About Aura Energy (ASX: AEE, AIM: AURA)

Aura Energy Limited (ASX:AEE, AIM:AURA) is an Australian-based company focused on the development of uranium and battery metals to support a cleaner energy future. Aura is advancing two key projects:

- **Tiris Uranium Project, Mauritania** – A fully permitted, near-term development asset with a potential long mine life. Aura plans to transition from a uranium explorer to a uranium producer to capitalise on the rapidly growing demand for nuclear power as the world shifts towards a decarbonised energy sector.
- **Häggån Polymetallic Project, Sweden** – A globally significant deposit containing vanadium, sulphate of potash, and uranium with potential long-term value.

Aura is committed to creating value for host nations, local communities, and shareholders through responsible and sustainable resource development.
