

Correction – Substantial holder disclosure

Thursday, 15 October 2026 – Robotic technology company **FBR Limited (ASX: FBR)** (“FBR” or “the Company”) advises that its 2026 Annual Report incorrectly omitted details of a substantial holder from the additional ASX information section on page 102. The corrected table is set out below.

The correction does not affect the Company’s financial statements, notes, Director’s Report or other disclosures contained in the 2026 Annual Report.

Name	Holding*	%*
Horsley Park Holdings Pty Ltd (and controlling entities)	14,633,539	9.23
M&G Plc (and its subsidiary companies)	13,910,366	8.77
The Prudential Assurance Company Limited (a subsidiary of M&G Plc)**	8,500,234	5.36

**Units based on latest substantial holder notice lodged with ASX and % based on issued capital each as at 25 September 2026.*

*** The M&G Plc holding includes the holding of The Prudential Assurance Company Limited but each are disclosed in the table because separate substantial holder notices have been lodged for these holdings.*

The Company has issued additional shares since 25 September 2026 which would (in the absence of any other changes) reduce the % held, with changes of 1 percentage point or more requiring the holder to lodge an updated substantial holder notice.

This announcement has been authorised for release to the ASX by the Executive Director/Chief Executive Officer.

About FBR Limited

FBR Limited (ASX: FBR; OTC: FBRKF) designs, develops and builds dynamically stabilised robots to address global needs in a safer, more efficient and more sustainable way. These robots are designed to work outdoors using the company’s core Dynamic Stabilisation Technology® (DST®).

Applications of DST® include Hadrian®, Mantis™ and Firehawk™. Hadrian® is a bricklaying robot that builds structural walls faster, safer, more accurately and with less wastage than traditional manual methods. Hadrian® provides Wall as a Service®, FBR’s unique commercial offering, to builders on demand. Hadrian® robots are also available for purchase by order. Mantis™ is a high deposition welding robot for the large-scale metal fabrication industries such as mining, shipbuilding and defence manufacture. Firehawk™ is an autonomous refractory lining robot that removes human labour from the process of lining ladles used in steel production with refractory bricks.
