About Centuria

UNLISTED: 1 MCNAB AVENUE, FOOTSCRAY VIC

Centuria Capital Group (ASX:CNI) is a leading Australasian fund manager included in the S&P/ASX 200 index, established in 1998.

We manage a range of investment products including listed funds, unlisted funds and real estate credit funds. While we hold co-investments in many of our funds, we operate with an external or discrete management model. Additionally, Centuria is invested in AI-enabled products and infrastructure and distributes tax-effective investment bonds.

As at 30 June 2026, CNI's platform totalled $22.2 billion[1] of assets under management (AUM), of which 96% comprises real estate funds across industrial, office, large format retail, daily needs retail, agriculture, healthcare and real estate finance sectors within Australia and New Zealand.

The Group's Property Funds Management and Property Investments platform totals $18.6 billion, comprising $6.0 billion listed and $12.6 billion unlisted. No single property or unlisted fund represents more than 3% of total AUM. This platform accommodates more than 2,500 tenant customers including many high-quality government, listed and multinational tenants.

Centuria's Property Development and Finance, provided through our Centuria Bass Credit business, has a $2.6 billion diversified loan book consisting of 52 funds and SPVs, and 77 loan tranches. At 30 June 2026, the loan book comprised construction (38%), bridge (37%), residual stock (23%) and subdivision and civil (2%), spanning a range of facility types. CBC's facilities comprise 94%[2] of first mortgage security, a gross average LVR of 67%[2] and 93%[2] residential exposure.

AI Infrastructure and Data Centres are an emerging platform within the business. Structural demand rising from AI adoption, along with prevailing supply constraints due to limited power-ready sites, means Centuria is well-positioned to unlock value in this transforming market.

Through a 50% investment in ResetData, the Group has delivered Australia's first sovereign AI Factory and is progressing its power pipeline and deployment of AI infrastructure while pathways for customer commitments are activated. ResetData is an Australian Nvidia AI cloud partner (neocloud). This is an important position that reflects the capability the team has built and the progress already made.

Centuria's operations are supported by a large Australasian team across eight offices in three countries with a significant proportion of our workforce focused on the full spectrum of management – from in-house facility managers and asset managers to fund managers and corporate personnel – all dedicated to the formation, management and governance of real estate funds and trusts. This results in specifically curated funds and assets, designed to optimise securityholder returns.

Our vision

A leading Australasian funds manager.

Our people are leaders in their field throughout Australia, New Zealand and the Philippines.

We leverage our geographic diversity, our in-depth market knowledge in favoured sectors and our access to capital to grow funds under management while retaining a strong focus on earnings growth.

1. All figures above are in Australian dollars (currency exchange ratio of AU$1.000:NZ$1.2166 as at 30 June 2026). AUM includes assets exchanged to be settled, cash and other assets and the impact of revaluations during the period.
2. Aggregated by funds, syndicated deals and warehouse facility managed by Centuria Bass Credit and is not representative of any single fund or offering.

Centuria's values and capabilities

Our purpose

We seek to transform real estate opportunities into compelling investments, which can create sustainable long term value for our investors and bring benefits to the communities in which we operate.

Since Centuria was established in 1998, our company culture has evolved to meet the changing dynamics of the marketplace and the complexity of operating throughout Australia, New Zealand and the Philippines. Our values and capabilities are reflective of Centuria's Code of Conduct and imply how each Centurian strives to effectively engage with company stakeholders.

Our core values are the essence of our identity – the principles, beliefs and philosophy of our brand.

Our values and capabilities support our vision and shape our culture to create a sense of belonging. We prioritise strong and lasting relationships within our business and with our investors, tenants and partners. Centuria mobilises to seize opportunities, aiming to make well informed decisions and be transparently accountable.

UNLISTED: TWO WELLS GLASSHOUSE SA

Values

1

We value honesty, transparency and respectfulness

As Centurians, we take pride in how we develop strong and lasting relationships within our business and with our investors, tenants and partners. We do this in how we communicate with, support, and respect one another.

2

We work and thrive as an integrated and agile team

At Centuria, we are bigger than the individual parts. We embrace diversity and collaborate with colleagues and partners to achieve success.

3

We support each other to grow

We seek opportunities to encourage employees' development and support collective growth. We reward and celebrate success and like to promote from within.

4

We do what it takes

We love challenges and finding unique ways to solve problems. We have a focus on growth and acting ethically in the best interests of our stakeholders.

Capabilities

1

Transparent cooperation

Transparent cooperation means our teams strive to be accountable and responsible, creating autonomy without politics. We value honest communication and one another's opinions, aiming to build trust and enable stronger collaboration with our stakeholders.

2

Transactional velocity

Transactional velocity means the speed that we do business. We encourage our people to seize opportunities and make prompt yet considered decisions in alignment with our values and purpose. What takes some others months to transact, may take us only days.

3

Thorough process

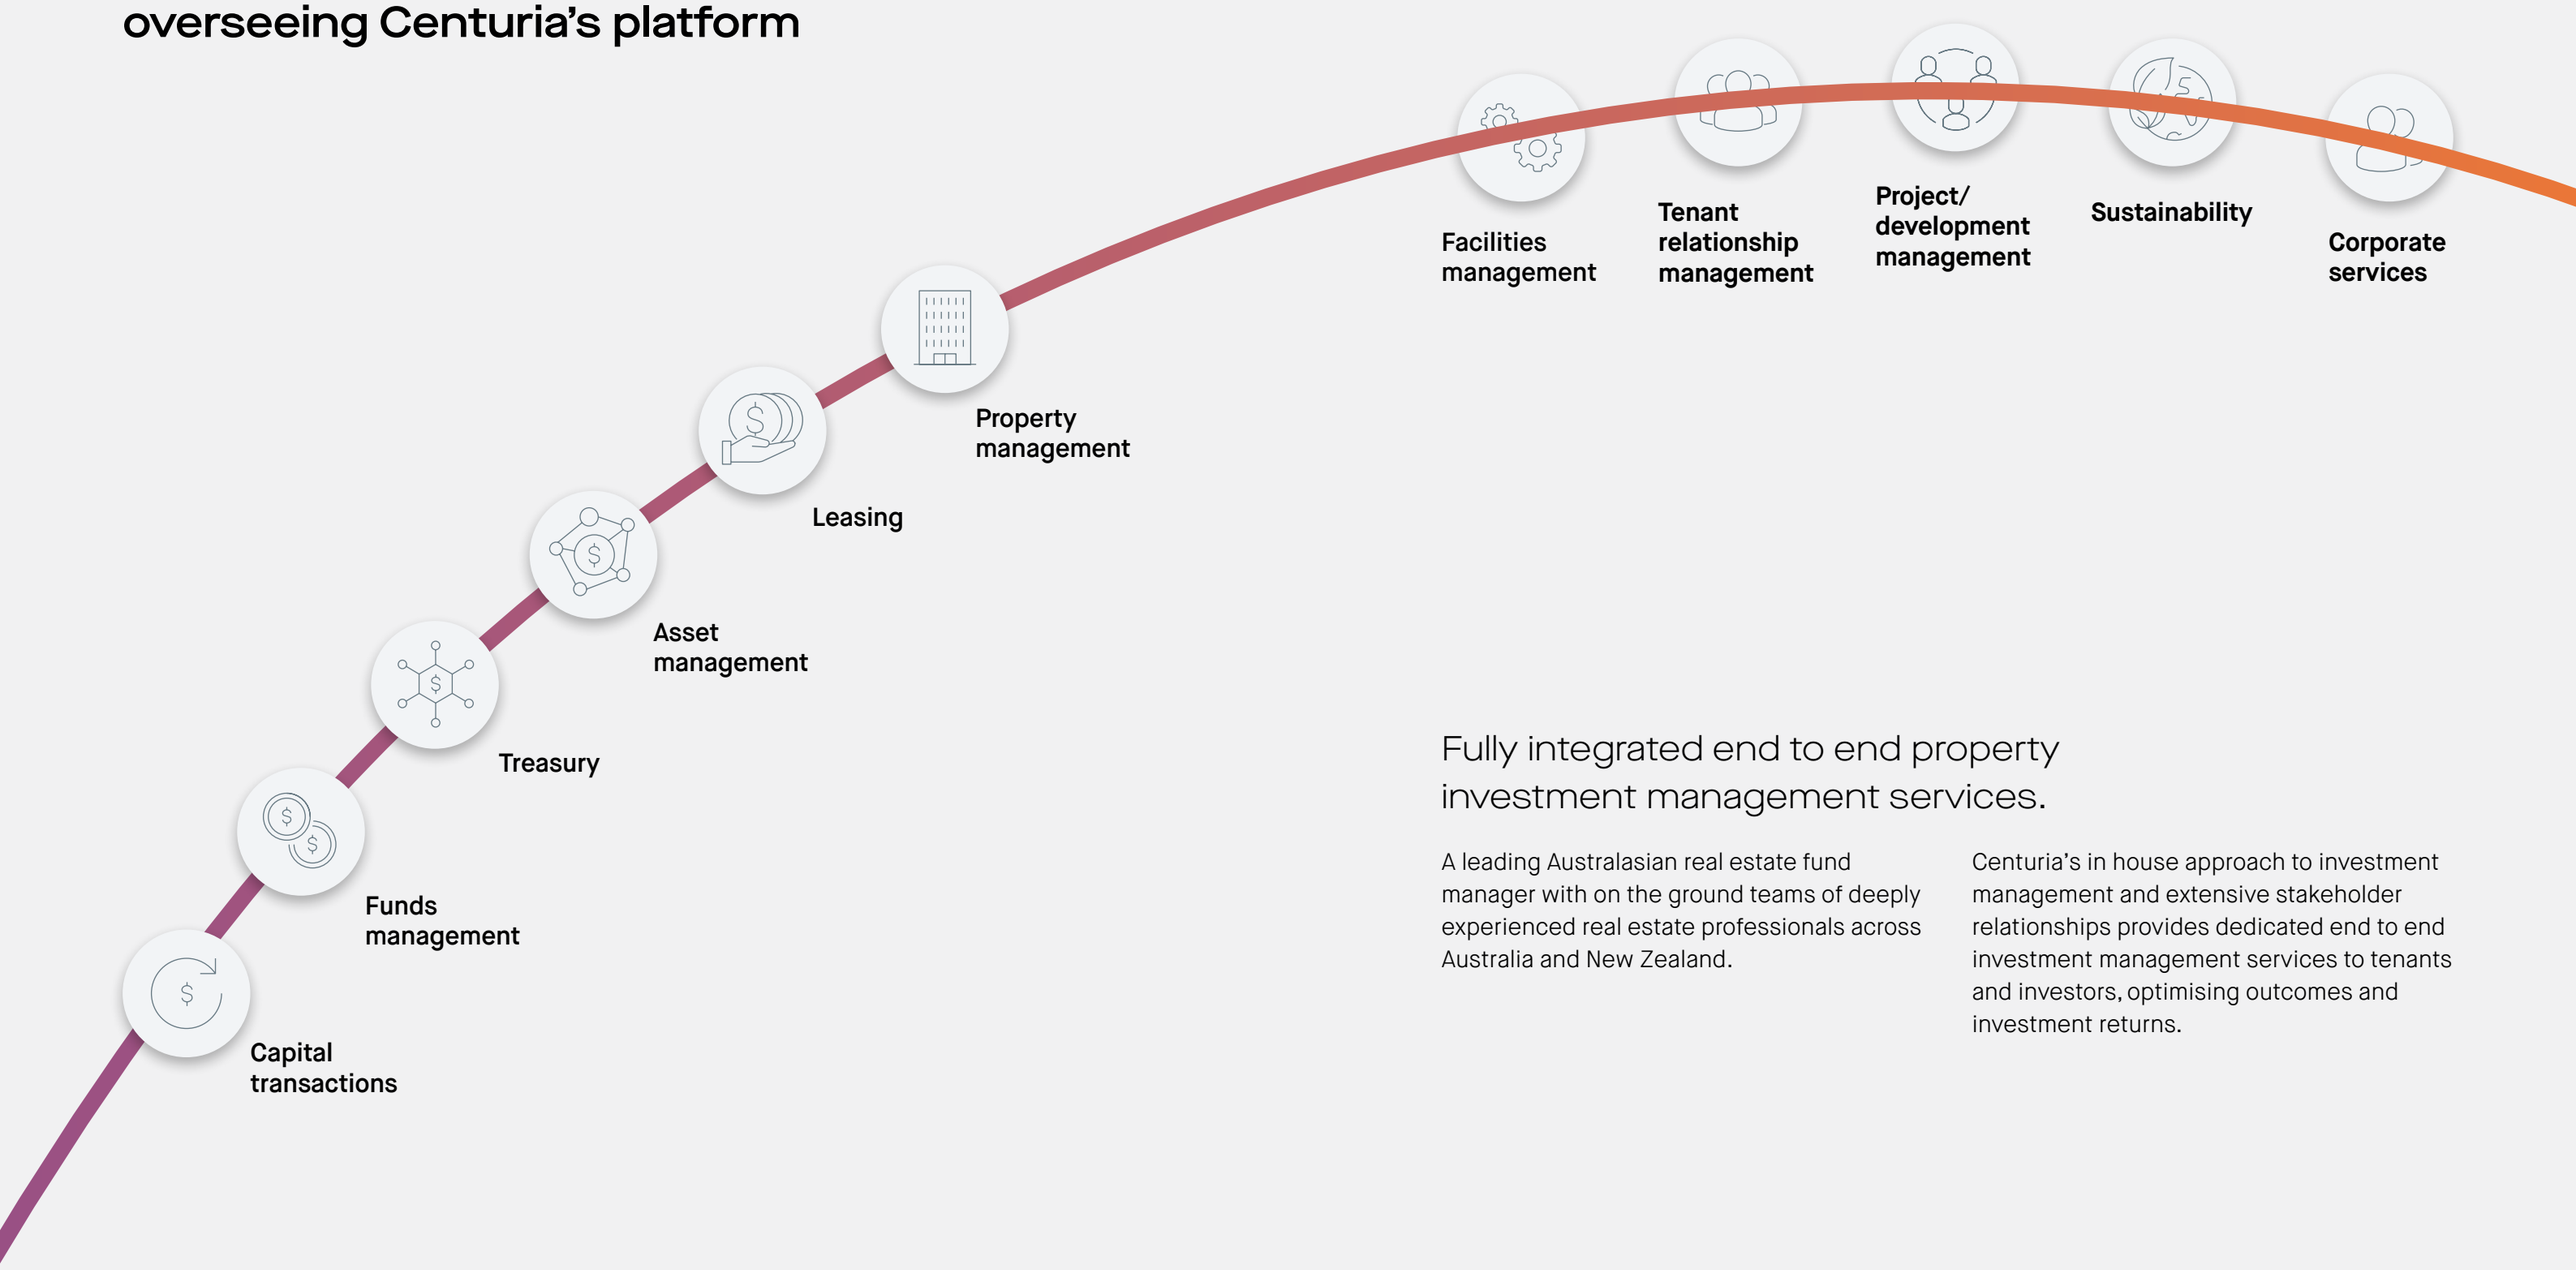

Our processes result in thorough analysis. Our experienced team is knowledgeable in identifying and analysing risks and opportunities, which helps us make more informed decisions.

4

Personal interaction

At Centuria, it's personal. We endeavour for all Centurians to be well cared for. As a client, we look after your interests as if they were our own. We create a sense of belonging and build relationships through the way we treat and work with one another.

~30 years of real estate funds management experience overseeing Centuria's platform

Fully integrated end to end property investment management services.

A leading Australasian real estate fund manager with on the ground teams of deeply experienced real estate professionals across Australia and New Zealand.

Centuria's in house approach to investment management and extensive stakeholder relationships provides dedicated end to end investment management services to tenants and investors, optimising outcomes and investment returns.

Centuria is a differentiated funds manager positioned for growth, matching capital with real estate, credit and emerging AI infrastructure opportunities.

Dedicated AI infrastructure capability across engineering, deployment, operations and customer enablement.

Partner ecosystem
NVIDIA-aligned platform

Off-the-shelf NVIDIA architecture, partner validation and ecosystem support provide a repeatable deployment base.

Infrastructure pathway
250 MW+ potential capacity

Power and site pathways assembled to move beyond AIF1 toward larger AI Factory deployments.

RESETDATA

Chairman's letter

Kristie Brown

CHAIRMAN

It is my pleasure to present Centuria Capital Group's Annual Report for the year ended 30 June 2026.

FY26 was a year of real momentum. The Group grew earnings ahead of guidance, secured $1.2 billion of acquisitions[1], raised $300 million of new equity and moved to full ownership of Centuria Bass. It is also a year that will be remembered for a change in leadership and I want to begin there.

Leadership transition

In August, the Board announced that Jason Huljich will become sole Group Chief Executive Officer from the close of our AGM on 27 November 2026. Jason's appointment has the complete confidence of the Board and we are genuinely excited about the next phase of Centuria's growth under his leadership. Having built Centuria alongside John for many years, he knows every part of the business, has strong relationships across the market and has a clear vision for where we take the Group next.

Jason's appointment follows John McBain's decision to step down as Joint CEO on the same date. John's vision is at the heart of Centuria. He was a pioneer of real estate securitisation in Australia through Century Funds Management, the genesis of what is now Centuria, and has led the Group since 2008. Under his leadership, Centuria has grown from a small team with a handful of investors into an ASX-listed company overseeing over $22 billion[2] of assets under management. That is a rare achievement and it owes a great deal to John's tenacity, judgement and the integrity he has brought to the business and the industry. On behalf of the Board, I sincerely thank John. We are very pleased he will remain on our board as a Non-Executive Director. That continuity is a real asset.

The Joint CEO structure was put in place in 2019 as part of the Group's long-term succession planning and this transition is the planned next step. Our strategy is unchanged, our leadership team remains firmly in place and the opportunities ahead are significant. The Board continues to review its composition to ensure it has the skills, experience and independence the Group's next phase requires.

1. Includes $702 m of acquisitions exchanged and settled in FY26 and $521 m acquisitions exchanged yet to be settled.
2. Assets under management (AUM) as at 30 June 2026. All figures above are in Australian dollars (currency exchange ratio of AU$1.000:NZ$1.2166 as at 30 June 2026). AUM includes assets exchanged to be settled, cash and other assets and the impact of revaluations during the period.

Operating environment

Last year, I noted that easing monetary policy pointed to a more constructive year for real estate. That proved only partly right. Transaction activity did improve, but inflation proved stubborn, interest rates rose again in 2026 and growth remained subdued in both Australia and New Zealand. The Federal Budget's changes to negative gearing and capital gains tax created uncertainty for property investors and conflict in the Middle East added volatility.

Against that backdrop, Centuria still delivered. Operating net profit after tax rose 12.8% and operating earnings per security rose 11.5%, ahead of original guidance. Distributions for the year totalled 10.4 cents per security and assets under management reached a record $22.2 billion[1]. These are excellent results and a credit to the exceptional work of our people across the business and the resilience of our diversified platform. Our Joint CEOs cover the operating results in more detail in their letter.

Governance and remuneration oversight

Last year, I reported that the Board and the Nomination and Remuneration Committee had redesigned the Group's executive remuneration framework and FY26 was its first year in operation. The new framework sharpens the link between securityholder returns and executive reward, while holding management to account on the non-financial disciplines that protect long-term value. The Board is pleased with how the framework has been implemented in its first year and will continue to monitor it closely as it matures. The outcomes are set out in the Remuneration Report.

As Centuria extends beyond its traditional funds management base, the Board's oversight has to keep pace. Centuria operates in a regulated environment. All of our businesses are regulated by ASIC and parts of the Group, including Centuria Life, are also regulated by APRA. That regulation shapes how we govern the whole Group, not just the entities it applies to directly. Across every business, including Centuria Bass, we apply a rigorous governance framework, supported by a structured set of policies, procedures and Board committees. The Board is comfortable that this framework is robust and working as it should.

Centuria Bass Credit, now wholly owned, grew its assets under management to $2.6 billion. Its framework covers credit assessment, underwriting, portfolio and covenant monitoring, impairment assessment and active loan management. Private credit is attracting increasing regulatory and media attention across the market and Centuria Bass received some press during the year. Centuria welcomes closer scrutiny of private credit and the stronger protection it brings to investors across the sector, just as we do across the real estate, investment bond and other investment products we offer to the public. The Board has confidence in the Centuria Bass credit funds, in the business and in its sensible, disciplined growth through this period of heightened regulation.

Strategic progress and capital management

In June, we completed a fully underwritten $300 million equity raising. It was strongly supported and I thank all securityholders who participated. Operating balance sheet gearing was 5.1%[1] at 30 June 2026 (FY25: 12.3%), and since year end part of the proceeds have been used to repay approximately $221 million of floating rate notes.

The balance sheet is now positioned to do what we need it to do - seed and warehouse new opportunities, support growth across ResetData and our real estate equity and credit platforms and preserve flexibility as capital is deployed. The real estate platform continued to scale, with our first Sydney CBD office acquisition in a decade, record leasing of 729,000 sqm and the addition of the Arrow Funds Management platform.

Technology and innovation

Last year, I described our investment in ResetData as a defining step in Centuria's evolution. This year, it moved from strategy to execution. ResetData has secured a major data centre partnership, the financing to support its next phase of GPU deployment and the long-term power capacity to underpin its future growth. Revenue from these new deployments is on track to begin in the second half of this financial year.

This is a new sector for Centuria, with a different risk profile - technology, customer contracting and capital intensity among them. The Board oversees it with that in mind, including the parent company guarantees that support its growth.

Within Centuria, we are building on last year's Microsoft Copilot rollout with a single, governed AI foundation in our existing Microsoft environment and encouraging our people to use approved tools in their everyday work. Where individuals and teams find strong ideas, our aim is to scale them across the Group. Some of this will come quickly, some will take longer, and we will be deliberate about it.

Culture, leadership and people

Our people are the reason this business performs. Our FY26 employee engagement score of 81% is well above both the Australian real estate benchmark and comparable Australian companies. Pleasingly, more than 90% of our team are proud to work at Centuria and would recommend it as a great place to work.

The leadership transition has put succession planning at the centre of the Board's agenda this year and we will continue to invest in the depth of leadership below the executive team.

1. Gearing ratio is calculated based on (operating borrowings less operating cash), divided by (operating total assets less operating cash less the net of investment properties, non-recourse loans, interest rate swaps and variance in market value to proportionate net assets).

Sustainability and responsibility

This was a milestone year for sustainability at Centuria. We executed a renewable energy procurement agreement across our portfolio - the largest of its type to be executed to date in Australia - which is a major step towards our renewable electricity targets. It is a large, complex project and I congratulate the team who brought it together. We also developed an electrification roadmap for the remaining non-electrified COF assets and implemented a new platform to capture and track environmental data across the portfolio.

Our A-REITs again participated in GRESB and our social procurement and community contributions continued to grow. Our FY26 voluntary climate-related disclosures will be released in October and the Board is overseeing the Group's preparation for mandatory climate reporting in Australia, which applies from FY27.

Outlook

We enter FY27 with a stronger balance sheet, record assets under management and clear priorities - disciplined deployment of capital, integration of recent acquisitions and bringing revenue from ResetData's new deployments online. Conditions remain challenging and we are not relying on them to improve. Our focus is on executing well on the opportunities already in front of us.

Thank you

On behalf of the Board, I thank our Joint CEOs, John and Jason, for their leadership, and our management team and people across Australia, New Zealand and the Philippines for their hard work through a demanding year. I also thank my fellow Directors for their wise counsel and support in what has been a consequential year for Centuria.

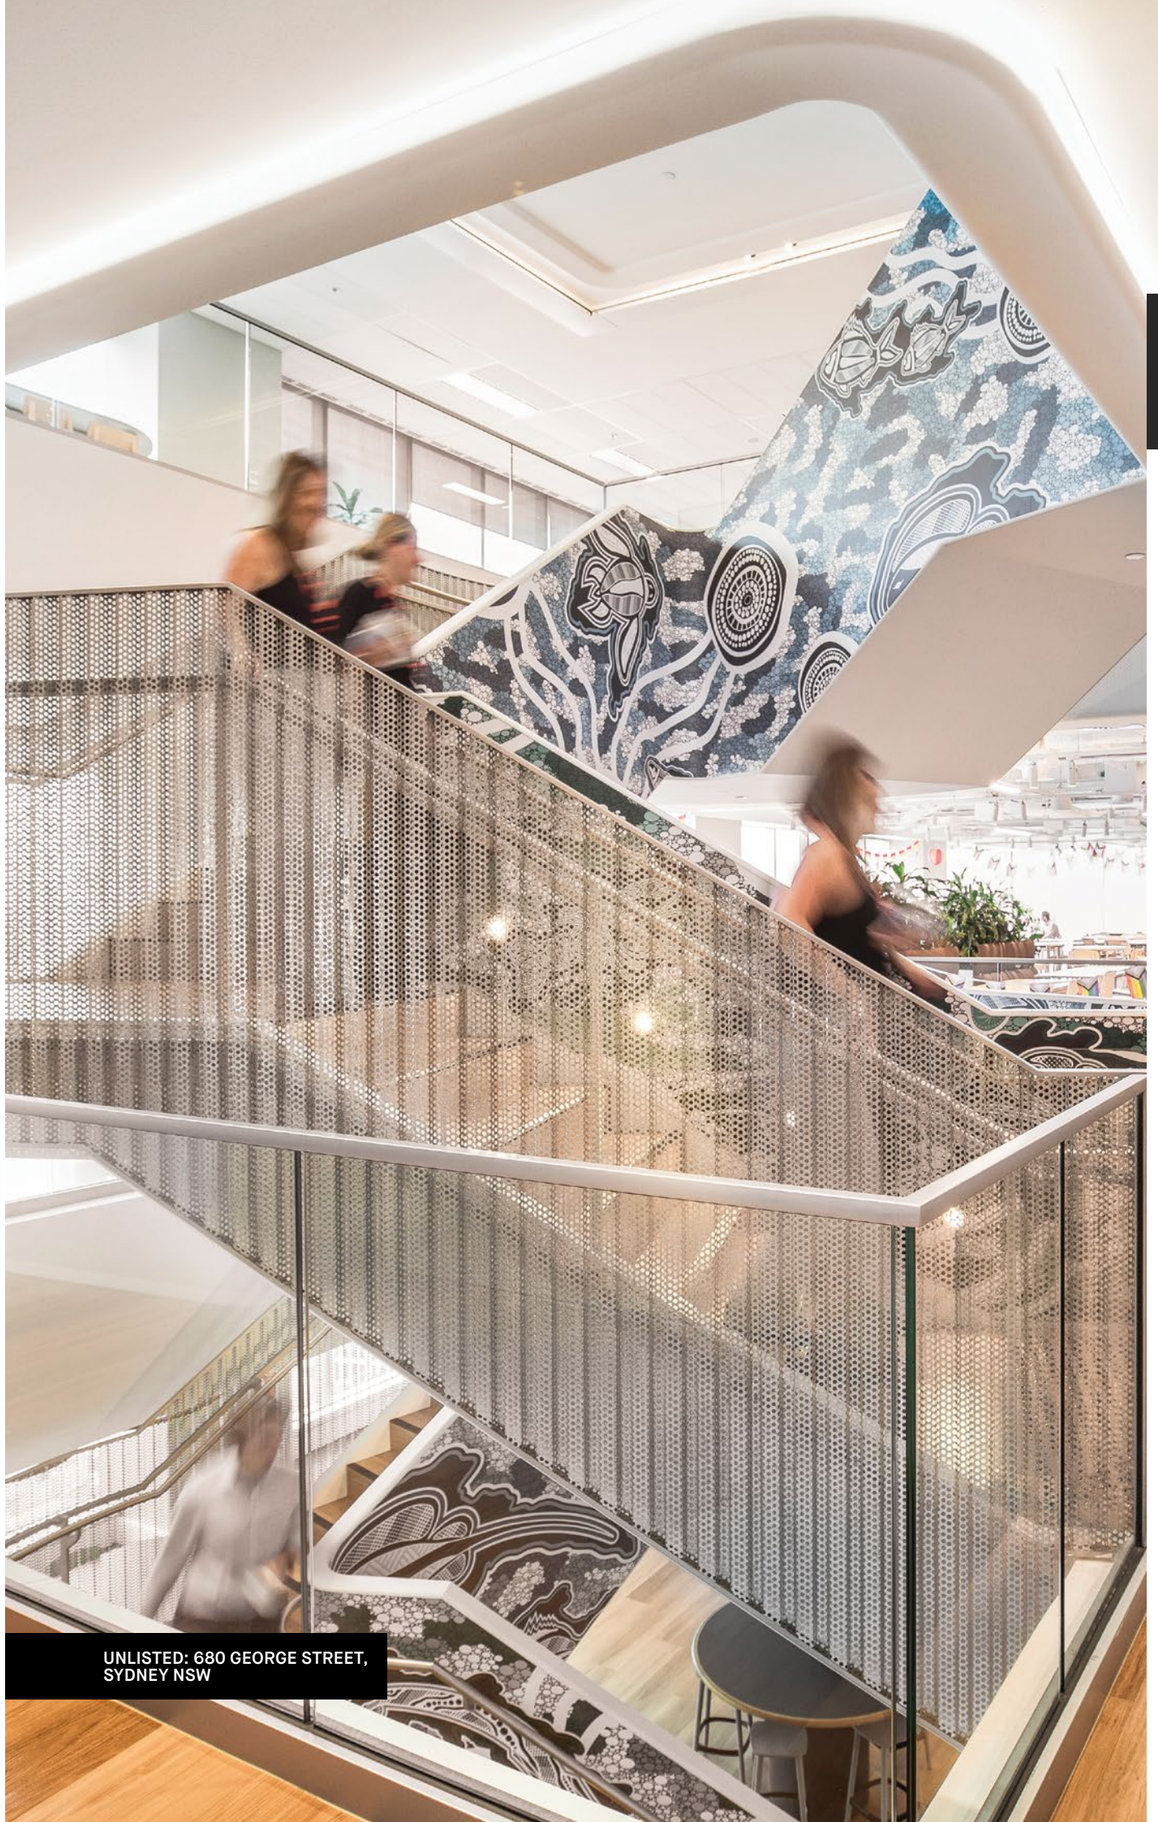

Above all, I thank you, our securityholders, for your continued trust. I look forward to seeing many of you at our AGM on 27 November 2026.

Yours faithfully,

Kristie Brown

CHAIRMAN

Joint CEOs' letter

John McBain

JOINT CEO

Jason Huljich

JOINT CEO

Dear Securityholders,

We are pleased to provide an overview of Centuria Capital Group's activities for the financial year ended 30 June 2026. During the period, we set in place a number of initiatives which we believe will pave a pathway to future earnings growth and recurring revenue streams throughout FY27, FY28 and beyond.

FY26 performance was underpinned by the Group's increased real estate activity across traditional and alternative markets with a strong focus on large scale real estate assets and robust capital management. What differentiates Centuria is its combination of capital, origination, asset management and operating capability within one platform. Our real estate and credit businesses generate recurring earnings today and provide a cashflow base to pursue new opportunities.

The Group oversees over $22 billion[1] of assets under management in real estate equity, real estate credit and investment bonds, across its funds management platform now complemented by new revenue opportunities forming from AI infrastructure. Our recurring management fees provide a stable and scalable fee base and, as an external manager, it is this scalability that provides growth potential.

During the period, Centuria grew its Operating Net Profit After Tax[2] (ONPAT) to $113.8 million (FY25: $100.8 million), which resulted in FY26 operating earnings per security[3] (OEPS) of 13.6 cents, 11.5% above FY25. Distributions per security of 10.4 cents were declared. Statutory NPAT attributable to CNI securityholders of $56.5 million[4] represents statutory EPS of 6.7cps[4].

Operating EBITDA grew to $182.5 million, supported by 26% period on period growth in the Group's core Property Funds Management to $74.8 million (FY25: $59.6 million). Asset recycling initiatives and new acquisitions to seed funds resulted in proportionately consolidated property investment earnings of $92.2 million.

During the second half of FY26, Centuria secured an additional $300 million of liquidity through a fully underwritten equity raise. This fresh equity provides flexibility to accelerate AI infrastructure growth, neocloud capability and to underpin the focus on larger acquisitions within the property funds division.

1. Assets under management (AUM) as at 30 June 2026. All figures above are in Australian dollars (currency exchange ratio of AU$1.000:NZ$1.2166 as at 30 June 2026). AUM includes assets exchanged to be settled, cash and other assets and the impact of revaluations during the period.
2. Operating NPAT of the Group comprises of the results of all operating segments and excludes non-operating items such as transaction costs, fair value movements in derivatives and investments, the results of Benefit Funds, Controlled Property Funds, Centuria Bass Credit SPVs, share of equity accounted net profit in excess of distributions received and all other non-operating activities.
3. Operating EPS is calculated based on the Operating NPAT of the Group divided by the weighted average number of securities. Weighted average number of securities at 30 June 2026: 837,445,861 (30 June 2025: 829,218,277).
4. Includes fair value movements in derivatives and investments.

