

ASX RELEASE (ASX:AHE)

Change of Financial Year-end and Functional Currency

7 October 2026 - Adheris Health Limited ("Adheris Health" or the "Company") advises that it has changed its financial year end from 30 June to 31 December. This change aligns the Company's reporting period with its key customers, being US based pharmaceutical manufacturers, and in particular with their health program planning cycles. The Australian Securities and Investments Commission has been notified of this change.

The Company will report on a six-month transitional financial year from 1 July 2026 to 31 December 2026, with regular half year and full year reporting periods to follow, commencing on 1 January 2027.

Furthermore, since the sale of our ANZ business in July 2025, the majority of the Company's revenues and expenses are now denominated in US dollars. Accordingly, the Company has changed its functional currency from Australian dollars to US dollars, effective 1 July 2026.

As a result, starting with the Company's upcoming Appendix 4C lodgement, for the period ending 30 September 2026, financial information will be reported in US dollars, including comparative period information.

- ENDS -

This announcement has been authorised for release by the Board of Adheris Health Limited.
