

ASX Announcement

13 October 2026

BlinkLab to Present at Simons Foundation and ThinkEquity in New York City

Highlights

- **SFARI Workshop:** Managing Director and CEO Dr Henk-Jan Boele has been re-invited to participate in the Simons Foundation Autism Research Initiative workshop in New York City on 13–14 October 2026.
- **ThinkEquity Conference:** Dr Boele will present BlinkLab at the 2026 ThinkEquity Conference in New York City on 15 October 2026.

BlinkLab Limited (ASX:BB1) (“BlinkLab” or the “Company”), a digital healthcare company developing AI-powered diagnostic tools, is pleased to announce that Managing Director and CEO Dr Henk-Jan Boele will participate in the Simons Foundation Autism Research Initiative workshop and present at the 2026 ThinkEquity Conference in New York City.

SFARI Workshop in New York City

Dr Henk-Jan Boele has been re-invited to participate in the SFARI workshop series *Toward a Collaboration on Quantitative Behavioral Phenotyping in Autism from Video Footage*, taking place on 13–14 October 2026 at the Simons Foundation’s offices in New York City.

The workshop follows a January 2026 SFARI session, where Dr Boele presented BlinkLab’s smartphone-based technology and joined discussions on quantitative approaches to measuring motor and other observable behaviours in autism¹. The current series brings together autism researchers and experts in quantitative behaviour analysis to explore a potential multiyear collaborative effort in quantitative behavioural phenotyping.

SFARI is a major autism research initiative within the Simons Foundation, supporting more than 300 investigators worldwide.

About BlinkLab Limited

BlinkLab Limited was founded by neuroscientists at Princeton University and is developing a smartphone-based diagnostic platform for autism. Its most advanced product, BlinkLab Dx1, is an autism diagnostic aid for clinicians that leverages smartphones, artificial intelligence, and machine learning to capture objective, reflex-based measures, supporting earlier and more accurate autism identification. This enables timely intervention during critical periods of brain development. BlinkLab is led by an experienced management team and Board with deep expertise in digital healthcare, computer vision, and AI, supported by a Scientific Advisory Board of leading experts in autism and brain development.