As at 30 June 2026, Centuria retained cash and undrawn debt totalling $445 million with balance sheet gearing at 5.1%[1]. Net Asset Value[2] (NAV) of $1.76 per security was recorded.

AI infrastructure and data centres

The ResetData team now has more than 30 specialists across engineering, deployment, operations and customer enablement, together with NVIDIA-aligned architecture and a repeatable deployment model. After balance date, a new $165 million senior bridge GPU financing facility[3] was secured with Macquarie Bank to accelerate ResetData's AI Factory pipeline, progress customer onboarding and secure near-term GPU deployment.

ResetData has signed a Master Services Agreement with CDC Data Centres, commencing with an initial allocation of 7 MW. GPUs have been ordered for a portion of the initial CDC deployment. Revenue from the initial order is anticipated to commence in the second half of FY27, with the ability to expand deployment and revenue as customer demand converts into contracted capacity. Discussions are ongoing with leading third-party data centre operators regarding additional power capacity for deployment.

In parallel, we are progressing data centre capacity within the Centuria portfolio, including 72 MW of power generation units that were secured for delivery in 2028 with multi-site optionality within our identified 250 MW+ pipeline, bringing forward deployment timelines. Fast-tracking this long-lead-time infrastructure, together with the potential to accelerate a further 30 MW of power capacity, brings forward deployment timelines by approximately two years. The focus is on matching capacity deployment with customer demand and funding.

Real estate funds management

As at 30 June 2026, Centuria's real estate funds under management increased to $18.6 billion (FY25: $17.4 billion), comprising $6.0 billion in listed funds and $12.6 billion in unlisted funds. Centuria has continued to scale its real estate platform with a focus on sizeable trophy assets. Total acquisitions of $1.2 billion[4] exceeded our FY26 target while demonstrating the Group's ability to match investor preferences with value-add opportunities.

Notably, the Group launched Australia's largest single asset industrial fund ($216 million), acquired Australia's largest hydroponic glasshouse ($168 million) and secured its first Sydney CBD office asset in ten years to seed our largest single asset fund to date ($454 million). These acquisitions were complemented by securing the Arrow Primary Infrastructure Fund management rights, which added an additional $444 million AUM, strengthening the diversification and capability of our platform.

The underlying portfolio remains diversified across 102 funds and 392 properties, with an average occupancy of 95% and a weighted average lease expiry of 5.5 years. This scale matters because it supports recurring fee income, operating leverage and a broad origination network across different sectors and capital sources.

A total of $0.4 billion in gross unlisted real estate capital was raised from a growing distribution network of more than 15,500 private investors and increasing commitments from institutional investors representing global capital. A record 729,000 sqm of lease terms were agreed across 18% of total NLA during the period. Positive like-for-like revaluation movements generated approximately $200 million of uplift across the real estate platform.

Property development and finance

The Group's real estate private credit business, Centuria Bass Capital, increased its assets under management to $2.6 billion (FY25: $2.3 billion) throughout FY26. It executed $2.9 billion of total loan activity including $1.6 billion of loan originations and restructures, and $1.3 billion of repayment, restructure and exit activity. Approximately $0.2 billion of gross unlisted capital was raised.

At 30 June 2026, the diversified loan book included commitments across construction (38%), bridge (37%) and residual stock (23%) spanning a range of facility types. The loan book includes a 94% exposure to first mortgage securities[5,6], a gross average LVR of 67%[5,7] and a 93% residential exposure. Centuria Bass' growth opportunity remains significant and will continue to be driven by underwriting discipline rather than a market-share target.

1. Gearing ratio is calculated based on (operating borrowings less operating cash), divided by (operating total assets less operating cash less the net of investment properties, non-recourse loans, interest rate swaps and variance in market value to proportionate net assets).
2. Net asset value is based on net assets attributable to CNI securityholders. Number of securities on issue 30 June 2026: 984,061,961(at 30 June 2025: 830,091,925).
3. Centuria Capital may provide contingent parent company guarantee support in connection with the Macquarie GPU bridge financing facility, subject to customer contracting, senior debt refinancing and facility conditions.
4. Includes $702 m of acquisitions exchanged and settled in FY26 and $521 m of acquisitions exchanged yet to be settled.
5. Aggregated by funds, syndicated deals and warehouse facility managed by Centuria Bass Credit and is not representative of any single fund or offering.
6. Loans secured by first ranking mortgages are calculated in respect of deployed funds and does not consider cash holdings.
7. The weighted LVR reflects all active loans as at 30 June 2026 using origination / CBC board approved LVRs. CBC Board-approved LVRs are based on the maximum approved loan amount, including all capitalised interest and fees over the life of the facility, relative to an independent valuation.

ESG and leadership

During the period, Centuria continued to progress its Environmental, Social and Governance framework across Australia and New Zealand. We continue to target zero scope 2 emissions by 2035, with CIP and COF targeting 2028[1], and our corporate offices sourced the equivalent of 100% renewable electricity[2]. These environmental initiatives form part of the Group's wider governance, risk and investment processes with executive incentives linked to ESG outcomes.

Our social contribution also continued to grow, with the team hosting c. 500 tenant events and initiatives across our office, industrial, retail and healthcare assets. Our social procurement with Two Good increased to over $100,000 – this is a social enterprise that supports, empowers and employs women affected by homelessness, domestic violence and complex trauma through meaningful employment. The Group also contributed c. $280,000 to certified social enterprises[3], community groups and charities during the period.

One of the elements that makes Centuria so unique is that it is a founder-led business and continues to be so. Following the Group's Annual General Meeting in late November, John will step back from executive duties, however, will continue to serve as a Non-Executive Director on the Centuria Capital Board and other subsidiary boards and committees.

Jason has been appointed ongoing sole Group Chief Executive Officer. Together, we have worked and built Centuria together over the past 30 years and Jason has a deep understanding of all Group activities as well as strong credibility with both our people and the market. This board-led transition is focused on continuity. The Group's strategy remains unchanged, the opportunities ahead remain the same, and the leadership team remains firmly in place to executive on those priorities.

Outlook and execution

We enter FY27 with a significantly stronger balance sheet, record assets under management and identified growth opportunities across both our real estate platform and AI infrastructure business. Our priority now is disciplined deployment of capital and delivery against the opportunities already in front of us.

Across real estate, we are focused on growing earnings through larger acquisitions, new fund opportunities and active asset management. Across ResetData, FY27 remains a year of deployment, customer progression and capacity build-out as we execute on the foundations established over recent years.

FY27 guidance

Importantly, the underlying momentum of the business remains strong. Operating EBIT is expected to increase by around 20% in FY27, while operating profit after tax is expected to increase by approximately 14% to $130 million. We are also guiding to operating earnings of 13.0 cents per security and distributions of 10.4 cents per security.

We believe the actions we are taking today position the business well beyond FY27. As capital is deployed, acquisitions are integrated and growth initiatives mature, we expect the benefits of today's investment to increasingly emerge through FY28 and FY29.

On behalf of the Board and management team, we thank our team across Australia, New Zealand, and the Philippines for their dedication and performance throughout a dynamic year. We also extend our gratitude to our securityholders for your continued support.

We look forward to updating you on our progress in the year ahead.

John McBain

Our Sustainability Framework

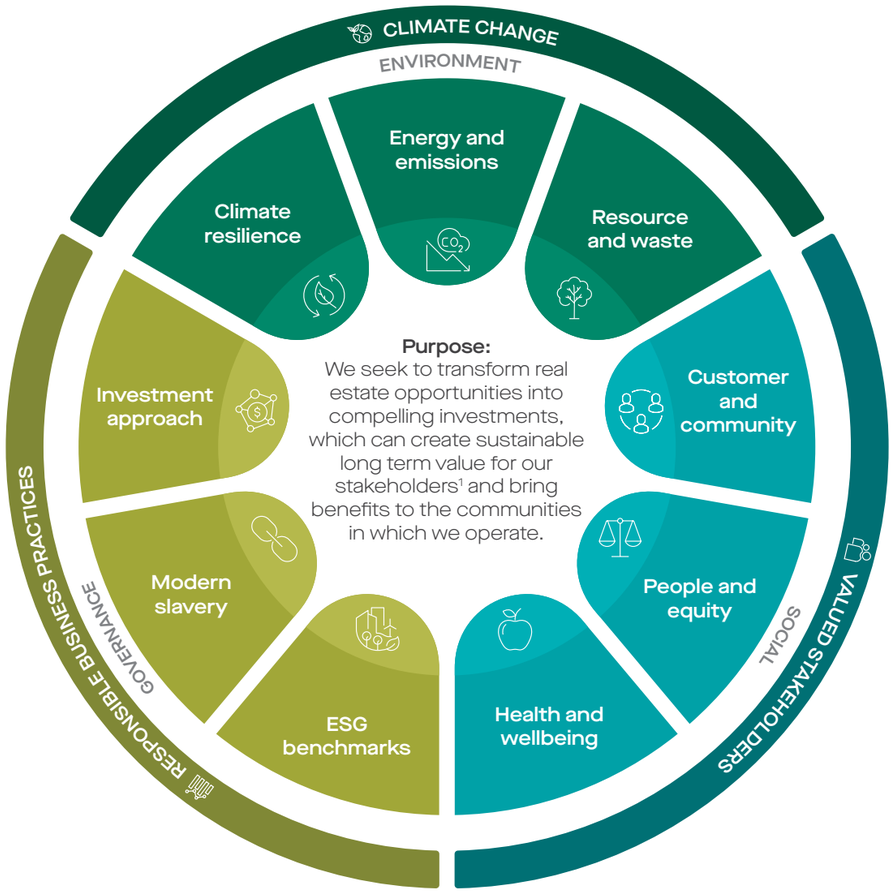

At Centuria, we are seeking to optimise the environmental, social and governance (ESG) implications of our operations and how we can effectively respond to these going forward.

Our approach to ESG is defined by Centuria's Sustainability Framework, a framework that outlines our ESG focus areas and helps to guide our related initiatives. These include climate change-related initiatives, which are addressed through the 'climate change' sustainability pillar.

Centuria's revised Sustainability Framework (revised in 2024) helps to drive the interaction and interdependence between Centuria's purpose, sources of value and business ESG strategy, while seeking to consider the interests of key stakeholders, as we understand them.

It comprises three pillars, the first of which is our focus in this report:

- Environment: Climate change
- Social: Valued stakeholders
- Governance: Responsible business practices

1. In the context of Centuria's purpose statement, Centuria Capital Group defines stakeholders as our investors, our tenant customers, our colleagues and our lending partners.

We have developed the Centuria Sustainability Framework to help us better understand the ESG impacts of our activities and to assist in driving improvements in those impacts through our ESG strategy.

	Climate change	**Valued stakeholders**	**Responsible business practices**
Objective	Environmental outcomes that can help to mitigate climate-related risks and opportunities.	Create shared value with our stakeholders.	Maintain honest, transparent and respectful business practices.
Overview	Increasing severity in weather patterns could have the potential to impact both Centuria's business and the communities in which we operate. In response, we are striving to build strategic resilience into our operations to reduce the impact of future potential climate-related risks, both physical and transitional, in assets we manage.	For the purpose of the valued stakeholders pillar, we define valued stakeholders as customers, tenants, investors, suppliers, government, industry bodies, employees and communities in which we operate. As an asset and funds manager, we are working to understand how we can create shared value with these groups for our mutual benefit.	Centuria seeks to achieve honest, transparent and responsible business practices by investing in both our processes and people. By integrating ESG measures into our governance framework – including our Sustainability Framework – we aim to continue building an ethical and collaborative culture.
Focus areas	**Climate resilience** Build strategic resilience to potential future impacts of climate change. **Energy and emissions** Monitor and reduce energy consumption and GHG emissions in line with Centuria's targets. **Resources and waste** Manage natural resources and minimise waste.	**Customer and community** Engage our customers and community to create shared value. **People and equity** Focus on promoting growth for our people and encourage diversity, equity and inclusion. **Health and wellbeing** Prioritise the health and wellbeing of our staff and customers.	**Investment approach** Embedding ESG considerations into our asset acquisition processes. **Modern slavery** Seek to minimise modern slavery in our supply chain. **ESG benchmarks** Where appropriate, assess assets and portfolios against relevant ESG benchmarks and explore third party sustainability certifications such as Green Star.
Alignment to UN SDGs	7 AFFORDABLE AND CLEAN ENERGY 11 SUSTAINABLE CITIES AND COMMUNITIES 12 RESPONSIBLE CONSUMPTION AND PRODUCTION 13 CLIMATE ACTION	3 GOOD HEALTH AND WELL-BEING 4 QUALITY EDUCATION 5 GENDER EQUALITY 10 REDUCED INEQUALITIES 16 PEACE, JUSTICE AND STRONG INSTITUTIONS 17 PARTNERSHIPS FOR THE GOALS	8 DECENT WORK AND ECONOMIC GROWTH 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE 11 SUSTAINABLE CITIES AND COMMUNITIES 12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Centuria's activities and progress across all three pillars of the Sustainability Framework in both New Zealand and Australia are detailed in **Centuria's Annual Sustainability Report**.

FY26 ESG highlights

UNLISTED: 80 FLINDERS STREET, ADELAIDE SA

Climate change (Environment)

Centuria is targeting zero scope 2 emissions by 2035, with CIP and COF targeting 2028[1].

Our corporate offices sourced the equivalent of 100% renewable electricity[2].

Centuria and COF are targeting the elimination of gas and diesel in operations where practicable by 2035[5].

51% of the total COF portfolio is electrified, including 100% of Qld assets.

Valued Stakeholders (Social)

c. $280 k contributed to certified social enterprises[3], community groups and charities.

92% of employees are proud to work at Centuria.

50% female representation on CNI Board, including the Chair.

Responsible Business Practices (Governance)

2026 GRESB[4] participation for CIP and COF.

2,000+ compliance courses completed by Centuria staff.

New environmental data capture and tracking platform and supplier onboarding platforms implemented.

Released the FY25 Sustainability Report and voluntary Climate-Related Disclosures, with the FY26 versions of these reports targeted for release in Q2 FY27.

1. Centuria, CIP and COF will account for zero scope 2 GHG emissions by being powered by the equivalent of 100% renewable electricity through a combination of onsite solar and large-scale generation certificate deals which match our consumption. The zero scope 2 target applies to scope 2 emissions for existing assets that fall under the operational control of CNI, CIP and COF.
2. Achieved through the purchase of GreenPower and large scale generation certificate deals which match our consumption.
3. Includes $40,000 indirect spend with Two Good Co.
4. Global Real Estate Sustainability Benchmark (GRESB).
5. Centuria and COF will focus on eliminating gas and diesel where practicable, from equipment owned and operated by Centuria and COF. Gas and diesel equipment owned and operated by our tenants is excluded from Centuria's emission reduction target.
6. CIP is a Supporting Partner of Healthy Heads.

EXECUTIVE DIRECTOR AND JOINT CEO

John is a co-founder and executive director of Centuria Capital Limited. He is also a director of Centuria Life Limited, Centuria Healthcare Pty Ltd, Centuria Property Funds No. 3 Limited (formerly Primewest Management Limited), Centuria Bass Credit Pty Limited, ResetData Pty Ltd, and NZX-listed Asset Plus Limited (NZX: APL). John also serves on the Centuria NZ and Centuria Healthcare Management committees, the Centuria Agriculture Fund investment committee, and the ESG management committee.

He heads Centuria's corporate team and is responsible for corporate strategy, M&A and leadership of the Finance, Governance, Compliance, Investor Relations, Communications and ESG teams.

John has been instrumental in the incorporation of several businesses into the Centuria group, including the 360 Capital Group, Heathley Asset Management (now Centuria Healthcare), Augusta Capital Limited (now Centuria NZ), Bass Capital (now Centuria Bass Credit), the Primewest Group, Arrow Funds Management and ResetData.

These acquisitions, together with a successful integration program have created significant corporate growth over the past 30 years culminating in Centuria Capital Limited entering the S&P/ASX 200 index in 2021 with the group now managing more than $22 billion of assets.

John graduated from the University of Auckland with a valuation qualification. His 45 years of experience spans the commercial and industrial markets in Australia, NZ and UK and the Australian healthcare, agriculture and Private Credit sectors.

Jason Huljich

EXECUTIVE DIRECTOR AND JOINT CEO

Joint CEO Jason Huljich's c. 30-year real estate career spans the commercial and industrial real estate sectors. Jason is a co-founder of Centuria Capital and along with Joint CEO, John McBain, collectively oversees more than $22 billion of assets under management.

Jason is chiefly responsible for the company's real estate portfolio and funds management operations including the listed Centuria Industrial REIT (ASX:CIP) and Centuria Office REIT (ASX:COF), as well as Centuria's extensive range of unlisted funds across Australia and New Zealand.

In addition, Jason has been instrumental in Centuria's entry into the real estate credit market (Centuria Bass Credit) as well as Centuria's cloud services and AI joint venture (ResetData).

Since Centuria was established, Jason has been pivotal in raising over $5 billion for the listed and unlisted vehicles. He has been central to positioning Centuria as one of Australia's largest external property fund managers. CNI and CIP are included in the S&P/ASX 200 index. CIP and COF are part of the FTSE EPRA Nareit Global index.

Jason has a hands-on approach to the real estate operations throughout the Group's platform. The Transactions, Development, Funds Management, Distribution, Marketing and Asset Management teams all report directly to him.

Jason is a Property Funds Association (PFA) of Australia past President and currently sits on the Property Council of Australia's Capital Markets Division Committee.

Kristie Brown

CHAIRMAN

Kristie joined the Centuria Capital Limited (CNI) Board as an Independent Non-Executive Director in February 2021 and was appointed Chair in November 2024. She chairs CNI's Nomination and Remuneration Committee and is a member of CNI's Audit, Risk and Compliance Committee, Conflicts Committee and Culture and ESG Committee. She brings extensive experience across real estate investment, corporate law, funds management and mergers and acquisitions.

Kristie is currently an Independent Non-Executive Director and Chair of GemLife Communities Group (ASX: GLF).

Kristie has a background in corporate law with more than 18 years' experience in funds management and mergers and acquisitions. She practiced at Clayton Utz and Ashurst (then Blake Dawson Waldron) and has extensive experience working with large corporations, fund managers, financial institutions, private equity and hedge fund operators, real estate investment trusts, developers and financiers. Following her legal career, Kristie established Danube View Investments, a private investment business focused on the Australian property sector and was a founding partner of investment firm Couloir Capital.

Kristie holds Bachelor degrees in Commerce and Law (Honours).

John Slater

INDEPENDENT NON-EXECUTIVE DIRECTOR

John was appointed as an Independent Non-Executive Director of the Centuria Capital Group (CNI) Board in May 2013. He is a member of CNI's Audit, Risk and Compliance Committee and Nomination and Remuneration Committee.

Prior to his current non-executive roles, John was a senior executive at KPMG Financial Services before establishing a financial advisory practice. Following the sale of that practice, he has focused on consulting activities and his non-executive roles with Centuria.

John has extensive experience across financial markets gained over more than 35 years. He has been directly involved in investments and investment governance throughout that time and serves on the Investment Committees of Centuria Life Limited and Over Fifty Guardian Friendly Society Limited.

Joanne Dawson

INDEPENDENT NON-EXECUTIVE DIRECTOR

Joanne joined the Centuria Capital Limited (**CNI**) Board as an Independent Non-Executive Director in November 2023. She chairs CNI's Audit, Risk and Compliance Committee. She brings extensive experience across financial services, highly regulated industries and corporate transactions.

Joanne is currently a Non-Executive Director of AMA Group Limited (ASX: AMA), Pacific Current Group Limited (ASX: PAC) and PetSure (Australia) Pty Ltd.

Her previous board experience includes Bank First Ltd, PSC Insurance Group Limited (ASX: PSI), Templeton Global Growth Fund Limited (ASX: TGG) and Vision Super, where she served as an Independent Trustee Director and Chair of the Investment Committee. Joanne worked with Deloitte in both Australia and the United States within its Financial Services, Assurance and Advisory Division, including as a consultant to the US Department of Housing and Urban Development. She also founded and served as Chief Executive Officer of Executive Wealth Strategies.

Joanne is a Chartered Accountant and a Fellow of the Australian Institute of Company Directors. She holds a Bachelor of Commerce from the University of Melbourne and a Master of Business Administration from RMIT University.

Susan Wheeldon

INDEPENDENT NON-EXECUTIVE DIRECTOR

Susan joined the Centuria Capital Group (CNI) Board as an Independent Non-Executive Director in August 2016. She chairs CNI's Culture and ESG Committee and is a member of CNI's Nomination and Remuneration Committee. She brings extensive experience across international commercial markets within ICT, real estate, legal, aviation and online retail sectors.

Susan is currently Airbnb's Country Director for Australia, New Zealand and Oceania and a Non-Executive Director for Compare the Market Pty Ltd and iSelect Pty Ltd. Previously, she held a number of senior roles, including Head of Government, Performance and Agency at Google, working with major national and global companies.

During her career, Susan has held senior positions in Australia and the United Kingdom across a diverse range of industries, including with global law firms DLA Piper and King & Wood Mallesons, the Virgin Australia and Virgin Atlantic airline brands, as Vice President of Groupon, and as Head of Brand and Retail at AMP Capital Shopping Centres.

She holds an MBA from the Australian Graduate School of Management (AGSM), University of New South Wales, is a member of the Australian Institute of Company Directors and holds a Corporate Director Certificate from Harvard Business School.

UNLISTED: 55–67 DANDENONG ROAD, DANDENONG VIC

Senior executives

John McBain

EXECUTIVE DIRECTOR AND JOINT CEO

Jason Huljich

EXECUTIVE DIRECTOR AND JOINT CEO

Simon Holt

CHIEF FINANCIAL OFFICER

Simon has been responsible for Centuria's finance, information technology and treasury functions since 2016. She is an experienced governance professional having worked with ASX-listed and unlisted boards, predominantly within the listed property and financial services sectors. In her current role at Centuria, Anna is responsible for legal, risk management, regulatory compliance, insurance and governance activities across the Group. Anna is a member of the Senior Executive Committee and the ESG Management Committee. She holds an Executive MBA from the University of Sydney and is a member of the Australian Institute of Company Directors and a Non-Executive Director of the Illawarra Community Housing Trust.

Mark Francis

CENTURIA NZ CHIEF EXECUTIVE OFFICER

Mark Francis has a career spanning more than 25 years across financial and real estate markets. He founded Augusta Capital in 2001 and assumed his current position at the helm of Centuria's New Zealand entity following the companies' merger, responsible for overseeing a $2.2 billion real estate portfolio. He holds a Bachelor of Commerce (Finance) from the University of Otago.

Andrew Essey

CHIEF INVESTMENT OFFICER

Andrew is responsible for the Group's investment strategy, transactions, and institutional capital. He has successfully executed more than $12 billion of direct real estate transactions for Centuria since 2017. Andrew joined Centuria in early 2013 and has nearly 20 years of experience across real estate capital transactions, leasing and funds management. Prior to being appointed to the role of Chief Investment Officer in 2024, he has held several other senior positions within Centuria, including National Leasing Manager, Fund Manager and Group Head of Transactions. Andrew holds a Bachelor of Business Administration from Radford University, Virginia, USA.

David Giffin

CENTURIA BASS CHIEF EXECUTIVE OFFICER

With more than 20 years of experience in private lending markets, David leads a $2.6 billion real estate finance portfolio focused on mid-market, first lien loans, predominantly financing development projects, bridging finance, and residential stock. He holds a Bachelor of Applied Finance from the University of Southern Queensland and a Master of Applied Finance from Macquarie University.

André Bali

HEAD OF DEVELOPMENT

André is a member of Centuria's Senior Executive Council and has overseen all Centuria's project and property development functions since 2007. He has over 30 years' experience across office, health, residential, industrial and retail sectors, and private credit. André holds an Honours Degree in Applied Science from UNSW, Masters of Commerce (Land Economics) from UWS, and a Graduate Certificate of Finance from AGSM, AAPI, and MAICD.

Victor Georos

HEAD OF PORTFOLIO AND ASSET MANAGEMENT

Victor joined Centuria in 2013 and has operated in the commercial property markets for more than 30 years. He has previously held senior roles at GPT and Lendlease. His responsibilities include the development and implementation of strategies to enhance value through active asset management and development. He is a member of the Australian Institute of Company Directors.

Michael Blake

HEAD OF CENTURIA LIFE

With more than three decades in wealth management across blue chip Australian and multinational corporations, Michael joined Centuria in 2016. He is chiefly responsible for Centuria Life's P&L, strategic direction, funds under management growth, and product development. He holds a Bachelor of Financial Administration from the UNE, a Diploma of Financial Planning from the RMIT, an MBA from Macquarie University and is a graduate of the Australian Institute of Company Directors.

Rebecca Colwell

DEPUTY CHIEF FINANCIAL OFFICER (DCFO) – UNLISTED PROPERTY FUNDS

Rebecca is responsible for financial deliverables across Centuria's Australian and New Zealand unlisted portfolios and institutional partnerships. With more than 20 years' experience in financial markets across Australasia and Britain, her professional acumen extends to real estate, entertainment and FMCG sectors. She is Certified Practicing Accountant (CPA) and holds a Bachelor of Business from the University of Technology Sydney.

Ara Galstian

DEPUTY CHIEF FINANCIAL OFFICER (DCFO) – LISTED PROPERTY FUNDS

Ara is responsible for financial deliverables across Centuria Capital Group (CNI), Centuria Office REIT (COF) and Centuria Industrial REIT (CIP). He has c.30 years' experience and previously held senior positions at various listed property and professional service companies. He has a Masters of Applied Finance and Investment from Kaplan, Masters of Commerce in Professional Accounting from Macquarie University, Bachelor of Economics and Accounting from UNSW and is a Member of the Institute of Chartered Accountants (CA).

Marshall Denning

GROUP TREASURER

Marshall is responsible for funding and interest rate risk management for the Group and its funds management platform. He has held senior positions across the property and infrastructure sectors, specialising in capital structure optimisation and funding and liquidity management. He holds a Bachelor of Accounting from UTS and is a Member of the Institute of Chartered Accountants (CA).

Tim Mitchell

GROUP HEAD OF INVESTOR RELATIONS

Tim is responsible for investor relations functions, as well as involvement in corporate and strategic initiatives across Centuria Capital Group (ASX: CNI), Centuria Industrial REIT (ASX: CIP) and Centuria Office REIT (ASX: COF). Tim's career has spanned Australasian real estate and funds management industries, drawing on experience across equity capital markets, investor relations, corporate strategy and various real estate disciplines. Tim holds a Bachelor of Business (Property) from WSU.

Cecilia Shanahan

HEAD OF TAX

Cecilia is responsible for the Group's tax strategy, corporate tax reporting and compliance, structuring fund establishments and managing relationships with the tax authorities. She has 25 years' experience as a tax professional across property, funds management and professional services. She holds a Master of Laws from the University of Sydney and a Bachelor of Business and a Bachelor of Law (Hons) from UTS.

Emily Smith

HEAD OF OPERATIONS

Emily joined Centuria in 2016 and is responsible for the operational activities of the Group including policy and third-party governance, implementation of technology solutions, and development of efficient workflows to maximise productivity. She has c.20 years' experience having worked for industry peers in both financial services and property industries. She holds a Diploma of Business Management and Financial Services.

Thomasina Ralston

HEAD OF MARKETING

Thomasina is responsible for Centuria's full end-to-end marketing strategy, planning and execution across the Group's business entities and channels, which incorporates brand positioning, property fund and real estate debt capital raise campaigns and investment bond promotion. She joined the Group in 2017 and has more than 25 years of marketing experience. She holds a Bachelor of Science with Honours from the University of Sydney.

Katheleen Nuyda

DEPUTY COMPANY SECRETARY

Katheleen joined Centuria in 2019 and plays a key role in delivering governance advice to A-REITs, Responsible Entity Boards, and their committees. She has over 20 years of governance and company secretarial experience across ASX-listed, public, and private companies within the banking and financial services sector. Katheleen holds a Bachelor of Business (Finance), a Graduate Diploma in Applied Corporate Governance and is a Fellow of the Governance Institute of Australia and the Chartered Governance Institute.

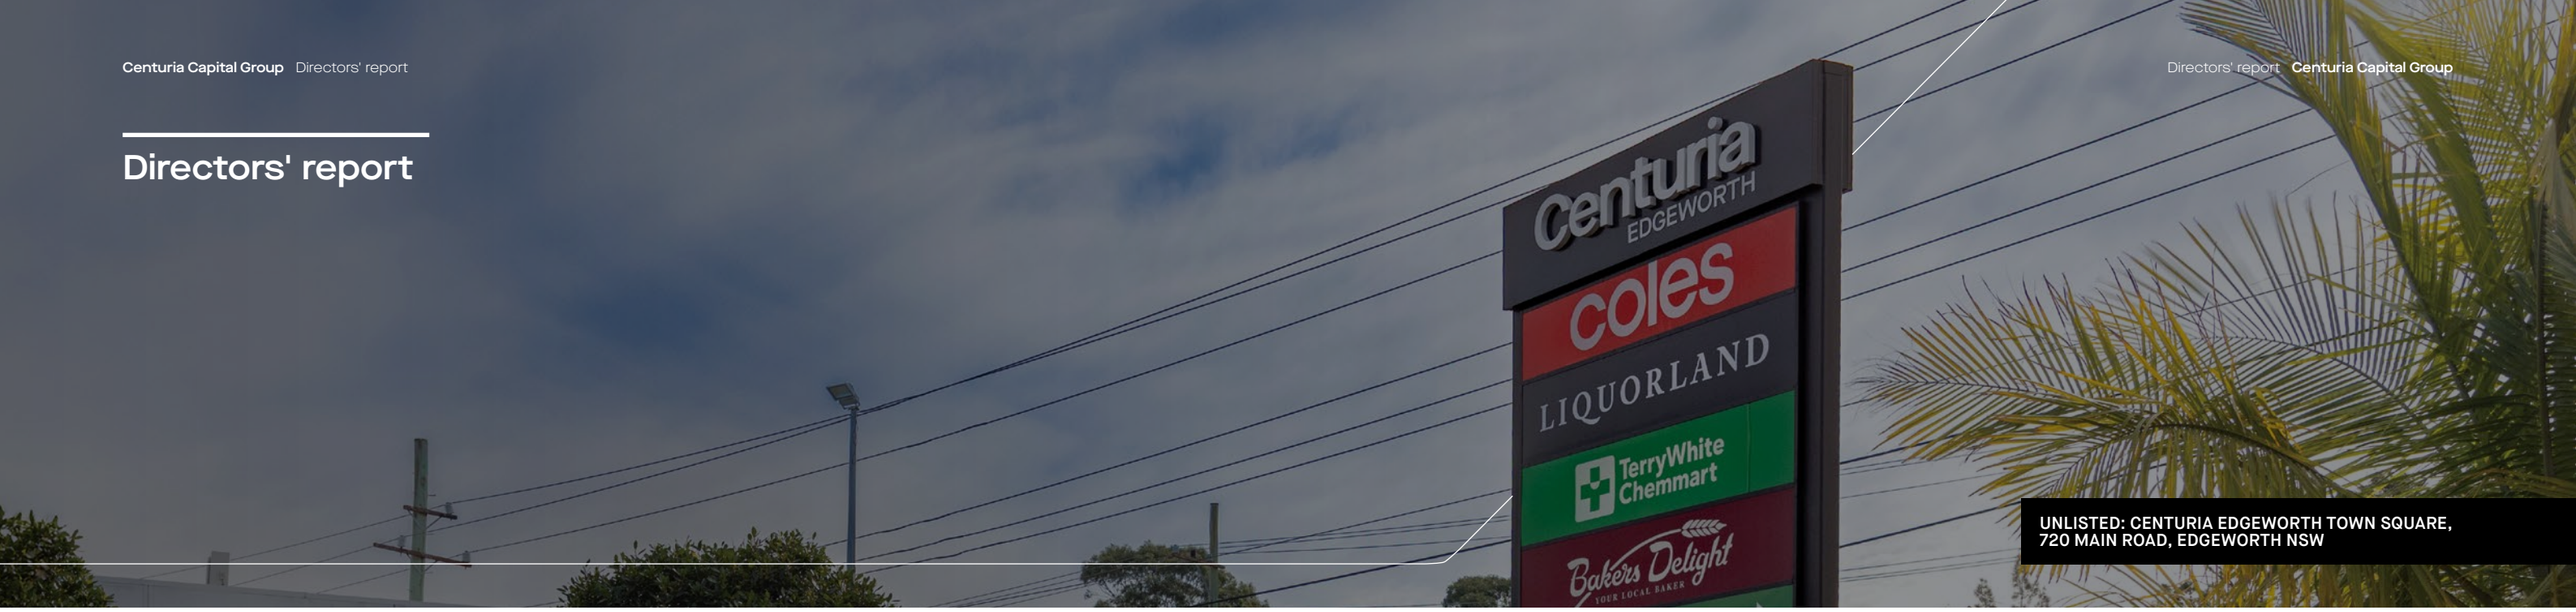

Alexandra Koolman

GENERAL MANAGER – COMMUNICATIONS

Alexandra has been responsible for the Group's internal and external communications since 2020. She has more than 20 years' experience across domestic and international markets within commercial, residential, build-to-rent and development real estate sectors. She holds a Bachelor of Business from the Queensland University of Technology.

