

Appointment of Chief Financial Officer

Dotz Nano Limited (ASX:DTZ, Dotz or the Company) an advanced technology company developing, manufacturing and commercialising innovative solutions addressing global environmental and industrial challenges, utilising its carbon-based nanotechnologies, has appointed Mr Eran Nachlieli as Chief Financial Officer, effective 1 November 2026. Mr Nachlieli succeeds Ms Liat Bar Ziv Alperovitz, who has served as Chief Financial Officer since March 2023.

Mr Nachlieli brings more than 17 years of financial management experience supporting Israeli-based technology companies as they scale internationally. Most recently, Eran has served as a CFO to Israeli companies with overseas operations. Eran is a Certified Public Accountant (CPA) and holds a Master of Business Administration (MBA).

Dotz Chair Bernie Brookes said: “We are delighted to welcome Eran to Dotz. His experience in financial planning, cross-border operations and investor reporting will be valuable as the Company focuses on commercialising its technologies and executing its growth strategy.”

“On behalf of the Board, I would also like to thank Liat for her significant contribution to Dotz over the past three and a half years. Liat is working with Eran to ensure a smooth handover, and she departs with the Board’s appreciation for a job well done. We wish her well in her future endeavours.”

-ENDS-

This announcement has been authorised for release by the Board of Dotz Nano Limited.

About Dotz Nano Limited

Dotz Nano Limited (ASX: DTZ, OTC: DTZZF/DTZNY) is a technology leader driving innovation in material science and nanotechnologies, addressing some of the world’s toughest industrial and environmental challenges. The Company designs, develops, and deploys customised nanomaterial-based solutions, with a focus on advancing next-generation sorbent materials engineered for Direct Air Capture and Point Source CO₂ Mitigation, making carbon capture and removal economically viable. Through Dotz Energy, the Company also provides shared-savings energy efficiency solutions for thermally intensive buildings, partnering with hotel operators, commercial buildings and industrial facilities on ESCO (Energy Service Company) models.
