Plant 1 Insurance Claim Update

Kingsgate Consolidated Limited (ASX: KCN) (“Kingsgate” or the “Company”) is pleased to advise that, further to its ASX announcement dated 13 July 2026 regarding the Plant 1 incident at the Chatree Gold Mine, the incident is covered under the Company’s property damage and business interruption insurance policies, and the associated claims process is now well advanced.

The policies provide cover for eligible costs associated with the repair and remediation of Plant 1, together with financial losses arising from the resulting interruption to production.

Kingsgate continues to work closely with its insurance brokers and insurers to quantify and substantiate the claim. This assessment will incorporate eligible remediation expenditure and production impacts associated with the incident as the remediation program progresses.

Based on the progress of the claims process to date, the Company expects the majority of insurance proceeds associated with the Plant 1 incident to be received during calendar 2027.

The Company will provide further updates as the claims process progresses.

This announcement is authorised for release by the Board of Kingsgate Consolidated Limited.