Directors' report

UNLISTED: CENTURIA EDGEWORTH TOWN SQUARE,
720 MAIN ROAD, EDGEWORTH NSW

Directors' report

For the year ended 30 June 2026

The Directors of Centuria Capital Limited (the Company) present their report together with the consolidated financial statements of the Company and its controlled entities (the Group) for the financial year ended 30 June 2026 and the auditor's report thereon.

ASX-listed Centuria Capital Group consists of the Company and its controlled entities including Centuria Capital Fund (CCF). The shares in the Company and the units in CCF are stapled, quoted and traded on the Australian Securities Exchange (ASX) as if they were a single security under the ticker code 'CNI'.

Company secretary

Anna Kovarik joined Centuria as General Counsel and Company Secretary in 2018 and was promoted to Group Chief Risk Officer and Company Secretary in 2020. She is an experienced governance professional having worked with ASX-listed and unlisted boards, predominantly within the listed property and financial services sectors.

In her current role at Centuria, Anna is responsible for legal, risk management, regulatory compliance, insurance and governance activities across the Group.

Anna is a member of the Senior Executive Committee and the ESG Management Committee. She holds an Executive MBA from the University of Sydney and is a member of the Australian Institute of Company Directors and a Non-Executive Director of the Illawarra Community Housing Trust.

Principal activities

The principal activities of the Group during the financial year were the marketing and management of investment products including direct interests in property funds, Property and Development Finance, friendly society investment bonds, sovereign AI technology and other investments across Australasia.

Significant changes in the state of affairs

On 22 June 2026, Centuria Capital Group announced a fully underwritten equity raising of $300.0 million, comprising a $200.0 million institutional placement and a $100.0 million accelerated non-renounceable entitlement offer. The equity raising was undertaken to provide the Group with additional funding flexibility to accelerate growth across ResetData and Centuria's real estate equity and credit funds management platforms.

As at 30 June 2026, the institutional placement, institutional entitlement offer and early retail entitlement offer acceptances had settled, resulting in approximately 132.7 million new stapled securities being issued at an issue price of $2.00 per security. Following the end of the reporting period, the retail entitlement offer was completed and the remaining new securities were issued. Total net proceeds received by Centuria Capital Group from the equity raising were $292.0 million.

The equity raising represented a significant capital management initiative for the Group. It strengthened Centuria's liquidity position and enhanced its capacity to pursue strategic growth opportunities, including initiatives associated with ResetData and the continued scaling of the Group's real estate equity and credit funds management platforms.

Further details in relation to the use of proceeds immediately after year end are outlined below and also at Note F4, Events occurring after reporting date.

Operating and financial review

The Group recorded a consolidated statutory net profit for the year of $41,642,000 (2025: $80,897,000). Statutory net profit after tax has been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standards, which comply with International Financial Reporting Standards.

The Group recorded an operating profit after tax attributable to securityholders of $113,773,000 (2025: $100,841,000). Operating profit after tax excludes non-operating items such as transaction costs, mark to market movements and share of net profit of equity accounted investments in excess of distributions received.

The statutory NPAT includes a number of items that are not considered operating in nature, the table below provides a reconciliation from statutory profit to operating profit attributable to securityholders.

Reconciliation of statutory profit to operating profit attributable to securityholders	**2026 $'000**	**2025 $'000**
Statutory profit after tax attributable to securityholders	**56,514**	82,697
Statutory basic earnings per security (EPS) (cents) attributable to securityholders	**6.7**	10.0
LESS NON-OPERATING ITEMS		
Share of equity accounted net (profit)/loss in excess of distributions received	**(1,065)**	720
Transaction and other costs	**1,905**	1,619
Non-cash lease and intangible asset amortisation adjustments	**2,011**	2,476
Unrealised (gain)/loss on mark to market movements of investments and derivatives	**52,237**	12,525
Loss/(profit) attributable to controlled non-operating entities	**3,954**	26
Tax impact of non-operating items	**(1,783)**	778
Operating profit after tax attributable to securityholders	**113,773**	100,841
Operating basic EPS (cents)	**13.6**	12.2

A summary of the Group's operating segments is provided in Note A5 of the Financial Report. The Operating NPAT for the Group comprises the result of the divisions which report to the Joint CEOs and Board of Directors for the purpose of resource allocation and assessment of performance.

Operational highlights for the key divisions were as follows:

	Operating profit after tax $'000		Increase/ (decrease) $'000	Increase/ (decrease) %	
Segment	**2026**	**2025**			**Highlights**
Property Funds Management	**54,845**	52,627	2,218	4	(a)
Property Funds Management - performance fees	**19,975**	6,984	12,991	186	(a)
Property Investments	**92,213**	87,653	4,560	5	(b)
Property and Development Finance	**24,282**	27,030	(2,748)	(10)	(c)
Investment Bonds Management	**2,113**	2,642	(529)	(20)	(d)

A detailed Segment Profit and Loss as well as a detailed Segment Balance Sheet is outlined in Notes B1 and C1 respectively.

Refinement of segment presentation

During the year, the Group refined the presentation of its operating segment disclosures to better align with the manner in which operating performance is assessed by the Group's Chief Operating Decision Maker (CODM), and resources allocated across its operating segments. EBITDA and EBIT are now presented as the key measures of operating segment performance. Finance income, finance costs and taxation are presented at a Group level, rather than being allocated to individual operating segments. Comparative information has been restated accordingly. These changes relate solely to presentation and have no impact on reported profitability, net assets or cash flows.

Operational highlights for the key segments were as follows:

(a) Property Funds Management

For the year ended 30 June 2026, Property Funds Management operating EBITDA of $74.8 million was $15.2 million (25.5%) higher than the prior year ended 30 June 2025. The increase was primarily driven by higher property performance fees together with increased management fee and transaction-related revenue during the year. This segment continues to represent the Group's largest operating business, with real estate assets under management of $18.6 billion across listed, unlisted and institutional mandates.

(b) Property Investments

For the year ended 30 June 2026, Property Investments operating EBITDA increased by $4.6 million (5.2%) to $92.2 million. The increase primarily reflects higher net property income generated from the Group's investments in managed property funds. The segment comprises the Group's co-investments across its managed funds platform and provides important alignment with investors while supporting the continued growth of the Group's funds management business.

(c) Property and Development Finance

For the year ended 30 June 2026, the Property and Development Finance segment generated operating EBITDA of $24.3 million compared with $27.0 million in the prior year. While assets under management increased to $2.6 billion during the year, profitability was impacted by higher operating costs associated with supporting the continued growth of the platform, including loan origination, portfolio management and business development activities. During the year, the Group increased its ownership interest in Centuria Bass from 80% to 100%, resulting in full ownership of the business from 25 February 2026.

(d) Investment Bonds Management

For the year ended 30 June 2026, the Investment Bonds Management segment generated operating EBITDA of $2.1 million, representing a decrease of $0.5 million (20.0%) compared with the prior year. Segment profitability was impacted by higher operating costs associated with enhancements to operational resilience, governance, information security and compliance frameworks, together with increased expenditure on sales, distribution, product development and marketing activities. During the year, the business continued to invest in its LifeGoals platform and broader product offering to support future growth opportunities within the investment and education bonds sector.

(e) Sovereign AI Technology

For the year ended 30 June 2026, the Sovereign AI Technology segment generated an operating EBITDA loss of $10.9 million, compared with a loss of $4.4 million in the prior year. The increased loss reflects continued investment in the development of the Group's sovereign AI and digital infrastructure platform, including the progression of AIF1, Australia's first publicly available sovereign AI Factory. During the year, the business continued to expand its cloud and AI infrastructure capabilities, with commissioning and testing activities underway at year end as the platform progressed towards commercial operation.

Outlook

Earnings per security (EPS)

	2026		2025	
	Operating	**Statutory**	Operating	Statutory
Basic EPS (cents/security)	**13.6**	**6.7**	12.2	10.0
Diluted EPS (cents/security)	**13.3**	**6.6**	12.0	9.8

Dividends and distributions

Dividends and distributions paid or declared by the Group during the current financial year were:

	Cents per security	Total amount $'000	Date paid
DIVIDENDS/DISTRIBUTIONS PAID DURING THE YEAR			
Final 2025 dividend (100% franked)	0.80	6,641	19 August 2025
Final 2025 Trust distribution	4.40	36,524	19 August 2025
Interim 2026 dividend (100% franked)	0.70	5,811	25 February 2026
Interim 2026 Trust distribution	4.50	37,354	25 February 2026
DIVIDENDS/DISTRIBUTIONS DECLARED DURING THE YEAR			
Final 2026 dividend (100% franked)	0.50	4,257	27 August 2026
Final 2026 Trust distribution	4.70	40,016	27 August 2026

Events subsequent to the reporting date

Subsequent to 30 June 2026, Centuria Capital Group completed the retail component of the accelerated non-renounceable entitlement offer announced on 22 June 2026 as part of its fully underwritten $300.0 million equity raising. The retail entitlement offer closed on 7 July 2026 and raised approximately $35.0 million, with settlement occurring on 13 July 2026, securities issued on 14 July 2026 and trading commencing on 15 July 2026.

On 2 July 2026 the Group utilised a portion of the proceeds to repay approximately $221.0 million of floating rate secured notes. Following this repayment, the Group had approximately $265.0 million of available funding capacity.

On 13 August 2026, the Group announced that a Master Services Agreement has been signed with CDC Data Centres, providing an initial data centre power capacity of 7MW, with a Letter of Intent supporting an increase to 10MW. The Group has also secured 72MW of dedicated power generation units for a Centuria data centre development within its broader 250MW+ infrastructure pipeline. A senior bridge GPU financing facility of $165 million has been executed to support staged NVIDIA GPU procurement for a portion of the initial CDC deployment.

On 17 August 2026, Centuria Sydney CBD Prime Office Fund ("CSPOF") settled the acquisition of 680 George Street and 50 Goulburn Street, Sydney. The Group invested $129.9m at settlement, representing 48.5% ownership. As such, the Group is deemed to control CSPOF and consolidates it as part of the controlled property funds from this date. CSPOF is in the progress of further capital raising and it is expected that the Group's interest in CSPOF will decrease over time. As at the date of this report, CSPOF has received $15.7 million of applications for allotment, which is expected to reduce the Group's holding to 40.9%.

Other than the above, no material or unusual event, transaction, or occurrence has arisen that, in the directors' opinion, is likely to significantly affect the Group's operations, results, or financial position in future periods.

Business strategy, future opportunities and business risks affecting the Group

The Group continues to pursue its strategy of growing and diversifying its specialist funds management platform, with Assets Under Management of $22.2 billion at the date of this report, representing a new Group record. This comprises Property Funds Management of

$18.6 billion, Real Estate Finance of $2.6 billion and Investment Bonds of $1.0 billion. The continued growth of the platform reflects the Group's disciplined approach to capital deployment, expansion across alternative real estate sectors and real estate credit, and investment in emerging growth opportunities that have the potential to broaden investor offerings and enhance long-term earnings growth.

The continued growth of the Group's Real Estate Finance business has been complemented by the ongoing development of ResetData, Centuria's 50% owned AI infrastructure platform. During the year, ResetData continued to progress the deployment of AI Factory infrastructure, providing the Group with exposure to growing demand for sovereign AI capability, AI compute services and digital infrastructure solutions. ResetData represents a strategic expansion of Centuria's traditional funds management and property capabilities into one of the fastest growing infrastructure sectors globally.

Through ResetData, the Group is developing an integrated capability spanning data centre ownership, development, operations and AI Factory infrastructure. By combining Centuria's property, capital management and development expertise with ResetData's operational and technology capabilities, the Group believes it is well positioned to participate in the increasing adoption of AI and the growing demand for sovereign digital infrastructure across Australia.

In addition to supporting potential value creation opportunities across suitable existing assets, ResetData provides the Group with exposure to new revenue streams and long-term growth opportunities beyond its traditional property platform. Management continues to assess opportunities to leverage the Group's property, development and capital management expertise to support the future growth of AI Factory and digital infrastructure opportunities.

As a leading Australasian funds manager, the Group's strategy for the upcoming year will include:

- Centuria's core and alternative real estate sectors;
- Accessing and deploying capital from a diverse range of existing and new retail, wholesale and institutional investors;
- Continuing to scale established and emerging investment platforms across property, real estate credit, alternative sectors and digital infrastructure;
- Expanding the Group's AI Factory and digital infrastructure capabilities through ResetData; and
- Maintaining differentiation across the Group's platform through specialist sector expertise, operating capability and access to unique investment opportunities.

The Group expects to deliver on its strategy through the execution of the following initiatives:

- Continue to actively manage Centuria's property portfolio through the current market cycle to support resilient investor outcomes;
- Grow alternative real estate offerings that appeal to Centuria's retail, wholesale and institutional investor base;
- Continue to grow the real estate credit business, taking advantage of attractive market conditions and increasing demand for non-bank lending solutions;
- Continue the development and deployment of AI Factory and digital infrastructure opportunities through ResetData;
- Execute organic growth initiatives across existing platforms while assessing strategic acquisition, partnership and investment opportunities;
- Deploy balance sheet capital selectively to support strategic growth opportunities aligned with the Group's property, real estate credit and digital infrastructure platforms; and
- Extract value from existing and future development pipelines while creating new investment opportunities for Centuria funds.

Additional details in relation to the Group's operations including relevant opportunities and risks across each of its operating segments, which have been outlined below.

Property Funds Management:

The Group manages an Australasian portfolio of property assets across listed and unlisted retail and wholesale scheme structures, as well as through institutional mandates and partnerships. As at the date of this report, the Group's Property Funds Management assets under management were $18.6 billion. The Group supports a diversified range of traditional and alternative real estate sectors and has developed relevant skills across the platform, enabling management to identify the optimal product and asset focus to support its growth objectives. This capability is supported by the Group's in-house expertise located throughout Australia, New Zealand and the Philippines.

During FY26, the Group secured approximately $1.2 billion of real estate acquisitions, exceeding its acquisition target of $1.0 billion. The Group also continued to broaden its investor base through its growing distribution network of more than 15,500 private investors and ongoing institutional capital relationships. These initiatives support the Group's ability to originate, fund and grow investment products across multiple sectors and investment structures.

During the period, Centuria added approximately $0.5 billion of Agriculture assets under management through the acquisition of the management rights to Arrow Funds Management and the largest hydroponic glasshouse facility in Australia. This increased the Group's Agriculture assets under management to approximately $1.3 billion at period end, further strengthening Centuria's position across alternative real estate sectors and broadening the range of investment opportunities available to investors.

The Group will continue to identify the appropriate vehicle and structure to meet the requirements of investors across its listed, unlisted and institutional platforms, while maintaining a strong distribution and marketing capability to support future growth.

The Group manages a number of institutional mandates and partnerships and seeks to secure additional mandates as attractive investment opportunities are identified.

The Group oversees a diversified range of products that may perform differently depending on prevailing market conditions. Accordingly, outcomes across the platform may vary across market cycles as investor preferences and asset class performance evolve. The performance of underlying funds managed by the Group may therefore impact its ability to grow and develop its Property Funds Management business. Different funds generate a range of revenue streams, which may increase or decrease over time, influencing the Group's overall growth profile.

Market conditions continued to evolve during FY26, with improving transaction activity and growing investor engagement evident across a number of sectors. Whilst interest rates, inflationary pressures and broader economic and geopolitical uncertainty continued to influence investor sentiment and capital markets, the Group benefited from its diversified platform and sector exposure. Management remains focused on actively managing investment products across the platform and positioning assets to capitalise on opportunities as market conditions continue to stabilise.

Diversification across the property portfolio continues to offset the impact of market conditions affecting any individual sector. Industrial, agriculture, large format retail and daily needs retail assets continued to demonstrate resilience throughout the period, whilst office assets continued to experience headwinds, albeit with increasing signs of stabilisation in a number of markets and sub-sectors.

Developments

Centuria acts as the development manager for a portfolio of development projects and appoints well-regarded building contractors to undertake construction activities and assume construction risk. Growth in this area is driven by Centuria's ability to source development opportunities that meet feasibility assessment requirements and can be funded through the Group's balance sheet, investor capital and debt funding sources. As at the date of this report, the Group's committed and future development pipeline had an estimated value on completion of $1.4 billion.

Development activity is predominantly undertaken to create a new generation of real estate suitable for the Group's managed funds. Whilst development activity generates development fees, the Group may also selectively hold certain projects on its balance sheet with the objective of generating development profits.

Other material business risks faced by the Property Funds Management business that may impact the financial performance of the Group include:

- Loss of key personnel. The Group seeks to mitigate this risk through appropriate remuneration and incentive programs, career progression opportunities and a positive and supportive workplace culture.
- Economic factors affecting fund performance, property valuations and investor appetite. Whilst these factors are predominantly market driven, the Group seeks to actively manage assets throughout the economic and property cycle to maximise occupancy, support tenant retention and identify value-enhancing opportunities.
- Future growth prospects associated with development activity, including the ability to source projects that satisfy feasibility requirements. Elevated construction costs, project delays and the ability of contractors to perform in accordance with contractual obligations may adversely impact the financial performance of the Group.

For the forthcoming financial year, the Group expects to continue executing real estate transactions, including acquisitions and divestments, to support growth across its diversified platform. These activities generate a range of revenue streams, including acquisition, financing, underwriting and disposal fees. In certain circumstances, the Group may also generate performance fees from its unlisted funds platform.

Property Investments

The Group utilises its balance sheet resources to provide capital support in the form of co-investment, seed capital and selective financing support as new acquisitions, mandates and investment opportunities are brought to market. This approach assists in aligning the Group with investors, facilitating product growth and supporting the continued expansion of the Group's Property Funds Management and Real Estate Finance platforms.

The Group holds a diversified portfolio of investments across real estate funds, and other complementary investment opportunities. These investments generate returns through a combination of distributions, dividends, investment income and capital growth while also supporting the growth and development of the Group's broader funds management platform.

Diversification across multiple sectors, investment structures and underlying asset classes is expected to continue delivering attractive risk-adjusted returns over the long term whilst mitigating exposure to any individual asset, fund or market segment. The performance of the Property Investments segment will vary throughout economic and property cycles and may be influenced by movements in property values, credit markets, investor sentiment, interest rates and broader economic conditions. The relative performance of individual investments, together with differing investment horizons, may also contribute to changes in the timing and profile of returns generated by the segment.

The financial performance of the Property Investments segment is influenced by the performance of the underlying funds and investments held by the Group. Changes in property market conditions, credit markets, asset valuations, capital market conditions and investor sentiment may impact the level and timing of distributions, dividends and capital growth generated by these investments. Whilst the diversified nature of the portfolio assists in mitigating exposure to any single investment, fluctuations in market conditions may affect returns generated by the segment.

In addition to generating investment returns, the Property Investments segment plays an important strategic role in supporting the growth of the Group's Property Funds Management and other emerging investment platforms. Capital deployment decisions are therefore assessed having regard to both anticipated investment returns and the broader strategic benefits that may be realised across the Group's platform.

Property and Development Finance

This operating segment provides non-bank financial lending secured by real estate which primarily includes developments sites, land, development projects or residual stock assets.

During FY26, the Group increased its ownership of Centuria Bass Credit to 100% and grew the division's assets under management to $2.6 billion. The growth of this division has benefited from favourable market conditions and increasing demand for private credit solutions, supporting the continued expansion of non-bank lending across the Australian market.

At 30 June 2026, the Centuria Bass loan portfolio remained diversified across geography, sector, facility type and funding structure. The portfolio comprised approximately 55 loan SPVs and 96 loan tranches, with 94.1% of exposures secured by first mortgages and an average loan-to-value ratio (LVR) of 66.7%. During the year, the business executed approximately $1.6 billion of loan origination and restructure activity together with $1.3 billion of repayment and restructure activity and raised approximately $0.2 billion of gross unlisted capital. The division continues to source capital from a diversified range of wholesale and institutional investors and remains focused on disciplined portfolio construction, credit quality and risk management.

The Group believes the Property and Development Finance business complements its broader funds management platform by providing investors with exposure to real estate credit investments and attractive risk-adjusted return opportunities. The business also benefits from Centuria's established real estate market expertise, transaction capability and industry relationships.

Material risks that may impact the future prospects of this business unit include:

- Loss of key personnel. The Group seeks to mitigate this risk through appropriate remuneration and incentive programs, career progression opportunities and a positive and supportive workplace culture.
- Interest rate risk. Changes in interest rates may impact the returns achievable for credit products, both positively and negatively, and may influence the relative attractiveness of credit strategies compared with alternative investment products. The Group's diversified platform assists in balancing changes in investor demand across multiple product offerings.
- Loan origination risk. The ability to source suitable lending opportunities remains important to the continued growth of the business. Centuria Bass seeks to mitigate this risk through an established broker network, direct borrower relationships and active loan origination capabilities.
- Credit and default risk. Changes in economic conditions, property markets, borrower performance or funding markets may impact the incidence of loan defaults or impairments. Centuria Bass seeks to manage this risk through a disciplined credit assessment framework, detailed due diligence procedures, portfolio diversification and ongoing monitoring of loan performance.
- Adverse research ratings or media attention in relation to Private Credit affecting investor appetite for Centuria's products;
- Developer and borrower risk. The performance of the loan portfolio may be impacted by the financial capacity, execution capability and project performance of underlying borrowers and developers. These risks are mitigated through borrower assessment procedures, conservative lending structures, covenant protections and appropriate security arrangements.
- Asset value and recovery risk. Movements in property values may impact recovery outcomes in default scenarios. Centuria Bass seeks to manage this risk through disciplined loan structuring, loan-to-value ratio requirements, security protections and ongoing assessment of underlying collateral values.

Whilst loan defaults may occur from time to time, Centuria Bass maintains an established governance and risk management framework incorporating credit assessment, underwriting, portfolio monitoring, covenant compliance monitoring, impairment assessment procedures and active loan management processes. These frameworks are designed to support disciplined lending standards and prudent management of credit risk across the portfolio. Other than through co-investments held within certain credit strategies, the Group does not generally bear direct exposure to the majority of underlying borrower credit risk. This business line continues to support the diversification of the Group's funds management platform and provides investors with access to a growing real estate credit market.

Investment Bonds Management

At 30 June 2026, Centuria Life managed approximately $1.0 billion of assets under management. The business continued to invest in product development during FY26, with the LifeGoals platform offering a broad range of investment and education bond solutions together with enhanced functionality, including multiple student nominations and guardian capabilities. Significant work was also completed to enhance customer reporting and digital capabilities, supporting the continued development of a unified investment and education bond platform.

The Group believes investment bonds continue to provide a compelling long-term investment solution for a broad range of investors seeking tax-effective investment and wealth transfer structures. Against a backdrop of evolving superannuation and retirement savings settings, Centuria Life is well positioned to benefit from growing awareness of investment bond products. To support future growth, the business has expanded its sales and in-house distribution capabilities and continues to invest in marketing, adviser engagement and customer education initiatives.

Centuria also provides investment and administrative services to Over Fifty Guardian Friendly Society Ltd (OFGFS) and derives fees based on funds under management. The level of funds under management for OFGFS is influenced by the sale of pre-needs funeral contracts and the run-off profile of existing policies. Changes in either of these factors may positively or negatively impact the fees earned by the Group.

Material business risks faced by the Investment Bonds Management division that may impact the financial performance of the Group include:

- Loss of key personnel. The Group seeks to mitigate this risk through appropriate remuneration and incentive arrangements, career development opportunities and a positive and supportive workplace culture.
- Product administration and service risk. Failure to meet customer, adviser or industry expectations may impact the ability of the business to attract and retain customers and financial advisers. The Group seeks to manage this risk through ongoing investment in technology, continual process improvement and active oversight of service providers and service levels.
- Investment performance risk. Poor investment performance may impact the ability of the business to attract and retain customers. The Group seeks to manage this risk through a robust investment manager selection and monitoring framework together with a diversified range of investment options available through the LifeGoals platform.
- Regulatory and taxation risk. Changes to legislation, regulation or the taxation treatment of investment bonds may impact the attractiveness of investment bond products and affect future growth prospects for the business.

The Group will continue to invest in product innovation, distribution capability and customer experience initiatives to support the long-term growth of the Investment Bonds Management segment.

Sovereign AI Technology

The Group's Sovereign AI Technology segment comprises its 50% ownership interest in ResetData, an Australian AI infrastructure platform focused on the development and operation of AI Factory and digital infrastructure solutions. During FY26, ResetData commenced operations at AIF1, Australia's first publicly available sovereign AI Factory, and Centuria was recognised as one of only three Australian NVIDIA Cloud Partners. The business continued to establish the foundations for future growth through the expansion of its AI infrastructure capabilities and broader digital infrastructure pipeline.

ResetData represents a strategic extension of Centuria's traditional property and funds management platform into the rapidly growing AI and digital infrastructure sector. Through ResetData, the Group is developing an integrated capability spanning data centre ownership, development, operations and AI infrastructure. The business seeks to leverage increasing demand for AI technologies, digital infrastructure and sovereign computing capability across Australia.

The Group believes the long-term growth prospects for this segment are supported by increasing adoption of AI technologies, growing demand for digital infrastructure and the continued development of sovereign computing capability. In addition to providing new earnings opportunities, the segment may create strategic opportunities across the Group's broader property, development and funds management platform.

Material risks that may impact the future prospects of this business include:

- Technology and innovation risk. Rapid technological advancement may impact infrastructure requirements, customer demand and the competitiveness of AI and digital infrastructure solutions. ResetData seeks to manage this risk through ongoing technology evaluation, disciplined investment decisions and strategic relationships with leading technology providers.
- Infrastructure and deployment risk. The future growth of the business is dependent on the successful deployment and operation of AI Factory and digital infrastructure assets. Delays in infrastructure delivery, equipment deployment or project execution may impact business performance. The Group seeks to manage these risks through disciplined project management, operational oversight and active monitoring of delivery milestones.
- Customer adoption and market demand risk. Changes in economic conditions, competitive dynamics, customer adoption rates or technology preferences may impact demand for AI infrastructure and associated services. The Group seeks to manage this risk through customer engagement, market analysis and diversification of infrastructure and service offerings.
- Power, infrastructure and supply chain risk. Access to appropriate power infrastructure, specialised equipment and strategic technology partnerships is important to the growth of the business. The Group seeks to manage this risk through long-term infrastructure planning, supplier relationships and ongoing assessment of deployment opportunities.
- Partnership and execution risk. The success of the business is influenced by relationships with key technology, infrastructure and commercial partners. The Group seeks to manage this risk through active stakeholder engagement, governance arrangements and ongoing oversight of strategic partnerships.

Operational risks

As well as the specific risks noted above, the Group is faced with a number of broad operational risks that may impact the future financial performance of the Group. These include:

- Cyber security risk
- AI governance risk
- Regulatory risk
- Outsourcing risk
- Human resourcing risk (including culture risk)
- Insurance risk
- Financial costs
- Access to capital (via capital markets)
- Work health and safety (WHS) risks (both corporate and across the property portfolio)
- Business disruption/continuity

Each of the Group's material risks are monitored and managed at both consolidated and subsidiary entity level applying a strong risk management framework supported by a strong risk culture, an experienced and specialist management team and Board and Committee oversight of the management of material risks within the risk appetite set by the Board.

Centuria's Operations and Risk Team is investing significant time and focus on Operational Risk and Resilience and cyber security as it continues to meet evolving risks and regulatory expectations. Significant focus has also been given by the Property Management and Risk Team to Centuria's WHS practices as the number and diversity of assets managed within the property portfolio has grown.

Centuria's Sustainability Framework addresses ESG-related topics relevant to the Group's operations and business activities, with a strategic focus on areas where risks may emerge or evolve, including climate change, energy and emissions. Guided by an approved ESG Policy, the Group has a clear mandate to consider and manage the impacts of climate change on its operations and investments. Centuria's Sustainability Framework also supports the Group's preparation for Australia's mandatory climate reporting requirements.

The Group tracks material risks to its business associated with the impact of climate change. These key risks include:

- Physical climate risks affecting properties under management (ie flood, fire, seismic);
- Impact of climate risk exposure of the property portfolio on capital allocation decisions; and
- Compliance with new climate reporting obligations.

Climate-related disclosures and environmental regulation

The Group is subject to environmental laws and regulations under Commonwealth, State and Territory legislation applicable to its operations. The Group has processes in place to ensure compliance with applicable environmental regulations and complied with all such regulations during FY26.

The Group will be required to prepare a Sustainability Report in accordance with Corporations Act 2001 (Cth) and AASB S2 Climate-related Disclosures, with its first mandatory reporting period having commenced on 1 July 2026, for the FY2027 reporting year.

The Group intends to release its FY26 voluntary report on climate-related risks and opportunities in October 2026. Prepared in response to certain aspects of AASB S2, the report will highlight the progress made by the Group towards meeting AASB S2 disclosure obligations.

Indemnification of officers and auditor

The Company has agreed to indemnify all current and former directors and executive officers of the Company and its controlled entities against all liabilities to persons (other than the Company or a related body corporate) which arise out of the performance of their normal duties as a director or executive officer unless the liability relates to conduct involving a lack of good faith.

The Company has agreed to indemnify the directors and executive officers against all costs and expenses incurred in defending an action that falls within the scope of the indemnity and any resulting payments.

The directors have not included details of the nature of the liabilities covered or the amount of premium paid in respect of the directors' and officers' liability and legal expenses insurance contracts, as such disclosure is prohibited under the terms of the contracts. The Company has not otherwise, during or since the end of the financial year, except to the extent permitted by law, indemnified or agreed to indemnify an officer or auditor of the Company or any related body corporate against a liability incurred as an officer or auditor.

Non-audit services

During the financial year, KPMG, the Group's auditor, has performed services in addition to the audit and review of the financial statements. Details of amounts paid or payable to KPMG are outlined in Note F3 of the financial statements.

The directors are satisfied that the provision of non-audit services during the year, by the auditor (or by another person or firm on the auditor's behalf) is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The directors are of the opinion that the services as disclosed in the financial statements do not compromise the external auditor's independence, based on advice received from the Audit, Risk & Compliance Committee, for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in the Code of Conduct APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 110.

Rounding of amounts

The Group is an entity of a kind referred to in ASIC Legislative Instrument 2026/183, related to the 'rounding off' of amounts in the Directors' Report and financial statements. Amounts in the Directors' Report and financial statements have been rounded off, in accordance with the instrument to the nearest thousand dollars, unless otherwise indicated.

Nomination and Remuneration Committee Chair's letter

Kristie Brown

CHAIRMAN

Dear Investor,

The Board and the Nomination and Remuneration Committee have remained vigilant in ensuring our remuneration framework continues to support the attraction and retention of capable leadership. Our executives have been, in an environment of persistently low transaction volume, incentivised not only to navigate volatility but also to deliver sustainable outcomes and manage risk responsibly. This reflects our ongoing commitment to remuneration practices that are fair, market-aligned and supportive of long-term value creation.

FY26 performance

FY26 was a year of strong performance across both our established platforms and our newer growth initiatives. The Group delivered Operating EPS of 13.6 cents per security, ahead of original guidance and up approximately 11.5% on the prior year. This was achieved alongside continued growth in Assets Under Management, which reached a new Group record of $22.2 billion at the date of this letter, supported by $1.2 billion of real estate acquisitions during the year and the acquisition of the management rights to Arrow Funds Management, adding approximately $0.4 billion to our growing Agriculture platform.

The Group also completed a $300 million capital raise during the year, comprising a $200 million institutional placement and $100 million accelerated non-renounceable entitlement offer. This raise was overwhelmingly supported and provides additional funding flexibility to accelerate growth across ResetData and our real estate equity and credit platforms. This was complemented by the Group moving to full ownership of Centuria Bass from 25 February 2026, a clear statement of confidence in the trajectory of that business.

