

ASX Release / 29 October 2026

Mount Ridley Invited to Present at IMEC 2026 in Türkiye

Mount Ridley Mines Limited (ASX: **MRD**) ("**Mount Ridley**" or "the **Company**") is pleased to advise that Managing Director, Mr Allister Caird, has been invited to present at the International Mineral Exploration Conference (IMEC 2026), being held from 4–6 November 2026 in Ankara, Türkiye.

The Company has been invited to participate in the conference on an all-expenses-paid basis, with travel and accommodation costs covered by the conference organisers.

The presentation will provide an overview of the Company's Grass Patch Project in Western Australia and its proprietary Selectro™ processing technology which is being developed for the recovery of critical and high-value metals from a broad range of feedstocks.

IMEC 2026 brings together mining companies, exploration professionals, industry representatives and technology providers from across the international minerals sector.

Participation in the conference provides Mount Ridley with an opportunity to showcase recent advancements in Selectro™ technology, including its potential application to a broader range of mineral and industrial feedstocks, while engaging with prospective industry and strategic partners.

The Company continues to progress the development and optimisation of Selectro™ as it evaluates opportunities for broader commercial applications.

Further information regarding the conference is available at:
