and the broader market to attend an Investor Webinar for an update on the Company's recent efforts at its Estelle Gold and Critical Minerals Project in Alaska, and antimony supply chain capabilities.

Nova Chief Executive Officer Christopher Gerteisen will present on the Company's recent progress towards developing antimony processing and refining capabilities at Port MacKenzie, and ultimately establishing a secure, integrated antimony domestic supply chain funded by a US\$43.4 million award from the U.S. Department of War.

Mr. Gerteisen will also cover highlights from the recent field season at Estelle, which is one of North America's largest undeveloped gold assets, with a multi-million-ounce resource and significant growth potential.

RedChip will be hosting the Investor Webinar. If attendees are unable to join the event on the day of the conference, an archived webcast will also be made available on the Company's website www.novamineralscorp.com and YouTube channel.

About Nova Minerals Corp

Nova Minerals Corp is advancing one of the world's largest undeveloped gold deposits into production and securing a U.S. domestic supply of the critical mineral antimony. The Company is focused on the exploration and development of the Estelle Gold and Critical Minerals Project, located in Alaska, a tier-one mining jurisdiction.

Estelle hosts two defined multi-million-ounce gold resources, and more than 20 prospects distributed along a 35-kilometre mineralised trend, in the prolific Tintina Gold Belt, a province which hosts a >220 million ounce (Moz) documented gold endowment and some of the world's largest gold mines and discoveries including, Kinross Gold Corporation's Fort Knox Gold Mine. In parallel, Nova is advancing its critical minerals strategy, fully funded by a US\$43.4 million U.S. Department of War award to develop a domestic antimony supply chain, targeted for production in 2027.