ResetData continued to make significant strategic progress during the year and, subsequent to year end, reached a number of important milestones, including a Master Services Agreement with CDC Data Centres for sovereign AI compute capacity and a senior bridge GPU financing facility to support staged NVIDIA GPU procurement. The Committee considers this progress to be an important marker of the strategic optionality ResetData is beginning to create for the Group.

Executive remuneration outcomes

FY26 marks the first year of operation of our redesigned executive remuneration framework, following a comprehensive re-benchmarking of remuneration practices undertaken by the Committee across FY25 and FY26. The Committee is very pleased with how the new structure has performed in its inaugural year. It has sharpened the connection between the returns delivered to securityholders and the rewards received by senior executives, while continuing to hold management to account on the non-financial disciplines that protect long-term value and continue to build the culture and values of the Group.

Under the revised Short-Term Incentive (STI) structure, 80% of the opportunity is now determined by financial performance, comprising Operating Earnings Per Security (EPS) growth (50% weighting), Fund Performance relative to agreed benchmarks (20% weighting), and delivery of major Board-approved projects (10% weighting). The remaining 20% comprises non-financial measures, split evenly between ESG progress and People and Culture outcomes. The Committee believes this structure achieves the alignment we set out to create: a clear majority weighting on the financial metrics that most directly reflect value delivered to securityholders, balanced by continued accountability for the sustainability and culture outcomes that safeguard the Group's long-term prospects.

Reflecting the Group's performance, the Joint CEOs and CFO received 88.4% of their maximum FY26 STI awards, with strong outcomes achieved against the financial measures and full achievement of both non-financial measures. This reflects the first year of the new structure having delivered outcomes that clearly track the underlying performance of the business. Further detail on the STI structure and FY26 outcomes is provided on pages 97-99 of the Remuneration Report.

With respect to Long-Term Incentives (LTI), Tranche 11, covering the three-year performance period to 30 June 2026, vested at 48.86% of grant. This comprised 37.5% vesting of the Relative TSR hurdle (50% of that component's maximum) and 11.35% vesting of the Absolute TSR hurdle (45.4% of that component's maximum). As part of the broader recalibration of our remuneration framework, as disclosed in the 2025 Notice of Meeting, the LTI structure has also been revised for grants from Tranche 13 onward. Compound growth in EPS now carries a 50% weighting, with Relative TSR and Absolute TSR each weighted at 25%.

Following its annual review, and reflecting CPI movement, the Committee approved a 3.5% increase to the base salary of each of the Joint CEOs and the CFO for FY27.

Leadership transition

Subsequent to year end, the Board announced that John McBain will step down as Joint CEO and from his executive role effective the close of Centuria's 2026 AGM, with Jason Huljich to become sole Chief Executive Officer. On behalf of the Committee, I thank John for his substantial contribution to Centuria and welcome his continued involvement as a Non-Executive Director.

Non-Executive Director (NED) Remuneration

NED fees continue to be calibrated against our A-REIT peer group within the S&P/ASX200 to ensure director remuneration remains in line with market norms and reflects the substantial responsibilities each director carries across the Group's various Boards and Committees. In addition to peer calibration, fees are set to ensure the Board continues to attract and retain directors of the highest calibre, while supporting independence and diversity. Consistent with the CPI linked increase applied to executive salaries, the same 3.5% increase has been applied across Non-Executive Director remuneration for FY27.

Thank you

In closing, I would like to thank my fellow Committee members for their diligence and considered contributions throughout what has been a particularly consequential year for Centuria.

I remain committed to open and transparent dialogue with our securityholders and stakeholders on our remuneration policies and framework and look forward to continuing that in the year ahead.

Yours sincerely,

Ms Kristie R. Brown

CHAIR OF THE NOMINATION & REMUNERATION COMMITTEE

Audited Remuneration Report

The Board is pleased to present the Remuneration Report for the period ended 30 June 2026.

This Remuneration Report has been prepared in accordance with section 300A of the *Corporations Act 2001* (Cth) (**Act**) and the applicable *Corporations Regulations 2001* (Cth). The Remuneration Report provides information about the remuneration arrangements for key management personnel (**KMP**), which includes Non-Executive Directors and the Group's Senior Management for the year ended 30 June 2026.

The report is structured as follows:

- Details of KMP covered in this report;
- Remuneration oversight and key principles;
- Remuneration of Senior Management;
- Key terms of employment contracts;
- Non-Executive Director remuneration; and
- Director and Senior Management equity holdings and other transactions.

Details of KMP covered in this report

The following persons had authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, including any Director (whether executive or otherwise) of the Company during the full financial year.

Name	Role	Term
Non-Executive Directors		
Ms Kristie R. Brown	Independent Non-Executive Director and Chair	Full term
Ms Joanne Dawson	Independent Non-Executive Director	Full term
Mr John R. Slater	Independent Non-Executive Director	Full term
Ms Susan L. Wheeldon	Independent Non-Executive Director	Full term
Executive Directors		
Mr John E. McBain	Executive Director and Joint Chief Executive Officer	Full term
Mr Jason C. Huljich	Executive Director and Joint Chief Executive Officer	Full term
Executives		
Mr Simon W. Holt	Chief Financial Officer	Full term

The term 'Senior Management' is used in this remuneration report to refer to the Executive Directors and the Chief Financial Officer.

Nomination and Remuneration Committee (NRC)

The Board has an established Nomination & Remuneration Committee which operates under the delegated authority of the Board of Directors. A summary of the Nomination & Remuneration Committee Charter is included on the Centuria Capital Group website.

The functions of the Committee in respect of remuneration include:

- making recommendations to the Board regarding the remuneration of non-executive members of Centuria's Board, subsidiary boards and committees which shall be reviewed annually;
- an annual review of the KMP remuneration and the application of incentive programs; and
- an annual review of the structure and application of the short-term and long-term incentive schemes and policies for executives and staff.

Additionally, the function of the Committee in respect of Board, Joint CEOs and Senior Executive performance include:

- evaluating the performance of the Board, including Committees and individual Directors;
- assessing the performance of the Joint CEOs and Senior Executives against their key performance indicators; and
- ensuring other human resource management programs, including fit for purpose performance assessment programs.

The following Non-Executive Directors of Centuria are members of the NRC:

- Ms Kristie R. Brown (Non-Executive Director, Chairman of Centuria Capital Limited and Committee Chair);
- Ms Susan L. Wheeldon (Non-Executive Director);
- Mr John R. Slater (Non-Executive Director).

The NRC is tasked by the Board to advise it in relation to remuneration outcomes and it may obtain external professional advice and secure the attendance of advisors with relevant experience if it considers this necessary.

Remuneration policy and link to performance

Group structure

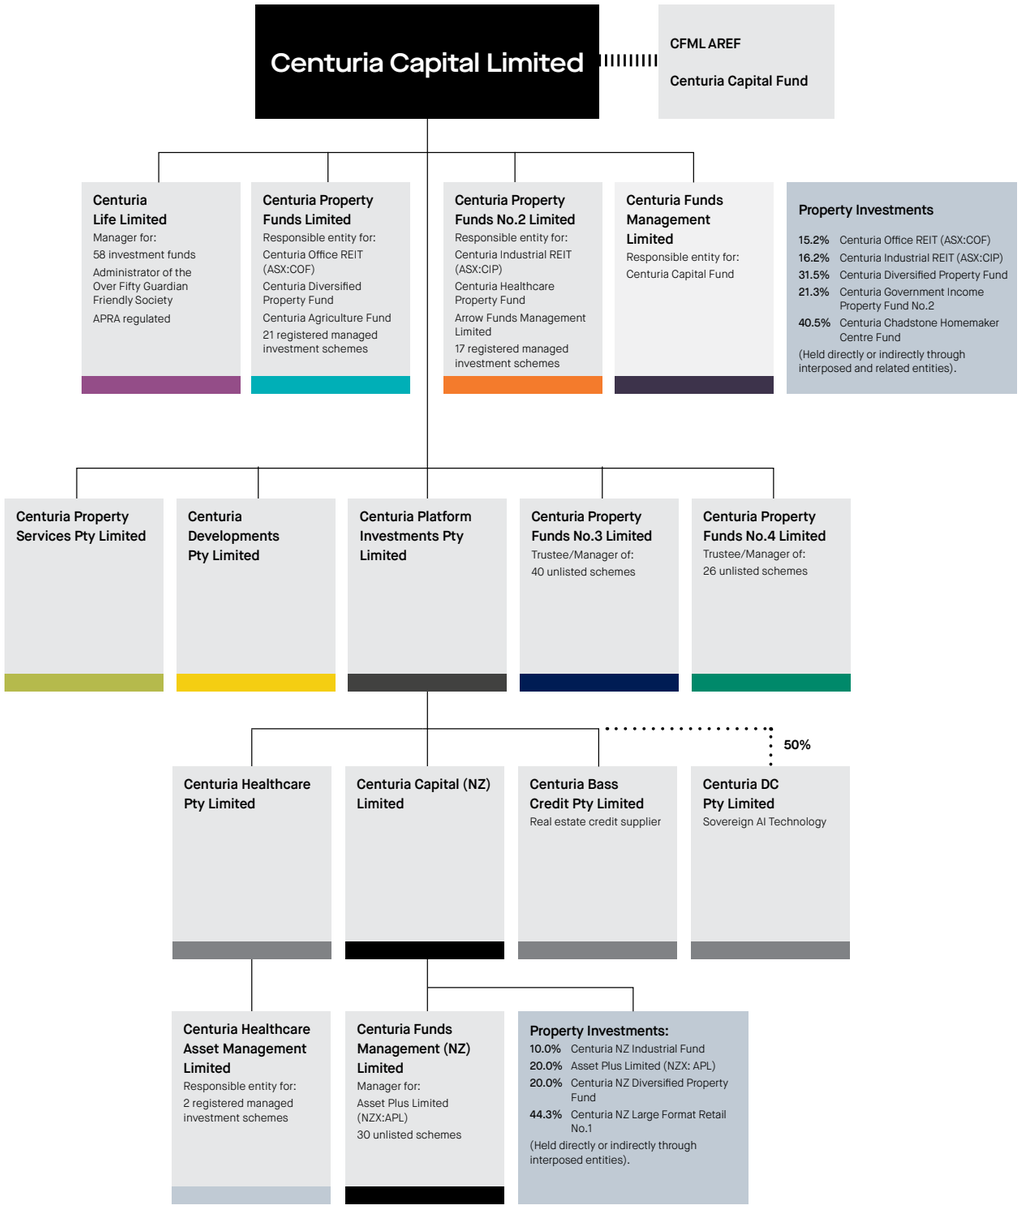

Centuria Capital Group is an ASX-listed specialist investment manager with a 30-year track-record of delivering a range of products and services to investors, advisers and securityholders. Our business now spans across property funds management, development, real estate finance in addition to property investments and investment bonds, with the following key areas of focus:

- Centuria Property Funds which specialises in listed property funds (A-REITs) and unlisted property funds including:
  - listed REITs, Centuria Office REIT (ASX:COF) and Centuria Industrial REIT (ASX:CIP) in Australia;
  - listed property fund in New Zealand, Asset Plus Limited (NZX:APL);
  - Centuria Agriculture Fund;
  - Centuria Diversified Property Fund;
  - Centuria Healthcare Property Fund;
  - Centuria NZ Industrial Fund;
  - 120 closed-end unlisted property funds in Australia and New Zealand;
- Centuria Healthcare property and funds management business;
- Centuria Bass Credit real estate finance business;
- Centuria LifeGoals Investment Bonds; and
- ResetData Sovereign AI Technology.

The Group encompasses a portfolio of wholesale and retail funds, a healthcare business with related wholesale and retail funds, and a New Zealand business with listed and unlisted funds. It is noted that the listed REITs also are not staffed and responsibility for these are managed by the executive team and employees of CNI. The Group structure is outlined on page 90.

The combined market capitalisation of the listed headstock (Centuria Capital Group) and its three listed REITS comprising CIP, COF and APL, is approximately $4.5 billion.

The below group structure only outlines the key operating and management entities of the Centuria Capital Group (note: this is not a full list of controlled entities and associates).

CEO role

The Joint CEO structure was established in 2019 as an important part of the Group's long-term management succession and retention plan. With John McBain's decision to step down as joint CEO and from his executive roles with the Group effective from the close of the 2026 AGM, this structure has achieved its objective successfully with Jason Huljich's appointment as sole CEO of the Group.

The Nomination and Remuneration Committee, as well as the Board, annually review the appropriateness of the CEO remuneration having regard to the position they hold in the real estate funds management industry, their experience and achievements and their delivery of securityholder outcomes. The Committee recommended an increase of 3.5% for the fixed remuneration of the Joint CEOs for FY27.

Remuneration of Senior Management

Remuneration philosophy

The Group acknowledges that its people are integral to executing its business strategy, achieving long-term objectives, as well as sustaining a competitive edge. To grow and be successful across these areas, the Group must be able to attract, motivate and retain capable individuals with exceptional talent, expertise, experience and relationships. Our Group is able to achieve this goal by following our remuneration principles outlined in the table below.

The Group's remuneration principles for senior management are designed to align reward with performance, with the overarching objective of maximising and safeguarding securityholder value across diverse economic conditions. This structure incorporates both short-term and long-term incentive components, ensuring a balanced approach that supports sustainable growth and strategic execution.

Remuneration structure

The table below outlines the Group's remuneration principles, the components of Senior Management's remuneration and the underpinning rationale for each element of the remuneration structure. The Nomination and Remuneration Committee ensures the criteria used to assess and reward staff includes financial and non-financial measures of performance.

Our remuneration principles	
Drive an ownership mentality	**Attract, motivate and retain talent**
Including senior staff in the LTI equity plan to provide a sense of ownership and alignment, as well as distributing securities to all non-LTI staff depending on Group performance.	Ensuring competitive, at-risk rewards are provided to attract and retain the best executive talent.

	Total executive remuneration		
	Fixed	At risk	
Type of remuneration	**Fixed remuneration**	**Short term incentive**	**Long term incentive**
What is the objective?	• Attract and retain key talent • Be competitive • Foster a culture where performance and contribution are respected and valued	• Drive annual financial growth targets and securityholder returns • Reward value creation over a one-year period whilst supporting the long-term strategy • Incentivise desired behaviours in line with the Group's risk appetite • Mandatory significant ownership in the Group's securities within the KMP group	• Support delivery of the business strategy and growth objectives • Incentivise long-term value creation • Drive alignment of employee and securityholder interests

	Total executive remuneration		
	Fixed	At risk	
Type of remuneration	Fixed remuneration	Short term incentive	Long term incentive
How is it set?	Fixed remuneration is set with reference to market competitive rates in comparison to ASX-listed A-REITs for similar positions, adjusted to account for the experience, ability and productivity of the individual employee.	Senior executives participate in the Group's STI plan which is assessed against key areas of financial and non-financial performance that are designed to create an ongoing annual focus on imperative business and operational issues that create the type of Group we all strive towards. Refer to the FY26 STI Scorecard for further details. Required KMP security ownership with the introduction of STI deferral metrics where security ownership is not significant.	Senior executives participate in the Group's LTI plan which is assessed against securityholder returns over a three-year performance period. The significant weighting towards relative TSR in the LTI aligns executive's interests with securityholder outcomes and provides a direct comparison of the Group's performance against their comparator group of peers. Refer to the LTI Structure section for further details.
How is it delivered?	• Base salary • Superannuation • Other eligible benefits salary sacrifice benefits	Awarded in cash or shares at the Board's discretion	Equity with performance assessed over three years (vesting in years three and four)
Opportunity		Joint CEOs • 125% of fixed remuneration at maximum. CFO • 100% of fixed remuneration at maximum.	Joint CEOs • 150% of fixed remuneration at maximum. CFO • 100% of fixed remuneration at maximum.

Executive short term incentive deferral conditions	2026	Rationale
Executive security ownership guidelines	The joint CEOs must hold an equivalent of 200% of their fixed remuneration in the form of equity. The CFO must hold an equivalent of 100% of their fixed remuneration in the form of equity. Any new KMP must accumulate and hold an equivalent of 200% for CEO or 100% for CFO of their fixed remuneration in the form of equity within the first five years from the date of their appointment.	The Board believes that in combination with other remuneration elements, executive share ownership requirements minimise excessive risk taking that might lead to short-term returns at the expense of long-term value creation. In addition, it creates further alignment between individual executive wealth and the long-term performance of the Group.
STI deferral	Should the executive's share ownership fall below the required limit, the company will defer 25% of the vested STI in the form of equity for a period of one year, or longer if required to meet the threshold for ownership in Group.	The Board believes that the Joint CEOs and CFO are sufficiently aligned with the securityholders through their significant ownership in the Group's securities (each of the Joint CEOs holds approximately 0.7% of issued capital). In addition, they all participate in the LTI plan, with an opportunity to receive additional equity subject to meeting performance criteria. The Board has considered the STI deferral in light of the market practice and determined that due to the above reasons, a more onerous STI deferral is not appropriate at the current time.
Clawback	The clawback provisions, as described under LTI plan on page 101, will also apply to the deferred portion of the STI.	The Board is of the view that clawback policies continue to be appropriate for Centuria at this stage and will minimize the potential for excessive risk taking.

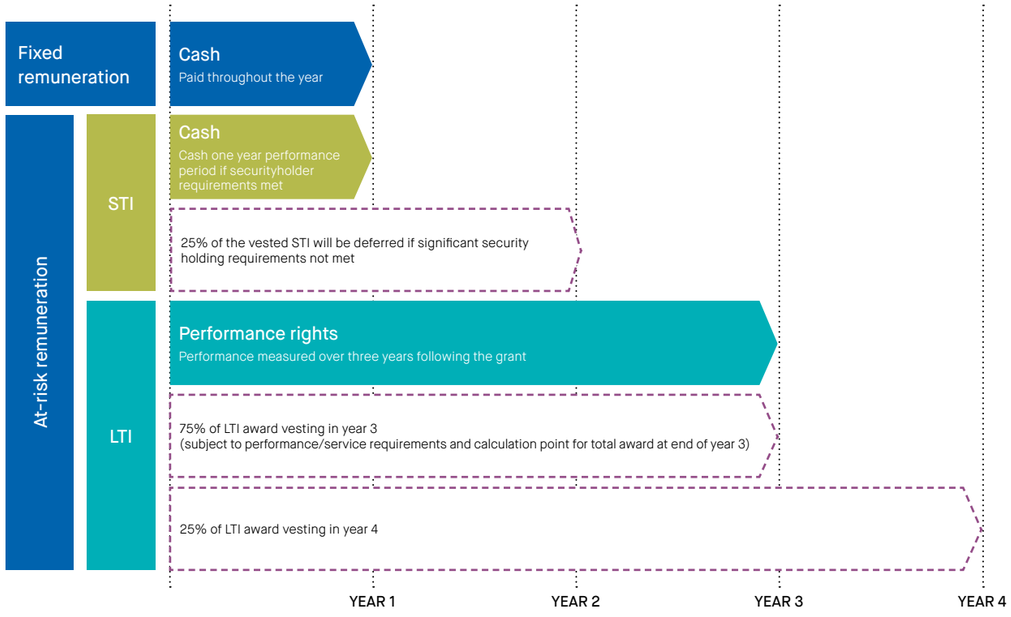

LISTED: 310 SPEARWOOD AVENUE, BIBRA LAKE WA

Delivery of FY26 executive remuneration components

The diagram below outlines the payment/delivery timing of each element of executive remuneration.

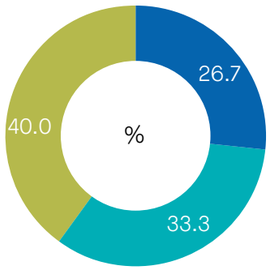

When are the key FY26 remuneration components earned and received?

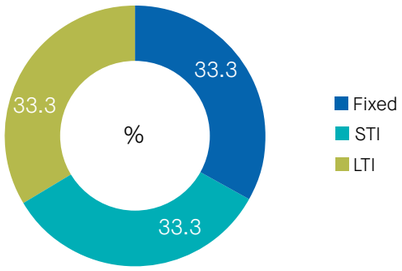

Remuneration mix

Remuneration packages include a mix of fixed and variable remuneration and short and long-term performance-based incentives.

Potential Joint CEO remuneration mix (at maximum opportunities)

Potential CFO remuneration mix (at maximum opportunities)

Remuneration benchmarking

The Committee believes it is critical to understand the relevant market for key executive talent in order to ensure the Group's remuneration strategy and frameworks support the guiding principle which is to attract, motivate and retain capable individuals with exceptional talent, expertise, experience and relationships.

The Committee regularly reviews the composition of the benchmarking peer groups to ensure they continue to represent appropriate reference points for establishing total remuneration for the Group's executives. In general, the Committee considers companies with similarities to the Group on one or more of the following characteristics:

- similar industry or comparable lines of business;
- operate in multiple geographies;
- similar number of employees;
- similar revenue or AUM ($22.2 billion as at 30 June 2026) with a complex and diverse structure across a range of unlisted and listed vehicles; and
- similar market capitalisation on the ASX (using the combined market capitalisation for CNI, CIP, COF and APL of approximately $4.5 billion, for benchmarking purposes).

The Committee reviews benchmarking data for a broad set of ASX-listed A-REIT peers that exhibit the above characteristics, however, it considers the following ASX-listed entities to be the most comparable peers for the Group and represent our main source of competition for executive talent:

- Charter Hall Group (ASX: CHC);
- Goodman Group (ASX: GMG);
- Stockland (ASX: SGP);
- Mirvac Group (ASX: MGR);
- Dexus (ASX: DXS);
- GPT Group (ASX: GPT);
- Scentre Group (ASX: SCG); and
- Vicinity Centres (ASX: VCX).

Whilst benchmarking data is used as one input into remuneration decisions, the Committee also considers various fundamental factors including:

- the size and complexity of the role, including geographical reach including offshore responsibilities;
- the criticality of the role to successful execution of the Group's business strategy;
- skills and experience of the individual;
- period of service;
- surrounding market conditions and sentiment;
- the Group's growth trajectory; and
- the Group's multi jurisdictional operating structure.

Historical performance, securityholder wealth and remuneration

Financial performance

The Group's overall objective is to reward executive directors and senior management based on the Group's performance and build on securityholders' wealth, but this is subject to market conditions for the year.

The table below sets out summary information about the Group's earnings for the past five years.

Five-year summary	30 June 2026	30 June 2025	30 June 2024	30 June 2023	30 June 2022
Operating profit after tax attributable to CCG securityholders ($'000)	113,773	100,841	94,659	115,588	114,510
Statutory profit after tax attributable to CCG securityholders ($'000)	56,514	82,697	102,143	105,920	(37,852)
Share price at start of year	$1.685	$1.65	$1.65	$1.81	$2.78
Share price at end of year	$1.93	$1.685	$1.65	$1.65	$1.81
Interim dividend	5.2 cps	5.2 cps	5.0 cps	5.8 cps	5.5 cps
Final dividend	5.2 cps	5.2 cps	5.0 cps	5.8 cps	5.5 cps
Statutory basic earnings per Centuria Capital Group security	6.7 cps	10.0 cps	12.6 cps	13.3 cps	(4.8)cps
Operating basic earnings per Centuria Capital Group security	13.6 cps	12.2 cps	11.7 cps	14.5 cps	14.5 cps
Joint CEO STI outcome (% of maximum)	88%	91.5%	92%	88%	100%
Joint CEO LTI outcome (% of vesting of grant)	48.86%	0%	0%	0%	25%
CFO STI outcome (% of maximum)	88%	91.5%	92%	90%	100%
CFO LTI outcome (% of vesting of grant)	48.86%	0%	0%	0%	25%

Total securityholder return (TSR)

Centuria Capital is a constituent of the S&P/ASX200 index.

Due to the factors set out on page 95 and subject to the qualification also outlined, the Group considers the following ASX-listed entities as its most comparable peers which forms the basis of its remuneration benchmarking exercises:

- Charter Hall Group (ASX: CHC);
- Goodman Group (ASX: GMG);
- Stockland (ASX: SGP);
- Mirvac Group (ASX: MGR);
- Dexus (ASX: DXS);
- GPT Group (ASX: GPT);
- Scentre Group (ASX: SCG); and
- Vicinity Centres (ASX: VCX).

The table below highlights Centuria's performance against the nominated A-REIT peers, the broader S&P/ASX200 Index and the S&P 200 A-REIT Index.

Total shareholder return – selected peers summary

	Annualised total shareholder return (1 July 2023 to 30 June 2026)
Centuria Capital Group	**11.36%**
Peer 1	32.56%
Peer 2	19.28%
Peer 3	18.18%
Peer 4	16.85%
Peer 5	11.16%
Peer 6	5.82%
Peer 7	(3.96)%
Peer 8	(6.07)%

Fixed remuneration

Fixed remuneration consists of base remuneration (which is calculated on a total cost basis and includes any FBT charges related to employee benefits), as well as employer contributions to superannuation funds.

For senior management excluding the Joint CEOs, this is reviewed annually by the Joint CEOs and the Nomination and Remuneration Committee. The process consists of a review of Group, business unit and individual performance as well as relevant comparative remuneration in the market. The same process is used by the Nomination and Remuneration Committee when reviewing the fixed remuneration of the Joint CEOs.

Senior Management are given the opportunity to receive their fixed remuneration in a variety of forms including cash and salary sacrifice items, as motor vehicle allowances and/or additional superannuation contributions.

Short term incentives (STI)

The objective of the STI program is to link the achievement of the Group's non-financial and financial targets with the remuneration received by senior management accountable for meeting those targets. The potential STI available is set at a level to provide sufficient incentive for senior management to achieve operational targets and such that the cost to the Group is reasonable in the circumstances.

STI structure

FY26 STI plan structure

Performance period	12 months	
Opportunity	Joint CEOs	125% of total fixed remuneration at maximum.
	CFO	100% of total fixed remuneration at maximum.
How the STI is paid	STI awards may be settled in either cash and/or shares at the Board's discretion.	
Performance measures and conditions	Financial measures (80%)	Operating earnings per share (EPS growth) Fund performance Major project delivery
	Non-financial measures (20%)	Sustainability People and Culture
How are STI targets set?	In determining STI hurdle targets, the following factors are considered by the Committee and Board: Financial: • Performance of peer fund managers over a range of asset classes. • Direct returns from asset classes, in particular property, equities and fixed interest. • Outlook for financial markets including fixed interest returns. • Effect of financial market views on asset values e.g. cap rate compression or expansion. • Performance of Centuria compared to other peer managers. • Quality of Centuria's financial products compared to market and how contemporary they are in this context. Non-financial: • Performance of the Group in developing and implementing sustainability, governance and risk management initiatives and frameworks that align to our strategy, reflect regulatory requirements and benchmarks, protect and further build our license to operate, and consider sustainability performance of peer fund managers. • Performance of the Group in terms of employee engagement using external platforms, compared with real estate industry benchmarks. • Performance of the Group across measures including demographic representation, promotion and advancement rates, retention and turnover rates compared with industry benchmarks, peers and progressive year on year improvement.	
How is the STI assessed?	At the Board's absolute discretion, the Group's Senior Management may be provided with the opportunity to receive an annual, performance-based incentive. The Nomination and Remuneration Committee assesses annually the individual scorecards of participants against the KPIs in determination of the annual STI outcome. The 'STI Achieved' section outlines the overall scorecard outcomes for FY26.	
What happens when an executive ceases employment?	If a participant ceases to be employed by the Group before the end of the performance period, whether all, none or a portion of the participant's STI will be granted is at the Board's absolute discretion having regard to, amongst other things, the participant's tenure and the circumstances of their cessation.	
Is there a KMP minimum securityholder requirement?	Yes. The Joint CEOs must hold an equivalent of 200% of their fixed remuneration in the form of equity. The CFO must hold an equivalent of 100% of his fixed remuneration in the form of equity. Any new KMP must accumulate and hold an equivalent of 200% for CEO and 100% for CFO of their fixed remuneration in the form of equity within the first five years from the date of their appointment.	
Is there any STI deferral?	Yes, if the minimum ownership of security holdings is not met by the KMPs, 25% of the vested STI will be deferred in the form of equity for a period of one year, or longer if required to meet the threshold for ownership in the Group.	
Malus and clawback	In the event of fraud, dishonesty or material misstatement of financial statements, the Board may make a determination, including 'clawing back' of all deferred STIs, to ensure that no unfair benefit is obtained by a participant.	

FY26 performance measures and objectives

FY26 STI scorecard performance hurdle	Weighting	Rationale for use	Target criteria	Outcomes
Financial metrics				
Operating EPS	50%	Ensures continued focus on growing and managing the profitability of the business as a key driver of sustainable securityholder returns.	Target: Guidance of 13.4 cps, resulting in 100% of the award being granted.	Operating profit of 13.6 cps was reached. Target achieved.
Fund performance	20%	Provides alignment to the Group's growth strategy.	Target: Performance of Funds and Partnerships relative to agreed benchmarks, with high water mark per Fund to meet target.	Fund performance was mixed across the portfolio, with some funds meeting or exceeding their agreed benchmarks, while others fell short. Partial target achieved.
Major project delivery	10%	Demonstration of initiative which leads to a material financial benefit to the Group.	Target: Delivery of Board approved major projects	Successfully completed a $300m capital raise and the Arrow Fund Management acquisition which added considerably both to FUM and our investor base. Partial target achieved.
Non-financial metrics				
ESG	10%	Provides alignment to the sustainability framework: 'valued stakeholders', 'responsible business principles' and being 'conscious of climate change'.	Targets: Progress decarbonisation approach for Centuria's scope 1 and scope 2 sustainability targets.	Target achieved. • Renewable energy infrastructure procurement agreement executed across the portfolio. • Electrification roadmap developed for non-electrified COF assets to support the 2035 target. • New environmental data capture and tracking platform implemented.
			Progress climate-related disclosures.	Target achieved. • Completed business impact assessment initiative. • Draft disclosure reports developed and external gap assessment completed against climate-related disclosure requirements.
			Progress social initiatives.	Target achieved. • Total procurement spend on TwoGood products has increased to c.$100k (up from c.$80k in FY25). • New supplier ESG (incl. Modern Slavery) early assessment platform implemented. • Mandatory modern slavery training rolled out to all Centuria employees.
People and culture	10%	A motivated and engaged workforce will drive positive business.	Maintenance of Centuria's values and cultural strength measured against employee sentiment, systemic engagement risks, comparison against agreed benchmarks.	Target achieved. • overall engagement score for FY26 was 13% higher than standard Culture Amp comparable benchmarks–Australian Companies 200-500 employees and 10% above Australian real estate.[1] • Risk awareness culture embedded and sustained. • Retention and succession outcomes positive across employees and senior management • Favourable Learning and Development outcomes.

1. Employee engagement is measured as a score through a bi-annual Group-wide survey conducted independently through "Culture Amp" and supported by an independent consultant who reported directly to the CNI Board.

STI achieved

The table below outlines the percentage of target STI achieved (and forfeited) in relation to financial and non-financial KPIs, and the total STI awarded, for each executive in 2026.

	STI on	Financial			Non-financial			
Executive	**maximum opportunity**	**Weighting**	**Achieved**	**Forfeited**	**Weighting**	**Achieved**	**Forfeited**	**STI awarded**
John McBain (Joint CEO)	$2,018,250	80%	85.5%	14.5%	20%	100%	0%	$1,784,133
Jason Huljich (Joint CEO)	$2,018,250	80%	85.5%	14.5%	20%	100%	0%	$1,784,133
Simon Holt (CFO)	$876,219	80%	85.5%	14.5%	20%	100%	0%	$774,578

The FY26 STI awarded has not been deferred since the minimum executive security ownership requirements have been met throughout the year.

Long term incentives (LTI)

The Group has an Executive Incentive Plan (**LTI Plan**) which forms a key element of the Group's incentive and retention strategy for Senior Management under which Performance Rights (Rights) are issued.

The primary objectives of the LTI Plan include:

- focusing executives on the longer term performance of the Group to drive long term securityholder value creation;
- ensure Senior Management remuneration outcomes are aligned with securityholder interests, in particular, the strategic goals and performance of the Group; and
- ensure remuneration is competitive and aligned with general market practice by ASX listed entities.

Rights issued under the LTI Plan are issued in accordance with the thresholds approved at the Annual General Meeting (AGM).

