

RED MOUNTAIN MINING LIMITED
ACN 119 568 106

CLEANSING PROSPECTUS

For an offer of up to 1,000 New Options at an issue price of \$0.05 per New Option to raise up to \$50 (before expenses) (**Offer**).

This Prospectus has been prepared primarily for the purpose of section 708A(11) of the Corporations Act to remove any trading restrictions on the sale of New Options issued by the Company prior to the Closing Date.

Given the purpose of this Prospectus, any Offers under this prospectus will only be extended or accepted by investors who are defined in section 708 of the Corporations Act. Accordingly, this Prospectus is not targeted at consumers.

IMPORTANT NOTICE

This document is important and should be read in its entirety. If after reading this Prospectus you have any questions about the New Options being offered under this Prospectus or any other matter, then you should consult your professional advisers without delay.

The New Options offered by this Prospectus should be considered as highly speculative.

IMPORTANT NOTICE

This Prospectus is dated 7 October 2026 and was lodged with the ASIC on that date. The ASIC, ASX and their respective officers take no responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

No New Options may be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

No person is authorised to give information or to make any representation in connection with this Prospectus, which is not contained in this Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

It is important that investors read this Prospectus in its entirety and seek professional advice where necessary. The New Options offered by this Prospectus should be considered as highly speculative.

Applications for New Options offered pursuant to this Prospectus can only be submitted on an original Application Form.

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

No Investment Advice

The information contained in this Prospectus is not financial product advice or investment advice and does not take into account your financial or investment objectives, financial situation or particular needs (including financial or taxation issues). You should seek professional advice from your accountant, financial adviser, stockbroker, lawyer or other professional adviser before deciding to subscribe for Securities under this Prospectus to determine whether it meets your objectives, financial situation and needs.

Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important

factors, many of which are beyond the control of the Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

These forward-looking statements are subject to various risk factors that could cause our actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 4.

Applicants outside Australia

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any of these restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws. This Prospectus does not constitute an offer of Securities in any jurisdiction where, or to any person to whom, it would be unlawful to issue in this Prospectus.

Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the New Options.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 5.2 for further details.

Electronic Prospectus

A copy of this Prospectus can be downloaded from the website of the Company at www.redmountainmining.com.au. If you are accessing the electronic version of this Prospectus for the purpose

of making an investment in the Company, you must be an Australian resident and must only access this Prospectus from within Australia.

The Corporations Act prohibits any person passing onto another person an Application Form unless it is attached to a hard copy of this Prospectus or it accompanies the complete and unaltered version of this Prospectus. You may obtain a hard copy of this Prospectus free of charge by contacting the Company by phone on + 61 8 6559 1792 during office hours or by emailing the Company at info@redmountainmining.com.au.

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

Company Website

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of New Options issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

Photographs and Diagrams

Photographs used in this Prospectus which do not have descriptions are for illustration only and should not be

interpreted to mean that any person shown endorses the Prospectus or its contents or that the assets shown in them are owned by the Company. Diagrams used in this Prospectus are illustrative only and may not be drawn to scale.

Definitions and Time

Unless the contrary intention appears or the context otherwise requires, words and phrases contained in this Prospectus have the same meaning and interpretation as given in the Corporations Act and capitalised terms have the meaning given in the Glossary in Section 7.

All references to time in this Prospectus are references to Australian Western Standard Time.

Privacy statement

If you complete an Application Form, you will be providing personal information to the Company. The Company collects, holds and will use that information to assess your Application, service your needs as a Shareholder and to facilitate distribution payments and corporate communications to you as a Shareholder.

The information may also be used from time to time and disclosed to persons inspecting the register, including bidders for your securities in the context of takeovers, regulatory bodies including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the share registry.

You can access, correct and update the personal information that we hold about you. If you wish to do so, please contact the share registry at the relevant contact number set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the Application for New Options, the Company may not be able to accept or process your Application.

Enquiries

If you are in any doubt as to how to deal with any of the matters raised in this Prospectus, you should consult with your broker or legal, financial or other professional adviser without delay. Should you have any questions about the Offer or how to accept the Offer please call the Company Secretary on + 61 8 6559 1792.

1. DETAILS OF THE OFFER

1.1 Indicative Timetable

ACTION	DATE
Lodgement of Prospectus with the ASIC and ASX	Wednesday, 7 October 2026
Opening Date	Thursday, 8 October 2026
Closing Date*	Monday, 12 October 2026
Expected date for quotation of New Options issued under the Offer on ASX*	Monday, 12 October 2026

* The Directors reserve the right to bring forward or extend the Closing Date at any time after the Opening Date without notice. Quotation of the New Options is subject to the Company being able to satisfy ASX of the quotation requirements set out in Chapter 2 of the ASX Listing Rules. As such, the date the New Options are expected to commence trading on ASX may vary with any changes in the Closing Date.

