

ASX Announcement

29 October 2026

QUARTERLY ACTIVITIES REPORT FOR THE PERIOD ENDING 30 SEPTEMBER 2026

Projects - Edjudina Project

- Assay results received from ultra-fines soil sampling program completed on the Yilgange and Broken Hill Bore areas, with results warranting follow-up exploration
- Two anomalies defined at Yilgange prospect:
 - Eastern Zone - 2.3 km anomaly associated with historic drilling intersections of 2m @ 3.9 g/t Au
 - Western Zone - 1.2 km anomaly in an untested area
- Two anomalies defined at Broken Hill Bore associated with east-west faulting, hosted on north-south striking BIF unit:
 - 1.6 km anomaly with high grade rocks up to 65.0 g/t Au and several historic workings in the area
 - 1.0 km east-west anomaly in a new prospective area
 - These anomalies are located 6km from the Neta Gold Mine
- Heritage agreement progressing well with aim to undertake heritage surveys across the Project

Corporate

- Cash balance of ~\$1.37m as at 30 September 2026 positioning the Company well for future exploration plans
- Ongoing evaluation of resource projects for potential acquisition

M3 Mining Limited (ASX: M3M) (M3 Mining, the Company) is pleased to provide an update on corporate and exploration activities during the September 2026 Quarter. The Company is exploring for orogenic gold deposits at its Edjudina Project and sedimentary-hosted copper deposits at its Victoria Bore Project, both located in tightly held regions of Western Australia.

Non-Executive Director, Tyler Formica: *“The results from the ultra-fine soil sampling program represent an important step in advancing our Edjudina Gold Project. The identification of multiple gold anomalies, including previously untested targets in proximity to known mineralisation, further highlights the Project’s prospectivity and provides a strong foundation for the next phase of exploration. In parallel, the Company continues to assess potential resource acquisitions as we seek to identify value-accretive opportunities for shareholders.”*

Recent Activities

During the quarter, The Company announced the results from the 479 sample ultra-fine soils program at the Yilgange and Broken Hill Bore prospects with encouraging gold results. The ultrafine technique developed by CSIRO is highly effective for deeply weathered greenstone terrains and has been proven to map ore bodies at depth by successfully identifying subtle geochemical footprints that would remain masked using standard larger-fraction sieving, seeing through the windblown sand, salt lake clays, and alluvial cover which large parts of the Edjudina Project contain.

Figure 1. Soil sampling (blue dots) completed at the Edjudina Project¹

Yilgange Prospect

Two major soil anomalies were defined in the soils data with historic drilling confirming mineralisation within these gold anomalies (Figure 2):

- Target 1 Eastern Zone - 2.3 km gold anomaly associated with historic drilling intersections of 2m @ 3.9 g/t Au from 33m including 1m @ 6.2 g/t Au and 5m @ 0.5 g/t Au from 64m including 1m @ 1.3 g/t Au ; and
- Target 2 Western Zone - 1.2 km strike with no drilling to date.

Both targets are spatially associated with mapped hematite-altered monzonite intrusive suites (Figure 2) which is similar in geology to the Porphyry Gold Mine only 10 km east of this prospect (Figure 1). These anomalies are also on strike from the historic Yilgange Gold Mines (Figure 2), immediately north of the prospect.

Figure 2. Soil sampling results from Yilgarnie prospect with Au grids and aeromagnetics TMI/RTP 1VD in background

Broken Hill Bore Prospect

Two highly prospective anomalies have been defined in the ultra-fine program at Broken Hill Bore. These anomalies have an association with NNW to SSE striking BIF units and also with east-west faulting offsetting BIF with two zones (Figure 3):

- 1.6 km zone hosted along BIF units and associated with high grade rocks up to 65.0 g/t Au, 4.3 g/t Au and several historic workings in the area¹; and
- 1.0 km east-west striking zone in a new prospective area.

These anomalies are located only 6km along strike on the northern BIF unit from the currently producing Neta Gold Mine (ASX GIB) which produced this year in joint venture with BML Ventures and toll treated

¹ Refer to ASX announcement 30 April 2025

at the Three-Mile Hill facility, approximately 5koz of gold². Both these zones are highly prospective for high-grade mineralisation with no previous drilling recorded on the tenement.

Figure 3. Soil sampling results from Broken Hill Bore prospect with Au grids and aeromagnetics TMI/RTP 1VD in background. Both tenements on grid held by M3 Mining

Work continues on a heritage agreement with the aim to undertake heritage surveys at Yilganie and El Capitan. Comprehensive drill planning continues in order to test the priority targets at Yilganie and El Capitan.

Corporate

During the quarter, the Company continued to evaluate potential resource acquisition opportunities, with preliminary commercial discussions ongoing.

Financial

Cash held as of 30 September 2026 was approximately \$1.37m.

For the purpose of Section 6 of the Appendix 5B, all payments made to related parties have been paid in relation to director fees.

About M3 Mining

M3 Mining Limited (ASX:M3M) is a Perth-based mineral exploration company focused on creating value for shareholders through exploration and development of a high-quality base metal and gold exploration portfolio. M3 Mining's projects are strategically located in regions surrounded by majors and has experienced minimal modern, systematic exploration across both projects. The Company's strategy is to apply a systematic approach to the assessment and prioritisation of its projects, all of which have the potential to produce material discoveries.

Investors should refer to previously stated announcements for additional details on exploration results and associated competent person statement.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the earlier released announcements.

Edjudina Gold Project

The Edjudina Project is located approximately 150km northeast of Kalgoorlie in Western Australia. It covers a section of the established mineralised trend along the Keith-Kilkenny Tectonic Zone which hosts multiple significant gold discoveries (see Figure 3). No large-scale mining has occurred within the tenement area, however, historical near surface workings can be observed throughout the region, particularly within and along strike of the previous mines in the Yilgarn Mining Field. The Company's tenements (both granted and under application) are proximal to Northern Star's operations at both the Porphyry and Carosue Dam operations (see Figure 4).

Figure 4 – Edjudina Gold Project Overview

Victoria Bore Copper Project

The Victoria Bore Copper Project is centred on the historic Victoria Copper Mine which produced high grade copper averaging circa 32.7% Cu for 62.5t of copper from near surface in the 1950's. The Victoria Bore Project is located approximately 120km south of the town of Onslow and 130km southeast of Exmouth in Western Australia. The tenements lie adjacent to the Northwest Coastal Highway and are readily accessible (see Figure 5).

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

Consolidated statement of cash flows		Current quarter \$A'000	Year to date (3 months) \$A'000
4.5	Effect of movement in exchange rates on cash held	-	-
4.6	Cash and cash equivalents at end of period	1,368	1,368

5.	Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter \$A'000	Previous quarter \$A'000
5.1	Bank balances	168	161
5.2	Call deposits	1,200	1,400
5.3	Bank overdrafts	-	-
5.4	Other (provide details)	-	-
5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	1,368	1,561

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	44
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-
<i>Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.</i>		

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7. Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1 Loan facilities		
7.2 Credit standby arrangements		
7.3 Other (please specify)		
7.4 Total financing facilities		
7.5 Unused financing facilities available at quarter end		
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(193)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(193)
8.4 Cash and cash equivalents at quarter end (item 4.6)	1,368
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	1,368
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	7.09
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: N/A.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: N/A	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: N/A	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
