Fortescue™

2026
ANNUAL GENERAL MEETING

FORWARD LOOKING STATEMENTS DISCLAIMER

Important Notice

The purpose of this presentation is to provide general information about Fortescue Ltd and its subsidiaries ("Fortescue"). It is not recommended that any person makes any investment decision in relation to Fortescue based on this presentation. This presentation contains certain statements which may constitute "forward-looking statements". Such statements are only predictions and are subject to inherent risks and uncertainties which could cause actual decisions, values, results, performance or achievements to differ materially from those expressed or implied in any forward-looking statement. Forward-looking statements are based on assumptions regarding Fortescue's present and future business strategies and the future conditions in which Fortescue expects to operate. Accordingly, Fortescue cautions against undue reliance on such statements. Fortescue makes no representation, warranty or assurance, express or implied, as to the accuracy or likelihood of the forward-looking statements or any outcomes expressed or implied in any forward-looking statements contained in this presentation being achieved or proved to be correct. Except for statutory liability which cannot be excluded, Fortescue and its respective officers, employees and advisers expressly disclaims any responsibility for the accuracy or completeness of the material contained in this presentation and excludes all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission therefrom. Except as required by applicable regulations or by law, Fortescue disclaims any obligation to publicly update or review any forward-looking statements, whether as a result of new information or future events.

Additional Information

This presentation should be read in conjunction with the Annual Report at 30 June 2026 together with any announcements made by Fortescue in accordance with Fortescue's continuous disclosure obligations applying to it as a company listed on the Australian Securities Exchange. Any references to reserve and resources estimations should be read **in conjunction with Fortescue's Ore Reserves and Mineral Resources statements included in the FY26 Annual Report released to the Australian Securities Exchange on 20 August 2026.** Fortescue confirms in the subsequent public report that it is not aware of any new information or data that materially affects the information included in the relevant market announcement and, in the case of estimates of mineral resources or ore reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. All amounts within this presentation are stated in United States Dollars consistent with the functional currency of Fortescue, unless otherwise stated. Tables contained within this presentation may contain immaterial rounding differences.

EXECUTIVE CHAIRMAN

Many of you have been with us since the beginning.

You've stuck with us through thick and thin.

And backed Fortescue's DNA – which still drives us today.

This is your Company today

Australia's highest returning company since inception

US$40 billion in projects executed since 2003

US$6.2bn decarbonisation project being delivered

Projects delivered faster and at a lower capital intensity than our peers in the Pilbara

Energy is the most important commodity on Earth

Industrial growth needs cheap, reliable power:

