SKS Clarifies NEXTDC Exposure and Reaffirms FY27 Guidance

SKS Technologies Group Limited (ASX: SKS) ("**SKS**" or the "**Company**") reaffirms its FY27 guidance of approximately $500 million in revenue and $60 million in before-tax profit, following recent public commentary and enquiries about its exposure to NEXTDC and its M3 Melbourne data centre project.

Given the business has substantially completed its contracted works at the M3 project, SKS also confirms that the NEXTDC matters will not have any material impact on SKS Technologies Group.

SKS has no other material contracted works currently with NEXTDC and no future NEXTDC projects included in its communicated project pipeline. Accordingly, the NEXTDC matters will not have a material impact on SKS's operations, financial performance or outlook.

The Board remains confident in the company's continuing potential for growth and in its current and future operational performance, given there is no material change to business since the full-year results announcement in August, and looks forward to updating the market at its forthcoming Annual General Meeting on 26 November 2026.