LTI structure

LTI plan structure

Performance period	Three year performance with 75% of any LTI award vesting in Year 3 with the remaining 25% vesting in Year 4.		
Opportunity		Tranche 10 (F23 LTI) Tranche 11 (FY24 LTI) Tranche 12 (FY25 LTI)	Tranche 13 (FY26 LTI)
	Joint CEOs	125% of total fixed remuneration at maximum.	150% of total fixed remuneration at maximum.
	CFO	95% of total fixed remuneration at maximum.	100% of total fixed remuneration at maximum.
Instrument	Performance Rights. The allocation of the LTI grants is on a face value basis using the volume weighted average price of the Group's securities over the five ASX trading days immediately preceding 1 July of the grant year (being the date of the commencement of the performance period). Each Performance Right is a right to acquire one Security in the Group (or an equivalent cash amount), subject to the achievement of the 'performance hurdles' set out below.		
Performance metrics (Tranche 10 to 12 inclusive)	**Relative total securityholder return (RTSR) (75%)**	**RTSR (compounded) when ranked to the comparator group of S&P/ASX 200 A-REIT Accumulation Index stocks over the performance period**	**Performance Rights subject to RTSR hurdle that vest**
		Exceeds the comparator group 75th percentile	100%
		More than the comparator group 50th percentile and less than 75th percentile	Between 50% to 100% progressive pro-rata vesting (i.e. on a straight-line basis)
		Equal to the comparator group 50th percentile	50%
		Less than the comparator group 50th percentile	0%
	Absolute total securityholder return (ATSR) (25%)	Annual ATSR achieved over the performance period	Performance rights subject to ATSR Hurdle that vest
		15% or greater	100%
		Between 10% and 15%	Between 25% to 100% progressive pro-rata vesting (i.e. on a straight-line basis)
		10%	25%
		Less than 10%	0%
Performance metrics (Tranche 13)	**Compound growth in EPS (50%)**	Compound EPS growth over the performance period	Performance Rights subject to Compound EPS growth that vest
		9% or greater	100%
		Between 6% and 9%	Between 25% to 100% progressive pro-rata vesting (i.e. on a straight-line basis)
		6%	25%
		Less than the 6%	0%
	Absolute total securityholder return (ATSR) (25%)	Annual ATSR achieved over the performance period	Performance Rights subject to ATSR Hurdle that vest
		10% or greater	100%
		Between 8% and 10%	Between 25% to 100% progressive pro-rata vesting (i.e. on a straight-line basis)
		8%	25%
		Less than 8%	0%

LTI plan structure

Performance metrics (Tranche 13)	**Relative Total Securityholder Return (RTSR) (25%)**	RTSR (compounded) when ranked to the comparator group of S&P/ASX 200 A-REIT Accumulation Index stocks over the performance period	Performance Rights subject to RTSR Hurdle that vest
		Exceeds the comparator group 75th percentile	100%
		More than the comparator group 50th percentile and less than 75th percentile	Between 50% to 100% progressive pro-rata vesting (i.e. on a straight-line basis)
		Equal to the comparator group 50th percentile	50%
		Less than the comparator group 50th percentile	0%
Rationale for the performance metric and conditions	Compound EPS growth demonstrates earnings provided to security holders consistently over a period of time. Both the RTSR and ATSR measure the return securityholders would earn if they held a notional number of securities over a period of time. RTSR provides a relative measure of growth in the Group's security price in comparison to relative peers selected from the S&P/ASX200 A-REIT accumulation index. ATSR provides an absolute measure of growth in the Group's security price. The ATSR target is determined with reference to the following factors which can impact future performance: • performance of peer fund managers over a range of asset classes; • direct returns from asset classes in particular property, equities and fixed interest; • outlook for financial markets including fixed interest returns; • effective financial market views on asset values e.g. cap rate compression or expansion; • performance of Centuria compared to other peer managers; and • quality of Centuria's financial products compared to market and how contemporary they are in this context. By combining Compound EPS growth with a RTSR and ATSR measure, executives can be rewarded for driving positive returns and investors have the confidence that interests are aligned with long-term business growth and the creation of securityholder wealth. The inclusion of an ATSR metric has been designed to counter-balance RTSR outcomes which may vest when overall market conditions are down.		
What happens when an executive ceases employment?	If a participant ceases to be employed by the Group before the end of the Performance Period, whether the Performance Rights lapse will depend on the circumstances of cessation. Any unvested Performance Rights will be treated as follows, unless the Board determines otherwise: • In circumstances of resignation or termination for cause, all unvested Performance Rights lapse. • In all other circumstances, all unvested Performance Rights will neither vest nor lapse. The terms applicable to the Performance Rights will continue to apply, meaning they will be tested at the end of the applicable period and vest to the extent the conditions have been satisfied.		
Malus and clawback	In the event of fraud, dishonesty or material misstatement of financial statements, the Board may make a determination, including lapsing unvested Performance Rights or 'clawing back' securities allocated upon vesting, to ensure that no unfair benefit is obtained by a participant.		
Dividends and voting rights	Rights do not carry a right to vote or to dividends or, in general, a right to participate in other corporate actions such as bonus issues.		
Re-testing	Awards are tested once, at the end of the performance period of three years. There is no further retesting of the performance conditions.		
Change of control provisions	If a change of control event occurs, the Board has the discretionary power to determine whether any unvested Performance Rights should ultimately vest, lapse or become subject to different vesting conditions. In making such a determination, the Board may have regard to any factors that the Board considers relevant, including the period elapsed, the extent to which the vesting conditions have been satisfied and the circumstances of the event.		
What LTI tranches does this plan apply to?	Tranches 10 to 13 as noted below.		

LTI grants

During FY26, the Group had four tranches, of which Tranche 10 was tested and fully forfeited. Three tranches remained outstanding at year end, as per the below:

Tranche	Grant date (Joint CEOs)	Grant date (other participants)	Performance period
10	5 December 2022	12 August 2022	1 July 2022 to 30 June 2025 (vested 20 August 2025 - tranche fully forfeited)
11	4 December 2023	30 August 2023	1 July 2023 to 30 June 2026
12	4 December 2024	28 August 2024	1 July 2024 to 30 June 2027
13	11 December 2025	25 September 2025	1 July 2025 to 30 June 2028

The table below outlines Rights which were previously granted to Senior Management and testing against those conditions.

	Held at 1 July 2025	Rights granted during the year	Rights vested and exercised during the year	Rights forfeited during the year	Rights held at 30 June 2026	Grant date	Fair value to be expensed in future periods ($)

- The Tranche 13 Relative TSR fair value are $1.34 (three-year vesting) and $1.28 (four-year vesting) for Joint CEOs and $1.45 (three-year vesting) and $1.38 (four-year vesting) for CFO.
- The Tranche 13 Absolute TSR fair value are $1.22 (three-year vesting) and $1.16 (four-year vesting) for Joint CEOs and $1.33 (three-year vesting) and $1.26 (four-year vesting) for CFO.
- The maximum value of the rights yet to vest is the fair value amount at grant date yet to be reflected in the Group's consolidated income statement. The minimum future value is $NIL as the future performance conditions may not be met.

Key terms of employment contracts

Joint Chief Executive Officers

Mr John E. McBain, was appointed as CEO of the Group in April 2008. Mr Jason C. Huljich, was appointed as Joint CEO of the Group in June 2019. Mr John E. McBain and Mr Jason C. Huljich are employed under contract. The summary of the major terms and conditions of their employment contracts are as follows:

- Fixed compensation plus superannuation contributions.
- Car parking within close proximity to the Group's office.
- Eligible to participate in the bonus program determined at the discretion of the Board.
- The Group may terminate their employment contract by providing six months written notice or provide payment in lieu of the notice period plus an additional six months. Any payment in lieu of notice will be based on the total fixed compensation package.
- The Group may terminate their employment contract at any time without notice if serious misconduct has occurred. When termination with cause occurs, the Joint Chief Executive Officers are only entitled to remuneration up to the date of termination.

The Nomination and Remuneration Committee ensures severance payments due to the Joint Chief Executive Officers on termination are limited to pre-established contractual arrangements which do not commit the Group to making any unjustified payments in the event of non-performance.

Other Senior Management (standard contracts)

All Senior Management are employed under contract. The Group may terminate their employment agreement by providing three months written notice or providing payment in lieu of the notice period (based on the total fixed compensation package).

Summary of achieved forfeited STI and Tranche 10 LTI

The table below outlines the percentage of target STIs and LTIs achieved and forfeited in relation to the financial and non-financial KPIs, and the total awarded for each executive for the financial year 30 June 2026.

Short term incentives Maximum opportunity	**John McBain FY25 maximum STI $2,018,250**		**Jason Huljich FY25 maximum STI $2,018,250**		**Simon Holt FY25 maximum STI $876,219**

	2025	4,047,160	4,468,027	72,811	1,973,828	10,561,826

1. KMP fees are paid as cash and are inclusive of superannuation contributions which are paid in accordance with the applicable superannuation legislation. KMPs are not entitled to retirement benefits other than superannuation. Total fees for each KMP disclosed in the table above include superannuation contributions as follows:
   - Mr John E. McBain $30,000 (2025: $29,932)
   - Mr Jason C. Huljich $30,000 (2025: $29,932)
   - Mr Simon W. Holt $30,000 (2025: $29,932)

Non-Executive Director remuneration

Objective

The Board seeks to set aggregate remuneration at a level that provides the Group with the ability to attract and retain Directors of the highest calibre, whilst incurring a cost that is acceptable to securityholders. Non-executive directors receive appropriate remuneration to:

- attract and retain the requisite talent;
- reflect the complexity of the Group structure and the time commitment associated with oversight of multi-faceted operating entities within the Group;
- reflect the risk and responsibility accepted by the Non-Executive Directors and their commercial expertise; and
- align the Non-Executive Directors with securityholders, not providing any disincentive to take independent action.

Structure

The Constitution and the ASX Listing Rules specify that the aggregate remuneration of Non-Executive Directors shall be determined from time to time by a general meeting. An amount not exceeding the aggregate amount determined is then divided between the Directors as agreed. An aggregate maximum amount of not more than $2,000,000 per year was approved at the 2017 Annual General Meeting.

Each Director receives a fee for being a Director of Group companies and generally an additional fee is paid to the Chair and to the member of each Board Committee. Non-Executive Directors do not receive equity as a form of payment.

As highlighted on page 90, the Centuria structure, whilst not unique, comprises multiple operating entities, both listed and unlisted. These include CNI, COF, CIP, Centuria Life, Centuria Healthcare, Centuria New Zealand, Centuria WA, Centuria Bass Credit and Centuria DC. Each Board has specific requirements and obligations.

Details of Boards and Board Committees

Centuria Capital Limited

The Board of Centuria Capital Limited sets the strategic direction and objectives of the Group. Through its regular monthly board meetings, as well as the many transaction specific meetings, it oversees the performance of the executive management team in delivering against the strategic goals across the entire operations of the Group.

The Board of Centuria Capital Limited and the Board of Centuria Funds Management Limited, as the responsible entity of the Centuria Capital Fund, oversee and govern the complex stapled Group structure (ASX:CNI). Where appropriate, meetings take place concurrently for maximum efficiency.

Board committees chaired by independent Non-Executive Directors and established by the Centuria Capital Limited Board provide a forum for greater oversight of the governance requirements of the organisation.

Centuria Funds Management Limited

The Centuria Funds Management Limited Board concurrently with the Centuria Capital Limited Board and as the responsible entity of the stapled Centuria Capital Fund, provides oversight over management decision making, particularly in relation to the various co-investment stakes. This includes associated capital raisings and borrowings through facilities and note issuances in the market. Centuria Funds Management Limited holds an Australian Financial Services Licence that enables it to provide a wide range of financial products and investment advisory services as well as being the trustee of the Centuria Capital No. 2 Fund which was the issuer of listed redeemable debt notes (ASX:C2FHA). The redeemable notes were fully redeemed on 20 October 2025.

Centuria Capital Fund is a fund that has each of its units stapled to Centuria Capital Limited shares, with the two securities traded alongside each other as a single instrument (ASX:CNI). The Centuria Capital Fund (CCF) holds various strategic co-investment stakes primarily in listed and unlisted funds managed by Centuria. CCF through its subsidiaries is also the vehicle through which the group:

- undertakes both long-term and short-term investment decisions;
- supports the establishment of new funds through the provision of initial seed capital;
- provides underwriting support as and when required;
- undertakes equity raisings; and
- raises finance through various external facilities and the issuance of both listed and unlisted notes.

Centuria Life Limited

Centuria Life Limited is an APRA regulated entity and is the vehicle through which the Centuria Capital Group issues and offers its full suite of Investment Bond products in addition to providing investment management and administration services to Over Fifty Guardian Friendly Society Limited (Guardian). Centuria Life has approximately $1.0 billion in assets under management. With the great majority of the products offered by the business having daily unit pricing, it requires the application of strict governance and compliance systems and processes to meet regulatory requirements in addition to the continuous monitoring of Board and APRA mandated capital adequacy requirements.

Centuria Healthcare Pty Limited

Centuria Healthcare Asset Management Limited, one of this company's various subsidiaries is the Responsible Entity for a number of unlisted healthcare registered schemes and provides extensive property, funds management and development management services across a range of established healthcare assets and development opportunities.

Centuria Property Funds Limited

Centuria Property Funds Limited (CPFL) is the responsible entity of the ASX listed Centuria Office REIT (ASX:COF), the responsible entity of the open ended fund Centuria Diversified Property Fund and Centuria Agriculture Fund, and twelve closed ended registered schemes with over $5.7 billion total assets under management. CPFL is also regulated by ASIC to provide Custodian Services to various property funds. The Board must ensure that CPFL continually meets its obligations as an Australian Financial Services Licence holder including capital adequacy, minimum net tangible asset, liquidity and cashflow testing requirements.

Centuria Property Funds No. 2 Limited

Centuria Property Funds No.2 Limited (CPF2L) is the responsible entity of the ASX listed Centuria Industrial Fund (ASX:CIP) and the responsible entity of the open ended Centuria Healthcare Property Fund and six closed ended registered schemes with over $3.9 billion total assets under management. CPF2L is also regulated by ASIC to provide Custodian Services to various property funds. The Board must ensure that CPF2L continually meets its obligations as an Australian Financial Services Licence holder including capital adequacy, minimum net tangible asset, liquidity and cashflow testing requirements.

Audit, Risk and Compliance Committee

The CNI Board has an established Audit, Risk and Compliance Committee to assist in relation to audit, risk management and compliance oversight responsibilities, ensuring the integrity of the Group's financial reporting and compliance with statutory and regulatory obligations mandated by ASIC and prudential requirements governed by APRA. This Committee meets on a quarterly basis and is also accountable for assessing the effectiveness of the Group's Risk Management Framework and ensuring there is a continuous process for the management of significant risks throughout the Group.

Conflicts Committee

Identifying and addressing all matters involving conflicts of interest, whether actual or perceived is the cornerstone of good corporate governance. The Board of Centuria Capital Group has established a Conflicts Committee to review and assess specific arrangements proposed to manage conflicts as and when they arise. The Committee has an independent Chairman, Professor Simon Rice AO, and its members are all independent Non-Executive Directors from within the Group. Meetings take place whenever required to provide the Board of the relevant Centuria entity with guidance on whether the measures proposed, if properly implemented, are adequate to manage the conflict. Amongst its A-REIT peers in the S&P/ASX200, Centuria is the only company to have such a committee.

Nomination and Remuneration Committee

The Nomination and Remuneration Committee is tasked with ensuring that the Boards of the various Centuria Group entities comprise of members with the appropriate mix of skills, tenure, experience, training and diversity to provide the right balance of stewardship and oversight on behalf of its stakeholders. The Committee is also tasked with providing appropriate governance and monitoring of the Group's remuneration policies, adherence to codes of conduct as well as advice with respect to the appropriate quantum and structure of remuneration for Senior Management and staff. The aim of the Nomination & Remuneration Committee is to ensure the appropriate balance of risk and rewards for staff whilst ensuring appropriate stewardship of the Group's resources on behalf of its stakeholders.

Culture and ESG Committee

The Culture and ESG Committee was established by the Board as a result of the Board's recognition of the importance of ESG to the long-term sustainability of the Group and the increasing relevance to Centuria's investors as the Group grows. The Board also recognised the Group's responsibility to the community in which it operates and as such, established the Committee to assist the Board in fulfilling its oversight responsibilities and to make recommendations on matters pertaining to culture and environmental, social and governance.

Investment Committees

Centuria Capital Group has various investment committees to oversee the relevant entity's investment and portfolio management practices to ensure they are in line with the risk and return requirements of its investors, as well as ensuring that investment decisions are made in accordance with the appropriate regulatory requirements. The Centuria Life and Over Fifty Guardian Friendly Society Investment Committees in particular monitor fund rules and target achieving the long-term strategic objectives of investors.

Non-Executive Director – statutory remuneration table

In line with our commitment to transparency and stakeholder engagement, the following table outlines total fees paid to Non-Executive Directors (NEDs) for FY25 and FY26. These fees continue to be benchmarked against A-REIT peers within the S&P/ASX200 to ensure they remain competitive and reflective of the significant responsibilities held by each director across the various Boards and Committees.

The table below presents a consolidated and accessible view of total remuneration, encompassing fees paid to NEDs for 2025 and 2026 across the full ambit of Boards, Committees as well as operating entities of the Group. All the fees below include superannuation.

Non-Executive KMP	Year	Total fees[1] $
Ms Kristie R. Brown[2]	**2026**	**463,680**
	2025	325,553
Ms Joanne Dawson	**2026**	**185,384**
	2025	179,113
Mr John R. Slater	**2026**	**266,490**
	2025	257,475
Ms Susan L. Wheeldon	**2026**	**162,211**
	2025	167,918
Mr Garry S. Charny[3]	**2026**	**-**
	2025	590,588
Total	**2026**	**1,077,765**
	2025	1,520,647

1. Board and Board Committee fees are paid as cash and are inclusive of superannuation contributions which are paid in accordance with the applicable superannuation legislation. Non-Executive Directors are not entitled to retirement benefits other than superannuation. Total fees for each Non-Executive Director disclosed in the table above include superannuation contributions as follows:
   - Ms Kristie R. Brown $30,000 (2025: $24,084)
   - Mr John R. Slater $28,552 (2025: $6,163)
   - Ms Susan L. Wheeldon $17,380 (2025: $17,319)
   - Ms. Joanne Dawson $19,862 (2025: $21,937)
   - Mr Garry S. Charny $0 (2025: $12,472)
2. Ms Kristie R. Brown was appointed to Chair of the Centuria Capital Board on 29 November 2024.
3. Mr Garry S. Charny resigned from the Board on 29 November 2024.

The following presentation outlines the roles undertaken by each NED across various subsidiary boards and board committees. All Centuria Capital Limited Board and Committee appointments including Chair and Member positions represent group wide accountabilities which extend across Audit Risk and Compliance, Conflicts, Culture and ESG as well as Nomination and Remuneration appointments across the entire platform and all controlled subsidiaries.

Lead Auditor's independence declaration

KPMG

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of Centuria Capital Limited

I declare that, to the best of my knowledge and belief, in relation to the audit of the financial report of Centuria Capital Group for the year ended 30 June 2026 there have been:

i. no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and

ii. no contraventions of any applicable code of professional conduct in relation to the audit.

KPMG

1. Included within stapled securities at 30 June 2026 are 132,668,067 stapled securities allotted under the institutional placement, institutional entitlement offer and early retail acceptance component of the Centuria Capital Group's accelerated entitlement offer.

Subscription proceeds relating to these securities were received prior to 30 June 2026 and all contractual requirements in relation to the application, receipt of funds and allotment of the securities completed as at 30 June 2026.

Whilst these securities were not quoted for trading on the ASX as of 30 June 2026, official quotation and commencement of trading occurred on 1 July 2026. Accordingly, the securities were included within issued capital of the Group at reporting date and became tradeable on the ASX on the following date. Refer to Note C14 for further details.

The above consolidated statement of changes in equity should be read in conjunction with the accompanying notes.

The above consolidated statement of cash flows should be read in conjunction with the accompanying notes.

Notes to the financial statements

For the year ended 30 June 2026.

A About the report

A1 General information

The shares in Centuria Capital Limited, (the Company) and the units in Centuria Capital Fund (CCF) are stapled and trade together as a single stapled security (Stapled Security) on the ASX as 'Centuria Capital Group' (the Group) under the ticker code 'CNI'.

The Group is a for-profit entity and its principal activities are the marketing and management of investment products including property investment funds and friendly society investment bonds, co-investments in property investment funds, as well as Property and Development Finance and Sovereign AI Technology.

Statement of compliance

The consolidated financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards adopted by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. The consolidated financial statements comply with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB).

The consolidated financial statements of the Group comprising the Company (as Parent) and its controlled entities for the year ended 30 June 2026 were authorised for issue by the Group's Board of Directors on 27 August 2026.

Basis of preparation

The consolidated financial statements have been prepared on the basis of historical cost, except for financial assets at fair value through profit and loss, other financial assets, investment properties and derivative financial instruments which have been measured at fair value at the end of each reporting period. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, which is the company's functional currency, unless otherwise noted.

Assets and liabilities have been presented on the face of the statement of financial position in decreasing order of liquidity and do not distinguish between current and non-current items.

Going concern

The financial report has been prepared on a going-concern basis, which assumes continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

Rounding of amounts

The Group is an entity of a kind referred to in ASIC Legislative Instrument 2026/183, related to the 'rounding off' of amounts in the Directors' Report and financial statements. Amounts in the Directors' Report and financial statements have been rounded off, in accordance with the instrument to the nearest thousand dollars, unless otherwise indicated.

A2 Material accounting policies

The accounting policies and methods of computation in the preparation of the consolidated financial statements are consistent with those adopted in the previous financial year ended 30 June 2025 with the exception of the adoption of new accounting standards outlined below or in the relevant notes to the consolidated financial statements.

When the presentation or classification of items in the consolidated financial statements has been amended, comparative amounts are also reclassified, unless it is impractical. Accounting policies are selected and applied in a manner that ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events are reported.

These financial statements contain all material accounting policies that summarise the recognition and measurement basis used and which are relevant to provide an understanding of the financial statements. Accounting policies that are specific to a note to the financial statements are described in the note to which they relate.

Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group companies at the exchange rate at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognised in profit or loss.

However, foreign currency differences arising from the translation of the following items are recognised in Other Comprehensive Income (OCI):

- a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; and
- qualifying cash flow hedges to the extent that the hedges are effective.

Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the Australian dollar (AUD) at the exchange rate at the reporting date. The income and expenses of foreign operations are translated into AUD at the exchange rates at the date of the transactions.

Foreign currency differences arising from the translation of foreign operations are recognised in OCI and accumulated into the translation reserve, except to the extent that the translation difference is allocated to NCI.

A3 Other new accounting standards and interpretations

The AASB has issued new or amendments to standards that are first effective from 1 July 2025.

The following amended standards and interpretations that have been adopted do not have a significant impact on the Group's consolidated financial statements.

Standards now effective:

- AASB 2023-5 Amendments to Australian Accounting Standards – Lack of Exchangeability
- AASB 2026-1 Amendments to Australian Accounting Standards – Disclosure about Uncertainties in the Financial Statements

Standards not yet effective:

A number of new standards are effective for annual periods beginning after 1 July 2025 and earlier application is permitted; however, the Group has not early adopted the new or amended standards in preparing these consolidated financial statements.

The following new and amended standards are not expected to have a significant impact on the Group's consolidated financial statements.

- AASB 2024-2 Amendments to Australian Accounting Standards – Classification and Measurement of Financial Instruments
- AASB 2024-3 Amendments to Australian Accounting Standards – Annual Improvements Volume 11
- AASB 2014-10 Amendments to Australian Accounting Standards – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The following new standard is not expected to have a material impact on financial results and determination of the management performance measures, however some changes in the presentation of items in the statement of comprehensive income will be required.

- AASB 18 – Presentation and Disclosure in Financial Statements

A4 Use of judgements and estimates

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense that are not readily apparent from other sources. The judgements, estimates and assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates and revision to accounting estimates are recognised prospectively.

Information about critical judgements, estimates and assumptions in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are included in the following notes:

- Note B2 Revenue - Performance fees
- Note C4 Secured real estate mortgages receivable
- Note C6 Inventory
- Note C8 Intangible assets
- Note C11 Non-recourse loans to the Group
- Note E2 Business combination
- Note F2 Financial instruments

A5 Segment summary

As at 30 June 2026, the Group has five reportable operating segments. These reportable operating segments are the divisions which report to the Group's Joint Chief Executive Officers and Board of Directors (the Group's chief operating decision makers) for the purpose of resource allocation and assessment of performance.

The Group disaggregates the activities of its operating segments to distinguish between Real Estate and non-Real Estate operations. Real estate activities include the ownership or development of income producing properties, through the Group's ownership of investments in its managed property funds which have been disclosed as property investments. Real Estate activities also include the Group's Property and Funds management segment which derives fees exclusively from services provided to the Group's managed property funds.

The Group's real estate activities also include the Property & Development Finance segment, which derives interest margin, various financing fees and returns.

The reportable operating segments are:

Operating segments	Description
Real estate	
Property Funds Management	Management of listed and unlisted property funds as well as co-working spaces. Management of development projects and completion of structured property developments.
Property Investments	Direct interest in property funds, property inventory and other liquid investments. The segment profit and loss reflects group proportionate share in the rental income, less rental and other expenses for each co-invested fund on a line-by-line basis, proportionate to the Group's ownership interest.
Property and Development Finance	Provision of real estate secured non-bank finance for bridging finance, land sub-division, development projects and residual stock.
Non-real estate	
Investment Bonds Management	Management of the Benefit Funds of Centuria Life Limited and management of the Over Fifty Guardian Friendly Society Limited. The Benefit Funds include a range of financial products, including single and multi-premium investments.
Sovereign AI Technology	Building and management of sovereign Australian AI Factories, AI marketplace, machine learning and on-shore large language model capabilities.

In addition, the Group also provides disclosures in relation to a further three non-operating segments, which are:

Non-operating segments	Description
Non-operating items	Comprises transaction costs, mark-to-market movements in investment, property and financial instruments, share of equity accounted net profit in excess of distributions received and all other non-operating activities.
Controlled non-operating entities	Represents the operating results and financial position of entities controlled by the group which are required to be consolidated into the Group's financial statements in accordance with accounting standards. This segment includes: • Operating result and financial position of the benefit funds of Centuria Life Limited. • Results and financial position of Centuria Bass Credit's Special Purpose Vehicles (SPVs) used to source capital from investors through Non-recourse Loan Agreements with the resultant funding extended to borrowers through Syndicated Facility Agreements. • Non controlling interest in the operating results and financial position of controlled property funds, where such funds are controlled by the Group and required to be consolidated in accordance with accounting standards.
Eliminations	Elimination of transactions between the operating segments and the other non-operating segments above, including transactions between the operating entities within the Group, property and benefit funds as well as Centuria Bass Credit's Financing SPVs controlled by the Group.

Consistency of segment accounting policies

The accounting policies applied to reportable segments are consistent with those adopted by the Group, unless otherwise noted.

Measurement of operating segment performance

income, finance costs, finance charges, income tax and other non-operating items are managed at a Group level and are therefore not allocated to individual operating segments.

Restatement of comparative segment information

Comparative segment information for the year ended 30 June 2025 has been restated to align with the current period presentation. The revised presentation introduces EBITDA and EBIT subtotals and ceases the allocation of finance income, finance costs, finance charges and income tax to individual operating segments. These items are presented at a Group level consistent with how operating segment performance is assessed by the Group's Chief Operating Decision Makers. The restatement is presentation-only and has no impact on reported profit, earnings per security, net assets or cash flows.

Refer below for an analysis of the Group's segment results:

- Note B1 Segment profit and loss
- Note C1 Segment balance sheet
- Note D1 Operating segment cash flows

B Business performance

B1 Segment profit and loss

Operating segment performance is assessed by the Group's Chief Operating Decision Makers to the EBIT level. Finance income, finance costs, finance charges and income tax are not allocated to individual operating segments and are presented at a Group level.

For further details in relation to measurement, classification and disclosure of operating segments, refer to Note A5 of the financial statements. Comparative information has been restated to align with the current period presentation. Refer to Note A5 Segment Summary.

B2 Revenue

Revenue has been disaggregated in the segment profit and loss in Note B1.

(a) Recognition and measurement

Type of revenue	Description	Revenue recognition policy
Management fees	The Group provides: a. fund management services to property funds in accordance with the fund constitutions. The services are provided on an ongoing basis and revenue is calculated and recognised in accordance with the relevant constitution. The fees are primarily calculated based on a fixed percentage of a defined metric or a fixed amount. The fees are invoiced and paid monthly in arrears.	Over-time
	b. property management services to the owners of property assets in accordance with property services agreements. The services are utilised on an ongoing basis and revenue is calculated and recognised in accordance with the specific agreement. The fees are primarily calculated based on a fixed percentage of a defined metric or a fixed amount. The fees are invoiced monthly with variable payment terms depending on the individual agreements.	Over-time
	c. lease management services to the owners. The revenue is recognised when the specific service is delivered (e.g. on lease execution) and consideration is due 30 days from invoice date. The fees are primarily calculated based on a fixed percentage of a defined metric or a fixed amount.	Point-in-time
	d. development management services to the owners of property assets in accordance with development management agreements. Revenue is calculated in accordance with the specific agreement and invoiced in accordance with the contract terms with revenue recognised progressively as the services are provided in proportion to the state of completion by reference to costs. Consideration is due from the customer based on the specific terms agreed in the contract and is recognised when the Group has control of the benefit.	Over-time
Distribution/ dividend revenue	Distribution/dividend revenue from investments is recognised when the shareholder has a right to receive payment.	Point-in-time
Interest	Accrued over-time by reference to the outstanding amount using the effective interest rate.	Over-time
Rental	Rent from investment property and inventory is recognised in profit or loss on a straight line basis over term of the lease.	Over-time
Tech sales	The Group generates revenue through the provision of sovereign AI infrastructure, compute capacity, digital infrastructure services and related technology solutions. Customers simultaneously receive and consume the benefits of these services as they are provided and, accordingly, revenue is recognised over time as the services are performed. Contracts may contain fixed, subscription-based or usage-based pricing arrangements. Revenue is recognised by reference to the services provided during the reporting period in accordance with the terms of the underlying customer contract. Where a contract contains multiple performance obligations, the Group allocates the transaction price to each distinct performance obligation based on its relative standalone selling price and recognises revenue as each performance obligation is satisfied.	Point-in-time
	Revenue from the sale of IT hardware is recognised when control of the goods transfer to the customer, which typically occurs upon delivery and acceptance at the customer's premises or another agreed point of transfer. The Group assesses whether the hardware is sold as a standalone product or as part of a bundled arrangement that may include installation, configuration, support, or other services. Whilst the Group exercises pricing discretion over the hardware supplied, the variable consideration is not subject to significant judgement and therefore no constraint is applied to the amount of revenue recognised. Where hardware is sold with additional services, the Group evaluates whether these components represent distinct performance obligations. Where they represent distinct performance obligations, revenue is allocated to each obligation based on their relative standalone selling prices and recognised as each obligation is satisfied.	Point-in-time

Type of revenue	Description	Revenue recognition policy
Financing fees	Financing fees charged by the Group's Property and Development Finance (PDF) operating segment include, loan application and discharge fees, which are charged at set amounts, as well as establishment fees, early discharge fees and risk review fees, which are calculated based on a fixed percentages of the underlying commitment or the facility amount. Administration fees which are either charged at set amounts or based on a percentage of the Facility amount are the only financing fees charged on a monthly basis. Financing fees with respect to the Group's PDF operations, which are considered integral to the origination and issuance of the financial instruments are accounted for using the Effective Interest Method (EIR). This method requires all cash flows, including any upfront fees and fees received at the end of the financing arrangement, to be quantified, and spread over the life of the expected financial instrument. This spread, reflecting an overall yield, approximates the emergence of the fees over the expected life of the financial instrument. Whilst financing fees are recovered at a point-in-time or as services are performed, their eventual collectability is dictated by the future performance of the underlying borrower, its continued financial viability as well as the quality of the underlying secured asset at the end of the arrangement to meet all the financial obligations arising from each syndicated facility agreement. The recoverability of the Group's entitlement to its Financing fees and its interest margin are subject to significant variability and are impacted by future external factors. Management track and monitor the performance of each syndicated facility agreement throughout its life against the following factors: a. Deal Status, which assess the actual progress of construction of the underlying development against the original planned draw downs, costing and cashflows from the project. b. Presence of Default event(s), with all defaults considered to negatively impact the recoverability of fees. c. Loan to Value Ratio (LVR), assessed separately and specifically for each Syndicated Facility Agreement, with ratios less than 60% considered low risk, and ratios above 70% considered high risk. d. Assessment of Refinance Risk, which monitors the availability of external sources, costing and quality of debt funding available for each borrower under each syndicated facility agreement, with higher refinance risk (representative of an inability to source alternative debt funding) resulting in a higher risk assessment in relation to the ultimate recoverability of the Group's revenue entitlement. The above are then consolidated and used to forecast the "Aggregate amount available". This assessment reflects the expected excess funding to be available in each Financing SPV to meet the contractual and commercial expectations of the non-recourse loan holders (investors) for each of the financial arrangements. This assessment is then expressed as overall fee probability estimate and used to derive the expected credit loss with respect to each arrangement considering factors specific to each arrangements as well as past experience in relation to the recoverability of fees compared with similar arrangement and across the entire population of current and past financial instruments.	Over-time
Finance work fees	Financing fees recognised by Property Fund Management (PFM) operating segment represent liquidity management services to property funds in accordance with the fund constitutions. The revenue is recognised when the specific service is delivered (e.g. on facility execution) and consideration is due 30 days from invoice date. The fees are primarily calculated based on a fixed percentage of the facility amount.	Point-in-time

Type of revenue	Description	Revenue recognition policy
Performance fees	The Group receives a performance fee for providing management services where the property fund outperforms a set internal rate of return (IRR) benchmark at the time the property is sold. Consideration is due upon successful sale of the investment property if the performance hurdles are satisfied. In measuring the performance fees to be recognised each period, consideration is given to the facts and circumstances with respect to each investment property including external factors such as its current valuation, passage of time and outlook of the property market. Performance fees are only recognised when they are deemed to be highly probable and the amount of the performance fees will not result in a significant reversal in future periods. The Group's performance fees are recognised over-time under AASB 15 Revenue from Contracts with Customers. The key assumptions made in estimating the amount of performance fee revenue that is highly probable include: **>2 years from forecast fund end date:** It is assumed that the highly probable threshold is only met when the forecast end date of the fund is within two years from balance date. The forecast end date is generally based on the relevant fund end date as expressed in the relevant PDS or a revised fund end date in the event that an alternative strategy is undertaken by the Group, in which case the unbooked portion of any forecast performance fees are recognised over the extended term of the fund. In instances where the fund term is extended beyond two years from the reporting date and the Group has already accrued a performance fee in prior periods, the Group will continue to accrue any additional fee over the extended remaining period. **Probability thresholds for sensitivity to property valuations:** The level of constraint applied to performance fee revenue is adjusted depending on remaining fund tenure. Specifically, a discount in property values between 10.0% to 20.0% is applied, depending on when in the two-year window the fund is expected to wind up. In instances where the fund term is extended beyond two years from the reporting date and the Group has already accrued a performance fee in prior periods, a discount in property values between 2.5% to 10.0% is applied depending on the remaining fund term as it is assumed the fund term extension was on the basis that fund performance can be further enhanced, thereby reducing the risk of valuation decrements and increasing the likelihood of achieving the full performance fee. **Fair value of investment properties:** The fair value of investment properties is based on the latest available valuation of the underlying property from the published financial statements or board approved valuations.	Over-time
Property acquisition fees	The Group provides property acquisition related services to property funds and the revenue is based on a fixed percentage of a defined metric included in the PDS issued at the establishment of the fund. The consideration is due upon successful settlement of the investment property.	Point-in-time
Property sales fees	The Group provides sales services to the owners of property assets in accordance with property management agreements and the revenue is based on a fixed percentage of a defined metric included in the relevant property management agreement. The consideration is due upon successful sale of the investment property.	Point-in-time
Development and property sales revenue	Where the Group has control of the underlying asset, revenue from the sale of development assets is recognised when control has been transferred to the customer. Where development assets have been recognised in relation to the enhancement of an asset controlled by the customer, revenue from the realisation of the development costs are recognised over time in accordance with the performance obligations of the contract and in proportion to the stage of completion of the relevant contracts by reference to costs. Any variable consideration is constrained to the amount that is highly probable to not significantly reverse. Proceeds from the sale of development assets are invoiced and receivable in accordance with the relevant terms of the contract.	Point-in-time Over-time

(b) Transaction price allocated to the remaining performance obligations

The following table represents additional information not required by accounting standards of revenue expected to be recognised in the future relating to performance conditions that are unsatisfied (or partially unsatisfied) at period end. These amounts represent the unconstrained values of expected future revenue.