AI and data centres

Manufacturing, transport and
heavy industry

Rare earth processing,
copper mining and refining

Electrification –
the defining economic & national security lesson of the decade

Economics of green energy now undeniable

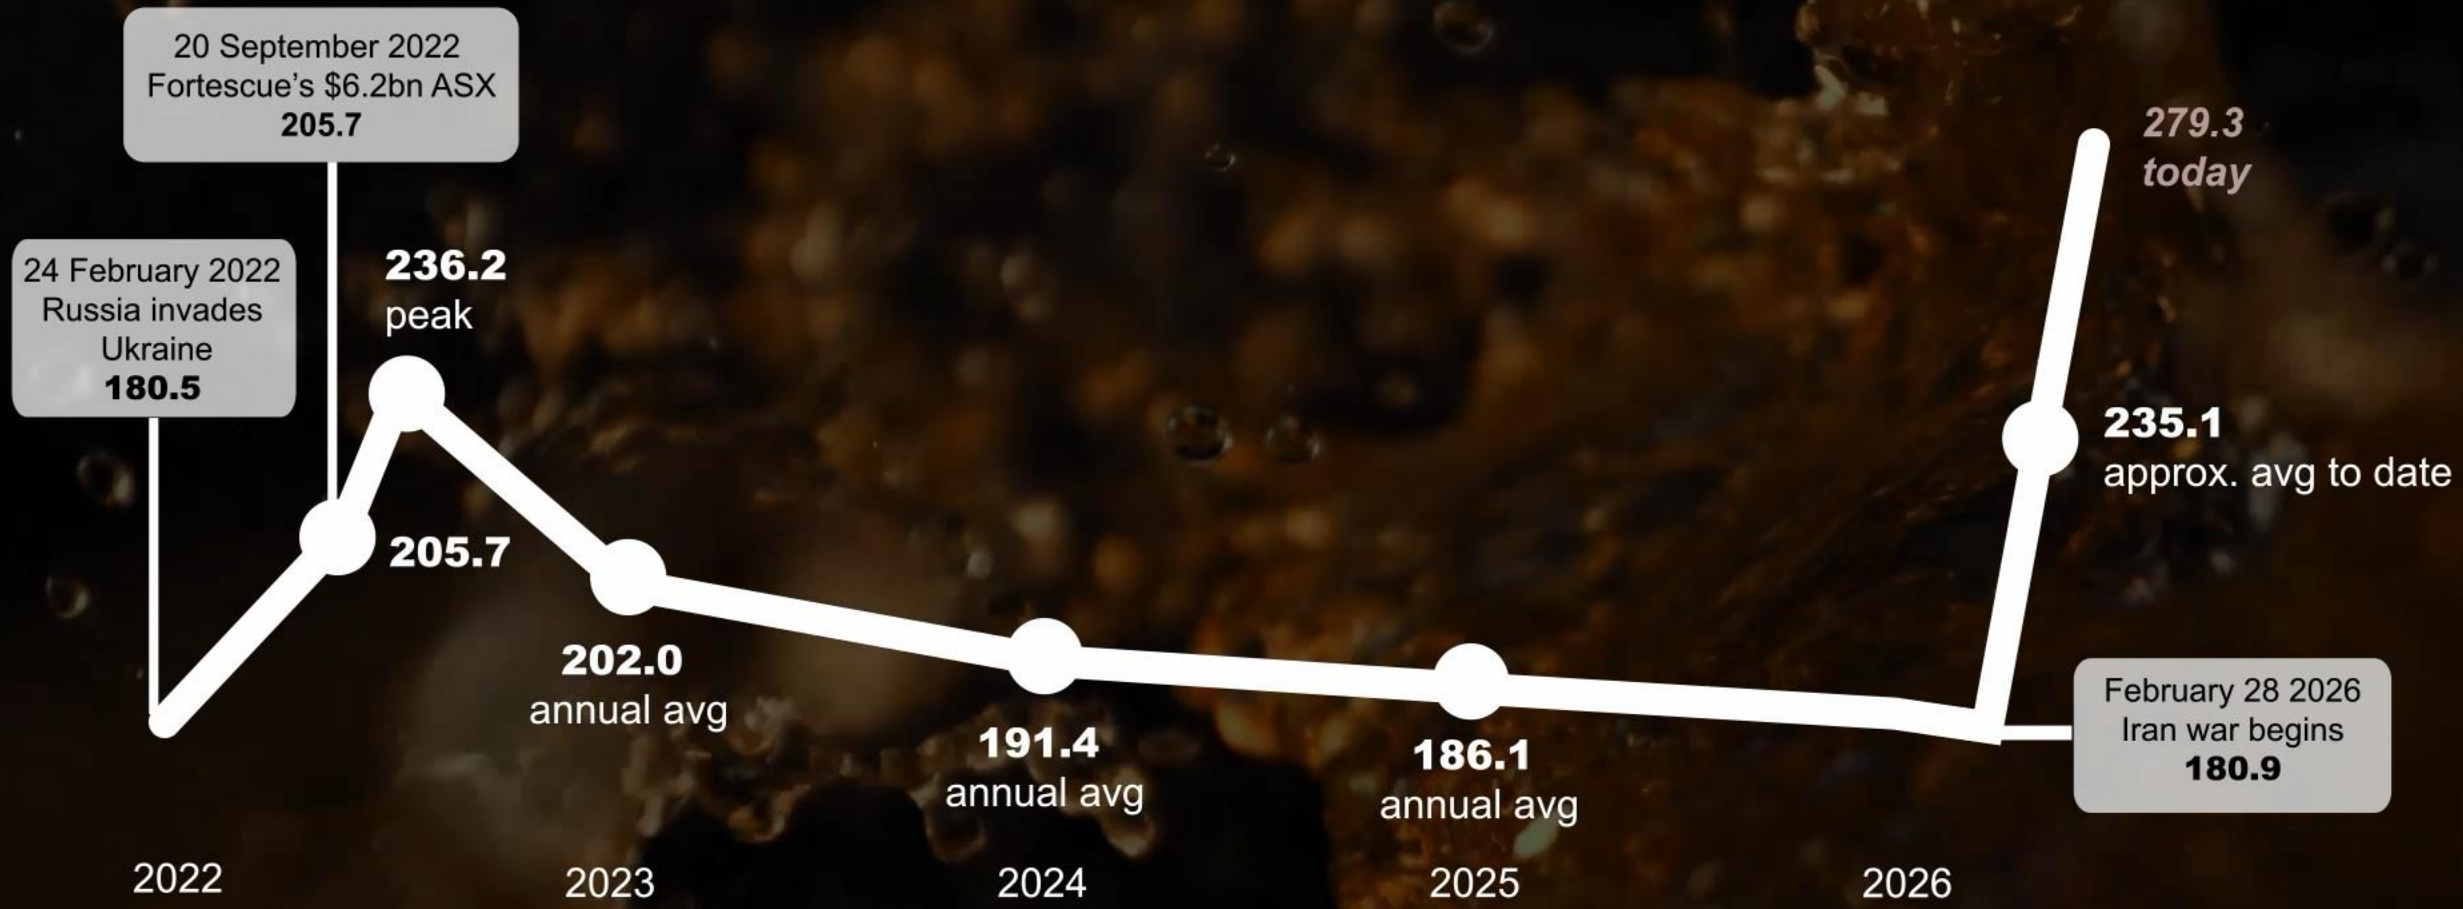

Renewables among cheapest sources of new electricity generation in the US, even without subsidies

Lead time for new solar & wind projects less than two years, compared to at least three years for gas

Australian diesel pump price

36% increase since 2022 decarbonisation announcement

AIP national average diesel price – quoted in Australian cents per litre

The cost of fossil fuel dependence

Mining's biggest uncontrolled cost

We use ~1bn litres of diesel equivalent a year

Every US$10/barrel rise in diesel benchmark **adds ~US$0.20/wmt to C1 costs**

Energy is the next great commercial engine of this company

Our first Green Grid customer

20-year power purchase agreement to supply PLS Group's Pilgangoora lithium operation

