About Euro Manganese

Euro Manganese Inc. (ASX and TSX-V: EMN) is a battery materials company developing the Chvaletice Manganese Project in the Czech Republic, Europe’s only near-term source of high-purity manganese, a critical ingredient in next-generation electric vehicles, energy storage batteries and defence applications.

The Chvaletice Manganese Project plans to reprocess historic mine tailings to produce high-purity electrolytic manganese metal (HPEMM), and high-purity manganese sulphate monohydrate (HPMSM), establishing a fully traceable, low-carbon supply chain within the European Union.

Euro Manganese is positioned to become Europe’s first domestic producer of high-purity manganese, meeting the rising demand for sustainable, strategic battery materials while advancing Europe’s clean-energy and supply-chain independence goals.

Euro Manganese is dual listed on the TSX-V and the ASX.
