

First Zeus Orders Secured and Three Dealers Appointed

FIRST ORDERS:

- Orders received for the first Nine (9) Zeus Vans following official launch late last month.
- A material order value with the Zeus range priced between A\$70K and \$100K, depending on specifications.

FIRST DEALER NETWORKS SECURED WITH LIKELY EXPANSION:

- First three dealers appointed in New South Wales, Queensland and Western Australia.
- Pure is targeting signing up 10 dealer groups by mid-2027 to support broader market coverage and customer access.

DRIVE DAY EXPERIENCE BRISBANE:

- Port of Brisbane Drive Day Experience will be held on October 28th; prospective customers and interested investors are welcome to register to attend.

Sydney, 21 October 2026: Australian clean technology company Pure One Corporation Limited (ASX: P1E) ("Pure One" or "the Company") is pleased to announce the first customer orders for the Zeus electric van with orders received for the first nine (9) vehicles as well as the appointment of three dealer groups in Australia.

With pricing ranging from approximately \$70,000 to \$100,000 per vehicle, the orders represent pleasing maiden gross revenue from the Zeus series (*range pictured with specifications below*) which is positioned to provide businesses with a range of electric commercial vehicle options at competitive price points.

The initial orders represent an encouraging early response to the launch late last month of the Zeus range and establishes a positive foundation and clear validation for the Company to now aggressively expand its electric commercial vehicle sales across Australia.

Based on the Company's well established supply chain and the fact that the Zeus range has been entered on the Australian Vehicle Type Approval (VTA), the first nine vans are expected to be delivered to customers by early 2027.

Three Dealers Appointed in Key Australian Markets

Pure is also pleased to confirm that it has signed agreements with the first three dealers as it pushes to establish a national distribution network for the Zeus electric van range. The newly appointed dealers are:

- South Pacific Machinery Pty Limited – Brisbane, Queensland.
- United Auto NSW Pty Limited – Sydney, New South Wales.
- Carmart Perth Pty Limited – Perth, Western Australia.

The appointments establish an initial dealer presence across three major Australian markets and represent an important step in Pure One's strategy to build out a national sales and distribution network for its electric commercial vehicles. With these initial dealerships secured, the Company is progressing towards its objective of appointing 10 dealers by mid-2027. Discussions with new dealer groups are advancing and positive.

Comment

Pure One Managing Director Scott Brown said: "Securing our first sales so soon after the Zeus launch is a pleasing commercial milestone that validates our entry into the Australian electric vehicle market. By appointing our first three dealers with more to come, we are progressively establishing the essential channels to materially scale our sales nationally. With a highly competitive product range and a large addressable market in urban logistics and commercial transport, we are well-positioned to convert growing interest into a sustainable sales pipeline."

"The Zeus range offers several configurations to meet different commercial requirements, from the high-payload Zeus Max to the 12-seat Zeus Pulse Max. Importantly, these vehicles can be operated on a standard car licence, providing additional flexibility for businesses considering the transition to electric commercial vehicles.

"We look forward to welcoming fleet operators, customers and interested investors to our upcoming Brisbane Drive Day, where they will have the opportunity to experience our vehicles firsthand."

Strong Interest Across the Zeus Range

The Company is experiencing strong interest in its four different versions of the Zeus electric van, which have been developed to address a range of commercial transport and urban logistics requirements.

To support the growing interest, Pure One is arranging a second demonstration and test-drive day in Brisbane, providing prospective customers and fleet operators with an opportunity to experience the Zeus vehicles firsthand.

Pricing across the Zeus range is between A\$70,000 and A\$100,000, depending on the vehicle variant and configuration.

For dealers and fleet operators, this also provides greater flexibility in vehicle demonstrations, driver allocation and day-to-day fleet operations, while reducing the need for specialised driver licensing arrangements.

Brisbane EV Drive Day on 28 October 2026

Following the recent launch of the Zeus range, Pure One will host its next EV Drive Day in Brisbane on Wednesday, 28 October 2026.

The event will provide fleet operators, prospective customers and interested investors with an

opportunity to experience Pure One's electric vehicles and engage directly with the Company.

Event details

Date: Wednesday, 28 October 2026

Time: 11:30am – 2:30pm (Brisbane time)

Location: Multi User Terminal, 1 Seafarers Street, Port of Brisbane, Queensland

The Brisbane event forms part of Pure One's ongoing efforts to introduce its commercial electric vehicle range to Australian businesses and fleet operators.

Investors interested in attending the Brisbane Drive Day are invited to register their interest by emailing investor@pure1corp.com.

Outlook

The initial orders and appointment of three dealers following the recent launch in Australia represent positive early progress in Pure One's commercialisation strategy for the Zeus electric van range.

The Company will continue to focus on converting customer interest into sales, expanding its dealer network and increasing market awareness of its electric commercial vehicle offerings.

Pure One believes that the combination of an expanding dealer network, a four-model Zeus range and competitive pricing provides a platform to pursue opportunities in Australia's growing commercial electric vehicle market.

The advertisement features a dark blue background with the Pure One logo in the top left. The main title 'Zeus Electric Vans' is in large white font, followed by the tagline 'High capacity vans for every business.' and the subtext 'Drive today on a car licence.' Below this, four white electric vans are displayed in two rows. The top row shows the Zeus Pulse Max and Zeus Max Cargo monster. The bottom row shows the Zeus Nimble city deliverer and Zeus Pulse Passenger carrier. Each van is labeled with its name, description, and range.

This announcement has been authorised by the Managing Director of Pure One, Mr Scott Brown

About Pure One Corporation Limited

Pure One Corporation Limited (ASX: P1E) is a clean technology company focused on delivering zero-emission mobility and energy solutions. Building on its legacy in hydrogen technologies, Pure One has expanded into battery-electric vehicles and battery-swap solutions, creating commercial and sustainable value for customers across Australia and beyond.

The Company continues to support hydrogen fuel as a domestically sourced clean energy option while offering innovative multi-technology solutions that enable commercial fleets to transition to zero-emission operations.

Concurrently, the Company is developing natural gas projects in Australia through Eastern Gas Corporation Limited (ASX: EGA) and indirectly in Botswana through its strategic investment in Botla

Energy (ASX: BTE), a Botswana-focused energy company listed on the ASX.

Strategically, Pure One will also prioritise incubation for early-stage companies or projects within the clean energy sector, with the aim of realising profits from those investments. For further information, see www.pure1corp.com.

Forward-Looking Statements

This announcement may contain 'forward looking statements' concerning the financial conditions, results of operations and business of the Company. All statements other than statements of fact are or may be deemed to be 'forward looking statements'. Often, but not always, 'forward looking statements' can be identified by the use of forward looking words such as 'may', 'will', 'expect', 'intend', 'plan', 'estimate', 'anticipate', 'continue', 'outlook', and 'guidance' or other similar words, and may include, without limitation, statements regarding plans, strategies and objectives of management, future or anticipated production or construction commencement date and expected costs, resources and reserves, exploration results or production outputs. Forward looking statements are statements of future expectations that are based on management's current expectations and assumptions, but known and unknown risks and uncertainties could cause the actual results, performance or events to differ materially from those expressed or implied in these statements. These risks include, but are not limited to, price fluctuations, actual demand, currency fluctuations, drilling and production results, resource and reserve estimates, loss of market, industry competition, environmental risks, physical risks, legislative, fiscal and regulatory developments, economic and financial market conditions in various countries and regions, political risks, project delay or advancement, approvals and cost estimates.
