About Yari Resources

Yari Resources Limited (ASX: YAR) is building a significant coal position in Queensland's Bowen Basin through its Rolleston South and Arcadia coal projects, as part of a district-scale consolidation strategy.

The Rolleston South Coal Project contains a total JORC²⁰¹² Coal Resource of 222.9Mt, comprising 33.7Mt Indicated and 189.2Mt Inferred Resources. Recent coal-quality testwork has highlighted the potential for low-ash export thermal, PCI and semi-soft coking coal products.

Yari has completed the acquisition of the Arcadia Coal Project, which hosts a JORC (2012) Coal Resource of 282.0Mt, comprising 164.0Mt Indicated and 118.0Mt Inferred Resources, and significantly expands the Company's coal position in the broader Rolleston district.

Together, the projects provide Yari with exposure to a combined 504.9Mt of separately reported Coal Resources (197.7Mt Indicated and 307.2Mt Inferred) in an established Queensland coal district, in proximity to existing road, rail and export infrastructure.

Yari also holds a 100% interest in its Pilbara Projects, comprising two granted exploration licences in Western Australia.