Minimum 325GWh annually

Equivalent to 45,000 Australian homes powered annually

Delivering our US$6.2 billion decarbonisation program

100% of technical challenges solved

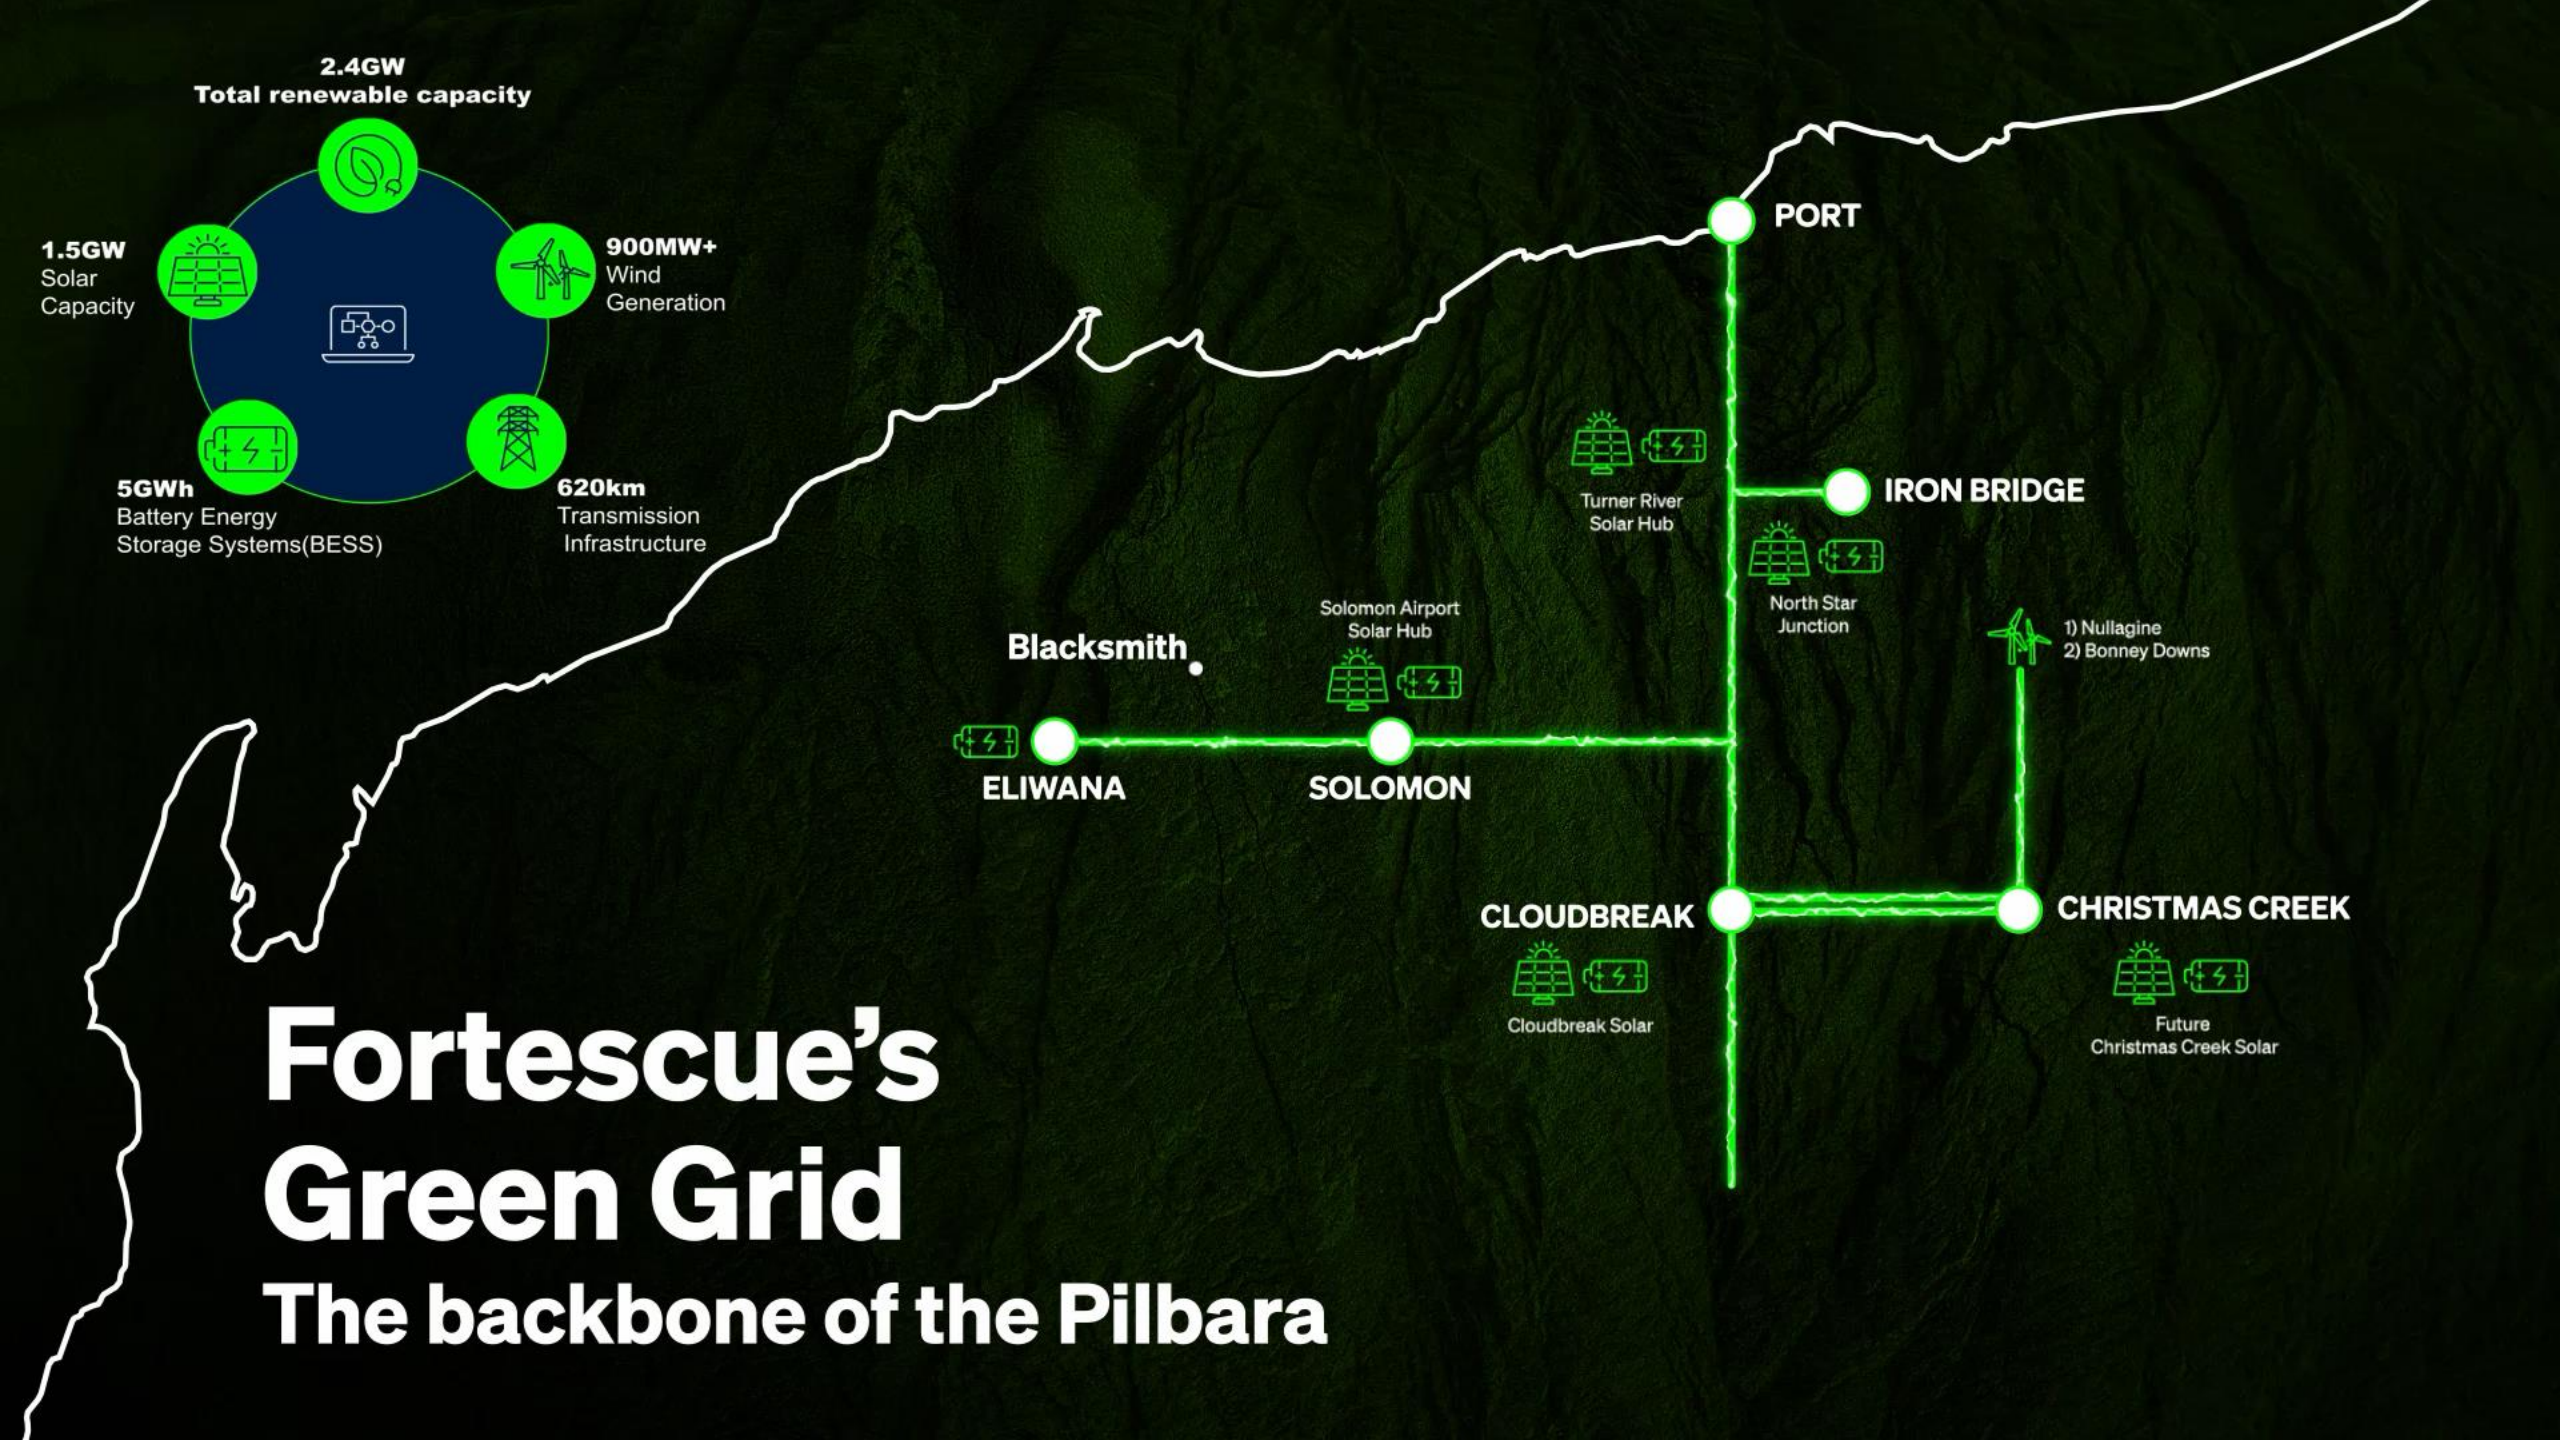

10% focused on resolving the economics

Generation and transmission well advanced in execution

40% of excavator fleet electric by December 2026

Real Zero by 2030

Green Grid
The backbone of the Pilbara

Fortescue
We are fundamentally changing how energy infrastructure is delivered, installed and operated

Fortescue knows how to build

Solomon Solar Farm – one of the biggest in WA – will be built 40% cheaper

New tech has nearly doubled the daily record for solar foundations installed

550km of transmission lines built – one of the fastest builds in Australia

And it’s only going to get faster and more efficient

Fortescue will lead the world in applying robotics at industrial scale

The best technology could come from anywhere.

United States? Japan? China? Europe? Australia?

The best industrial application will come from Fortescue

A replicable system

Built and continue to expand our large-scale green grid

Unique, fast build, repeatable systems

Renewable resources into heavy industry ecosystem

The next generation of Fortescue

Mining: A stronger, more competitive iron ore business

Energy: A major global energy and green fuel supplier

Technology: Commercialising our technology to power and transform heavy industry

Metals: Creating new value from metals and critical minerals
