

Proposed Name Change to *IG6 Advanced Materials Limited*

The Board of International Graphite Limited (**ASX: IG6**) is pleased to announce it has resolved to change the company name to ***IG6 Advanced Materials Limited***.

Chairman Phil Hearse said “The change marks the evolution of IG6 into a global, mid and downstream processing business focussed on specialised graphite and derivative finished products”.

“The Collie Micronising Facility, in Western Australia, and planned joint venture operations with Alkeemia S.p.A, in Italy, will give us a foothold in growing advanced materials and battery markets in Asia, Europe and North America that are seeking secure and localised supply.”

“Our processing first strategy will provide a pathway to market for the future development of the Springdale graphite resource in Western Australia.”

The name change aligns with the Company’s ASX ticker ‘IG6’ strengthening the brand equity and market recognition associated with it.

Annual General Meeting – Invitation to Shareholders

Shareholder approval for the name change will be sought at the 2026 AGM to be held on 23 November 2026. The AGM will be held at 11.00am (WST) at the Collie R&D and Qualification Plant.

Shareholders and guests attending the meeting will have the opportunity to tour the plant and inspect construction progress on the new Collie Micronising Facility.

Shareholders wishing to attend should register their interest with **Marie Howarth – mhowarth@ig6.com.au** by Wednesday 18 November 2026.

Authorised for release by the Board of International Graphite Limited.

About IG6

International Graphite Limited (ASX: IG6, FWB: H99) is establishing mid-stream graphite processing operations in Australia and Europe to supply advanced industrial graphite products for established markets seeking secure and reliable alternatives to traditional supply chains. Through the Collie Micronising Facility in Western Australia and the Alkeemia / IG6 Joint Venture at Porto Marghera, Italy, the Company is developing a capital-efficient graphite processing platform, supported by proven technologies and industry partnerships. The platform is designed to serve growing demand from industrial, energy storage, advanced manufacturing and defence applications. IG6 also owns the globally significant Springdale Graphite Project in Western Australia, providing long-term feedstock optionality for future scaling of process operations. Strong support from the Australian and Western Australian Governments reflects IG6's significance to national critical minerals capability and regional economic diversification.

Forward-looking statements

Certain statements in this announcement relate to the future, including forward-looking statements relating to the Company and its business. Forward-looking statements include, but are not limited to, statements concerning International Graphite Limited planned business activities and other statements that are not historical facts. When used in this document, the words such as "could", "plan", "estimate", "expect", "intend", "may", "potential", "should", and similar expressions are forward looking statements.

These forward-looking statements involve known and unknown risks, uncertainties, assumptions, and other important factors that could cause the actual results, performance or achievements of the Company to be materially different from future results, performance or achievements expressed or implied by such statements. Actual events or results may differ materially from the events or results expressed or implied in any forward-looking statement and deviations are both normal and to be expected. Neither the Company, its officers nor any other person gives any representation, assurance or guarantee that the events or other matters expressed or implied in any forward-looking statements will actually occur. You are cautioned not to place undue reliance on those statements.