	Recognised in 2026 $'000	Balance of unrecognised performance obligations 2026 $'000	Recognised in 2025 $'000	Balance of unrecognised performance obligations 2025 $'000
Property performance fees[1]	20,006	69,202	7,001	94,800
Development revenue[2]	21,929	-	15,142	-
Management fees[3]	35,136	54,837	35,978	72,983

1. The underlying property funds managed by the Group have total estimated performance fees payable of $127,523,000 as at 30 June 2026 (30 June 2025: $127,972,000) based on the current financial performance of the underlying property funds. These represent an estimate of the total expected performance fee revenue due to the Group from the property funds over their remaining lives. Of these performance fees, the Group has recognised $20,006,000 in FY26, with $7,001,000 recognised in the prior year. The total estimated amount of performance fees available to the Group to recognise in the future is $69,202,000 (30 June 2025: $94,800,000). These amounts are expected to be recognised in future periods based on expected fund expiries which range up to FY30. Unrecognised performance fees are based on current property valuations and anticipated fund expiration dates and as a result may not be fees that will eventuate upon actual Fund expiry. Further, these amounts may not be in line with the point performance fees recognition, and will normally be triggered based on the Group's accounting policy outlined in B2(a) i.e. amounts disclosed are not constrained to represent the amount of future revenue that is highly probable of not being realised.
2. Relates to property sales and property development contracts where the Group is acting as developer and is based on contracted revenue.
3. Relates only to unlisted Property Funds Management fees which have a defined fund life. The amount is an estimated amount based on the 30 June 2026 balance of defined metrics or fixed amount as set out in the Group's accounting policy outlined in B2(a). The Group expects to recognise the revenue over the next seven years. As defined metrics are primarily driven by property valuations, the unrecognised management fees may not be fees that will eventuate over the life of the fund.

(c) Transactions with related parties

Fees are charged to related parties in accordance with the respective trust deeds and management agreements.

Interest income on loans to Property Funds managed by Centuria	**1,538,489**	2,332,858
Interest income on loans to Debt Funds managed by Centuria	**880,940**	546,046
Tech sales to Property Funds managed by Centuria	**-**	2,112,373
	283,624,306	280,159,040

Terms and conditions of transactions with related parties

Investments in property funds and benefit funds held by certain directors and director-related entities are made on the same terms and conditions as all other investors and policyholders. Directors and director-related entities receive the same returns on these investments as all other investors and policyholders.

The Group pays some expenses on behalf of related entities and receives a reimbursement for those payments. As at 30 June 2026, the amount receivable from related parties per note C2(a) is $18,006,760 (30 June 2025: $16,923,519).

B3 Mark to market movements of financial instruments and property

The following table provides a summary of fair value and impairment movements of investments during the year.

	2026 $'000	2025 $'000
Movement in Centuria Industrial REIT's listed market price	**(8,190)**	11,120
Movement in Centuria Office REIT's listed market price	**(22,997)**	1,822
Movement in put/call options	**(2,095)**	10,715
Impairment of Inventory	**(5,236)**	(4,225)
Other mark to market movements	**(7,762)**	(18,240)
Total mark to market movement	**(46,280)**	1,192

B4 Expenses

	2026 $'000	2025 $'000
Employee benefits expense	**104,069**	92,356
Depreciation and amortisation expense	**16,621**	10,569
Property management fees paid	**5,841**	6,435
Superannuation contribution expense	**7,166**	6,434
Consulting and professional fees	**6,200**	6,048
Information technology expenses	**5,916**	4,837
Insurance costs	**2,904**	3,637
Travel and entertainment expenses	**4,890**	3,633
Administration fees	**4,203**	2,688
Marketing expenses	**2,679**	2,030
Transaction costs	**1,081**	249
Property outgoings and fund expenses	**265**	-
Other expenses	**5,271**	5,087
	167,106	144,003

(a) Transactions with key management personnel

1. Directors' remuneration

The aggregate remuneration paid to directors' of the Group is set out below:

	2026 $'000	2025 $'000
Board and Committee fees	**1,077,765**	1,520,647

Detailed information on directors' remuneration is included in Audited Remuneration Report on page 107.

2. Senior management compensation

The aggregate compensation paid to Senior Management of the Group is set out below:

	2026 $'000	2025 $'000
Short-term employee benefits	**8,358,263**	8,318,982
Post-employment benefits	**90,000**	196,205
Other long-term employment benefits	**60,951**	72,811
Share-based payments	**3,187,413**	1,973,828
	11,696,627	10,561,826

Detailed information on Senior Management compensation is included in the Audited Remuneration Report on page 104.

B5 Finance costs

	2026 $'000	2025 $'000
Group interest charges	**34,670**	37,358
Non-recourse loan interest charges	**113,792**	100,195
Finance lease interest	**4,624**	3,018
	153,086	140,571
Finance charge - puttable instruments	**3,470**	4,144
Reverse mortgage facility interest charges	**1,340**	1,352
Fair value (gain)/loss on financial assets	**(2,915)**	(369)
Fair value loss/(gain) on derivatives	**2,915**	369
	4,810	5,496
	157,896	146,067

Recognition and measurement

The Group's finance costs include interest expense recognised using the effective interest rate method.

B6 Taxation

	2026 $'000	2025 $'000
Current tax expense in respect of the current year	**5,333**	11,546
Adjustments to current tax in relation to prior years	**327**	(1,156)
	5,660	10,390
Deferred tax expense relating to the origination and reversal of temporary differences	**4,489**	2,488
Adjustments to deferred tax in relation to prior years	**1,558**	1,214
Income tax expense	**11,707**	14,092

(a) Reconciliation of income tax expense

The prima facie income tax expense on profit before income tax reconciles to the income tax expense in the consolidated financial statements as follows:

	2026 $'000	2025 $'000
Profit before tax	**53,349**	94,989
Less: profit not subject to income tax	**(36,640)**	(65,001)
	16,709	29,988
Income tax expense calculated at 30%	**5,012**	8,996
Add/(deduct) tax effect of amounts which are not deductible/(assessable)		
Tax offsets	**(308)**	(380)
Permanent differences on income and expenses	**5,133**	5,480
Adjustments to income tax expense in relation to prior years	**1,886**	58
Effects of different tax rates of subsidiaries operating in other jurisdictions	**(16)**	(62)
Income tax expense	**11,707**	14,092

The tax rate used in the above reconciliation is the corporate tax rate of 30% payable for Australian corporate entities on taxable profits under Australian tax law. There has been no change in the corporate tax rate when compared with the previous reporting period. Taxable income derived for New Zealand tax purposes is at the tax rate of 28%.

(b) Current tax assets and liabilities

	2026 $'000	2025 $'000
CURRENT TAX ASSETS/(LIABILITIES) ATTRIBUTABLE TO:		
Income tax receivable - Australia	**3,545**	930
Income tax payable to benefit fund policy holders - Australia	**(1,513)**	(3,265)
	2,032	(2,335)

(c) Movement of deferred tax balances

	2026 $'000	2025 $'000
NET DEFERRED TAX ASSETS/(LIABILITIES) ATTRIBUTABLE TO:		
Net deferred tax liabilities - Australia	**(116,730)**	(117,263)
Net deferred tax assets - New Zealand	**3,584**	7,563
	(113,146)	(109,700)

Financial year ended 30 June 2026	Opening balance $'000	Movement $'000	Closing balance $'000
DEFERRED TAX ASSETS			
Provisions	**11,563**	**(3,091)**	**8,472**
Transaction costs	**1,245**	**(579)**	**666**
Capital losses	**20,255**	**(2,928)**	**17,327**

	(158,914)	(389)	(159,303)
Net deferred tax liabilities	(107,570)	(2,130)	(109,700)

Recognition and measurement

Income tax expense represents the sum of the tax currently payable and payable on a deferred basis.

1. Current tax

The tax currently payable is based on taxable income for the year. Taxable income differs from profit as reported in the consolidated profit or loss because of items of income or expense that are assessable or deductible in other years as well as items that are never assessable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2. Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases.

Deferred tax liabilities are generally recognised for all assessable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, unused tax losses and tax offsets, to the extent that it is probable that sufficient future taxable profits will be available to utilise them.

However, deferred tax assets and liabilities are not recognised for:

- assessable temporary differences that arise from the initial recognition of assets or liabilities in a transaction that is not a business combination which affects neither taxable income nor accounting profit;
- assessable temporary differences relating to investments in subsidiaries, associates and joint ventures to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- assessable temporary differences arising from goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The applicable rates are 30% for deferred tax assets and liabilities arising to the Australian subsidiaries of the Company and 28% for deferred tax asset and liabilities arising to the New Zealand subsidiaries of the Company. The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

3. Tax consolidation

The Company and most of its wholly-owned Australian resident subsidiaries are part of a tax consolidated group under Australian taxation law. The Company is the head company of the tax consolidated group. Tax (expense)/benefit, deferred tax assets and deferred tax liabilities arising from temporary differences of the members of the tax consolidated group are recognised in their separate financial statements using a 'standalone taxpayer' approach. Under the tax funding agreement between members of the tax consolidated group, amounts are recognised as payable to or receivable by each member in relation to the tax contribution amounts paid or payable between the Company and the members of its tax consolidated group.

During the year, Centuria Bass Credit Pty Ltd and its wholly subsidiaries ('Centuria Bass'), Arrow Funds Management Limited and Agri Management Pty Ltd became wholly owned subsidiaries of the Company. As at 30 June 2026, they form part of the Company's tax consolidated group.

The Benefit Funds are part of the tax consolidated group, and they are allocated a share of the income tax liability attributable to Centuria Life Limited equal to the income tax liability that would have arisen to the Benefit Funds had they been stand-alone entities.

Centuria Capital Fund (CCF) and its sub-trusts are not part of the tax consolidated group. Under current Australian income tax legislation, trusts are not liable for income tax, provided their securityholders are presently entitled to the net (taxable) income of the trust including realised capital gains, each financial year.

Centuria Healthcare Pty Ltd (Centuria Healthcare) is not a wholly-owned subsidiary of the Company at 30 June 2026. Centuria Healthcare has its own tax consolidated group with its wholly-owned subsidiaries for the full year. Centuria Healthcare is the head company of the Centuria Healthcare tax consolidated group. Tax (expense)/benefit, deferred tax assets and deferred tax liabilities arising from temporary differences of the members of the tax consolidated group are recognised in their separate financial statements using a 'standalone taxpayer' approach. Under the tax funding agreement between members of the tax consolidated group, amounts are recognised as payable to or receivable by each member in relation to the tax contribution amounts paid or payable between Centuria Healthcare and the members of its tax consolidated group.

Centuria DC Pty Ltd and its wholly owned subsidiaries (ResetData) do not form part of the Company's tax consolidated group. ResetData entities are standalone taxpayers under Australian Taxation law.

The New Zealand tax resident subsidiaries of the Company are all standalone taxpayers from a New Zealand income tax perspective as they have not elected to form a consolidated group for New Zealand tax purposes.

4. Current and deferred tax for the period

Income taxes relating to items recognised directly in equity are recognised directly in equity and not in the statement of comprehensive income. In the case of a business combination, the tax effect is included in the accounting for the business combination.

B7 Earnings per security

	2026 cents	2025 cents
EARNINGS PER CENTURIA CAPITAL GROUP SECURITY		
Basic (cents per share)	**6.7**	10.0
Diluted (cents per share)	**6.6**	9.8
EARNINGS PER CENTURIA CAPITAL LIMITED SHARE		
Basic (cents per share)	**0.4**	(0.3)
Diluted (cents per share)	**0.4**	(0.3)

The earnings used in the calculation of basic and diluted earnings per security is the profit for the year attributable to Centuria Capital Group securityholders as reported in the consolidated statement of comprehensive income.

The weighted average number of ordinary securities used in the calculation of basic and diluted earnings per security are as follows:

	2026	2025
Weighted average number of ordinary securities (basic)	**837,445,861**	829,218,277
Weighted average number of ordinary securities (diluted)[1]	**853,136,437**	843,674,020

1. The weighted average number of ordinary securities used in the calculation of diluted earnings per security is determined as if 30 June 2026 was the end of the performance period of the grants of Rights under the LTI Plan. All Rights that would have vested if 30 June 2026 was the end of the performance period are deemed to have been issued at the start of the financial year.

B8 Dividends and distributions

	2026		2025	
	Cents per security	Total $'000	Cents per security	Total $'000
DIVIDENDS/DISTRIBUTIONS PAID DURING THE YEAR				
Final year-end dividend (fully franked)	**0.80**	**6,641**	0.40	3,296
Final year-end distribution	**4.40**	**36,524**	4.60	37,902
Interim dividend (fully franked)	**0.70**	**5,811**	1.10	9,131
Interim distribution	**4.50**	**37,354**	4.10	34,034
DIVIDENDS/DISTRIBUTIONS DECLARED DURING THE YEAR				
Final dividend (fully franked)[1]	**0.50**	**4,257**	0.80	6,641
Final distribution[1]	**4.70**	**40,016**	4.40	36,524

1. The Group declared a final dividend/distribution in respect of the year ended 30 June 2026 of 5.2 cents per stapled security which included a fully franked dividend of 0.5 cents per share and a trust distribution of 4.7 cents per unit. The final dividend/distribution had a record date of 29 June 2026 and payable on 27 August 2026. The total amount payable of $44,273,000 (2025: $43,165,000) has been provided for as a liability in these financial statements.

(a) Franking credits

	2026 $'000	2025 $'000
Amount of franking credits available to shareholders of the Company[1]	**20,172**	19,186

1. Before taking into account the impact of the final dividend payable on 27 August 2026.

Of the franking credit balance of $20,172,000 at 30 June 2026, $16,906,000 relates to the Centuria Capital Limited tax consolidated group and $3,266,000 relates to the Centuria Healthcare tax consolidated group.

UNLISTED: NORTHLANDS PLAZA, BALCATTA WA

C2 Receivables

	Notes	2026 $'000	2025 $'000
Receivables from related parties	C2(a)	**98,953**	79,595
Other receivables		**8,209**	17,839
		107,162	97,434

All receivables are current except for $6,708,000 (2025: $3,209,200) of performance fees receivable which are non-current. These are located in Note C2(a).

The Group does not hold any collateral or other credit enhancements over these balances nor does it have a legal right of offset against any amounts owed by the Group to the counterparty.

(a) Receivables from related parties

The following amounts were owed by related parties of the Group at the end of the financial year:

	2026	2025
Performance fees owing from property funds managed by Centuria	**57,838,964**	38,213,281
Management fees owing from property funds managed by Centuria	**12,945,238**	14,485,471
Recoverable expenses owing from property and credit funds managed by Centuria	**18,006,760**	16,923,519
Distribution receivable from Centuria Industrial REIT	**4,245,980**	4,119,612
Distribution receivable from Centuria Office REIT	**2,300,108**	2,300,107
Redemption receivable of property funds managed by Centuria	**2,001,000**	2,135,000
Distribution receivable from unlisted property funds managed by Centuria	**1,614,632**	1,418,220
	98,952,682	79,595,210

The ageing of receivables from the related parties of the Group at the reporting date was as follows:

	2026 $'000	2025 $'000
Not due	**92,034**	71,283
PAST DUE:		
1 to 30 days	**2,806**	4,209
31 to 60 days	**972**	2,416
>60 days overdue	**3,141**	1,687
	98,953	79,595

As at 30 June 2026, the Group had $6,919,000 receivables from related parties (2025: $8,312,000) past due but not impaired.

Collectability of the receivables from related parties is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off in the year in which they are identified. A provision for expected credit losses is processed based on historical default percentages and current observable data including forecasts of economic conditions. The amount of the provision is the difference between the carrying amount and estimated future cash flows.

Recognition and measurement

Receivables are initially recognised at fair value and subsequently at amortised cost using the effective interest rate method, less an allowance for impairment. Due to the short-term nature of these financial rights, their carrying amounts are estimated to represent their fair values.

1. Recoverability of loans and receivables

At each reporting period, the Group assesses whether financial assets carried at amortised cost are 'credit-impaired'. A receivable is 'credit-impaired' when one or more events that has a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The Group recognises loss allowances at an amount equal to lifetime ECL on trade and other receivables. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Lifetime ECLs result from all possible default events over the expected life of the trade receivables and are a probability-weighted estimate of credit losses. Credit losses are measured as the difference between cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive.

The Group analyses the age of outstanding receivable balances and applies historical default percentages adjusted for other current observable data as a means to estimate lifetime ECL, including forecasts of interest rates and inflation, as well as the financial stress of counterparties and their ability to operate as a going concern. Debts that are known to be uncollectable are written off when identified.

The Group has continued to analyse the age of outstanding receivable balances post balance sheet date and applied estimated percentages of recoverability to estimate ECL, as well as the financial stress of counterparties and their ability to operate as a going concern. Debts that are known to be uncollectible are written off when identified.

C3 Financial assets

	Notes	2026 $'000	2025 $'000
Investment in related party unit trusts at fair value	C3(a)	**628,130**	659,487
Investments in trusts, shares and other financial instruments at fair value[1]		**338,297**	304,808
Loans receivable from related parties	C3(b)	**80,548**	68,875
Loans receivable from other parties		**5,393**	7,550
		1,052,368	1,040,720

1. The amounts include investments that are held by the Benefit Funds that are not related parties.

Financial assets are classified as non-current assets unless otherwise noted below as the Group is not intending to dispose of financial assets within the next twelve months..

(a) Investments in related party unit trusts carried at fair value through profit or loss

The following table details related party investments carried at fair value through profit and loss.

		2026			2025

Provision	**(2,157)**	(6,429)
Foreign currency translation	**(2,066)**	492
	80,548	68,875

$24,600,000 of the loan receivable from Centuria Sydney CBD Prime Office Fund accrues interest at 10% per annum and is considered current.

The floating revolver facilities to Centuria Bass Credit Fund and Bass Property Credit Fund of $18,040,000 and $2,060,000 respectively accrue interest at BBSY plus margin and are considered current.

All loans receivable from related parties are interest bearing and unsecured. As at 30 June 2026, $28,567,000 of the loans receivable are considered current with maturity dates within the next twelve months.

As of 30 June 2026, the Group assessed the recoverability of the loan receivable from CNZHPF and recognised $2,157,000 (2025:$6,429,000) loss allowance against the asset. During the period, $7,468,000 of the loss allowance was utilised and the total remaining loss allowance provided as at 30 June 2026, is $2,665,000. Refer to note F2(d) for details.

Recognition and measurement

All financial assets are recognised and derecognised on trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned.

AASB 9 contains three principal classification categories for financial assets:

- measured at amortised cost;
- measured at fair value through other comprehensive income (FVOCI); and
- measured at FVTPL.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

There are no measurements of FVOCI as at 30 June 2026.

1. Financial assets at amortised cost

Loans and receivables are initially recognised at fair value and subsequently at amortised cost using the effective interest rate method less any allowance under the Expected Credit Loss (ECL) model.

2. Recoverability of loans and receivables

At each reporting period, the Group assesses whether financial assets carried at amortised cost are 'credit-impaired'. A financial asset is 'credit-impaired' when one or more events that has a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The Group recognises loss allowances at an amount equal to lifetime ECL on trade and other receivables. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Lifetime ECLs result from all possible default events over the expected life of the trade receivables and are a probability-weighted estimate of credit losses. Credit losses are measured as the difference between cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive.

The Group analyses the age of outstanding receivable balances and applies historical default percentages adjusted for other current observable data as a means to estimate lifetime ECL, including forecasts of interest rates and inflation, as well as the financial stress of counterparties and their ability to operate as a going concern. Debts that are known to be uncollectable are written off when identified.

The Group has continued to analyse the age of outstanding receivable balances post balance sheet date and applied estimated percentages of recoverability to estimate ECL, as well as the financial stress of counterparties and their ability to operate as a going concern. Debts that are known to be uncollectible are written off when identified.

3. Financial assets at FVTPL

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes financial assets that are held for trading and all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or FVOCI or FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the statement of comprehensive income.

Financial assets recognised at FVTPL include investments in trusts.

C4 Secured real estate mortgages receivable

	Notes	2026 $'000	2025 $'000
Secured real estate mortgages receivable	C4(a)	**1,200,303**	941,573
Secured real estate mortgage receivable - ECL		**(27,548)**	(26,017)
Reverse mortgage receivables[1]	C4(b)	**35,395**	39,092
		1,208,150	954,648

1. Whilst some mortgages are likely to be repaid during the next 12 months, the Group does not control the repayment date therefore considered non-current.

Secured real estate mortgages receivables contain both current and non-current loans as at 30 June 2026.

(a) Secured asset mortgage receivable

The following table details the total drawn balances of secured real estate mortgages receivable with respect to each Syndicated Facility Agreement as at 30 June 2026.

	2026 $'000	2025 $'000
Opening balance	**915,556**	809,622
Drawdowns	**882,656**	532,561
Repayments	**(757,687)**	(546,942)
Fees and charges	**134,120**	135,173
Expected credit loss	**(1,531)**	(15,116)
Foreign currency translation	**(359)**	258
	1,172,755	915,556

A summary of the secured real estate mortgages receivable is as follows:

	Classification	Average effective interest rate	Due date	Total limit $'000	Facility available $'000	2026 $'000	2025 $'000
FIXED							
Secured mortgages receivable	Current	13.6%	Various	969,941	134,206	835,735	901,586
Secured mortgages receivable	Non-current	12.7%	Various	550,492	185,924	364,568	39,987
Total				**1,520,433**	**320,130**	**1,200,303**	**941,573**

As at 30 June 2026, the Group had $1,200,303,000 (2025: $941,573,000) in secured real estate mortgages receivable, through a number of its consolidated financing SPVs secured over the value of the underlying property with respect to each of its syndicated facility agreements. The loans are variable interest rate instruments offering a variable lower rate (BBSY + Margin) and a variable higher rate (Lower rate + Margin) in the event of the breach of certain covenants or loan requirements with respect to each Syndicated Facility Agreement. Default interest triggered under the syndicated facility agreements also trigger a higher interest rate under the non-recourse loan agreements, passing through higher interest rates to the underlying non-recourse loan holders.

On a consistent basis, any extension or variation to the duration of the Syndicated Facility Agreement will pass through and will trigger the equivalent extension or the early repayment of the associated non-recourse loan arrangements. The back-to-back and the non-recourse nature of the non-recourse loans ensure that Centuria Capital Group retains no material residual liquidity, credit risks nor any interest rate risks associated with each arrangement. The only credit risk associated with each arrangement is therefore limited to the value of the interest margin and fees recognised by the Group with respect to each arrangement.

(b) Secured asset mortgages receivable - reverse mortgages

The following loans were receivable from external parties of the Group at the end of the financial year:

	2026 $'000	2025 $'000
Opening balance	**39,092**	39,939
Loans repaid	**(4,072)**	(4,107)
Accrued interest	**2,996**	3,004
Attributable to interest rate and other risk	**(3,238)**	118
Attributable to credit risk	**617**	138
	35,395	39,092

Recognition and measurement - secured asset mortgage receivable

All secured real estate mortgages receivable are recognised and derecognised on trade date where the purchase or sale of a secured real estate mortgages receivable is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned. Financial assets are initially measured at fair value plus transaction costs, except for those financial assets classified as at fair value through profit or loss (FVTPL), which are initially measured at fair value only.

Secured real estate mortgages receivable are classified as financial assets at FVTPL when the secured real estate mortgages receivable is either held for trading or it is designated as at fair value through profit or loss.

Secured real estate mortgages receivable at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the secured real estate mortgages receivable and is included in the statement of comprehensive income.

AASB 9 contains three principal classification categories:

- measured at amortised cost;
- measured at fair value through other comprehensive income (FVOCI); and
- measured at FVTPL.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

There are no measurements of FVOCI as at 30 June 2026.

1. Secured real estate mortgages receivable at amortised cost

Loans and receivables are initially recognised at fair value and subsequently at amortised cost using the effective interest rate method less any allowance under the Expected Credit Loss (ECL) model.

2. Reverse mortgages receivables

Reverse mortgages receivables are measured at FVTPL in accordance to AASB 9. A financial asset measured at FVTPL is stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the statement of comprehensive income.

3. Recoverability of secured mortgages receivable - SPVs

At each reporting period, the Group assesses whether secured mortgages receivable financial assets carried at amortised costs are 'credit impaired'.

Whilst the back-to-back nature of the non-recourse loans financing each Secured asset mortgage receivable ensures that Centuria Capital Group retains no material residual liquidity, credit risks nor interest rate risks, the eventual collectability of the Groups receivables with respect to its entitlement to income is dictated by the future performance of the underlying borrower, continued financial viability of the borrower, as well as the quality of the underlying secured asset at the end of the arrangement to meet all the financial obligations arising from each syndicated facility agreement.

The Group's entitlement to its Financing fees and its interest margin which are brought to account under the effective interest method are subject to significant variability and are impacted by future external factors. Management track and monitor the performance of each syndicated facility agreement throughout its life against the following factors:

a. Deal status, which assess the actual progress of construction on the underlying development against the original planned draw downs, costing and cashflows from the project.
b. Presence of default event(s), with all defaults considered to negatively impact the recoverability of fees.
c. Loan to value ratio (LVR), assessed separately and specifically for each Syndicated Facility Agreement, with a ratios less than 60% considered low risk, and ratios above 70% considered high risk.
d. Assessment of refinance risk, which monitors the availability of external sources, costing and quality of debt funding available for each borrower under each syndicated facility agreement, with higher refinance risk representative of an inability to source alternative debt funding) resulting in a higher risk assessment in relation to the ultimate recoverability of the Groups receivables.

Based on the above factors, significant individual financial assets which are considered 'medium to high risk' are tested for impairment on an individual basis. The remaining financial assets are assessed groups depending on their credit risk characteristics.

As the secured mortgages loans are measured at amortised cost, expected credit loss allowances are measured on either of the following bases:

- Stage 1: Financial assets where credit risk has not increased significantly since initial recognition. Recognise 12-month ECL.
- Stage 2: Financial assets where credit risk has increased significantly since initial recognition. Recognise lifetime ECL.
- Stage 3: Financial assets that are credit-impaired. Recognise lifetime ECL and adjust interest income based on the net carrying amount.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both probability weighted quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward looking information. Considerations include underlying security quality and whether the secured property is under construction, macro-economic business cycle factors and whether there is any loan subordination.

Loss allowances for financial assets measured at amortised cost are deducted from gross amounts of the assets. Refer to F2(d)(iii).

Closing balance	**183,688**	-

Investment properties acquired by the Group during the year

	Date	2026 $'000
675-685 Warrigal Road, Chadstone Vic	17 June 2026	86,025
6 & 14 Chappie Place, Christchurch NZ	1 May 2026	34,372
Southgate Shopping Centre, Auckland NZ	1 May 2026	63,291
		183,688

All investment properties are classified as non-current.

Recognition and measurement

Investment properties are properties held either to earn rental income or for capital appreciation or for both. Investment properties are initially recorded at cost which includes stamp duty and other transaction costs. Subsequently, the investment properties are measured at fair value with any change in value recognised in profit or loss. The carrying amount of investment properties includes components relating to deferred rent, lease incentives and leasing fees.

An investment property is derecognised upon disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

The fair value measurement of investment property is categorised as a Level 3 fair value as it is derived from valuation techniques that include inputs that are not based on observable market data (unobservable inputs). Given the investment properties were acquired shortly before 30 June 2026, fair value has been determined with reference to the respective purchase prices, excluding transaction costs, which are considered to approximate fair value at the reporting date.

C6 Inventory

	Notes	2026 $'000	2025 $'000

Foreign currency translation	**(1,053)**	386
	9,539	26,244

Recognition and measurement

Properties held for development relates to land and property developments that are held for development and sale in the normal course of the Group's business. Properties held for development are carried at the lower of cost or net realisable value. The calculation of net realisable value requires estimates and assumptions which are regularly evaluated and are based on historical experience and expectations of future events that are believed to be reasonable under the circumstances. Properties held for development are classified as non-current assets unless they are contracted to be sold within 12 months of the end of the reporting period, in which case they are classified as current assets.

