ASX Release

Worley and SAMSUNG E&A to partner on major projects in the USA

Worley Limited (ASX: WOR) ("Worley") and SAMSUNG E&A have signed a Master Framework Agreement ("MFA") to partner on selected projects across the United States energy and industrial markets.

The MFA brings together Worley's established Gulf Coast presence, engineering, procurement and construction ("EPC") project delivery capabilities and deep customer relationships with SAMSUNG E&A's global EPC, supply chain and modularization capabilities.

"This agreement strengthens our ability to compete for major energy and industrial projects in the USA," said Chris Ashton, Worley CEO. "Combining our project development and delivery capabilities with SAMSUNG E&A's disciplined execution model positions us well to pursue selected opportunities together, helping customers address project risks earlier and move toward investment decisions with greater confidence."

Through the MFA, Worley and SAMSUNG E&A are working to identify and advance priority opportunities.

Authorized for release by Nuala O'Leary, Group Company Secretary.