1.2 The Offer

Pursuant to this Prospectus, the Company invites investors identified by the Directors to apply for up to 1,000 New Options at an issue price of \$0.05 per New Option, to raise up to \$50 (before expenses).

The Offer will only be extended and Application Forms will only be provided to specific parties on invitation from the Directors.

The full terms and conditions of the New Options to be offered under this Prospectus are set out in Section A 3.2. Subject to the Company being able to satisfy ASX of the requirements for quotation as per Chapter 2 of the Listing Rules, the New Options will form a new class of quoted securities of the Company.

1.3 Objective

The primary purpose of the Offer is to remove any trading restrictions that may have attached to Options in the same class as the New Options issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date (including prior to the date of this Prospectus) so that, following quotation of the New Options, any on-sale of New Options issued before the Closing Date does not breach section 707(3) of the Corporations Act.

Relevantly, section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and
- (b) either:
 - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

The New Options are not currently in a class of quoted securities. However, the Company will apply for quotation of the New Options (including Options on issue in the same class of the New Options) within 7 days following the date of this Prospectus and the issue of New Options under the Offer is conditional upon ASX granting Official Quotation to the New Options and Options on issue in the same class as the New Options.

1.4 Application for New Options

Applications for New Options must be made by investors at the direction of the Company and must be made using the Application Form accompanying this Prospectus.

Payment for the New Options must be made in full at the issue price of \$0.05 per New Option.

Completed Application Forms must be mailed or delivered to the address set out on the Application Form by no later than **5:00pm (WST) on the Closing Date**.

1.5 Minimum subscription

There is no minimum subscription under the Offer.

1.6 Oversubscriptions

No oversubscriptions will be accepted by the Company.

1.7 Underwriting

The Offer is not underwritten.

1.8 Issue of New Options

As noted in Section 1.3, the primary purpose of the Offer is to remove any trading restrictions that may have attached to Options in the same class as the New Options issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date of the Offer (including prior to the date of this Prospectus).

If the Directors decide to issue New Options under the Offer the issue of New Options under the Offer will be issued in accordance with the ASX Listing Rules and will take place as soon as practicable after the Closing Date.

Application moneys will be held in a separate subscription account until the New Options are issued. This account will be established and kept by the Company in trust for each Applicant. Any interest earned on the application moneys will be for the benefit of the Company and will be retained by the Company irrespective of whether any New Options are issued and each Applicant waives the right to claim any interest.

The Directors will determine the recipients of all the New Options. The Directors reserve the right to reject any application or to allocate any Applicant fewer New Options than the number applied for. Where the number of New Options issued is less than the number applied for, the surplus monies will be returned by cheque as soon as practicable after the Closing Date. Where no issue of New Options is made, the amount tendered on application will be returned in full by cheque as soon as practicable after the Closing Date. Interest will not be paid on monies refunded.

The Company's decision on the number of New Options to be allocated to an Applicant will be final.

Holding statements for New Options issued under this Prospectus will be mailed to the investors under the Offer.

1.9 ASX listing

Application for Official Quotation of the New Options offered pursuant to the Offer will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the New Options offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any New Options and will repay all Application monies for the New Options within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the New Options is not to be taken in any way as an indication of the merits of the Company or the New Options now offered for subscription.

1.10 Applicants outside Australia

The distribution of this Prospectus outside Australia may be restricted by law and therefore persons into whose possession this document comes should seek advice on and observe any such restrictions. Any failure to comply with these restrictions constitutes a violation of those laws.

The Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed should they wish to make an Application to take up New Options on the basis of this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

2. PURPOSE AND EFFECT OF THE OFFER

2.1 Purpose of the Offer

The purpose of the Offer is to remove any trading restrictions that may have attached to Options issued by the Company prior to the Closing Date (including prior to the date of this Prospectus). Refer to Section 1.3 of this Prospectus for further information.

Under the Offer, an amount of approximately \$50 (before expenses) may be raised. The funds raised from the Offer will be applied towards the expenses of the Offer. Refer to Section 5.8 of this Prospectus for further details relating to the estimated expenses of the Offer.

2.2 Effect on capital structure

The effect of the Offer on the capital structure of the Company is set out below.

Shares¹

	NUMBER
Shares currently on issue	1,109,354,965

Notes:

1. The rights and liabilities attaching to the Options are summarised in Section 3.2 of the Prospectus.

2.3 Financial effect of the Offer

After expenses of the Offer of approximately \$11,706, there will be no proceeds from the Offer. The expenses of the Offer (exceeding \$50) will be met from the Company's existing cash reserves.