(b) Properties held for sale

Recognition and measurement

Property, plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is calculated on a straight-line basis to write off the cost of each asset, less any residual value and excluding land, over its estimated useful life or, for assets installed in leased premises, over the shorter of its useful life and the remaining lease term (including renewal options reasonably certain to be exercised). Where an item comprises significant parts with different useful lives, those parts are depreciated separately. Depreciation commences when an asset is available for use. The estimated useful lives are:

Asset category	Useful life
Graphics processing units (GPU), high performance computing (HPC) and general compute servers	6 years
Networking equipment	10 years
Storage arrays	5 years
Data-centre infrastructure (cooling, racks, uninterruptible power supply, power distribution units)	Shorter of 10–15 years or lease term
Software and licences	3–5 years / licence term

Residual values, useful lives and depreciation methods are reviewed at each reporting date and adjusted prospectively if appropriate. A nil residual value is applied to computer hardware. Software and licences are amortised on a straight-line basis over their estimated useful lives or contractual terms under AASB 138.

C8 Intangible assets

	2026 $'000	2025 $'000
Goodwill	**604,055**	610,430
Indefinite life management rights	**504,326**	482,112
Software	**1,438**	2,025
	1,109,819	1,094,567

	2026 $'000	2025 $'000
Opening balance	**1,094,567**	1,062,764
Acquired indefinite life management rights	**24,500**	-
Acquired goodwill	**-**	28,682
Acquired software	**-**	2,479
Amortisation of software	**(587)**	(454)
Foreign currency translation	**(8,661)**	1,096
	1,109,819	1,094,567

Software arising from the acquisition of ResetData is classified as an intangible asset and is amortised over a five-year period.

Goodwill and management rights are attributable to the Property Funds Management, Property and Development Finance and Sovereign AI Technology cash generating units. Each cash generating units recoverability is determined by the higher of value in use calculation or fair value less costs of disposal calculation using profit and loss projections covering a five-year period, with a terminal value determined after five years.

Additions to indefinite life management rights in the period relate to the acquisition of Arrow. Refer to Note E2 for more details.

A summary of the goodwill and intangible assets by CGU is as follows:

	Goodwill 2026 $'000	Goodwill 2025 $'000	Indefinite life management rights 2026 $'000	Indefinite life management rights 2025 $'000	Software 2026 $'000	Software 2025 $'000
Property Funds Management	**478,698**	485,073	**331,040**	308,826	**-**	-
Property and Development Finance	**96,675**	96,675	**173,286**	173,286	**-**	-
Sovereign AI technology	**28,682**	28,682	**-**	-	**1,438**	2,025
	604,055	**610,430**	**504,326**	**482,112**	**1,438**	**2,025**

Recognition and measurement

1. Indefinite life management rights

Management rights acquired in a business combination are initially measured at fair value and reflect the right to provide asset and fund/SPV management services.

2. Goodwill

Goodwill acquired in a business combination is measured at cost and subsequently measured at cost less any impairment losses. The cost represents the excess of the cost of a business combination over the fair value of the identifiable assets, liabilities and contingent liabilities acquired.

3. Impairment

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets or groups of assets (cash generating units or CGUs). Non-financial assets other than goodwill that were previously impaired are reviewed for possible reversal of the impairment at each reporting date.

Key estimates and judgements - Property Funds Management

The key assumptions used in the value in use calculations for the Property Funds Management cash-generating unit are as follows:

Revenue

Revenues from 2027-2031 are assumed to increase at an average rate of 6.7% (2025: 7.7%) per annum.

Expenses

Expenses from 2027-2031 are assumed to increase at an average rate of 4.4% (2025: 5.4%) per annum.

Discount rate

Discount rates are determined to calculate the present value of future cash flows. A pre-tax rate of 12.5% (2025: 10.9%) is applied to cash flow projections. In determining the appropriate discount rate, regard has been given to relevant market data as well as Group specific inputs.

Terminal growth rate

Beyond 2031, a growth rate of 3.0% (2025: 3.0%), in line with long term economic growth, has been applied to determine the terminal value of the asset..

Sensitivity to changes in assumptions

As at 30 June 2026, the estimated recoverable amount of intangibles including goodwill relating to the Property Funds Management cash-generating unit exceeded its carrying amount by more than $100 million, impairment testing is not sensitive to changes in the inputs.

Key estimates and judgements - Property and Development Finance

The key assumptions used in the value in use calculations for the Property and Development Finance cash-generating unit are as follows::

Revenue

Revenues from 2027-2031 are assumed to increase at an average rate of 18.0% (2025: 16.0%) per annum.

Expenses

Expenses from 2027-2031 are assumed to increase at an average rate of 19.0% (2025: 18.7%) per annum.

Discount rate

Discount rates are determined to calculate the present value of future cash flows. A pre-tax rate of 17.4% (2025: 16.2%) is applied to cash flow projections. In determining the appropriate discount rate, regard has been given to relevant market data as well as Group specific inputs.

Terminal growth rate

Beyond 2031, a growth rate of 3.0% (2025: 3.0%), in line with long term economic growth, has been applied to determine the terminal value of the asset.

Sensitivity to changes in assumptions

As at 30 June 2026, the estimated recoverable amount of intangibles including goodwill relating to the Property and Development Finance cash-generating unit exceeded its carrying amount by $51,584,000 (2025: $57,955,000). The table below shows the key assumptions used in the value in use calculation and the amount by which each key assumption must change in isolation in order for the estimated recoverable amount to be equal to its carrying value.

	Revenue growth rate	Pre-tax discount rate	Expenses growth rate
Assumptions used in value-in-use calculation	**17.97%**	**17.23%**	**19.02%**
Rate required for recoverable amount to equal carrying value	**17.00%**	**19.90%**	**24.50%**

Key estimates and judgements - Sovereign AI Technology

The recoverable amount of a cash generating unit (CGU) is the higher of the CGU's fair value less costs of disposal or value in use. In the current period, fair value less costs of disposal derived the higher value for the Sovereign AI Technology cash generating unit.

The key assumptions used are as follows:

Revenue

Revenues from 2027-2031 are assumed to increase at an average rate of 203.6% (2025: N/A) per annum.

Discount rate

Discount rates are determined to calculate the present value of future cash flows. A pre-tax rate of 51.0% (2025: N/A) is applied to cash flow projections. In determining the appropriate discount rate, regard has been given to relevant market data as well as Group specific inputs.

Terminal growth rate

Beyond 2031, a growth rate of 3.0% (2025: N/A), in line with long term economic growth, has been applied to determine the terminal value of the asset.

Sensitivity to changes in assumptions

As at 30 June 2026, the estimated recoverable amount exceeded the carrying amount.

The valuation reflects management's assessment of the long-term growth potential of the business and incorporates assumptions regarding infrastructure deployment, computing capacity expansion, access to power and supporting infrastructure, strategic technology relationships, funding availability and forecast customer demand for AI and digital infrastructure services. Management assessed the sensitivity of the impairment to changes in key assumptions, including forecast growth and discount rates, and concluded that it is unlikely that changes in these assumptions would result in the carrying amount exceeding the recoverable amount. As a result, management concluded that there is no material risk of impairment as at 30 June 2026.

C9 Payables

	2026 $'000	2025 $'000
Sundry creditors[1]	**24,139**	34,884
Dividend/distribution payable	**44,544**	45,265
Accrued expenses	**26,108**	32,867
Supplier finance arrangement	**27,055**	27,079
	121,846	140,095

1. Sundry creditors are non-interest bearing liabilities and are payable on commercial terms of 7 to 60 days.

All trade and other payables are considered to be current as at 30 June 2026 due to their short-term nature, unless otherwise noted below.

Supplier finance arrangement

The Group participates in equipment financing arrangements. During the period, the Group has entered into equipment financing with Dell Financial Services Pty Ltd which have five-year terms and are payable on a monthly basis. The financing will expire between 28 February and September 2030.

The Group has a total of ten (2025: five) arrangements as at 30 June 2026 of which $6,526,000 (2025: $5,129,000) of the financing is considered to be current.

Recognition and measurement

Payables are recognised when the Group becomes obliged to make future payments resulting from the purchase of goods and services. Due to the short-term nature of these financial obligations, their carrying amounts are estimated to represent their fair values.

Dividend and distribution payable is made for the amount of any dividend/distribution the Group has declared, on or before the end of the reporting period but not distributed at the end of the reporting period.

C10 Borrowings

	Notes	2026 $'000	2025 $'000
Secured listed redeemable notes (ASX:C2FHA)	C10(a)	**-**	195,582

Due after three years	**74,083**	**-**	**74,083**	74,083	-	74,083
Total	**74,083**	**-**	**74,083**	74,083	-	74,083

During the period, the Group repaid and extinguished all facilities in Centuria Capital No. 2 Fund and established new borrowing platform and facilities in Centuria Capital No. 3 Fund.

The secured facilities are secured by the first ranking general security deed over certain assets of the Group and ranked pari-passu with one another.

The loans have covenants in relation to Interest Coverage Ratio (ICR), Gearing Ratio and a Guarantor Coverage Ratio, which are tested every six months at 31 December and 30 June. The Group has complied with all the covenants during the year, maintaining significant headroom. Consequently, based on forward projections the Group expects to be in compliance with covenants for the next two testing dates at December and June as required.

Recognition and measurement

Borrowings are initially recognised at fair value, net of transaction costs. They are subsequently measured at amortised cost using the effective interest rate method.

C11 Non-recourse loans to the Group

	Notes	2026 $'000	2025 $'000
Limited recourse SPV loans	C11(a)	**1,175,610**	918,237
Secured bank loans in controlled property funds	C11(b)	**84,033**	-
		1,259,643	918,237

The terms and conditions relating to the above facilities are set out below.

(a) Non-recourse SPV loans

	2026 $'000	2025 $'000
Opening balance	**918,237**	**800,735**
Drawdowns	**1,330,467**	1,002,188
Repayments	**(1,185,823)**	(980,135)
Capitalised interest	**112,821**	97,286
Foreign currency translation	**(92)**	118
Adjustment for benefit funds investment in SPVs	**-**	(1,955)
	1,175,610	918,237

As at 30 June 2026, the Group had $1,175,610,000 (2025: $918,237,000) non-recourse SPV loans through a number of its consolidated financing SPVs. The non-recourse loan agreements are fixed rate instruments offering a fixed lower rate and a fixed higher rate in the event of the breach of certain covenants or loan requirements with respect to each Syndicated Facility Agreement. Default interest under the back-to-back underlying syndicated facility agreements trigger the higher interest term, passing through the higher interest rates to the non-recourse loan holders.

On a consistent basis any extension or variation to the duration of the Syndicated Facility Agreement will pass through and will trigger the equivalent extension or the early repayment of the associated non-recourse loan arrangements. The back-to-back and the non-recourse nature of the loans ensure that Centuria Capital Group retains no residual liquidity, credit risks nor any interest rate risks associated with each arrangement. The only credit risk associated with each arrangement is therefore limited to the value of the interest margin and fees recognised by the Group with respect to each arrangement.

As at 30 June 2026 $878,513,000 (2025: $796,896,000) of the non-recourse loan balances are considered current with underlying syndicated facility agreements expected to be collected within the next financial year. The remaining value of the non-recourse loans payable are in relation to syndicated facility agreements expected to mature in the following financial year and are therefore considered to be non-current.

	Classification	Average effective interest rate	Due date	Total limit $'000	Facility available $'000	2026 $'000	2025 $'000
Non-recourse loans	Current	8.6%	Various	1,468,787	590,274	**878,513**	796,896
Limited Non-recourse loans	Non-current	9.9%	Various	557,938	260,841	**297,097**	121,341
				2,026,725	**851,115**	**1,175,610**	**918,237**

(b) Secured bank loans in controlled property funds

Each controlled property fund ("Property Fund") has debt facilities secured by first mortgage over each of the Property Fund's investment property and a first ranking fixed and floating charge over all assets of each of the Property Fund.

The secured loans have covenants in relation to the Loan to Value Ratio ('LVR') and Interest Coverage Ratio ('ICR') which each of the Property Fund has complied with during the year. They remain in compliance with its loan covenants, maintaining significant headroom. Consequently, based on forward projections the Property Funds expect to be in compliance with covenants for the next 12 months.

	2026			2025		
	Total limit $'000	Facility undrawn $'000	Facility drawn $'000	Total limit $'000	Facility undrawn $'000	Facility drawn $'000

Recognition and measurement

Non-recourse loans are initially recognised at fair value, net of transaction costs. They are subsequently measured at amortised cost using the effective interest rate method.

C12 Call/put option liability

	2026 $'000	2025 $'000
Property and Development Finance call/put option	**-**	40,967
	-	40,967

	2026 $'000	2025 $'000
Opening balance	**40,967**	91,090
Movement	**2,095**	(10,715)
Call/put option exercised	**(43,062)**	(39,408)
	-	40,967

The Property and Development Finance call/put option liability relates to a call option and put option over the remaining 20% of shares in Centuria Bass Credit Pty Ltd held by existing management shareholders.

On 25 February 2026, Centuria increased its ownership interest in Centuria Bass Credit Pty Ltd from 80% to 100%. The final consideration for the acquisition of the additional 20% interest was $43.1 million, comprising $42.7 million satisfied through the issue of CNI securities at $2.0042 per security, resulting in the issuance of 21.3 million securities. The remaining $0.4 million cash consideration was payable as at 30 June 2026. The final consideration was determined based on the average EBIT performance of the Centuria Bass business for the financial years 30 June 2025 and 30 June 2026 plus net tangible assets adjustment.

Recognition and measurement

The option liabilities are measured at net present value at recognition (including transaction costs, for assets and liabilities not measured at fair value through profit or loss). Subsequently at each reporting period, for changes in the expected exercise price and time value impacts, the Group recognises the movement in the profit and loss.

C13 Right of use asset/lease liability

The Group has twelve lease commitments. The current right of use assets are $8,015,000 (2025: $6,953,000) and the current lease liabilities are $6,531,000 (2025: $3,665,000). The remaining right of use assets and lease liabilities are classified as non-current.

Right of use asset	2026 $'000	2025 $'000

	73,340	56,260

Recognition and measurement

Under AASB 16 Leases, as a lessee, the Group recognises a right-of-use asset and lease liability on the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses, adjusted for any remeasurements of the lease liability.

Right-of-use assets are depreciated on a straight-line basis from the commencement date of the lease to the earlier of the end of the useful life of the asset or the end of the lease term, unless they meet the definition of an investment property.

The lease liability is initially measured at the present value of the lease payments, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made.

Fully paid ordinary securities carry one vote per security and carry the right to distributions.

On 25 February 2026, the Group issued 21,302,336 securities at $2.0042 per security in relation to the acquisition of the remaining 20% interest in Centuria Bass Credit Pty Ltd.

On 22 June 2026, Centuria Capital Group announced a fully underwritten equity raising of $300.0 million, comprising a $200.0 million institutional placement and a $100.0 million accelerated non-renounceable entitlement offer. On 30 June 2026, part of the equity raise had settled with 132,668,067 units allotted by the Fund at an issue price of $2.00 per security. Consistent with the stapled security structure of Centuria Capital Group, a portion of the equity raising was recognised within Centuria Capital Fund.

Recognition and measurement

Incremental costs directly attributed to the issue of ordinary shares are accounted for as a deduction from equity, net of any tax effects.

C15 Commitments and contingencies

Australian guarantees

The Group has provided bank guarantees of $2,085,034 (30 June 2025: $2,137,714) for commercial leases with respect to its various office premises. These bank guarantees are cash collateralised.

The above guarantees are issued in respect of the Group and do not constitute an additional liability to those already existing in interest bearing liabilities on the statement of financial position.

Contingent liabilities

The Group has provided a parent company guarantee in respect of certain obligations of Centuria DC Pty Ltd, a controlled entity in which it holds a 50% interest. This guarantee was provided in the normal course of business.

No material losses are expected to arise from this arrangement, and no provision has been recognised at reporting date.

The directors of the Group are not aware of any contingent liabilities in relation to the Group, other than those disclosed in the financial statements, which should be brought to the attention of security holders as at the date of completion of this report.

From time to time, the Group is subject to various claims and legal actions arising in the ordinary course of its development management activities. Whilst the possibility of outflows arising from such action are remote, the Group maintains sufficient insurance coverage to mitigate potential, material financial impacts arising from such claims and legal actions. As of the reporting date, the Group does not have any material exposures that can be recorded as a provision or liability in the financial statements.

Cash and cash equivalents at the end of the period	**401,001**	185,569

1. The operating segment cash flows support the segment note disclosures of the Group and provide details in relation to the operating segment cash flow performance of the Group. While the operating segment profit and loss and balance sheet have been restated on a proportionate consolidation basis, the operating segment cash flows continue to be presented on the same basis as prior years. Accordingly, the cash flows presented reflect movements pertaining to the Group's consolidated affairs and are not indicative of the underlying 'look-through' cash flow outcomes. The operating segment cash flows also exclude the impact of cash flows attributable to Benefit Funds and Controlled Property Funds.

The statutory cash flow movements for the Group per page 116 are as follows:

- Net cash provided by operating activities $81,180,000
- Net cash used by investing activities $491,776,000
- Net cash provided by financing activities $632,560,000

D2 Cash and cash equivalents

Included in total cash and cash equivalents of $432,078,000 (2025: $213,669,000) is $31,077,000 (2025: $30,560,000) relating to amounts held by Senex Warehouse Trust No.1, Benefit Funds, Property and Development Finance Special Purpose Vehicles and controlled property funds which are not readily available for use by the Group.

D3 Reconciliation of statutory profit for the period to net cash flows from operating activities

Provisions	**363**	961
Policyholder liability	**33,920**	16,734
Net cash flows provided by operating activities	**81,180**	116,729

Recognition and measurement

For the purposes of the statement of cash flows, cash and cash equivalents includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash, which are subject to an insignificant risk of changes in value and have an initial maturity of three months or less at the date of acquisition. Bank overdrafts are shown within borrowings in the statement of financial position.

E Group structure

E1 Equity accounted investments

Set out below are the associates of the Group as at 30 June 2026 which, in the opinion of the directors, were material to the Group and were accounted for using the equity method. The entities listed below have share capital consisting solely of ordinary units, which are held directly by the Group. The proportion of ownership interest is the same as the proportion of voting rights held.

	% of ownership interest			Carrying amount	
Name of entity	30 June 2026 %	30 June 2025 %	Principal activity	30 June 2026 $'000	30 June 2025 $'000
Centuria Diversified Property Fund	**31.46**	23.17	Property investment	**30,233**	29,168
Allendale Square Fund	**25.27**	25.27	Property investment	**17,967**	18,181
Centuria Government Income Property Fund No.2	**21.31**	21.31	Property investment	**5,469**	5,255
Total equity accounted investments				**53,669**	52,604

Equity accounted investments are classified as non-current.

Recognition and measurement

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and joint ventures are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and OCI of the associates and joint ventures, until the date on which significant influence or joint control ceases.

The below table shows the movement in carrying amounts of equity accounted investments from 1 July 2025 to 30 June 2026.

	Centuria Diversified Property Fund $'000	Centuria Government Income Property Fund No. 2 $'000	Allendale Street Fund $'000	Total $'000

E2 Business combination

(a) Agri Management Pty Ltd, Arrow Funds Management Limited and The Agri Trust (Arrow)

On 28 November 2025, the Group acquired all the issued shares in Arrow Funds Management Limited, Agri Management Pty Ltd and all the issued units in The Agri Trust (collectively referred to as "Arrow") for a purchase price of $24,500,000 and Arrow's net tangible assets at acquisition date. The total cash consideration was $27,290,000.

The acquisition represents the acquisition of management rights of an unlisted agricultural real estate fund, Arrow Primary Infrastructure Fund (APIF). APIF comprises of $444 million of AUM across a portfolio of 22 properties with a 12.7 year weighted average lease expiry.

The acquisition of Arrow Group is part of the Group's strategy to expand the Group's agriculture portfolio to consolidate the position as a leading fund manager in the alternative agricultural real estate sector.

Consideration transferred

On 28 November 2025, the Group transferred a total of $27,290,000 in cash as the acquisition consideration.

Identifiable assets acquired and liabilities assumed

The fair value of assets and liabilities acquired has been measured on a provisional basis pending the completion of any final valuation or determination. If information obtained within one year from the acquisition date about facts and circumstances that existed at the acquisition date to the below amounts, or any additional provisions that existed at the acquisition date, then the accounting for the acquisition will be revised.

The assets and liabilities recognised as a result of the acquisition are as follows:

	Fair value AUD$'000
Cash and cash equivalents	2,872
Receivables	45
Management rights	24,500
Deferred tax assets	7,350
Deferred tax liabilities	(7,350)
Payables	(127)
Net identifiable assets acquired	**27,290**

Provisional goodwill

Provisional goodwill arising from the acquisition has been recognised as follows:

	$'000
Consideration transferred	27,290
Fair value of identifiable net assets	(27,290)
Provisional goodwill (i)	**-**

(i) Provisional goodwill

The provisional fair value of net identifiable assets equals the consideration paid, hence no goodwill is recognised.

Transaction related costs

Transaction related costs of $450,000 were incurred for the year in respect of the acquisition of Arrow and expensed in the profit and loss.

E3 Material interests in subsidiaries

The Group's principal subsidiaries at 30 June 2026 are set out below. Unless otherwise stated, they have issued capital consisting solely of ordinary shares or units that are held directly by the Group, and the proportion of ownership interests held equals the voting rights held by the Group. The subsidiaries of the Group were incorporated in the following jurisdictions, Australia and New Zealand with principal places of business corresponding with the respective geographic jurisdictions. The parent entity of the Group is Centuria Capital Limited.

Recognition and measurement

(i) Basis of consolidation - controlled entities

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Intra-group balances and transactions and any unrealised income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements.

The Company is required by AASB 10 Consolidated Financial Statements to recognise the assets, liabilities, income, expenses and equity of the benefit funds of its subsidiary, Centuria Life Limited (the "Benefit Funds"). The assets and liabilities of the Benefit Funds do not impact the net profit after tax or the equity attributable to the securityholders of the Company and the securityholders of the Company have no rights over the assets and liabilities held in the Benefit Funds.

In order to reflect the assets and liabilities pertaining to the Benefit Funds being attributable to policyholders (as approved by securityholders) an equal and offsetting policyholder liability is recognised on consolidation. In addition, on consolidation of the various income and expenses attributable to the Benefit Funds an equal and opposite net change in policyholder liabilities is recorded in the statement of comprehensive income.

The Company has majority representation on the Board of the Over Fifty Guardian Friendly Society Limited (Guardian). However, as Guardian is a mutual organisation, the Company has no legal rights to Guardian's net assets, nor does it derive any benefit from exercising its power and therefore does not control Guardian.

(ii) Basis of consolidation - controlled property funds

As part of its funds management activities, the Group may establish and manage property investment vehicles on behalf of investors. In connection with the establishment of a new fund, the Group may provide seed capital, cornerstone investment commitments, underwriting support or other forms of capital to facilitate the acquisition of assets and support the capital raising process.

Accordingly, the Group's ownership interest in a fund may vary over time and can be higher during the initial establishment phase of a fund before reducing through subsequent capital raisings, investor subscriptions or the sale of interests to third-party investors. The Group continually manages its capital position across its various investment platforms and may adjust its ownership interests from time to time having regard to capital management objectives, investor demand and broader commercial considerations.

During the year, the Group consolidated Centuria Chadstone Homemaker Centre Fund ("CCHCF") and Centuria NZ Large Format Retail No.1 ("CNZLFR") as controlled entities. The financial position and operating results of these funds have been included in the Group's consolidated financial statements from the date control was obtained.

CCHCF is a single asset unlisted property fund established to acquire Chadstone Homemaker Centre, located at 675–685 Warrigal Road, Chadstone, Victoria. The property was acquired during June 2026 and comprises a large format retail asset leased to a diversified tenant base. The Group held an ownership interest of approximately 40.53% in CCHCF as at 30 June 2026.

CNZLFR is a New Zealand unlisted property fund established to acquire Southgate Shopping Centre in Takanini, Auckland and Hornby Mega Centre in Christchurch. The acquisitions completed on 1 May 2026. The Group held an ownership interest of approximately 44.27% in CNZLFR as at 30 June 2026.

As a result of consolidation, the assets, liabilities, income and expenses of CCHCF and CNZLFR are included within the Group's consolidated financial statements. As at 30 June 2026, the controlled property funds contributed investment properties with an aggregate carrying value of approximately $183.7 million and associated property-level borrowings of approximately $84.0 million.

E4 Parent entity disclosure

As at, and throughout the current and previous financial year, the parent entity of the Group was Centuria Capital Limited.

	2026 $'000	2025 $'000
RESULT OF PARENT ENTITY		
Profit for the year	**5,331**	12,093
Total comprehensive income for the year	**5,331**	12,093
FINANCIAL POSITION OF PARENT ENTITY AT YEAR END		
Total assets	**1,232,350**	1,111,727
Total liabilities	**(326,297)**	(302,738)
Net assets	**906,053**	808,989

The parent entity classifies its assets and liabilities as current, except for the parent entity's investments in subsidiaries. The assets of the parent entity mainly consist of cash, short term receivables, investments in subsidiaries and deferred tax assets. The parent entity's investment in subsidiaries are measured at cost. The liabilities of the parent entity mainly consist of short term payables.

TOTAL EQUITY OF THE PARENT ENTITY COMPRISING OF:		
Share capital	**511,893**	416,083
Share-based incentive reserve	**23,941**	17,950
Retained earnings	**370,219**	374,956
Total equity	**906,053**	808,989

(a) Guarantees entered into by the parent entity

The parent entity has, in the normal course of business, entered into guarantees in relation to the debts of its subsidiaries during the financial year.

(b) Commitments and contingent liabilities of the parent entity

The parent entity has bank guarantees of $2,085,034 for commercial leases with respect to its Sydney, Melbourne and Brisbane office premises. These bank guarantees are cash collateralised.

The above guarantees are issued in respect of the parent entity and do not constitute an additional liability to those already existing in liabilities on the statement of financial position.

The directors of the Company are not aware of any other contingent liabilities in relation to the parent entity, other than those disclosed in the financial statements.

F Other

F1 Share-based payment arrangements

(a) LTI Plan details

The Company has an Executive Incentive Plan (LTI Plan) which forms a key element of the Company's incentive and retention strategy for senior executives under which Performance Rights (Rights) are issued.

Each employee receives ordinary securities of the Group on vesting of the performance rights. No amounts are paid or payable by the recipient on receipt of the performance rights or on vesting. The performance rights carry neither rights to dividends nor voting rights prior to vesting.

It is expected that future annual grants of performance rights will be made, subject to the Board's determination of the overall performance of the Group and market conditions. The vesting of any performance rights awarded will be subject to attainment of appropriate performance hurdles and on the basis of continuing employment with the Group.

Further details of the LTI Plan are included in the Audited Remuneration Report from page 88 to page 108.

	2026 $'000	2025 $'000
Performance rights outstanding at the beginning of the year	**16,105,408**	12,824,518
Performance rights granted during the year	**7,172,333**	6,398,163
Performance rights lapsed during the year	**(5,299,606)**	(3,117,273)
Performance rights outstanding at the end of the year	**17,978,135**	16,105,408

The performance objectives for the performance rights issued under Tranche 11 were partially met as at 30 June 2026. As a result 3,012,063 of the Tranche 11 rights will vest.

(b) Measurement of fair values

The fair value of the rights was calculated using a binomial tree valuation methodology for the Rights with non-market vesting conditions and a Monte-Carlo simulation for the Rights with market vesting conditions.

The inputs used in the measurement of the fair values at grant date of the rights were as follows:

	Tranche 11	Tranche 12	Tranche 13
Expected vesting date	31 August 2026 and 31 August 2027	31 August 2027 and 31 August 2028	31 August 2028 and 31 August 2029
Share price at the grant date	$1.475 and $1.495	$1.685 and $1.955	$2.11 and $2.22
Expected life	2.7 - 4.0 years	2.7 - 4.0 years	2.7 - 3.9 years
Volatility	34%	34%	34%
Risk free interest rate	3.77% to 4.02%	3.56% to 3.88%	3.57% to 4.23%
Dividend yield	6.2%	5.9%	5.2%

The following table sets out the fair value of the rights at the respective grant date:

Performance condition	Tranche 11	Tranche 12	Tranche 13
Absolute TSR	$0.45 - $0.50[1]	$0.60 - $0.91[3]	$1.16 - $1.33[5]
Relative TSR	$0.59 - $0.63[2]	$0.66 - $1.02[4]	$1.28 - $1.45[6]
EPS growth	N/A	N/A	$1.74 - $1.91[7]

1. $0.45 and $0.46 for Chief Executive Officers, $0.48 and $0.50 for senior executive committee members and $0.50 for other employees.
2. $0.61 and $0.65 for Chief Executive Officers, $0.59 and $0.63 for senior executive committee members and $0.63 for other employees.
3. $0.85 and $0.91 for Chief Executive Officers, $0.60 and $0.64 for senior executive committee members and $0.64 for other employees.
4. $0.96 and $1.02 for Chief Executive Officers, $0.66 and $0.70 for senior executive committee members and $0.70 for other employees.
5. $1.16 and $1.22 for Chief Executive Officers, $1.26 and $1.33 for senior executive committee members and $1.33 for other employees.
6. $1.28 and $1.34 for Chief Executive Officers, $1.38 and $1.45 for senior executive committee members and $1.45 for other employees.
7. $1.74 and $1.83 for Chief Executive Officers, $1.81 and $1.91 for senior executive committee members and $1.91 for other employees.

During the year, share based payment expenses were recognised of $5,991,000 (2025: $3,636,000).

Recognition and measurement

instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates with respect to non-market vesting conditions, if any, is recognised in profit for the year such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

F2 Financial instruments

(a) Management of financial instruments

The Board is ultimately responsible for the Risk Management Framework of the Group.

The Group employs a cascading approach to managing risk, facilitated through delegation to specialist committees and individuals within the Group.

The Group is exposed to a variety of financial risks as a result of its activities. These risks include market risk (including interest rate risk and price risk), credit risk and liquidity risk. The Group's risk management and investment policies, approved by the Board, seek to minimise the potential adverse effects of these risks on the Group's financial performance. These policies may include the use of certain financial derivative instruments.

Centuria Group has various investment committees to oversee the relevant entity's investment and portfolio management practices to ensure they are in line with the risk and return requirements of its investors, as well as ensuring that investment decisions are made in accordance with the appropriate regulatory requirements. The Centuria Life investment committee in particular monitor fund rules and target achieving the long-term strategic objectives of investors.

From time to time, the Group outsources certain parts of the investment management of the Benefit Funds to specialist investment managers including co-ordinating access to domestic and international financial markets, and managing the financial risks relating to the operations of the Group in accordance with an investment mandate set out in the Group's constitution and the Benefit Funds' product disclosure statements. The Benefit Funds' investment mandates are to invest in equities and fixed interest securities via unit trusts, discount securities and may also invest in derivative instruments such as futures and options.

The Group uses interest rate swaps to manage interest rate risk and not for speculative purposes in any situation. Hedging is put in place where the Group is either seeking to minimise or eliminate cash-flow variability, i.e. converting variable rates to fixed rates, or changes in the fair values of underlying assets or liabilities, i.e. to convert fixed rates to variable rates.

Derivative financial instruments of the Benefit Funds, consolidated into the financial statements of the Group under AASB 10 Consolidated Financial Statements, are used only for hedging factual or anticipated exposures relating to investments. The use of financial derivatives in respect of Benefit Funds is governed by the Benefit Funds' investment policies, which provide written principles on the use of financial derivatives.

(b) Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of debt and equity capital. This overall strategy remains unchanged from the prior year.

The Group's capital structure consists of net debt (borrowings, offset by cash and cash equivalents) and equity of the Group (comprising issued capital, reserves and retained earnings).

The Group carries on business throughout Australia and New Zealand, primarily through subsidiary companies that are established in the markets in which the Group operates. The operations of Centuria Life Limited (CLL) are regulated by APRA and the management fund of CLL has a minimum Prescribed Capital Amount (PCA) that must be maintained at all times. It is calculated monthly and these results are reported to the Board each month. The current level of share capital of CLL meets the PCA requirements.

In addition, Centuria Property Funds Limited, Centuria Funds Management Limited, Centuria Property Funds No. 2 Limited, Centuria Healthcare Asset Management Limited, Centuria Property Funds No. 3 Limited and Centuria Property Funds No. 4 Limited have AFS licences so as to operate registered property trusts. Regulations require these entities to hold a minimum net asset amount which is maintained by way of cash term deposits and listed liquid investments.

Operating cash flows are used to maintain and, where appropriate, expand the Group's funds under management as well as to make the routine outflows of tax, dividends and repayment of maturing debt. The Group regularly reviews its anticipated funding requirements and the most appropriate form of funding (capital raising or borrowings) depending on what the funding will be used for.

