

ASX Announcement

GT1 Strengthens Board with Ontario Permitting and Project Development Expertise

Green Technology Metals Limited (ASX: GT1) (GT1 or the Company) is pleased to announce the appointment of **Mr Ruben Wallin** as a Non-Executive Director, effective 13 October 2026. Mr Wallin's appointment strengthens the Board's Canadian permitting, environmental and stakeholder engagement expertise as GT1 advances the Seymour Lithium Project towards development.

Mr Wallin brings more than 30 years of mining industry experience, including senior roles with Placer Dome, De Beers Canada, Barrick, Osisko and Detour Gold. Most recently, as Vice President, Sustainability at Generation Mining, he played a significant role in securing environmental approvals for the Marathon Project in Ontario and ensuring environmental requirements associated with project financing were met. He has recently joined Mayfair Gold as Senior Vice President, Sustainability.

This experience is directly relevant to GT1's current priorities at Seymour, where completion of the environmental assessment process represents an important step towards securing the remaining development permits.

As a Non-Executive Director, Mr Wallin will contribute to Board oversight of permitting, environmental management and engagement with governments, Indigenous communities and other stakeholders. His appointment also adds Canadian project development experience to support the Company's broader Ontario portfolio.

Mr Wallin is a Professional Engineer (P.Eng.) and holds a Master of Engineering from the University of British Columbia and a Bachelor of Science in Engineering from Montana Tech of the University of Montana.

Managing Director, Cameron Henry commented:

"Ruben has worked through the approvals process for multiple major mining projects in Ontario and understands the environmental requirements that need to be addressed as a project moves towards financing and development. That experience is particularly relevant to Seymour at this stage. His appointment strengthens the Board's ability to oversee the work ahead and support management as we progress the remaining permits, feasibility study and project financing."

Mr Ruben Wallin commented:

"Seymour has reached an important stage in its development, with the environmental assessment process complete and further permitting work ahead. I look forward to bringing my Ontario project experience to the Board and supporting the team as it advances the project."

Proposed Performance Incentives

The Company intends to issue the following Performance Rights to Mr Wallin, subject to shareholder approval at the Company's Annual General Meeting in November 2026.

- 2,000,000, which will vest on the company achieving a 20-day Volume Weighted Average Price (**VWAP**) of at least \$0.04;
- 2,000,000, which will vest on the company achieving a 20-day VWAP of at least \$0.07; and
- 2,000,000, which will vest on the company achieving a 20-day VWAP of at least \$0.10.

This announcement was authorised for release by the Board of Directors.

About Us

Green Technology Metals (ASX: GT1) is a North America-focused lithium exploration and development business with a current global Mineral Resource estimate of 30.4Mt at 1.17% Li₂O, and 10.3Mt at 0.27% Rb₂O contained at Seymour.

Project	Tonnes (Mt)	Li ₂ O (%)	Ta ₂ O ₅ (ppm)	Rb ₂ O (%)
ROOT PROJECT¹				
<i>Root Bay Open pit</i>				
Indicated	5.8	1.28		
Inferred	0.1	0.73		
<i>Root Bay Underground</i>				
Indicated	4.2	1.37		
Inferred	5.5	1.24		
<i>McCombe</i>				
Inferred	4.5	1.01		
Root Total	20.1	1.24		
SEYMOUR PROJECT¹				
<i>North Aubry</i>				
Indicated	6.1	1.25	149	0.28
Inferred	2.1	0.8	108	0.25
<i>South Aubry</i>				
Inferred	2.0	0.6	91	
Seymour Total	10.3	1.07	129	0.27
COMBINED TOTAL	30.4	1.17		

The Company's main 100% owned Ontario lithium projects comprise high-grade, hard rock spodumene assets (Seymour, Root, Junior and Wisa) and lithium exploration claims located on highly prospective Archean Greenstone tenure in north-west Ontario, Canada. All sites are proximate to excellent existing infrastructure (including clean hydro power generation and transmission facilities), readily accessible by road, and with nearby rail delivering transport optionality. Targeted exploration across all three projects delivers outstanding potential to grow resources rapidly and substantially.

¹ For full details of the Seymour Mineral Resource estimate, see GT1 ASX release dated 21 November 2023, *Seymour Resource Confidence Increased-Amended*. For full details of the Root Mineral Resource estimate, see GT1 ASX release 18 October 2023, *Significant resource and confidence level increase at Root, Global Resource Inventory now at 24.5Mt*. For full details of the Rubidium resource update, see GT1:ASX release dated 24 July 2025, *Large High grade Rubidium resource identified at the Seymour project*. The Company confirms that it is not aware of any new information or data that materially affects the information in that release and that the material assumptions and technical parameters underpinning this estimate continue to apply and have not materially changed.

APPENDIX A: IMPORTANT NOTICES

Forward Looking Statements

Certain information in this document refers to the intentions of Green Technology Metals Limited (ASX: GT1), however these are not intended to be forecasts, forward looking statements or statements about the future matters for the purposes of the Corporations Act or any other applicable law. Statements regarding plans with respect to GT1's projects are forward looking statements and can generally be identified by the use of words such as 'project', 'foresee', 'plan', 'expect', 'aim', 'intend', 'anticipate', 'believe', 'estimate', 'may', 'should', 'will' or similar expressions. There can be no assurance that the GT1's plans for its projects will proceed as expected and there can be no assurance of future events which are subject to risk, uncertainties and other actions that may cause GT1's actual results, performance or achievements to differ from those referred to in this document. While the information contained in this document has been prepared in good faith, there can be given no assurance or guarantee that the occurrence of these events referred to in the document will occur as contemplated. Accordingly, to the maximum extent permitted by law, GT1 and any of its affiliates and their directors, officers, employees, agents and advisors disclaim any liability whether direct or indirect, express or limited, contractual, tortious, statutory or otherwise, in respect of, the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).