As such, the Offer will have an effect on the Company's financial position, being receipt of funds of \$50 less costs of making the Offer of approximately \$11,706.

3. RIGHTS AND LIABILITIES ATTACHING TO SECURITIES

3.1 Rights and Liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to Shares on issue and which will be issued upon exercise of the Options offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares on issue and which will be issued upon exercise of the Options are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid Shares shall have such number of votes as bears the same proportion to the total of such shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any Shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Shares contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of Constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

3.2 Rights and Liabilities attaching to Options

(a) **Entitlement**

Each Option entitles the holder to subscribe for one Share upon exercise of the Option.

(b) **Exercise Price**

Subject to paragraph 3.2(i), the amount payable upon exercise of each Option will be \$0.05 (**Exercise Price**).

(c) **Expiry Date**

Each Option will expire at 5:00 pm (WST) on 31 December 2028 (**Expiry Date**). An Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(d) **Exercise Period**

The Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each Option being exercised in cleared funds (**Exercise Date**).

(g) **Timing of issue of Shares on exercise**

Within five Business Days after the Exercise Date, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Options.

If a notice delivered under (g)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(h) **Shares issued on exercise**

Shares issued on exercise of the Options rank equally with the then issued shares of the Company.

(i) **Change of control**

Upon:

- (i) a bona fide takeover bid under Chapter 6 of the Corporations Act having been made in respect of the Company and:
 - (A) having received acceptances for not less than 50.1% of the Company's Shares on issue; and
 - (B) having been declared unconditional by the bidder; or
- (ii) a court granting orders approving a compromise or arrangement for the purposes of or in connection with a scheme for reconstruction of

the Company or its amalgamation with any other company or companies,

then, to the extent Options have not been exercised into Shares due to satisfaction of the relevant Vesting Conditions, the Vesting Conditions will accelerate and the Options will become immediately exercisable. Such Options may be converted or exercised into Shares on a one-for-one basis, subject to payment of any applicable cash exercise price.

(j) **Reorganisation**

If there is a reorganisation of the issued share capital of the Company (including any subdivision, consolidation, reduction, return or cancellation of such issued capital of the Company), the rights of the holder will be changed to the extent necessary to comply with the ASX listing Rules applicable to a reorganisation of capital at the time of the reorganisation.

(k) **Participation in new issues**

There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options without exercising the Options.

(l) **Change in exercise price**

An Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Option can be exercised.

(m) **Transferability**

The Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

4. RISK FACTORS

4.1 Introduction

The New Options offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors to consider the risk factors set out in this Section 4, together with information contained in this Prospectus.

The future performance of the Company and the value of the New Options may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 4, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the New Options. This Section 4 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

4.2 Company specific

RISK CATEGORY	RISK
Additional requirements for capital	The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.
Going Concern	The Company's annual financial report for the year ended 30 June 2026 released on the ASX on 30 September 2026 (Financial Report) includes a note on the financial condition of the Company and its controlled entities (Group) and the existence of a material uncertainty about the Group's ability to continue as a going concern. The Group incurred a loss of \$4,848,129 for the year ended 30 June 2026 and had net cash outflows from operating and investing activities of \$2,414,333 and \$1,165,569 respectively. As at 30 June 2026, the Group had net current assets of \$1,643,185. The independent auditor's report on the Financial Report includes a paragraph drawing attention to this material uncertainty, although the auditor's opinion is not modified in respect of this matter. Notwithstanding the going concern note included in the Financial Report, the Directors believe that upon the successful completion of the Offer, the Company will have sufficient funds to adequately meet the Company's current exploration commitments and short term working capital requirements. However, it is highly likely that further funding will be required to meet the medium to long term working capital costs of the Company. In the event that the Offer is not completed successfully there is

RISK CATEGORY	RISK
	significant uncertainty as to whether the Company can continue as a going concern which is likely to have a material adverse effect on the Company's activities.
New projects and acquisitions and joint ventures	The Company will continue to actively pursue and assess, other new business opportunities particularly those in the resources sector. These new business opportunities may take the form of direct project acquisitions, joint ventures, farm-ins, acquisition of tenements/permits, or direct equity participation. If an acquisition is completed, the Directors will need to reassess, at that time, the funding allocated to current projects and new projects, which may result in the Company reallocating funds from other projects and/or the raising of additional capital (if available). Furthermore, any new project or business acquisition may change the risk profile of the Company, particularly if the new project is located in another jurisdiction, involves a new commodity and/or changes the Company's capital/funding requirements. Should the Company propose or complete the acquisition of a new project or business activity, investors should re-assess their investment in the Company in light of the new project/business activity.
Joint venture risk	The Company is currently and may in the future become a party to joint venture agreements governing the exploration and development of its projects. There is a risk that one of the Company's joint venture partners may default in their joint venture obligations or not act in the best interests of the joint venture. This may have an adverse effect on the interests and prospects of the Company. There can be no certainty that the parties will be able to settle the formal documentation in respect thereof. Failure to settle the terms of the formal documentation may result in termination of the joint venture and/or a potential dispute resolution process.
Climate Risk	There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include: (a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and (b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity

RISK CATEGORY	RISK
	of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.
Related Party Risk	The Company has a number of key contractual relationships with related parties. If these relationships breakdown and the related party agreements are terminated, there is a risk that the Company may not be able to find a satisfactory replacement. Further, the operations of the Company will require involvement of related parties and other third parties including suppliers, manufacturers and customers. With respect to these persons and despite applying best practice in terms of pre-contracting due diligence, the Company is unable to completely avoid the risk of: (a) financial failure or default by a participant in any agreement to which the Company may become a party; and/or (b) insolvency, default on performance or delivery by any operators, contractors or service providers. There is also a risk that where the Company has engaged a contractor who is a related party, the contract between the contractor and the Company may terminate for reasons outside of the control of the Company. This may then result in the termination of the contract between the Company and the contractor and the impact the Company's position, performance and reputation.

4.3 Industry specific

RISK CATEGORY	RISK
Commodity price volatility	Should the Company enter production, substantially all of the Company's revenues and cash flows will be derived from the sale of antimony and copper and gold concentrates. Therefore, the financial performance of the Company would be exposed to fluctuations in the price of these commodities. Historically, the price of these commodities has fluctuated widely and has experienced periods of significant decline. The price of these commodities is affected by numerous factors and events that are beyond the control of the Company. These factors and events include general economic activity, world demand, forward selling activity as well as general global economic conditions and political trends.
Mining risk	Mining is subject to inherent risks and is dependent upon a number of conditions beyond the control of the Company that can affect the costs and production schedules at particular mines. These risks and conditions include, but are not limited to: (c) variations in geological conditions, such as the grade and thickness of the mineralisation and variations in rock and other natural materials overlying the mineral deposit; (d) mining, process and equipment or mechanical failures and unexpected maintenance problems; (e) adverse weather and natural disasters, such as heavy rains, flooding and other natural events affecting the

RISK CATEGORY	RISK
	operations, transportation or customers; (f) environmental hazards, such as subsidence and excess water ingress; (g) delays and difficulties in acquiring, maintaining or renewing necessary permits or mining rights; (h) availability of adequate skilled employees and other labor relations matters; (i) unexpected mine accidents, including rock-falls and explosions caused by natural gas or other explosive sources at our mine sites or fires caused by similar mining accidents; and (j) competition and/or conflicts with other natural resource extraction activities and production within our operating areas. These risks and conditions could result in damage to or the destruction of the Company mineral properties or production facilities, personal injury or death, environmental damage, delays in mining, monetary losses and legal liability. The Company's insurance coverage may not be available or sufficient to fully cover claims that may arise from these risks and conditions.

4.4 General risks

RISK CATEGORY	RISK
Economic	General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.
Market conditions	Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as: (k) general economic outlook; (l) introduction of tax reform or other new legislation; (m) interest rates and inflation rates; (n) changes in investor sentiment toward particular market sectors; (o) the demand for, and supply of, capital; and (p) terrorism or other hostilities. The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.
Litigation risks	The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations,

RISK CATEGORY	RISK
	financial performance and financial position. The Company and its subsidiaries are not currently engaged in any litigation.
Dividends	Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.
Taxation	The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally. To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for New Options under this Prospectus.
Reliance on key personnel	The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.
Economic conditions and other global or national issues	General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and states of emergency), natural disasters (including fires, earthquakes and floods), and quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, including the Company's exploration, development and production activities, as well as on its ability to fund those activities. General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.

4.5 Speculative investment

The risk factors described above, and other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the New Options.

Prospective investors should consider that an investment in the Company is highly speculative.

There is no guarantee that the New Options offered under this Prospectus will provide any return on capital, payment of dividends or increases in the market value of those New Options.

Before deciding whether to subscribe for New Options under this Prospectus you should read this Prospectus in its entirety and consider all factors, taking into account your objectives, financial situation and needs.

Remuneration

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process. The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$500,000 per annum.

A Director may be paid fees or other amounts (ie non-cash performance incentives such as Options, subject to any necessary Shareholder approval) as the other Directors determine where a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director. In addition, Directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors.

The following table shows the total annual remuneration paid to both executive and non-executive Directors as disclosed in the Company's Annual Report for the financial years ended 30 June 2025 and 30 June 2026 and proposed annual remuneration for the financial year ending 30 June 2027.