The capital structure of the Benefit Funds (and management fund) consists of cash and cash equivalents, bill facilities and mortgage assets. The Benefit Funds also hold a range of financial assets for investment purposes including investments in unit trusts, equity and floating rate notes. The Investment Committee aims to ensure that there is sufficient capital for possible redemptions by policyholders of the Benefit Funds by regularly monitoring the level of liquidity in each fund.

The Benefit Funds have no restrictions or specific capital requirements on the application and redemption of units. The Benefit Funds' overall investment strategy remains unchanged from the prior year.

(c) Fair value of financial instruments

1. Fair value measurements recognised in the statement of financial position

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value.

The table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There was one transfer between Level 2 and 3 in the period.

Unless outlined below, detailed information in relation to recognition and measurement principles applied across all financial instruments are outlined in the respective notes accompanying the balance sheet.

30 June 2026	Measurement basis	Fair value hierarchy	Carrying amount $'000	Fair value $'000
FINANCIAL ASSETS				
Cash and cash equivalents	**Amortised cost**	**Not applicable**	**432,078**	**432,078**

Call/Put option liability	Amortised cost	Not applicable	40,967	40,967
			1,898,849	**1,902,237**

2. Valuation techniques and assumptions applied in determining fair value

The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices (includes listed redeemable notes, bills of exchange, debentures and perpetual notes).

The fair values of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments. Discount rates are determined based on market rates applicable to the financial asset or liability.

The fair values of derivative instruments are calculated using quoted prices. Where such prices are not available, discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives.

Level 2 fair values:

The Group determines Level 2 fair values for financial assets, which are investments in unlisted securities, by giving consideration to the unit prices and net assets of the underlying funds. The unit prices and net asset values are largely driven by the fair values of investment properties and derivatives held by the funds.

Level 3 fair values:

The Level 3 financial asset held by the Group is the fair value of the investment properties and residential mortgage receivables attributable to interest rate risk. For investment properties fair value measurement, refer to Note C5.

The Level 3 financial liability held by the Group is the fixed-for-life interest rate swaps.

Key estimates and judgements

Due to the illiquid nature of fixed-for-life residential mortgage loans and their associated interest rate swaps, their fair valuation are calculated using assumptions that are not supported by prices observable in the market place. A discounted cash flow model is employed in fair valuing these instruments based on their respective expected net cash flows applying a reporting date discount rate derived from the Australian intra-bank interest rate yield curve sourced from the swap provider.

The valuation techniques used in determining the fair value of the Group's reverse mortgage loan book as well as the associated interest rate swaps are as follows:

- the weighted average reverse mortgage holders' age is 86 years at reporting date;
- the loan interest compounding period is estimated using the remaining life of the borrower based on externally published 2013-2015 Life Tables consistent with those adopted by the swap provider;
- the compounding interest rate is the fixed rate of loan for each contract, commencing from the inception of each loan up to the point in time when the carrying amount of the loan including capitalised interest equals the forecast maturity date property value. After this point any future interest rate applied is reduced to ensure alignment of the fair value of the loans with the forecast maturity residential property valuation of the underlying mortgaged property. This ensures that the reporting date loan value including applicable accrued interest does not exceed the forecast maturity date property valuation;
- the reporting date Australian intra-bank interest rate yield curve supplied by the swap provider plus a credit risk margin is applied in discounting future cash flows back to their balance date fair values.

Additional assumptions applied in valuation of the reverse mortgage fixed-for-life loans and their associated swaps:

- the property growth rates are assumed to be nil% for FY27 and assumed to revert to a long-term average growth rate of 3.5% p.a from FY28 onwards;
- A 1% flat credit risk margin is added to the reporting date discount rate applied to the cash flows arising from each borrower;
- 28% of the residential mortgage loan portfolio consists of loans with joint borrowers;
- The mortality rate for joint borrowers is calculated based on the estimated life expectancy of the youngest borrower
- A 0.592% flat credit risk margin is added to the monthly cash flow discount factor in calculating the fair value of the swaps associated with the fixed-for-life reverse mortgage loans.

Recognition and measurement

The Group enters into derivative financial instruments such as interest rate swaps to manage its exposure to interest rate risk.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event, the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

3. Reconciliation of Level 3 fair value measurements of financial assets and liabilities

Year ended 30 June 2026	Other assets at fair value $'000	Reverse mortgages fair value $'000	Fixed-for-life interest rate swaps $'000	Total $'000
Balance at 1 July 2025	**3,268**	**39,092**	**(19,634)**	**22,726**
Loan repaid	**(1,201)**	**(4,072)**	**1,633**	**(3,640)**
Accrued interest	**-**	**2,996**	**(1,480)**	**1,516**

Attributable to credit risk	**-**	**618**	**(993)**	**(375)**
Balance at 30 June 2026	**2,065**	**35,395**	**(17,559)**	**19,901**

Year ended 30 June 2025	Other assets at fair value $'000	Reverse mortgages fair value $'000	Fixed-for-life interest rate swaps $'000	Total $'000
Balance at 1 July 2024	3,300	39,939	(19,273)	23,966
Loan repaid	-	(4,107)	1,489	(2,618)
Addition - transfer from level 2	70	-	-	70
Accrued interest	-	3,004	(1,260)	1,744
Attributable to interest rate and other risk	(102)	118	(368)	(352)
Attributable to credit risk	-	138	(222)	(84)
Balance at 30 June 2025	**3,268**	**39,092**	**(19,634)**	**22,726**

(d) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral or other security, where appropriate, as a means of mitigating risk of financial loss from default. The credit risk on financial assets of the Group and the parent recognised in the statement of financial position is generally the carrying amount, net of allowance for impairment loss.

Concentration of risk may exist when the volume of transactions limits the number of counterparties.

1. Credit risk of reverse mortgages

Concentration of credit risk in relation to reverse mortgage loans is minimal, as each individual reverse mortgage loan is secured by an individual residential property. The loan is required to be settled from the proceeds of disposal of the secured property after the borrower's death.

Individual property valuations are conducted at least every 3 years in accordance with financier's requirements. At 30 June 2026, the highest loan to value ratio (LVR) of a loan in the reverse mortgage loan book is 138% (2025: 167%), and there are 33 out of 105 (2025: 43 out of 117) reverse mortgage loans where the LVR is higher than 50%.

2. Credit risk on other financial assets

Credit risk on other financial assets such as investments in floating rate notes, standard discount securities and unit trusts is managed through strategic asset allocations with creditworthy counterparties and the on-going monitoring of the credit quality of investments, including the use of credit ratings issued by well-known rating agencies.

Loan receivable from related party

As of 30 June 2026, the Group recognised a loss allowance of $8,565,190 (2025: $6,429,000) for the related party loan receivable from Centuria NZ Healthcare Property Fund (CNZHPF). The loss allowance was measured at the lifetime expected credit loss from future possible scenarios and are probability weighted. The estimated scenarios and probabilities of loss are based on the market data collected, Group's view of future economic conditions and CNZHPF's forecast business plan. This does not have significant impact on the Group's credit risk exposure in other financial assets.

Receivables

The exposure of credit risk in respect of financial assets remains minimal as the majority of other financial assets are due from related parties of the Group. The Group does not have any significant credit risk exposure to any single entity in other financial assets or any group of counterparties having similar characteristics.

The aging of receivables at the reporting date was as follows:

	2026 $'000	2025 $'000
Not due	**92,034**	71,283
Past due:		
1 to 30 days	**2,806**	4,209
31 to 60 days	**972**	2,416
> 60 days overdue	**3,141**	1,687
	98,953	79,595

3. Secured real estate mortgages receivable

As at 30 June 2026, the Group had $1,200,303,000 (2025: $941,573,000) in secured real estate mortgages receivable, through a number of its consolidated financing SPVs secured over the value of the underlying property with respect to each of its syndicated facility agreements.

The loans are variable interest rate instruments offering a variable lower rate (BBSY + Margin) and a variable higher rate (Lower rate + Margin) in the event of the breach of certain covenants or loan requirements with respect to each Syndicated Facility Agreement. Default interest triggered under the syndicated facility agreements also trigger a higher interest rate under the non-recourse loan agreements, passing through higher interest rates to the underlying non-recourse loan holders.

On a consistent basis any extension or variation to the duration of the Syndicated Facility Agreement will pass through and will trigger the equivalent extension or the early repayment of the associated non-recourse loan arrangements. The back-to-back and the non-recourse nature of the loans ensure that Centuria Capital Group retains minimal residual liquidity, credit risks nor any interest rate risks associated with each arrangement. The only credit risk associated with each arrangement is therefore limited to the value of the interest margin and fees recognised by the Group with respect to each arrangement.

As at 30 June 2026 $836,083,000 (2025: $901,586,000) of the secured real estate mortgages receivable are considered current with underlying syndicated facility agreements expected to be collected within the next financial year. The remaining value of $364,220,000 (2025: $39,987,000) of the non-recourse loans payable are in relation to syndicated facility agreements expected to mature in the following financial year and are therefore considered to be non-current.

Due to the non-recourse nature of the loans the Group is exposed to minimal credit risk. This ensures that other than the Interest margin which is part of the "aggregate amount available" any credit loss exposure arising from the impairment of the principal value of the loan and the interest payable by the SPV to its investors would be offset.

This limits the commercial exposure of the Group to the interest margin recorded by its SPV and the fees and charges

As at 30 June 2026:

	At amortised cost $'000	Expected credit loss $'000	Carrying amount $'000	Expected loss rate
Stage 1	778,832	(439)	778,393	0.06%
Stage 2	370,284	(20,771)	349,513	5.94%
Stage 3	51,187	(6,338)	44,849	12.38%
Total	**1,200,303**	**(27,548)**	**1,172,755**	**2.35%**

As at 30 June 2025:

	At amortised cost $'000	Expected credit loss $'000	Carrying amount $'000	Expected loss rate
Stage 1	542,534	(200)	542,334	0.04%
Stage 2	289,253	(7,828)	281,425	2.71%
Stage 3	109,786	(17,989)	91,797	16.39%
Total	**941,573**	**(26,017)**	**915,556**	**2.76%**

Stage 1: 12-month ECL. Where credit risk has not increased significantly since initial recognition.

Stage 2: Lifetime ECL. Where credit risk has increased significantly since initial recognition.

Stage 3: Lifetime ECL and credit impaired.

The Group's accounting policy for credit impairment is outlined in Note C4(iii).

When measuring the expected credit loss (ECL) of the secured mortgage loans of the Group, a credit loss model uses a probability of default applied against exposure, with the following key components:

- Exposure at default (EAD): Estimate the amount outstanding at the time of default.
- Probability of default (PD): Estimate the likelihood of default over a given period. This involves historical data and forward-looking information.
- Loss given default (LGD): Estimate the loss if a default occurs, considering recoveries from collateral or other sources.

The movement for the allowance for impairment provisions and expected credit loss for the year ended 30 June 2026 are as follows:

	Gross exposure $'000	Provision $'000	Total $'000
Balance at 1 July 2025	941,573	(26,017)	915,556
New loans originated	709,029	(10)	709,019
Transfers:			
Transfers from stage 1	(41,140)	(339)	(41,479)
Transfers from stage 2	(19,087)	(14,728)	(33,815)

Loans repaid	(338,953)	2,893	(336,060)
Write-offs	-	-	-
Total	**1,200,303**	**(27,548)**	**915,556**

(e) Liquidity risk

The Group's approach to managing liquidity is to ensure that it will always have sufficient liquidity to meet its liabilities.

The liquidity risk is managed at the Group level. Bank account balances across all entities, current and future commitments, and expected cash inflows are reviewed in detail when the monthly cash flow projection is prepared for management purposes and presented to the Board at its regular monthly meetings. By comparing the projected cash flows with the assets and liabilities shown in the individual and consolidated statements of financial position, which are also prepared on a monthly basis for management purposes and presented to the Board, liquidity requirements for the Group can be determined. Based on this review, if it is considered that the expected cash inflows plus liquidity on hand, may not be sufficient in the near term to meet cash outflow requirements, including repayment of borrowings, a decision can be made to carry out one or more of the following:

- renegotiate the repayment terms of the borrowings;
- sell assets that are held on the statement of financial position; and/or
- undertake an equity raising.

This, combined with a profitable business going forward, should ensure that the Group continues to meet its commitments, including repayments of borrowings, as and when required.

The Group's overall strategy to liquidity risk management remains unchanged from the prior year.

The policyholders in the Benefit Funds are able to redeem their policies at any time and the Benefit Funds are therefore exposed to the liquidity risk of meeting policyholders' withdrawals at any time. The Investment Committee aims to ensure that there is sufficient capital for possible redemptions by policyholders of the Benefit Funds by regularly monitoring the level of liquidity in each fund.

The following table summarises the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been prepared based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group and the parent can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are at floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period.

Non-derivative financial liabilities	On demand $'000	Less than 3 months $'000	3 months to 1 year $'000	1–5 years $'000	5+ years $'000	Total $'000

(f) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises interest rate risk and price risk. Due to the nature of assets held by the Group (excluding the Benefit Funds), there is an asset and liability management process which determines the interest rate sensitivity of the statement of financial position and the implementation of risk management practices to hedge the potential effects of interest rate changes. The Group manages the market risk associated with its Benefit Funds by outsourcing its investment management. The Investment Manager manages the financial risks relating to the operations of the Benefit Funds in accordance with an investment mandate set out in the Benefit Funds' constitution and PDS. There has been no change to the Group's exposure to market risks or the manner in which it manages and measures the risk.

1. Equity price risk

The Group is exposed to equity price risk arising from investments held and classified as at fair value through profit or loss. The exposure to equity price risk at the end of the reporting period, assuming equity prices had been 10% higher or lower while all other variables were held constant, would increase/decrease net profit by $96.6 million (2025: $96.4 million).

2. Interest rate risk management

The Group is exposed to interest rate risk because entities in the Group borrow funds at floating interest rates. Management of this risk is evaluated regularly and interest rate swaps are used accordingly.

The tables below detail the Group's interest bearing financial assets and liabilities.

2026	Weighted average effective interest rate %	Variable rate $'000	Fixed rate $'000	Total $'000
FINANCIAL ASSETS				
Cash and cash equivalents	**4.50%**	**432,078**	**-**	**432,078**

Non-recourse loans - SPV	10.22%	(93,748)	(824,489)	(918,237)
Total financial liabilities		(462,875)	(898,572)	(1,361,447)
Net interest bearing financial assets/(liabilities)		642,093	(720,601)	(78,508)

3. Interest rate swap contracts

Under interest rate swap contracts, the Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the Group to mitigate the risk of changing interest rates on the fair value of fixed rate financial assets held and the cash flow exposures on the issued variable rate debt.

The following table details the notional principal amounts and remaining expiry of the Group's outstanding interest rate swap contracts as at reporting date. These swaps are at fair value through profit and loss.

	Average contracted rate		Notional principal amount		Fair value	
Pay fixed for floating contracts	2026 %	2025 %	2026 $'000	2025 $'000	2026 $'000	2025 $'000
50 year swaps contracts	**7.47%**	7.48%	**5,371**	6,101	**(17,559)**	(19,634)
			5,371	6,101	**(17,559)**	(19,634)

4. Interest rate sensitivity

The sensitivity analysis below has been determined based on the parent and the Group's exposure to interest rates at the balance date and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period, in the case of financial assets and financial liabilities that have variable interest rates. A 100 basis points (1.00%) increase or decrease represents management's assessment of the reasonably possible change in interest rate.

At reporting date, if variable interest rates had been 100 (2025: 100) basis points higher or lower and all other variables were held constant, the impact to the Group would have been as follows:

			Effect on profit after tax	
	Change in variable 2026	Change in variable 2025	2026 $'000	2025 $'000
CONSOLIDATED				
Interest rate risk	**+1.00%**	+1.00%	**6,270**	415
CONSOLIDATED				
Interest rate risk	**-1.00%**	-1.00%	**(626)**	2,983

The sensitivity analysis takes into account interest-earning assets and interest-bearing liabilities attributable to the securityholders only, and does not take into account the bank bill facility margin changes.

F3 Remuneration of auditors

Amounts received or due and receivable by KPMG:

	2026 $	2025 $
Audit and review of the financial report	**1,263,796**	1,161,935
Other services including AFSL and compliance plan audits	**305,692**	347,188
Non-audit services	**140,432**	150,053
	1,709,920	1,659,176

F4 Events subsequent to the reporting date

Subsequent to 30 June 2026, Centuria Capital Group completed the retail component of the accelerated non-renounceable entitlement offer announced on 22 June 2026 as part of its fully underwritten $300.0 million equity raising. The retail entitlement offer closed on 7 July 2026 and raised approximately $35.0 million, with settlement occurring on 13 July 2026, securities issued on 14 July 2026 and trading commencing on 15 July 2026.

On 2 July 2026 the Group utilised a portion of the proceeds to repay approximately $221.0 million of floating rate secured notes. Following this repayment, the Group had approximately $265.0 million of available funding capacity.

On 13 August 2026, the Group announced that a Master Services Agreement has been signed with CDC Data Centres, providing an initial data centre power capacity of 7MW, with a Letter of Intent supporting an increase to 10MW. The Group has also secured 72MW of dedicated power generation units for a Centuria data centre development within its broader 250MW+ infrastructure pipeline. A senior bridge GPU financing facility of $165 million has been executed to support staged NVIDIA GPU procurement for a portion of the initial CDC deployment.

On 17 August 2026, Centuria Sydney CBD Prime Office Fund ("CSPOF") settled the acquisition of 680 George Street and 50 Goulburn Street, Sydney. The Group invested $129.9m at settlement, representing 48.5% ownership. As such, the Group is deemed to control CSPOF and consolidates it as part of the controlled property funds from this date. CSPOF is in the progress of further capital raising and it is expected that the Group's interest in CSPOF will decrease over time. As at the date of this report, CSPOF has received $15.7 million of applications for allotment, which is expected to reduce the Group's holding to 40.9%.

Other than the above, no material or unusual event, transaction, or occurrence has arisen that, in the directors' opinion, is likely to significantly affect the Group's operations, results, or financial position in future periods.

Consolidated entity disclosure statement

Basis of preparation

This consolidated entity disclosure statement (CEDS) has been prepared in accordance with section 295(3A) of the Corporations Act 2001 and includes information for each entity that was part of the consolidated entity as at the end of the financial year in accordance with AASB 10 Consolidated Financial Statements.

The Group's entities that are consolidated in these consolidated financial statements at 30 June 2026 are set out below. Unless otherwise stated, they have issued capital consisting solely of ordinary shares or units that are held directly by the Group, and the proportion of ownership interests held equals the voting rights held by the Group. The entities of the Group were incorporated in the following jurisdictions, Australia and New Zealand with principal places of business corresponding with the respective geographic jurisdictions. The parent entity of the Group is Centuria Capital Limited.

Determination of tax residency

Section 295 (3A)(vi) of the Corporation Act 2001 defines tax residency as having the meaning in the *Income Tax Assessment Act 1997*. In determining tax residency, the consolidated entity has applied the following interpretations:

- Australian tax residency: The Group has applied current legislation and judicial precedent, including having regard to the Tax Commissioner's public guidance in Tax Ruling TR 2018/5;
- Foreign tax residency: The Group has applied current legislation and where available judicial precedent in the determination of foreign tax residency.

Directors' declaration

In the opinion of the Directors' of Centuria Capital Limited:

a. the consolidated financial statements and notes set out on pages 88 to 108 and the Remuneration Report set out on pages 18 to 42 in the Directors' Report, are in accordance with the *Corporations Act 2001*, including:

   i. complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements, and

   ii. giving a true and fair view of the Group's financial position as at 30 June 2026 and of its performance for the financial year ended on that date.

b. the Consolidated entity disclosure statement as at 30 June 2026 set out on pages 112 to 182 is true and correct, and

c. there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

Note A1 confirms that the consolidated financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The Directors have been given the declarations by the Joint Chief Executive Officers and Chief Financial Officer required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of the Directors.

Ms Kristie R. Brown

Independent Auditor's report

This is a reproduction of the KPMG original version of the audit report on the financial report signed by the directors on 27 August 2026. Page references should be read as follows to reflect the correct references now that the financial report has been presented in the context of the annual report in its entirety.

Page reference 18-42 with respect to the KPMG audit of the remuneration report set out in the directors' remuneration report, should be updated to read 88-108.

KPMG

Independent Auditor's Report

To the stapled security holders of Centuria Capital Group

Report on the audit of the Financial Report

Opinion

We have audited the ***Financial Report*** of Centuria Capital Group (the Stapled Group Financial Report).

In our opinion, the accompanying Stapled Group Financial Report gives a true and fair view, including of the ***Stapled Group's*** financial position as at 30 June 2026 and of its financial performance for the year then ended, in accordance with the *Corporations Act 2001*, in compliance with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The ***Financial Report*** of the Stapled Group comprises:

- Consolidated Statement of Financial Position as at 30 June 2026
- Consolidated Statement Comprehensive Income, Consolidated Statement of Changes in Equity, and Consolidated Statement of Cash Flows for the year then ended
- Consolidated Entity Disclosure Statement and accompanying basis of preparation as at 30 June 2026
- Notes, including material accounting policies
- Directors' Declaration.

The ***Stapled Group*** consists of Centuria Capital Limited (the ***Company***) and the entities it controlled at the year-end or from time to time during the financial year and Centuria Capital Fund and the entities it controlled at the year-end or from time to time during the financial year.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Stapled Group and Centuria Capital Limited in accordance with the *Corporations Act 2001* and the ethical requirements of the APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional and Ethical Standards Board Limited (the Code) that are relevant to our audit of the annual financial report of public interest entities in Australia. We have fulfilled our other ethical responsibilities in accordance

KPMG, an Australian partnership and a member firm of the KPMG global organisation of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved. The KPMG name and logo are trademarks used under license by the independent member firms of the KPMG global organisation. Liability limited by a scheme approved under Professional Standards Legislation.

with these requirements.

Key Audit Matters

The ***Key Audit Matters*** we identified for the Stapled Group are:

- Recoverable amount of goodwill and indefinite life management rights
- Recognition of performance fee income

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

These matters were addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Recoverable amount of goodwill and indefinite life management rights ($1,109.8m)

Refer to Note *C8* to the Financial Report

The key audit matter	How the matter was addressed in our audit
A key audit matter is the Stapled Group's annual testing of goodwill and indefinite life management rights for impairment, given the size of the balance (being 26% of total assets). We focused on the significant forward-looking assumptions the Stapled Group applied in their value in use models, including: • Forecast operating cash flows (including revenue and expenses), growth rates and terminal growth rates – The Stapled Group's models are sensitive to changes in these assumptions. This drives additional audit effort specific to their feasibility and consistency of application to the Stapled Group's strategy. • Discount rate – This is complicated in nature and varies according to the conditions and environment of the specific Cash Generation Unit (CGU). The Stapled Group's modelling is sensitive to changes in the discount rate. We exercised judgement in assessing the value in use estimated by the Stapled Group. The key assumptions impacting the value in use are subject to estimation uncertainty and bias. This increases the risk	We focused on the Property Funds Management CGU and the Property Development Financing CGU and in performing our procedures, we: • Considered the Stapled Group's determination of its CGUs based on our understanding of the Stapled Group's business, and how independent cash inflows were generated against the requirements of the accounting standards; • Analysed the Stapled Group's internal reporting to assess their monitoring and management of activities, and the consistency of the allocation of goodwill to CGUs; • Considered the appropriateness of the value in use method applied by the Stapled Group to perform its impairment test of goodwill and indefinite life management rights against the requirements of the accounting standards; • Assessed the integrity of the value in use model used, including the accuracy of the underlying calculation formulas; • Assessed the accuracy of previous Stapled Group forecasts to inform our evaluation of forecasts incorporated in the models; • Compared the forecast cash flows, including revenue and expenses contained in the value in use model to the Board approved forecast; • Challenged the Stapled Group's significant forecast cash flow and growth assumptions by:

of inaccurate forecasts or a wider range of possible outcomes for us to consider. Increased time and effort is spent by the audit team in assessing these key assumptions. We involved our valuation specialists to supplement our senior audit team members in assessing this key audit matter.	- Assessing baseline cash flows, including revenue and expenses by comparing to actual historic cash flows and key events to the Board approved plan and strategy; - With the assistance of our valuation specialists, compared growth rates and terminal growth rates to published studies of industry trends and expectations, and considered differences to the Stapled Group's operations. We used our knowledge of the Stapled Group, their past performance, business and customers, and our industry experience; and - Checking the consistency of the forecast growth rates to the Stapled Group's stated plan and strategy, past performance of the Stapled Group and our experience regarding the feasibility of these in the economic environment in which they operate. • Worked with our valuation specialists to independently develop a discount rate range considering publicly available market data for comparable entities, adjusted by risk factors specific to the Stapled Group and the industry it operates in; • Considered the sensitivity of the models by varying key assumptions, such as forecast growth rates, terminal growth rates and discount rates, within a reasonably possible range. We considered the interdependencies of key assumptions when performing the sensitivity analysis and what the Stapled Group consider to be reasonably possible. We did this to identify those assumptions at higher risk of bias or inconsistency in application and to focus our further procedures; and • Assessed the disclosures in the financial report using our understanding obtained from our testing and against the requirements of the accounting standards.

Recognition of performance fee income ($20.0m)	
Refer to Note B2 to the Financial Report	
The key audit matter	**How the matter was addressed in our audit**
The Stapled Group, in its capacity as a property fund manager, receives performance fees where the managed property fund outperforms a set internal rate of return benchmark (hurdle rate). Performance fees are recognised by the Stapled Group when they are deemed to be highly probable and the amount of the performance fees will not result in a significant reversal in future periods. Recognition of performance fee income is a key audit matter due to the judgement exercised by us to assess the amount of performance fee income estimated by the Stapled Group. The key assumptions impacting the amount of performance fee income are subject to estimation uncertainty, bias and inconsistent application. This increases the risk of inaccurate forecasts or a wider range of possible outcomes for us to consider. Increased time and effort is spent by the audit team in assessing these key assumptions. We focused on the following key assumptions made by the Stapled Group in estimating the amount of performance fee income including: • Fair value of underlying properties held. The valuation of investment properties contains assumptions with estimation uncertainty such as expected capitalisation rates and market rental yields. This leads to additional audit effort for us to assess the differing assumptions based on asset classes, geographies and characteristics of individual investment properties. • Forecast fund end date – The fund end date impacts the level of returns that can be achieved over the course of the fund's life and may change depending on the Stapled Group's strategy. • Constraint – This is impacted by the Stapled Group's expectations of how much of the performance fee is highly probable of being received with reference to the remaining tenure of the fund in accordance with accounting standard requirements.	In performing our procedures, we: • Inspected a sample of the Stapled Group's agreements with managed property funds to understand the key terms related to performance fees, including hurdle rates; • Evaluated the Stapled Group's accounting policies regarding the recognition of performance fee income against accounting standard requirements. This included assessing the Stapled Group's policies for constraining performance fee income and valuing investment properties against accounting standard requirements; • Assessed the scope, competence and objectivity of the investment property valuers to fair value the underlying investment properties held by the funds; • Obtained a sample of the investment property valuations and challenged key property fair value assumptions such as capitalisation rates and market rental yields. To do this, we used market analysis published by industry experts, recent market transactions, historical performance of the underlying investment properties and our industry experience, taking into account asset classes, geographies and characteristics of individual investment properties. We assessed the valuation methodology used against accounting standard requirements and industry practice; • Assessed the Stapled Group's determination of the forecast fund end date against a sample of the underlying managed property fund agreements, the Stapled Group's fund strategy and history of extending fund term end dates; • Recalculated a sample of the Stapled Group's performance fee income based on hurdles in the underlying performance fee agreements with managed property funds and compared to the performance fee income recorded in the Stapled Group's financial statements; • Challenged the constraints applied by the Stapled Group. We used our knowledge of the Stapled Group, their past performance, business, and our industry experience to inform our expectations of current and forecast property fund performance and likelihood of performance fees being received; and • Assessed the appropriateness of disclosures in the Financial Report, using our understanding obtained from our testing and against the requirements of the accounting standards.

Other Information

Other Information is financial and non-financial information in Centuria Capital Group's annual report which is provided in addition to the Financial Report and the Auditor's Report. The Directors of the Centuria Capital Limited are responsible for the Other Information.

The Other Information we obtained prior to the date of this Auditor's Report was the Directors' Report and Additional stock exchange information. Other than these items, the remaining other information included in the Centuria Capital Group Annual Report is expected to be made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors of Centuria Capital Limited are responsible for:

- preparing the Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Stapled Group, and in compliance with *Australian Accounting Standards* and the *Corporations Regulations 2001*
- implementing necessary internal control to enable the preparation of a Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Stapled Group, and that is free from material misstatement, whether due to fraud or error
- assessing the Stapled Group's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Stapled Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/media/bwvjcgre/ar1_2024.pdf This description forms part of our Auditor's Report.

Report on the Remuneration Report

Opinion

In our opinion, the Remuneration Report of Centuria Capital Group for the year ended 30 June 2026, complies with *Section 300A* of the *Corporations Act 2001*.

Directors' responsibilities

The Directors of the Centuria Capital Limited are responsible for the preparation and presentation of the Remuneration Report in accordance with *Section 300A* of the *Corporations Act 2001*.

Our responsibilities

We have audited the Remuneration Report included in pages 18 to 42 of the Directors' report for the year ended 30 June 2026.

Our responsibility is to express an opinion as to whether the Remuneration Report complies in all material respects with Section 300A of the Corporations Act 2001, based on our audit conducted in accordance with *Australian Auditing Standards*.

Disclaimer

This annual report is provided for general information purposes only. It is not a prospectus, product disclosure statement, pathfinder document or any other disclosure document for the purposes of the Corporations Act and has not been, and is not required to be, lodged with the Australian Securities and Investments Commission. It should not be relied upon by the recipient in considering the merits of CNI or the acquisition of securities in CNI. Nothing in this annual report constitutes investment, legal, tax, accounting or other advice and it is not to be relied upon in substitution for the recipient's own exercise of independent judgment with regard to the operations, financial condition and prospects of CNI.

The information contained in this annual report does not constitute financial product advice. Before making an investment decision, the recipient should consider its own financial situation, objectives and needs, and conduct its own independent investigation and assessment of the contents of this annual report, including obtaining investment, legal, tax, accounting and such other advice as it considers necessary or appropriate.

This annual report has been prepared without taking account of any person's individual investment objectives, financial situation or particular needs. It is not an invitation or offer to buy or sell, or a solicitation to invest in or refrain from investing in, securities in CNI or any other investment product. The information in this annual report has been obtained from and based on sources believed by CNI to be reliable. To the maximum extent permitted by law, CNI and the members of the Centuria Capital Group make no representation or warranty, express or implied, as to the accuracy, completeness, timeliness or reliability of the contents of this annual report. To the maximum extent permitted by law, CNI does not accept any liability (including, without limitation, any liability arising from fault or negligence) for any loss whatsoever arising from the use of this annual report or its contents or otherwise arising in connection with it. This annual report may contain forward-looking statements, guidance, forecasts, estimates, prospects, projections or statements in relation to future matters (Forward Statements). Forward Statements can generally be identified by the use of forward looking words such as "anticipate", "estimates", "will", "should", "could", "may", "expects", "plans", "forecast", "target" or similar expressions. Forward Statements including indications, guidance or outlook on future revenues, distributions or financial position and performance or return or growth in underlying investments are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. No independent third party has reviewed the reasonableness of any such statements or assumptions.

Neither CNI nor any member of Centuria Capital Group represents or warrants that such Forward Statements will be achieved or will prove to be correct or gives any warranty, express or implied, as to the accuracy, completeness, likelihood of achievement or reasonableness of any Forward Statement contained in this annual report. Except as required by law or regulation, CNI assumes no obligation to release updates or revisions to Forward Statements to reflect any changes. The reader should note that this annual report may also contain pro-forma financial information. Distributable earnings is a financial measure which is not prescribed by Australian Accounting Standards (AAS) and represents the profit under AAS adjusted for specific non-cash and significant items. The Directors of CFML consider that distributable earnings reflect the core earnings of the Centuria Capital Fund. All dollar values are in Australian dollars ($ or A$) unless stated otherwise.

Opt in to electronic Annual Report

If you would prefer to receive this digitally, you can opt in by emailing cni.enquiry@centuriainvestor.com.au and requesting to receive the annual report via email. We recommend using your personal email address. Not only will you be helping the environment, you will also help reduce costs and increase profitability for all unitholders in the fund.

You can update your email, or change your annual report delivery method back to post at any time by emailing cni.enquiry@centuriainvestor.com.au with your request.

If you have any questions, please contact Centuria Investor Services on 1800 187 257.
